

Questions 1–9

- 1 In the sailing project, which word correctly completes this sentence?
Leo drew ____ engine on a card before visiting the museum.
- A an B a
C some D many
-
- 2 A harbour workshop card asks: which word is the verb in this sentence?
Emma polished the tiny lanterns carefully.
- A Emma B tiny
C lanterns D polished
-
- 3 Before the sailing project, which word correctly completes this sentence?
Last week, Leo ____ the lanterns for the sailing project.
- A polishes B polishing
C polished D polish
-
- 4 The harbour workshop notice asks: which word tells how the action was done?
The team polished each lantern carefully at the harbour workshop.
- A workshop B carefully
C team D polished
-
- 5 While preparing the sailing project, which sentence uses the correct subject pronoun for work on the sailing project?
- A Leo and I prepared the lanterns. B Leo and me prepared the lanterns.
C Me and Leo prepared the lanterns. D Leo and myself prepared the lanterns.
-
- 6 A harbour workshop challenge asks: which word correctly joins these ideas?
Leo worked carefully ____ the sailing project had to be ready that afternoon.
- A but B or
C until D because
-
- 7 To check the sailing project, the tiny lantern belongs to Leo and Emma. Which word can replace **the lantern belonging to Leo and Emma**?
- A hers B ours
C theirs D his
-
- 8 At the harbour workshop, decide: which sentence about the wallabies has correct subject–verb agreement?
- A The wallabies moving towards the shelter. B The wallabies move towards the shelter.
C The wallabies moves towards the shelter. D The wallaby move towards the shelter.
-
- 9 The sailing project question is: which word can be used instead of **soccer, tennis and cricket**?
- A sports B metals
C flowers D roads

Questions 10–18

- 10 In a harbour workshop activity, which punctuation mark correctly completes this calm command?
Please place the lanterns beside the harbour workshop desk ____
- A ? B !
C . D .
- 11 The sailing project sheet asks: which contraction is punctuated correctly for the words **are not**?
- A 'arent B a'rent
C aren't D arent
- 12 For today's harbour workshop task, which sentence uses a comma correctly for the sailing project?
- A When the rain stopped; we arranged the lanterns. B When the rain stopped, we arranged the lanterns.
C When the rain stopped we, arranged the lanterns. D When the rain stopped,, we arranged the lanterns.
- 13 A sailing project clue asks: which sentence spoken at the harbour workshop should end with a question mark?
- A Where should we store the lanterns after the sailing project B I know where the lanterns belong
C Please store the lanterns now D The lanterns are beside the door
- 14 During the harbour workshop session, which sentence punctuates Emma's excited words correctly?
- A "The lanterns are ready! called Emma." B The lanterns are ready!" called Emma.
C "The lanterns are ready!" Called Emma. D "The lanterns are ready!" called Emma.

A "Bring the lanterns, please, called Leo." B "Bring the lanterns, please," called Leo.
C "Bring the lanterns, please,", called Leo. D "Bring the lanterns, please," Called Leo.

- 25 While preparing the sailing project, which sentence has correct agreement for the sailing project?

A Neither of the lanterns is unlit. B Neither of the lanterns are unlit.
C Neither of the lantern is unlit. D Neither the lanterns are unlit.

Spelling · Questions 26–50

To the student

Ask your teacher or parent to read the spelling words aloud. Write the correct spelling of each word on the lines below.

26 _____	27 _____
28 _____	29 _____
30 _____	31 _____
32 _____	33 _____
34 _____	35 _____
36 _____	37 _____
38 _____	39 _____
40 _____	

Read the sentences. The spelling mistake in each sentence is underlined. Write the correct spelling of the underlined word in the box.

41 Ivy <u>discvers</u> a tiny shell under the sand.	
42 The group <u>discsses</u> its ideas before choosing one.	
43 The fence <u>divdes</u> the garden into two sections.	
44 Owen <u>eniys</u> reading adventure stories.	
45 The coach <u>explins</u> the rules before the game.	

Each line has one word that is incorrect. Write the correct spelling of the word in the box.

46 The robot <u>explres</u> the dark tunnel safely.	
47 Rainwater <u>fihs</u> the tank during the storm.	
48 Lila <u>finihes</u> the puzzle just before lunch.	
49 The puppy <u>folows</u> Finn through the gate.	
50 Cold water vapour <u>foms</u> droplets on the glass.	

Busy Blue-Banded Bees · Questions 1–6

Busy Blue-Banded Bees

Blue-banded bees live in gardens and bushland. They are well suited to this place, but they still need food, water and shelter to survive. Conditions can change across the day and through the seasons, so safe resting places are important.

Features such as rapidly vibrating wings help them shake pollen from flowers. These adaptations make everyday tasks easier and can also help them avoid danger. Young organisms survive best when their surroundings provide suitable food or nutrients and shelter.

They obtain what they need from nectar and pollen. As they live and grow in their habitat, they also become part of a larger food web that connects plants and animals. Changes to one part of this web can affect many other living things.

One challenge is fewer flowering plants. People can help by planting native flowers, observing living things responsibly and leaving natural shelters undisturbed. Small, repeated actions can protect the habitat without preventing people from learning about it.

- 1 The sailing project sheet asks: what is the main purpose of **Busy Blue-Banded Bees**?

A to tell a fantasy story about blue-banded bees
B to give instructions for catching blue-banded bees
C to advertise a wildlife toy
D to explain how blue-banded bees live and survive

- 4 During the harbour workshop session, which change would probably cause the greatest problem for blue-banded bees?

A fewer flowering plants
B a protected shelter
C more suitable food
D careful wildlife watching

- 2 For today's harbour workshop task, in **Busy Blue-Banded Bees**, what does **adaptation** mean?

A a place where tickets are sold
B a change in the weather forecast
C a feature that helps a living thing survive
D a sudden loud warning

- 5 The sailing project check asks: in paragraph 2 of **Busy Blue-Banded Bees**, who does **them** refer to?

A the people
B the natural shelters
C the food sources
D blue-banded bees

- 3 A sailing project clue asks: how do features such as rapidly vibrating wings help blue-banded bees?

A stop every kind of danger
B shake pollen from flowers
C make their habitat disappear
D turn their food into water

- 6 On a harbour workshop card, which heading would best suit the final paragraph of **Busy Blue-Banded Bees**?

A How to Build a Toy
B A List of Australian Cities
C Helping Blue-Banded Bees
D A Make-Believe Adventure

Build a Rain Gauge · Questions 7–12

Build a Rain Gauge

Follow these steps to make a gauge that measures rainfall. Work carefully and ask an adult for help whenever a material needs cutting or a location must be checked for safety. Read every step before beginning so the equipment can be arranged in the correct order. Keep the workspace tidy and use each material only as described. Check each observation before recording it.

Materials

- a straight plastic bottle
- scissors used by an adult
- small stones
- a ruler
- a marker

Steps

1. Ask an adult to remove the bottle top.
2. Place stones in the base.
3. Mark centimetre lines on the side.
4. Set the gauge outside and record the water level.
5. Record the result clearly, then pack away all equipment.

7 At the harbour workshop, what is the purpose of **Build a Rain Gauge**?

- A** to decorate a party invitation **B** to make a gauge that measures rainfall
C to write a fictional story **D** to advertise expensive equipment

10 The sailing project team asks: what does **record** mean in the final step of **Build a Rain Gauge**?

- A** erase **B** guess
C write down **D** hide

8 For the sailing project, what should be done first in **Build a Rain Gauge**?

- A** ask an adult to remove the bottle top **B** place stones in the base
C mark centimetre lines on the side **D** pack away all equipment

11 In the sailing project, why should the result in **Build a Rain Gauge** be recorded carefully?

- A** to prevent the title from changing **B** to make the result easier to check and compare
C to make the equipment heavier **D** to use every material at once

9 During harbour workshop work, why should the instructions for **Build a Rain Gauge** be followed in order?

- A** so the title becomes longer **B** so the materials change colour
C so no observations are recorded **D** so each stage is completed before the next one begins

12 A harbour workshop card asks: which text feature most clearly shows that **Build a Rain Gauge** is a procedure?

- A** a materials list and numbered steps **B** characters speaking to each other
C rhyming lines **D** a labelled story setting

The Button That Hummed · Questions 13–18

The Button That Hummed

Leo was helping near the community hall when Leo noticed a blue glass button. It looked ordinary at first, but one detail seemed new. Leo looked around for clues before touching or moving anything.

As Leo examined it more closely, it hummed louder near one wall. Leo hesitated. The discovery was exciting, yet it might belong to someone else or be too delicate to handle alone. A hurried choice could damage both the object and the clues around it.

Instead of rushing ahead, Leo listened carefully and found a loose wooden panel. Each new clue matched something already visible in the community hall, so the search became careful rather than wild. Leo paused after every step to record what had changed.

At last, behind it was a time capsule ready to be opened. Leo wrote a short note explaining where the object had been found and what had happened. The note included the order of the clues so another person could check the discovery.

By the end of the afternoon, the discovery had become part of the place's story. Leo was proud, not because the object was valuable, but because patience and careful thinking had protected it. The adults agreed that the object should stay with a clear label for future visitors.

13 Before the sailing project, why did Leo hesitate in **The Button That Hummed**?

- A** the location was already closed **B** the object was too heavy to see
C the clues had all disappeared **D** the object might belong to someone or be delicate

16 A harbour workshop challenge asks: why was Leo's careful action important in **The Button That Hummed**?

- A** it protected the object and used the clues safely **B** it made the object disappear
C it stopped anyone learning the result **D** it changed the location into a shop

14 The harbour workshop notice asks: what does **hesitated** mean in **The Button That Hummed**?

- A** ran away immediately **B** forgot the discovery
C paused because of uncertainty **D** shouted with excitement

17 To check the sailing project, what changes by the end of **The Button That Hummed**?

- A** the location is permanently closed **B** the character throws the object away
C all records of the discovery are removed **D** the discovery becomes part of the place's known story

15 While preparing the sailing project, what did Leo find at the beginning of **The Button That Hummed**?

- A** a broken sports trophy **B** a blue glass button
C a new school bag **D** a box of fresh food

18 At the harbour workshop, decide: which idea is most important in **The Button That Hummed**?

- A** Every old place is unsafe to visit. **B** Clues are useful only when found quickly.
C Patience and careful thinking can protect a discovery. **D** Valuable objects should always be hidden.

Leo's Community Collection · Questions 19–24

Leo's Community Collection

The Year 3 team weighed four groups of donated supplies for a community project at the museum. The supplies were packed into containers before delivery.

Supply	Total mass	Containers
Storybooks	21 kg	6
Atlases	24 kg	8
Dictionaries	30 kg	5
Comics	44 kg	4

- 19 The sailing project question is: which supply in **Leo's Community Collection** had the greatest total mass?

A Dictionaries B Comics
C Storybooks D Atlases

- 22 For today's harbour workshop task, why could fewer containers in **Leo's Community Collection** still have a greater total mass?

A The supplies have no mass. B A smaller number is always greater.
C Each container could be much heavier. D The table counts only empty containers.

- 20 In a harbour workshop activity, what was the combined mass of the storybooks and dictionaries in **Leo's Community Collection**?

A 51 kg B 45 kg
C 57 kg D 9 kg

- 23 A sailing project clue asks: what does **donated** mean in the introduction to **Leo's Community Collection**?

A weighed a second time B given to help others
C sold at a high price D hidden underground

- 21 The sailing project sheet asks: if the atlases were shared equally among 8 containers, what mass would be in each container?

A 8 kg B 16 kg
C 24 kg D 3 kg

- 24 During the harbour workshop session, which sentence best summarises **Leo's Community Collection**?

A Several supplies were weighed, packed and given to a community project. B Only one type of supply was collected.
C Every container had exactly the same mass. D The community returned all the supplies.

Evening on the Oval · Questions 25–30

Evening on the Oval

A purple light spreads through the air,
 while birds drift across the sky.
 The sound of the flag in the breeze rises there,
 and the wet grass reflects the sky.
 Small surfaces shine beneath the light;
 each one wears borrowed jewels bright.
 My shoes cast shapes, dark and round,
 then scatter them across the ground.
 The oval, so noisy in the day,
 grows soft as busy sounds fade away.
 I feel peaceful and thoughtful as I see
 the changing world in front of me.

25 The sailing project check asks: which line in **Evening on the Oval** shows that something is moving?

- A** A purple light spreads through the air
B My shoes cast shapes, dark and round
C I feel peaceful and thoughtful as I see
D while birds drift across the sky

28 For the sailing project, which detail from **Evening on the Oval** appeals most strongly to hearing?

- A** The sound of the flag in the breeze rises there.
B The wet grass reflects the sky.
C Borrowed jewels shine brightly.
D Small surfaces shine beneath the light.

26 On a harbour workshop card, what are the **borrowed jewels** in **Evening on the Oval**?

- A** pieces of broken glass
B painted yellow flowers
C drops or bright reflections on surfaces
D small hidden insects

29 During harbour workshop work, how does the speaker feel in **Evening on the Oval**?

- A** angry and frightened
B bored and impatient
C sleepy and confused
D peaceful and thoughtful

27 At the harbour workshop, in **Evening on the Oval**, why does the poet say the **wet grass reflects the sky**?

- A** The wet grass is completely dry.
B The wet grass shows an image of the sky.
C The wet grass is above the clouds.
D The sky has fallen to the ground.

30 The sailing project team asks: what is the main idea of **Evening on the Oval**?

- A** Busy sounds should never become quiet.
B Reflections make every surface impossible to see.
C An ordinary place can look special when light, weather or time changes.
D Walking outdoors is always dangerous.

Narrative Writing Task

The Map in the Bottle

The map in the bottle
Write a narrative about a character who finds a map inside a bottle washed onto the beach.

Plan your story

- Who is the main character, and where does the story begin?
- What makes the discovery unusual or important?
- What problem, risk or decision must the character face?
- Which clues or actions move the story forward?
- How is the problem resolved, and what changes at the end?

Remember

- Plan before you begin.
- Use paragraphs to organise events.
- Choose precise verbs and interesting details.
- Check spelling, punctuation and sentence boundaries.
- Give the narrative a clear ending.

Check: characters, setting, complication, ending, paragraphs, spelling and punctuation.

Writing space

Questions 1–3

- 1 In the sailing project, complete this number trail: Which number comes next?
148, 160, 172, ____

A 172 B 196
C 173 D 184

- 2 A harbour workshop card gives this place-value label: What is the value of the digit 7 in **3,744**?

A 70 B 7000
C 700 D 7

- 3 Before the sailing project, solve this number comparison: Which statement about **422** and **468** is true?

A $468 < 422$ B $422 < 468$
C $422 > 468$ D $422 = 468$

Questions 4–6

4 The harbour workshop notice shows this total calculation: What is $256 + 142$?

- A 398 B 388
C 408 D 114

5 While preparing the sailing project, answer this difference calculation: What is $640 - 278$?

- A 352 B 372
C 918 D 362

6 A harbour workshop challenge uses this equal-group count: There are 5 trays with 10 muffins on each tray. How many muffins are there altogether?

- A 55 B 15
C 50 D 45

Questions 7–9

- 7 To check the sailing project, solve this fair-sharing problem: 30 stickers are shared equally among 3 children. How many stickers does each child receive?

A 27 B 10
C 8 D 12

- 8 At the harbour workshop, decide this odd-number sort: Which number is odd in Paper 4?

A 49 B 48
C 50 D 52

- 9 The next sailing project task is a missing-factor puzzle: Which number makes this equation true?
 $8 \times \square = 56$

A 5 B 6
C 8 D 7

Questions 10–12

- 10 In a harbour workshop session, complete this coin total: Leo has 2 two-dollar coins and 6 one-dollar coins. How much money is there altogether?

A \$12 B \$14
C \$10 D \$8

- 11 The sailing project sheet includes this finishing-time check: A lesson starts at 9:40 am and lasts 20 minutes. When does it finish?

A 11:00 am B 10:00 am
C 9:50 am D 10:10 am

- 12 For today's harbour workshop work, solve this calendar jump: Today is Friday. What day will it be in 12 days?

A Wednesday B Tuesday
C Thursday D Friday

Questions 13–15

- 13 A sailing project clue requires this length conversion: How many centimetres are equal to 6 metres?

A 60 cm B 6000 cm
C 6 cm D 600 cm

- 14 During the harbour workshop session, answer this boundary measurement: A rectangle is 10 cm long and 7 cm wide. What is its perimeter?

A 38 cm B 3 cm
C 34 cm D 17 cm

- 15 The sailing project check uses this square-unit diagram: How many square units cover the rectangle shown in Paper 4?

A 7 B 12
C 8 D 16

Questions 16–18

- 16 On a harbour workshop card, complete this capacity match: Which amount is equal to 1 litre?

A 1000 mL B 100 mL
C 10 mL D 10000 mL

- 17 At the harbour workshop, solve this mass comparison: A bag of rice has a mass of 980 g. A bag of pasta has a mass of 640 g. How much heavier is the rice?

A 1620 B 440 g
g
C 640 g D 340 g

- 18 For the sailing project, answer this fraction diagram: What fraction of the bar in Paper 4 is shaded?

A $\frac{4}{6}$ B $\frac{2}{6}$
C $\frac{3}{6}$ D $\frac{3}{7}$

Questions 19–21

- 19 A harbour workshop activity includes this halving problem: What is half of 48?

A 46 B 24
C 21 D 27

- 20 The sailing project team needs this symmetry diagram solved: How many lines of symmetry does the rectangle shown in Paper 4 have?

A 2 B 0
C 1 D 4

- 21 In the sailing project, complete this angle description: Which description matches an angle of 35 degrees?

A a right angle B an obtuse angle
C a straight angle D an acute angle

Questions 22–24

- 22 A harbour workshop card gives this solid-shape check: How many faces does the cube shown in Paper 4 have?

A 8 B 12
C 6 D 4

- 23 Before the sailing project, solve this grid-location clue: On the Paper 4 map, which location is in square C1?

	A	B	C	D
1	tree		pond	
2		gate	bench	
3				

A tree B pond
C bench D gate

- 24 The harbour workshop notice shows this data-table question: A class recorded books read in Paper 4: Monday 14, Tuesday 23, Wednesday 16, Thursday 12. On which day were the most books read?

A Tuesday B Monday
C Wednesday D Thursday

Questions 25–27

- 25 While preparing the sailing project, answer this graph comparison: The Paper 4 graph shows points scored by four teams. How many more points did team B score than team W?

- 26 A harbour workshop challenge uses this chance experiment: A Paper 4 spinner has 1 red, 3 blue, 1 green and 1 yellow equal sections. Which colour is most likely?

- A green B yellow
C blue D red

- 27 To check the sailing project, solve this growing pattern: Which number comes next in Paper 4?
6, 13, 20, 27, ____

- A 35 B 34
C 27 D 41

Questions 28–30

- 28 At the harbour workshop, decide this missing-addend puzzle: Which number makes this equation true in Paper 4?
 $22 + \square = 53$

A 31 B 26
C 22 D 75

- 29 The next sailing project task is a array-and-remainder problem: A small bus has 4 rows with 6 seats in each row. 2 seats are empty. How many seats are occupied?

A 24 B 20
C 12 D 22

- 30 In a harbour workshop session, complete this two-step grouping problem: A gardener has 54 seedlings. She plants 4 rows of 6 seedlings. How many seedlings are left?

A 25 B 36
C 30 D 50

Conventions of Language · L1–L25

L1 · A — an

Use *an* before the vowel sound at the start of *engine*.

L14 · D — “The lanterns are ready!” called Emma.

The spoken words and exclamation mark stay inside the speech marks.

L2 · D — polished

Polished names the action Emma performed, so it is the verb.

L15 · C — On Monday, Leo visited Perth.

The sentence begins with a capital, and *Monday*, *Leo* and *Perth* are proper nouns.

L3 · C — polished

Last week shows the action happened in the past, so *polished* is correct.

L16 · B — rabbit's

The singular possessive form *rabbit's* shows ownership.

L4 · B — carefully

Carefully describes how the team completed the action.

L17 · A — Their

Their shows that the items belong to a group.

L5 · A — Leo and I prepared the lanterns.

The subject pronoun *I* is correct because the speaker is part of the subject.

L18 · D — The tiny lantern was placed beside the harbour workshop.

The correct option has a subject, a verb and a complete idea.

L6 · D — because

Because introduces the reason for working that way.

L19 · C — They

They replaces two named people.

L7 · C — theirs

Theirs shows that the item belongs to the two named people.

L20 · B — is

The main subject *box* is singular, so *is* is correct.

L8 · B — The wallabies move towards the shelter.

The plural subject *wallabies* agrees with the verb *move*.

L21 · A — As you leave, return the lanterns.

A comma follows the introductory clause.

L9 · A — sports

All three examples are sports.

L22 · D — artists'

The lunchboxes belong to more than one member of the group; the possessive form is *artists'*.

L10 · D — .

A calm command is a complete sentence and can end with a full stop.

L23 · C — When will the sailing project begin at the harbour workshop

The correct option directly asks for information.

L11 · C — aren't

The apostrophe in *aren't* marks letters omitted from *are not*.

L24 · B — “Bring the lanterns, please,” called Leo.

The comma stays inside the closing speech mark before the reporting clause.

L12 · B — When the rain stopped, we arranged the lanterns.

A comma separates the introductory clause from the main clause.

L25 · A — Neither of the lanterns is unlit.

The singular subject *neither* agrees with *is*.

L13 · A — Where should we store the lanterns after the sailing project

The correct option asks a direct question, so it needs a question mark.

Conventions of Language · L26–L50

L26 · happen

Teacher script: say *happen*, pause, then repeat *happen*.

L27 · helps

Teacher script: say *helps*, pause, then repeat *helps*.

L28 · imagine

Teacher script: say *imagine*, pause, then repeat *imagine*.

L29 · improve

Teacher script: say *improve*, pause, then repeat *improve*.

L30 · include

Teacher script: say *include*, pause, then repeat *include*.

L31 · inform

Teacher script: say *inform*, pause, then repeat *inform*.

L32 · instruct

Teacher script: say *instruct*, pause, then repeat *instruct*.

L33 · interest

Teacher script: say *interest*, pause, then repeat *interest*.

L34 · invite

Teacher script: say *invite*, pause, then repeat *invite*.

L35 · rejoin

Teacher script: say *rejoin*, pause, then repeat *rejoin*.

L36 · jumps

Teacher script: say *jumps*, pause, then repeat *jumps*.

L37 · learn

Teacher script: say *learn*, pause, then repeat *learn*.

L38 · listen

Teacher script: say *listen*, pause, then repeat *listen*.

L39 · manage

Teacher script: say *manage*, pause, then repeat *manage*.

L40 · remark

Teacher script: say *remark*, pause, then repeat *remark*.

L41 · discovers

The incorrect word *discvrs* should be spelled *discovers*.

L42 · discusses

The incorrect word *discsses* should be spelled *discusses*.

L43 · divides

The incorrect word *divdes* should be spelled *divides*.

L44 · enjoys

The incorrect word *enjys* should be spelled *enjoys*.

L45 · explains

The incorrect word *explins* should be spelled *explains*.

L46 · explores

The incorrect word *explres* should be spelled *explores*.

L47 · fills

The incorrect word *fills* should be spelled *fills*.

L48 · finishes

The incorrect word *finihes* should be spelled *finishes*.

L49 · follows

The incorrect word *folows* should be spelled *follows*.

L50 · forms

The incorrect word *foms* should be spelled *forms*.

Reading · R1–R15

R1 · D — to explain how blue-banded bees live and survive

The text gives factual information about the habitat, features, food and needs of blue-banded bees.

R9 · D — so each stage is completed before the next one begins

The earlier steps prepare the activity, while the later steps produce and record the result.

R2 · C — a feature that helps a living thing survive

The passage explains that the feature helps the living thing complete tasks and avoid danger.

R10 · C — write down

Here, *record* means to write down the observation or result.

R3 · B — shake pollen from flowers

Paragraph 2 states that these features help them shake pollen from flowers.

R11 · B — to make the result easier to check and compare

A clear record makes an observation or result easier to check and compare.

R4 · A — fewer flowering plants

The final paragraph identifies fewer flowering plants as a challenge.

R12 · A — a materials list and numbered steps

Procedures commonly use a materials list and ordered steps.

R5 · D — blue-banded bees

The pronoun *them* refers back to blue-banded bees.

R13 · D — the object might belong to someone or be delicate

The second paragraph says the object might belong to someone else or be too delicate to handle alone.

R6 · C — Helping Blue-Banded Bees

The paragraph describes a threat and actions people can take to help blue-banded bees.

R14 · C — paused because of uncertainty

The character pauses to think about ownership and safety.

R7 · B — to make a gauge that measures rainfall

The introduction states that the steps are used to make a gauge that measures rainfall.

R15 · B — a blue glass button

The first paragraph says that Leo noticed a blue glass button.

R8 · A — ask an adult to remove the bottle top

The first numbered step says to ask an adult to remove the bottle top.

Reading · R16–R30

R16 · A — it protected the object and used the clues safely

The character asks for help or checks evidence instead of handling the discovery carelessly.

R24 · A — Several supplies were weighed, packed and given to a community project.

This option includes the main ideas from the introduction and table.

R17 · D — the discovery becomes part of the place's known story

The final paragraph explains that the discovery becomes part of the place's story.

R25 · D — while birds drift across the sky

The words *birds drift across* describe movement through the sky.

R18 · C — Patience and careful thinking can protect a discovery.

The character succeeds by slowing down, checking clues and protecting the object.

R26 · C — drops or bright reflections on surfaces

The shining drops or reflections look like jewels under the light.

R19 · B — Comics

Comics had a total mass of 44 kg, the greatest value in the table.

R27 · B — The wet grass shows an image of the sky.

A reflective surface can show an image of the sky like a mirror.

R20 · A — 51 kg

21 kg + 30 kg = 51 kg.

R28 · A — The sound of the flag in the breeze rises there.

This line directly describes a sound in the scene.

R21 · D — 3 kg

24 kg shared among 8 containers gives 3 kg in each container.

R29 · D — peaceful and thoughtful

The poem directly says that the speaker feels peaceful and thoughtful.

R22 · C — Each container could be much heavier.

The number of containers does not show the mass inside each one.

R30 · C — An ordinary place can look special when light, weather or time changes.

The poem notices how familiar surroundings become beautiful and interesting.

R23 · B — given to help others

The supplies were given for a community project.

Numeracy · N1–N15**N1 · D — 184**

The pattern adds 12 each time, so the next number is 184.

N9 · D — 7

$8 \times 7 = 56$.

N2 · C — 700

The digit 7 is in the hundreds place, so its value is 700.

N10 · C — \$10

$2 \times \$2 = \4 , and $6 \times \$1 = \6 . Altogether this is \$10.

N3 · B — $422 < 468$

422 has fewer tens than 468, so $422 < 468$.

N11 · B — 10:00 am

Adding 20 minutes to 9:40 am gives 10:00 am.

N4 · A — 398

$256 + 142 = 398$.

N12 · A — Wednesday

Move forward 12 days from Friday to reach Wednesday.

N5 · D — 362

$640 - 278 = 362$.

N13 · D — 600 cm

1 metre = 100 centimetres, so 6 metres = 600 centimetres.

N6 · C — 50

5 groups of 10 is $5 \times 10 = 50$.

N14 · C — 34 cm

Perimeter = $10 + 7 + 10 + 7 = 34$ cm.

N7 · B — 10

$30 \div 3 = 10$ stickers each.

N15 · B — 12

The rectangle has 3 rows of 4 squares: $3 \times 4 = 12$ square units.

N8 · A — 49

49 cannot be divided into pairs with none left over, so it is odd.

Numeracy · N16–N30

N16 · A — 1000 mL

1 litre = 1000 millilitres, so 1 litre = 1000 mL.

N24 · A — Tuesday

Tuesday has the greatest value, 23.

N17 · D — 340 g

$980\text{ g} - 640\text{ g} = 340\text{ g}$.

N25 · D — 3

Team B scored 15 points and team W scored 12 points. $15 - 12 = 3$.

N18 · C — 3/6

The bar has 6 equal parts and 3 are shaded, so the fraction is 3/6.

N26 · C — blue

Blue covers 3 of the 6 equal sections, more than any other colour.

N19 · B — 24

48 divided into 2 equal groups gives 24 in each group.

N27 · B — 34

The pattern adds 7 each time, so the next number is 34.

N20 · A — 2

A rectangle has 2 lines of symmetry.

N28 · A — 31

$53 - 22 = 31$, so $22 + 31 = 53$.

N21 · D — an acute angle

35 degrees is less than 90 degrees, so it is an acute angle.

N29 · D — 22

There are $4 \times 6 = 24$ seats. $24 - 2 = 22$ occupied seats.

N22 · C — 6

A cube has 6 flat faces.

N30 · C — 30

$4 \times 6 = 24$ seedlings are planted. $54 - 24 = 30$ seedlings remain.

N23 · B — pond

The map shows pond in column C, row 1.

Writing review: Check for a clear opening, complication and ending; paragraphing; precise vocabulary; complete sentences; controlled punctuation; and carefully checked spelling.
