- 49 To check the heritage display, correct the one underlined word in this sentence for the class.
The bridge's strenght was tested with blocks.

- 50 At the rail museum, decide: read the sentence, then write the correct spelling of the underlined word.
The class practised writing clear paragraphs.

City Microbats · Questions 1–6

City Microbats

Microbats live in tree hollows and roof spaces. They are well suited to this place, but they still need food, water and shelter to survive. Conditions can change across the day and through the seasons, so safe resting places are important.

Their high-pitched calls help them find insects in darkness. This adaptation makes everyday tasks easier and can also help them avoid danger. Young animals learn where to feed and shelter by following adults or responding to their surroundings.

They feed on moths and mosquitoes. As they move through their habitat, they also become part of a larger food web that connects plants and animals. Changes to one part of this web can affect many other living things.

One challenge is loss of safe roosts. People can help by keeping old hollow trees, observing wildlife from a distance and leaving natural shelters undisturbed. Small, repeated actions can protect the habitat without preventing people from learning about it.

- 1 The heritage display question is: what is the main purpose of **City Microbats**?

A to advertise a wildlife toy
B to explain how microbats live and survive
C to tell a fantasy story about microbats
D to give instructions for catching microbats

- 4 For today's rail museum task, which change would probably cause the greatest problem for microbats?

A more suitable food **B** careful wildlife watching
C loss of safe roosts **D** a protected shelter

- 2 In a rail museum activity, in **City Microbats**, what does **adaptation** mean?

A a feature that helps a living thing survive
B a sudden loud warning
C a place where tickets are sold
D a change in the weather forecast

- 5 A heritage display clue asks: in paragraph 2 of **City Microbats**, who does **them** refer to?

A the food sources **B** microbats
C the people **D** the natural shelters

- 3 The heritage display sheet asks: how does the high-pitched calls help microbats?

A make their habitat disappear
B turn their food into water
C stop every kind of danger
D find insects in darkness

- 6 During the rail museum session, which heading would best suit the final paragraph of **City Microbats**?

A Helping Microbats **B** A Make-Believe Adventure
C How to Build a Toy **D** A List of Australian Cities

Test a Paper Bridge · Questions 7–12

Test a Paper Bridge

Follow these steps to make a paper bridge and compare how much mass it holds. Work carefully and ask an adult for help whenever a material needs cutting or a location must be checked for safety. Read every step before beginning so the equipment can be arranged in the correct order.

Materials

- two books
- two sheets of paper
- coins
- a ruler
- a results table

Steps

1. Place the books 20 cm apart.
2. Lay one flat sheet across the gap. Check that it is secure before continuing.
3. Add coins one at a time. Use the same method each time so the result is fair.
4. Fold the second sheet and repeat the fair test.
5. Record the result clearly, compare it with the earlier observation, then pack away all equipment.

- 7 The heritage display check asks: what is the purpose of **Test a Paper Bridge**?

A to write a fictional story
B to advertise expensive equipment
C to decorate a party invitation
D to make a paper bridge and compare how much mass it holds

- 10 For the heritage display, what does **record** mean in the final step of **Test a Paper Bridge**?

A write down **B** hide
C erase **D** guess

- 8 On a rail museum card, what should be done first in **Test a Paper Bridge**?

A add coins one at a time
B pack away all equipment
C place the books 20 cm apart
D lay one flat sheet across the gap

- 11 During rail museum work, why does **Test a Paper Bridge** ask for careful measurements or repeated observations?

A to make the equipment heavier
B to use every material at once
C to prevent the title from changing
D to make the comparison or result more reliable

- 9 At the rail museum, why should the instructions for **Test a Paper Bridge** be followed in order?

A so no observations are recorded
B so the equipment is prepared before the result is measured
C so the title becomes longer
D so the materials change colour

- 12 The heritage display team asks: which text feature most clearly shows that **Test a Paper Bridge** is a procedure?

A rhyming lines
B a labelled story setting
C a materials list and numbered steps
D characters speaking to each other

The Lantern Under the Jetty · Questions 13–18

The Lantern Under the Jetty

Noah was helping to tidy a quiet jetty when Noah noticed a brass lantern. It looked ordinary at first, but a tiny mark on its side seemed freshly scratched. Dust lay everywhere except beneath the object, as though it had recently been moved.

As soon as Noah picked it up, its light flashed even though it held no candle. Noah hesitated. The discovery was exciting, yet it might belong to someone else or be too delicate to handle alone. A hurried choice could damage both the object and the clues around it.

Instead of rushing ahead, Noah matched the flashes to marks carved in the timber. Each new clue matched something already visible in a quiet jetty, so the search became careful rather than wild. Noah paused after every step to record what had changed.

At last, a hidden message thanked people who protected the bay. Noah wrote a short note explaining where the object had been found and what had happened. The note included the order of the clues so another person could check the discovery.

By the end of the afternoon, the discovery had become part of the place's story. Noah was proud, not because the object was valuable, but because patience and careful thinking had protected it. The adults agreed that the object should stay with a clear label for future visitors.

13 In the heritage display, why did Noah hesitate in **The Lantern Under the Jetty**?

- A** the clues had all disappeared
B the object might belong to someone or be delicate
C the location was already closed
D the object was too heavy to see

14 A rail museum card asks: what does **hesitated** mean in **The Lantern Under the Jetty**?

- A** paused because of uncertainty
B shouted with excitement
C ran away immediately
D forgot the discovery

15 Before the heritage display, what did Noah find at the beginning of **The Lantern Under the Jetty**?

- A** a new school bag
B a box of fresh food
C a broken sports trophy
D a brass lantern

16 The rail museum notice asks: why was Noah's careful action important in **The Lantern Under the Jetty**?

- A** it stopped anyone learning the result
B it changed the location into a shop
C it protected the object and used the clues safely
D it made the object disappear

17 While preparing the heritage display, what changes by the end of **The Lantern Under the Jetty**?

- A** all records of the discovery are removed
B the discovery becomes part of the place's known story
C the location is permanently closed
D the character throws the object away

18 A rail museum challenge asks: which idea is most important in **The Lantern Under the Jetty**?

- A** Patience and careful thinking can protect a discovery.
B Valuable objects should always be hidden.
C Every old place is unsafe to visit.
D Clues are useful only when found quickly.

Noah's Community Collection · Questions 19–24

Noah's Community Collection

The Year 3 team weighed four groups of donated supplies for the the oval community project. The supplies were packed into containers before delivery.

Supply	Total mass	Containers
Apples	19 kg	6
Pears	32 kg	8
Oranges	20 kg	5
Melons	36 kg	4

19 To check the heritage display, which supply in **Noah's Community Collection** had the greatest total mass?

- A** Apples
B Pears
C Oranges
D Melons

20 At the rail museum, decide: what was the combined mass of the apples and oranges in **Noah's Community Collection**?

- A** 45 kg
B 1 kg
C 39 kg
D 33 kg

21 The heritage display question is: if the pears were shared equally among 8 containers, what mass would be in each container?

- A** 32 kg
B 4 kg
C 8 kg
D 24 kg

22 In a rail museum activity, why could fewer containers in **Noah's Community Collection** still have a greater total mass?

- A** Each container could be much heavier.
B The table counts only empty containers.
C The supplies have no mass.
D A smaller number is always greater.

23 The heritage display sheet asks: what does **donated** mean in the introduction to **Noah's Community Collection**?

- A** sold at a high price
B hidden underground
C weighed a second time
D given to help others

24 For today's rail museum task, which sentence best summarises **Noah's Community Collection**?

- A** Every container had exactly the same mass.
B The community returned all the supplies.
C Several supplies were weighed, packed and given to a community project.
D Only one type of supply was collected.

Morning at the Jetty · Questions 25–30

Morning at the Jetty

The rope taps a golden tune,
while mist drift beyond the moon.
The harbour holds the evening sky
and lets one crooked star float by.
Small surfaces shine beneath the light;
each one has borrowed jewels tonight.
My shoes make shapes, dark and round,
then scatter them across the ground.
The jetty, so noisy in the day,
grows soft as busy sounds fade away.
I move more slowly, just to see
the changing world in front of me.

25 A heritage display clue asks: which line in **Morning at the Jetty** shows that something is moving away?

- A** I move more slowly, just to see
C The rope taps a golden tune
B while mist drift beyond the moon
D My shoes make shapes, dark and round

26 During the rail museum session, what are the **borrowed jewels** in **Morning at the Jetty**?

- A** drops or bright reflections on surfaces
C pieces of broken glass
B small hidden insects
D painted yellow flowers

27 The heritage display check asks: in **Morning at the Jetty**, why does the poet say the **harbour holds the evening sky**?

- A** The harbour is above the clouds.
C The harbour is completely dry.
B The sky has fallen to the ground.
D The harbour reflects the sky.

28 On a rail museum card, which detail from **Morning at the Jetty** appeals most strongly to hearing?

- A** One crooked star floats by.
C The rope taps a golden tune.
B Small surfaces shine beneath the light.
D The harbour holds the evening sky.

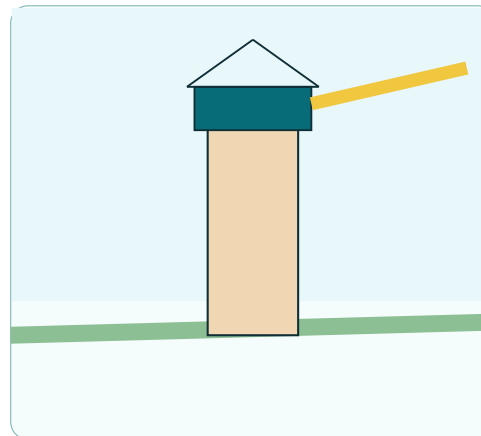

29 At the rail museum, how does the speaker feel in **Morning at the Jetty**?

- A** sleepy and confused
C angry and frightened
B calm and observant
D bored and impatient

30 For the heritage display, what is the main idea of **Morning at the Jetty**?

- A** An ordinary place can look special when light, weather or time changes.
C Busy sounds should never become quiet.
B Walking outdoors is always dangerous.
D Reflections make every surface impossible to see.

Narrative Writing Task

The Light Beyond the Fog

Write a narrative about a character who follows a strange light near a lighthouse.

Writing space

Plan your story

- Who is the main character, and where does the story begin?
- What makes the discovery unusual or important?
- What problem, risk or decision must the character face?
- Which clues or actions move the story forward?
- How is the problem resolved, and what changes at the end?

Remember

- Plan before you begin.
- Use paragraphs to organise events.
- Choose precise verbs and interesting details.
- Check spelling, punctuation and sentence boundaries.
- Give the narrative a clear ending.

Check: characters, setting, complication, ending, paragraphs, spelling and punctuation.

Questions 1–3

- 1 A rail museum activity includes this number trail: Which number comes next?
134, 144, 154, ____

A 155 **B** 164
C 154 **D** 174

- 2 The heritage display team needs this place-value label solved: What is the value of the digit 8 in **3,842**?

A 800 **B** 8
C 80 **D** 8000

- 3 In the heritage display, complete this number comparison: Which statement about **416** and **464** is true?

A $416 > 464$ **B** $416 = 464$
C $464 < 416$ **D** $416 < 464$

Questions 4–6

- 4 A rail museum card gives this total calculation: What is **$248 + 136$** ?

A 394 **B** 112
C 384 **D** 374

- 5 Before the heritage display, solve this difference calculation: What is **$630 - 274$** ?

A 904 **B** 356
C 346 **D** 366

- 6 The rail museum notice shows this equal-group count: There are 7 trays with 8 muffins on each tray. How many muffins are there altogether?

A 56 **B** 49
C 63 **D** 15

Questions 7–9

- 7 While preparing the heritage display, answer this fair-sharing problem: 40 stickers are shared equally among 5 children. How many stickers does each child receive?

A 6 B 10
C 35 D 8

- 8 A rail museum challenge uses this odd-number sort: Which number is odd in Paper 2?

A 46 B 48
C 45 D 44

- 9 To check the heritage display, solve this missing-factor puzzle: Which number makes this equation true?
 $6 \times \square = 42$

A 8 B 7
C 5 D 6

Questions 10–12

- 10 At the rail museum, decide this coin total: Noah has 4 two-dollar coins and 7 one-dollar coins. How much money is there altogether?

A \$15 B \$13
C \$17 D \$19

- 11 The next heritage display task is a finishing-time check: A lesson starts at 10:25 am and lasts 30 minutes. When does it finish?

A 10:35 am B 10:05 am
C 11:55 am D 10:55 am

- 12 In a rail museum session, complete this calendar jump: Today is Wednesday. What day will it be in 10 days?

A Sunday B Monday
C Saturday D Friday

Questions 13–15

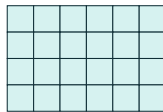

- 13 The heritage display sheet includes this length conversion: How many centimetres are equal to 4 metres?

A 4 cm B 400 cm
C 40 cm D 4000 cm

- 14 For today's rail museum work, solve this boundary measurement: A rectangle is 8 cm long and 5 cm wide. What is its perimeter?

A 26 cm B 13 cm
C 30 cm D 3 cm

- 15 A heritage display clue requires this square-unit diagram: How many square units cover the rectangle shown in Paper 2?

A 18 B 30
C 10 D 24

Questions 16–18

- 16 During the rail museum session, answer this capacity match: Which amount is equal to 3 litres?

A 30 mL B 30000 mL
C 3000 mL D 300 mL

- 17 The heritage display check uses this mass comparison: A bag of rice has a mass of 940 g. A bag of pasta has a mass of 620 g. How much heavier is the rice?

A 620 g B 320 g
C 1560 g D 420 g

- 18 On a rail museum card, complete this fraction diagram: What fraction of the bar in Paper 2 is shaded?

A $\frac{4}{10}$ B $\frac{4}{11}$
C $\frac{5}{10}$ D $\frac{3}{10}$

Questions 19–21

19 At the rail museum, solve this halving problem: What is half of 44?

- A 19 B 25
C 42 D 22

20 For the heritage display, answer this symmetry diagram: How many lines of symmetry does the rectangle shown in Paper 2 have?

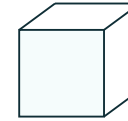

- A 1 B 4
C 2 D 0

21 A rail museum activity includes this angle description: Which description matches an angle of 60 degrees?

- A a straight angle B an acute angle
C a right angle D an obtuse angle

Questions 22–24

22 The heritage display team needs this solid-shape check solved: How many faces does the cube shown in Paper 2 have?

- A 6 B 4
C 8 D 12

23 In the heritage display, complete this grid-location clue: On the Paper 2 map, which location is in square B2?

	A	B	C	D
1	tree		pond	
2		gate	bench	
3				

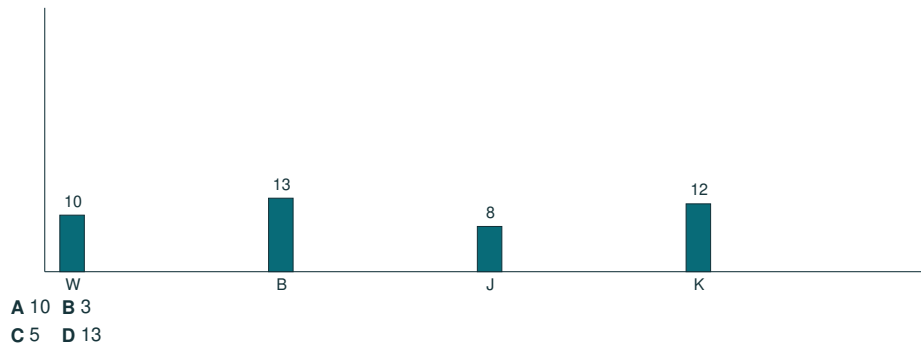

- A pond B bench
C tree D gate

24 A rail museum card gives this data-table question: A class recorded books read in Paper 2: Monday 12, Tuesday 19, Wednesday 14, Thursday 10. On which day were the most books read?

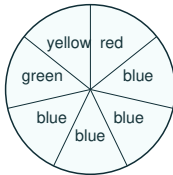

- A Wednesday B Thursday
C Tuesday D Monday

Questions 25–27

- 25 Before the heritage display, solve this graph comparison: The Paper 2 graph shows points scored by four teams. How many more points did team B score than team W?

- 26 The rail museum notice shows this chance experiment: A Paper 2 spinner has 1 red, 4 blue, 1 green and 1 yellow equal sections. Which colour is most likely?

- A blue B red
C green D yellow

- 27 While preparing the heritage display, answer this growing pattern: Which number comes next in Paper 2? 4, 9, 14, 19, ____

- A 19 B 29
C 25 D 24

Questions 28–30

- 28 A rail museum challenge uses this missing-addend puzzle: Which number makes this equation true in Paper 2? $20 + \square = 49$

- A 20 B 69
C 29 D 24

- 29 To check the heritage display, solve this array-and-remainder problem: A small bus has 6 rows with 4 seats in each row. 4 seats are empty. How many seats are occupied?

- A 14 B 20
C 24 D 16

- 30 At the rail museum, decide this two-step grouping problem: A gardener has 48 seedlings. She plants 6 rows of 7 seedlings. How many seedlings are left?

- A 6 B 42
C 43 D 13

Conventions of Language · L1–L25

L1 · C — an

Use *an* before the vowel sound at the start of *orange*.

L2 · B — painted

Painted names the action Chloe performed, so it is the verb.

L3 · A — painted

Last week shows the action happened in the past, so *painted* is correct.

L4 · D — quietly

Quietly describes how the team completed the action.

L5 · C — Noah and I prepared the tickets.

The subject pronoun *I* is correct because the speaker is part of the subject.

L6 · B — because

Because introduces the reason for working that way.

L7 · A — theirs

Theirs shows that the item belongs to the two named people.

L8 · D — The kittens chase the ball.

The plural subject *kittens* agrees with the verb *chase*.

L9 · C — trees

All three examples are trees.

L10 · B — .

A calm command is a complete sentence and can end with a full stop.

L11 · A — won't

The apostrophe in *won't* marks letters omitted from *will not*.

L12 · D — Before the first tour, we arranged the tickets.

A comma separates the introductory clause from the main clause.

L13 · C — Where should we store the tickets after the heritage display

The correct option asks a direct question, so it needs a question mark.

L14 · B — “The tickets are ready!” called Chloe.

The spoken words and exclamation mark stay inside the speech marks.

L15 · A — On Monday, Noah visited Darwin.

The sentence begins with a capital, and *Monday*, *Noah* and *Darwin* are proper nouns.

L16 · D — cat's

The singular possessive form *cat's* shows ownership.

L17 · C — Their

Their shows that the items belong to a group.

L18 · B — The golden ticket stood beside the rail museum.

The correct option has a subject, a verb and a complete idea.

L19 · A — They

They replaces two named people.

L20 · D — is

The main subject *box* is singular, so *is* is correct.

L21 · C — When ready, return the tickets.

A comma follows the introductory clause.

L22 · B — teachers'

The lunchboxes belong to more than one member of the group; the possessive form is *teachers'*.

L23 · A — When will the heritage display begin at the rail museum

The correct option directly asks for information.

L24 · D — “Bring the tickets, please,” called Noah.

The comma stays inside the closing speech mark before the reporting clause.

L25 · C — Neither of the tickets is missing.

The singular subject *neither* agrees with *is*.

Conventions of Language · L26–L50

L26 · except

The correct spelling is *except*.

L27 · receive

The correct spelling is *receive*.

L28 · until

The correct spelling is *until*.

L29 · decision

The correct spelling is *decision*.

L30 · grammar

The correct spelling is *grammar*.

L31 · occasion

The correct spelling is *occasion*.

L32 · successful

The correct spelling is *successful*.

L33 · because

The correct spelling is *because*.

L34 · separate

The correct spelling is *separate*.

L35 · dough

The correct spelling is *dough*.

L36 · favourite

The correct spelling is *favourite*.

L37 · appearance

The correct spelling is *appearance*.

L38 · familiar

The correct spelling is *familiar*.

L39 · knowledge

The correct spelling is *knowledge*.

L40 · probably

The correct spelling is *probably*.

L41 · usually

The correct spelling is *usually*.

L42 · tomorrow

The correct spelling is *tomorrow*.

L43 · edge

The correct spelling is *edge*.

L44 · adopt

The correct spelling is *adopt*.

L45 · which

The correct spelling is *which*.

L46 · coming

The correct spelling is *coming*.

L47 · forty

The correct spelling is *forty*.

L48 · naturally

The correct spelling is *naturally*.

L49 · strength

The correct spelling is *strength*.

L50 · writing

The correct spelling is *writing*.

Year 3Answers and Explanations		Practice Paper 02	
Reading · R1–R15		Reading · R16–R30	
R1 · B — to explain how microbats live and survive The text gives factual information about the habitat, features, food and needs of microbats.		R16 · C — it protected the object and used the clues safely The character asks for help or checks evidence instead of handling the discovery carelessly.	
R2 · A — a feature that helps a living thing survive The passage explains that the feature helps the living thing complete tasks and avoid danger.		R17 · B — the discovery becomes part of the place's known story The final paragraph explains that the discovery becomes part of the place's story.	
R3 · D — find insects in darkness Paragraph 2 states that the feature helps them find insects in darkness.		R18 · A — Patience and careful thinking can protect a discovery. The character succeeds by slowing down, checking clues and protecting the object.	
R4 · C — loss of safe roosts The paragraph identifies loss of safe roosts as a challenge.		R19 · D — Melons Melons had a total mass of 36 kg, the greatest value in the table.	
R5 · B — microbats The pronoun <i>them</i> refers back to microbats.		R20 · C — 39 kg 19 kg + 20 kg = 39 kg.	
R6 · A — Helping Microbats The paragraph describes a threat and actions people can take to help microbats.		R21 · B — 4 kg 32 kg shared among 8 containers gives 4 kg in each container.	
R7 · D — to make a paper bridge and compare how much mass it holds The introduction states that the steps are used to make a paper bridge and compare how much mass it holds.		R22 · A — Each container could be much heavier. The number of containers does not show the mass inside each one.	
R8 · C — place the books 20 cm apart The first numbered step says to place the books 20 cm apart.		R23 · D — given to help others The supplies were given for a community project.	
R9 · B — so the equipment is prepared before the result is measured The earlier steps prepare the equipment, while the later steps produce and record the result.		R24 · C — Several supplies were weighed, packed and given to a community project. This option includes the main ideas from the introduction and table.	
R10 · A — write down Here, <i>record</i> means to write down the observation or result.		R25 · B — while mist drift beyond the moon The words <i>mist drift beyond</i> show movement away from the scene.	
R11 · D — to make the comparison or result more reliable Careful, consistent observations make a test or measurement more dependable.		R26 · A — drops or bright reflections on surfaces The shining drops or reflections look like jewels under the light.	
R12 · C — a materials list and numbered steps Procedures commonly use a materials list and ordered steps.		R27 · D — The harbour reflects the sky. A reflective surface can show an image of the sky like a mirror.	
R13 · B — the object might belong to someone or be delicate The second paragraph says the object might belong to someone else or be too delicate to handle alone.		R28 · C — The rope taps a golden tune. The words <i>taps</i> and <i>tune</i> describe sound.	
R14 · A — paused because of uncertainty The character pauses to think about ownership and safety.		R29 · B — calm and observant The speaker slows down to notice the scene, showing a calm and observant response.	
R15 · D — a brass lantern The first paragraph says that Noah noticed a brass lantern.		R30 · A — An ordinary place can look special when light, weather or time changes. The poem notices how familiar surroundings become beautiful and interesting.	

Year 3Answers and Explanations		Practice Paper 02	
Numeracy · N1–N15			
N1 · B — 164 The pattern adds 10 each time, so the next number is 164.		N9 · B — 7 6 × 7 = 42.	
N2 · A — 800 The digit 8 is in the hundreds place, so its value is 800.		N10 · A — \$15 4 × \$2 = \$8, and 7 × \$1 = \$7. Altogether this is \$15.	
N3 · D — 416 < 464 416 has fewer tens than 464, so 416 < 464.		N11 · D — 10:55 am Adding 30 minutes to 10:25 am gives 10:55 am.	
N4 · C — 384 248 + 136 = 384.		N12 · C — Saturday Move forward 10 days from Wednesday to reach Saturday.	
N5 · B — 356 630 – 274 = 356.		N13 · B — 400 cm 1 metre = 100 centimetres, so 4 metres = 400 centimetres.	
N6 · A — 56 7 groups of 8 is 7 × 8 = 56.		N14 · A — 26 cm Perimeter = 8 + 5 + 8 + 5 = 26 cm.	
N7 · D — 8 40 ÷ 5 = 8 stickers each.		N15 · D — 24 The rectangle has 4 rows of 6 squares: 4 × 6 = 24 square units.	
N8 · C — 45 45 cannot be divided into pairs with none left over, so it is odd.			
Writing review: Check for a clear opening, complication and ending; paragraphing; precise vocabulary; complete sentences; controlled punctuation; and carefully checked spelling.			

Year 3Answers and Explanations		Practice Paper 02	
Numeracy · N16–N30			
N16 · C — 3000 mL 1 litre = 1000 millilitres, so 3 litres = 3000 mL.		N24 · C — Tuesday Tuesday has the greatest value, 19.	
N17 · B — 320 g 940 g – 620 g = 320 g.		N25 · B — 3 Team B scored 13 points and team W scored 10 points. 13 – 10 = 3.	
N18 · A — 4/10 The bar has 10 equal parts and 4 are shaded, so the fraction is 4/10.		N26 · A — blue Blue covers 4 of the 7 equal sections, more than any other colour.	
N19 · D — 22 44 divided into 2 equal groups gives 22 in each group.		N27 · D — 24 The pattern adds 5 each time, so the next number is 24.	
N20 · C — 2 A rectangle has 2 lines of symmetry.		N28 · C — 29 49 – 20 = 29, so 20 + 29 = 49.	
N21 · B — an acute angle 60 degrees is less than 90 degrees, so it is an acute angle.		N29 · B — 20 There are 6 × 4 = 24 seats. 24 – 4 = 20 occupied seats.	
N22 · A — 6 A cube has 6 flat faces.		N30 · A — 6 6 × 7 = 42 seedlings are planted. 48 – 42 = 6 seedlings remain.	
N23 · D — gate The map shows gate in column B, row 2.			
Writing review: Check for a clear opening, complication and ending; paragraphing; precise vocabulary; complete sentences; controlled punctuation; and carefully checked spelling.
