

Questions 1–9

- 1 A flight showcase clue asks: which word correctly completes this sentence?
Hugo drew ____ easel on a card before visiting the orchard.
A an B a
C some D many
- 2 During the aviation shed session, which word is the verb in this sentence?
Sofia tested the paper wings carefully.
A Sofia B paper
C wings D tested
- 3 The flight showcase check asks: which word correctly completes this sentence?
Last week, Hugo ____ the wings for the flight showcase.
A tests B testing
C tested D test
- 4 On a aviation shed card, which word tells how the action was done?
The team tested each wing carefully at the aviation shed.
A shed B carefully
C team D tested
- 5 At the aviation shed, which sentence uses the correct subject pronoun for work on the flight showcase?
A Hugo and I prepared the wings. B Hugo and me prepared the wings.
C Me and Hugo prepared the wings. D Hugo and myself prepared the wings.
- 6 For the flight showcase, which word correctly joins these ideas?
Hugo worked carefully ____ the flight showcase had to be ready that afternoon.
A but B or
C until D because
- 7 During aviation shed work, the paper wing belongs to Hugo and Sofia. Which word can replace **the wing belonging to Hugo and Sofia**?
A hers B ours
C theirs D his
- 8 The flight showcase team asks: which sentence about the echidnas has correct subject–verb agreement?
A The echidnas moving towards the shelter. B The echidnas move towards the shelter.
C The echidnas moves towards the shelter. D The echidna move towards the shelter.
- 9 In the flight showcase, which word can be used instead of **Pacific, Indian and Atlantic**?
A oceans B cities
C fabrics D sports

Questions 10–18

- 10 A aviation shed card asks: which punctuation mark correctly completes this calm command?
Please place the wings beside the aviation shed desk ____
A ? B !
C , D .
- 11 Before the flight showcase, which contraction is punctuated correctly for the words **could not**?
A 'couldnt B c'ouldnt
C couldn't D couldnt
- 12 The aviation shed notice asks: which sentence uses a comma correctly for the flight showcase?
A After the gates opened; we arranged the wings. B After the gates opened, we arranged the wings.
C After the gates opened we, arranged the wings. D After the gates opened,, we arranged the wings.
- 13 While preparing the flight showcase, which sentence spoken at the aviation shed should end with a question mark?
A Where should we store the wings after the flight showcase B I know where the wings belong
C Please store the wings now D The wings are beside the door
- 14 A aviation shed challenge asks: which sentence punctuates Sofia's excited words correctly?
A "The wings are ready! called Sofia." B The wings are ready!" called Sofia.
C "The wings are ready!" Called Sofia. D "The wings are ready!" called Sofia.

A On Monday, hugo visited Wollongong. B On Monday, Hugo visited wollongong.
C On Monday, Hugo visited Wollongong. D On monday, Hugo visited Wollongong.
- 16 At the aviation shed, decide: which words show that one echidna owns the nest?
The ____ nest was cleaned at the aviation shed.
A echidna is B echidna's
C echidnas D echidnas'
- 17 The flight showcase question is: which word completes the sentence about the flight showcase?
____ wings won a special award.
A Their B There
C They're D Theirs
- 18 In a aviation shed activity, which option is a complete sentence connected with the flight showcase?
A Beside the aviation shed. B Because the flight showcase finished.
C Carrying the wings carefully. D The paper wing was placed beside the aviation shed.

Questions 19–25

- 19 The flight showcase sheet asks: which pronoun can replace **Hugo and Sofia**?
Hugo and Sofia tested the wings for the flight showcase.
A We B It
C They D She
- 20 For today's aviation shed task, which word agrees with the main subject?
The box of wings ___ beside the aviation shed entrance.
A be B is
C are D were
- 21 A flight showcase clue asks: which instruction for the flight showcase is punctuated correctly?
A Before leaving, return the wings. B Before leaving return, the wings.
C Before leaving,, return the wings. D Before leaving;, return the wings.
- 22 During the aviation shed session, where should the missing apostrophe go?
The children lunchboxes were packed beside the orchard.
A childrens B childrens'
C childrens's D children's
- 23 The flight showcase check asks: which sentence is a direct question and needs a question mark?
A Tell me when the flight showcase begins B The flight showcase begins at the aviation shed
C When will the flight showcase begin at the aviation shed D I wonder when the flight showcase will begin
- 24 On a aviation shed card, which sentence correctly reports what Hugo said during the flight showcase?
A "Bring the wings, please, called Hugo." B "Bring the wings, please," called Hugo.
C "Bring the wings, please,", called Hugo. D "Bring the wings, please," Called Hugo.
- 25 At the aviation shed, which sentence has correct agreement for the flight showcase?
A Neither of the wings is folded. B Neither of the wings are folded.
C Neither of the wing is folded. D Neither the wings are folded.

Spelling · Questions 26–50

To the student

Ask your teacher or parent to read the spelling words aloud. Write the correct spelling of each word on the lines below.

- | | |
|----------|----------|
| 26 _____ | 27 _____ |
| 28 _____ | 29 _____ |
| 30 _____ | 31 _____ |
| 32 _____ | 33 _____ |
| 34 _____ | 35 _____ |
| 36 _____ | 37 _____ |
| 38 _____ | 39 _____ |
| 40 _____ | |

Read the sentences. The spelling mistake in each sentence is underlined. Write the correct spelling of the underlined word in the box.

- | | |
|---|----------------------|
| 41 The book describes three exciting <u>advenures</u> at sea. | <input type="text"/> |
| 42 Many native <u>anials</u> shelter in tree hollows. | <input type="text"/> |
| 43 The class used evidence to support its <u>arguents</u> . | <input type="text"/> |
| 44 We filled the <u>basets</u> with apples from the orchard. | <input type="text"/> |
| 45 The <u>bicyles</u> were locked beside the station. | <input type="text"/> |

Each line has one word that is incorrect. Write the correct spelling of the word in the box.

- | | |
|--|----------------------|
| 46 Warm blanets covered the beds at the camp. | <input type="text"/> |
| 47 Please place the empty botles in the recycling bin. | <input type="text"/> |
| 48 Two wooden briges cross the narrow creek. | <input type="text"/> |
| 49 The two broters built a cubby in the garden. | <input type="text"/> |
| 50 Workers are rebuiding the path after the flood. | <input type="text"/> |

Bilbies After Dark · Questions 1–6

Bilbies After Dark

Bilbies live in dry grasslands. They are well suited to this place, but they still need food, water and shelter to survive. Conditions can change across the day and through the seasons, so safe resting places are important.

Features such as large ears and strong front claws help them hear danger and dig burrows. These adaptations make everyday tasks easier and can also help them avoid danger. Young organisms survive best when their surroundings provide suitable food or nutrients and shelter.

They obtain what they need from seeds, bulbs and insects. As they live and grow in their habitat, they also become part of a larger food web that connects plants and animals. Changes to one part of this web can affect many other living things.

One challenge is introduced predators. People can help by supporting fenced wildlife areas, observing living things responsibly and leaving natural shelters undisturbed. Small, repeated actions can protect the habitat without preventing people from learning about it.

- 1 Before the flight showcase, what is the main purpose of **Bilbies After Dark**?

A to tell a fantasy story about bilbies
B to give instructions for catching bilbies
C to advertise a wildlife toy
D to explain how bilbies live and survive

- 4 A aviation shed challenge asks: which change would probably cause the greatest problem for bilbies?

A introduced predators
B a protected shelter
C more suitable food
D careful wildlife watching

- 2 The aviation shed notice asks: in **Bilbies After Dark**, what does **adaptation** mean?

A a place where tickets are sold
B a change in the weather forecast
C a feature that helps a living thing survive
D a sudden loud warning

- 5 To check the flight showcase, in paragraph 2 of **Bilbies After Dark**, who does **them** refer to?

A the people
B the natural shelters
C the food sources
D bilbies

- 3 While preparing the flight showcase, how do features such as large ears and strong front claws help bilbies?

A stop every kind of danger
B hear danger and dig burrows
C make their habitat disappear
D turn their food into water

- 6 At the aviation shed, decide: which heading would best suit the final paragraph of **Bilbies After Dark**?

A How to Build a Toy
B A List of Australian Cities
C Helping Bilbies
D A Make-Believe Adventure

Make a Balance Scale · Questions 7–12

Make a Balance Scale

Follow these steps to make a simple scale for comparing masses. Work carefully and ask an adult for help whenever a material needs cutting or a location must be checked for safety. Read every step before beginning so the equipment can be arranged in the correct order. Keep the workspace tidy and use each material only as described. Check each observation before recording it.

Materials

- a coat hanger
- two paper cups
- string
- a hook
- small objects

Steps

1. Attach equal strings to the cups.
2. Hang one cup from each end.
3. Suspend the hanger so it moves freely.
4. Place objects in the cups and compare their levels.
5. Record the result clearly, then pack away all equipment.

- 7 The flight showcase question is: what is the purpose of **Make a Balance Scale**?

A to decorate a party invitation
B to make a simple scale for comparing masses
C to write a fictional story
D to advertise expensive equipment

- 10 For today's aviation shed task, what does **record** mean in the final step of **Make a Balance Scale**?

A erase
B guess
C write down
D hide

- 8 In a aviation shed activity, what should be done first in **Make a Balance Scale**?

A attach equal strings to the cups
B hang one cup from each end
C suspend the hanger so it moves freely
D pack away all equipment

- 11 A flight showcase clue asks: why should the result in **Make a Balance Scale** be recorded carefully?

A to prevent the title from changing
B to make the result easier to check and compare
C to make the equipment heavier
D to use every material at once

- 9 The flight showcase sheet asks: why should the instructions for **Make a Balance Scale** be followed in order?

A so the title becomes longer
B so the materials change colour
C so no observations are recorded
D so each stage is completed before the next one begins

- 12 During the aviation shed session, which text feature most clearly shows that **Make a Balance Scale** is a procedure?

A a materials list and numbered steps
B characters speaking to each other
C rhyming lines
D a labelled story setting

The Island Drawn in Chalk · Questions 13–18

The Island Drawn in Chalk

Hugo was helping near the covered playground when Hugo noticed a chalk island. It looked ordinary at first, but one detail seemed new. Hugo looked around for clues before touching or moving anything.

As Hugo examined it more closely, new paths appeared whenever rain tapped the roof. Hugo hesitated. The discovery was exciting, yet it might belong to someone else or be too delicate to handle alone. A hurried choice could damage both the object and the clues around it.

Instead of rushing ahead, Hugo photographed each change and joined the paths. Each new clue matched something already visible in the covered playground, so the search became careful rather than wild. Hugo paused after every step to record what had changed.

At last, the completed map showed where a lost class token had rolled. Hugo wrote a short note explaining where the object had been found and what had happened. The note included the order of the clues so another person could check the discovery.

By the end of the afternoon, the discovery had become part of the place's story. Hugo was proud, not because the object was valuable, but because patience and careful thinking had protected it. The adults agreed that the object should stay with a clear label for future visitors.

- 13 The flight showcase check asks: why did Hugo hesitate in **The Island Drawn in Chalk**?

A the location was already closed
B the object was too heavy to see
C the clues had all disappeared
D the object might belong to someone or be delicate

- 16 For the flight showcase, why was Hugo's careful action important in **The Island Drawn in Chalk**?

A it protected the object and used the clues safely
B it made the object disappear
C it stopped anyone learning the result
D it changed the location into a shop

- 14 On a aviation shed card, what does **hesitated** mean in **The Island Drawn in Chalk**?

A ran away immediately
B forgot the discovery
C paused because of uncertainty
D shouted with excitement

- 17 During aviation shed work, what changes by the end of **The Island Drawn in Chalk**?

A the location is permanently closed
B the character throws the object away
C all records of the discovery are removed
D the discovery becomes part of the place's known story

- 15 At the aviation shed, what did Hugo find at the beginning of **The Island Drawn in Chalk**?

A a broken sports trophy
B a chalk island
C a new school bag
D a box of fresh food

- 18 The flight showcase team asks: which idea is most important in **The Island Drawn in Chalk**?

A Every old place is unsafe to visit.
B Clues are useful only when found quickly.
C Patience and careful thinking can protect a discovery.
D Valuable objects should always be hidden.

Hugo's Community Collection · Questions 19–24

Hugo's Community Collection

The Year 3 team weighed four groups of donated supplies for a community project at the orchard. The supplies were packed into containers before delivery.

Supply	Total mass	Containers
Toy cars	33 kg	6
Puzzles	24 kg	8
Balls	30 kg	5
Blocks	32 kg	4

- 19 In the flight showcase, which supply in **Hugo's Community Collection** had the greatest total mass?

A Blocks
B Toy cars
C Puzzles
D Balls

- 22 The aviation shed notice asks: why could fewer containers in **Hugo's Community Collection** still have a greater total mass?

A The supplies have no mass.
B A smaller number is always greater.
C Each container could be much heavier.
D The table counts only empty containers.

- 20 A aviation shed card asks: what was the combined mass of the toy cars and balls in **Hugo's Community Collection**?

A 63 kg
B 57 kg
C 69 kg
D 3 kg

- 23 While preparing the flight showcase, what does **donated** mean in the introduction to **Hugo's Community Collection**?

A weighed a second time
B given to help others
C sold at a high price
D hidden underground

- 21 Before the flight showcase, if the puzzles were shared equally among 8 containers, what mass would be in each container?

A 8 kg
B 16 kg
C 24 kg
D 3 kg

- 24 A aviation shed challenge asks: which sentence best summarises **Hugo's Community Collection**?

A Several supplies were weighed, packed and given to a community project.
B Only one type of supply was collected.
C Every container had exactly the same mass.
D The community returned all the supplies.

Winter at the Lookout · Questions 25–30

Winter at the Lookout

A grey light spreads through the air,
while clouds drift across the sky.
The sound of wind along the rail rises there,
and the telescope lens reflects the sky.
Small surfaces shine beneath the light;
each one wears borrowed jewels bright.
My gloves cast shapes, dark and round,
then scatter them across the ground.
The lookout, so noisy in the day,
grows soft as busy sounds fade away.
I feel cold but excited as I see
the changing world in front of me.

- 25** To check the flight showcase, which line in **Winter at the Lookout** shows that something is moving?

A A grey light spreads through the air **B** My gloves cast shapes, dark and round
C I feel cold but excited as I see **D** while clouds drift across the sky

26 At the aviation shed, decide: what are the **borrowed jewels** in **Winter at the Lookout**?

A pieces of broken glass **B** painted yellow flowers
C drops or bright reflections on surfaces **D** small hidden insects

27 The flight showcase question is: in **Winter at the Lookout**, why does the poet say the **telescope lens reflects the sky**?

A The telescope lens is completely dry. **B** The telescope lens shows an image of the sky.
C The telescope lens is above the clouds. **D** The sky has fallen to the ground.

28 In an aviation shed activity, which detail from **Winter at the Lookout** appeals most strongly to hearing?

A The sound of wind along the rail rises there. **B** The telescope lens reflects the sky.
C Borrowed jewels shine brightly. **D** Small surfaces shine beneath the light.

29 The flight showcase sheet asks: how does the speaker feel in **Winter at the Lookout**?

A angry and frightened **B** bored and impatient
C sleepy and confused **D** cold but excited

30 For today's aviation shed task, what is the main idea of **Winter at the Lookout**?

A Busy sounds should never become quiet. **B** Reflections make every surface impossible to see.
C An ordinary place can look special when light, weather or time changes. **D** Walking outdoors is always dangerous.

Narrative Writing Task

The Island after the Tide

Write a narrative about a tiny island that appears when the tide moves out.

Plan your story

- Who is the main character, and where does the story begin?
- What makes the discovery unusual or important?
- What problem, risk or decision must the character face?
- Which clues or actions move the story forward?
- How is the problem resolved, and what changes at the end?

Remember

- Plan before you begin.
- Use paragraphs to organise events.
- Choose precise verbs and interesting details.
- Check spelling, punctuation and sentence boundaries.
- Give the narrative a clear ending.

Check: characters, setting, complication, ending, paragraphs, spelling and punctuation.

Writing space

Questions 1–3

- 1 A flight showcase clue requires this number trail: Which number comes next?
232, 241, 250, ____

A 250 **B** 268
C 251 **D** 259

- 2 During the aviation shed session, answer this place-value label: What is the value of the digit 7 in **3,756**?

A 70 **B** 7000
C 700 **D** 7

- 3 The flight showcase check uses this number comparison: Which statement about **458** and **492** is true?

A $492 < 458$ **B** $458 < 492$
C $458 > 492$ **D** $458 = 492$

Questions 4–6

- 4 On a aviation shed card, complete this total calculation: What is **304 + 178**?

A 482 **B** 472
C 492 **D** 126

- 5 At the aviation shed, solve this difference calculation: What is **700 – 302**?

A 388 **B** 408
C 1002 **D** 398

- 6 For the flight showcase, answer this equal-group count: There are 5 trays with 7 muffins on each tray. How many muffins are there altogether?

A 40 **B** 12
C 35 **D** 30

Questions 7–9

- 7 A aviation shed activity includes this fair-sharing problem: 21 stickers are shared equally among 3 children. How many stickers does each child receive?

A 18 B 7
C 5 D 9

- 8 The flight showcase team needs this odd-number sort solved: Which number is odd in Paper 16?

A 73 B 72
C 74 D 76

- 9 In the flight showcase, complete this missing-factor puzzle: Which number makes this equation true?
 $5 \times \square = 35$

A 5 B 6
C 8 D 7

Questions 10–12

- 10 A aviation shed card gives this coin total: Hugo has 2 two-dollar coins and 5 one-dollar coins. How much money is there altogether?

A \$11 B \$13
C \$9 D \$7

- 11 Before the flight showcase, solve this finishing-time check: A lesson starts at 9:20 am and lasts 20 minutes. When does it finish?

A 10:40 am B 9:40 am
C 9:30 am D 9:50 am

- 12 The aviation shed notice shows this calendar jump: Today is Wednesday. What day will it be in 12 days?

A Monday B Sunday
C Tuesday D Wednesday

Questions 13–15

- 13 While preparing the flight showcase, answer this length conversion: How many centimetres are equal to 4 metres?

A 40 cm B 4000 cm
C 4 cm D 400 cm

- 14 A aviation shed challenge uses this boundary measurement: A rectangle is 10 cm long and 4 cm wide. What is its perimeter?

A 32 cm B 6 cm
C 28 cm D 14 cm

- 15 To check the flight showcase, solve this square-unit diagram: How many square units cover the rectangle shown in Paper 16?

A 7 B 12
C 8 D 16

Questions 16–18

- 16 At the aviation shed, decide this capacity match: Which amount is equal to 1 litre?

A 1000 mL B 100 mL
C 10 mL D 10000 mL

- 17 The next flight showcase task is a mass comparison: A bag of rice has a mass of 1220 g. A bag of pasta has a mass of 760 g. How much heavier is the rice?

A 1980 g B 560 g
C 760 g D 460 g

- 18 In a aviation shed session, complete this fraction diagram: What fraction of the bar in Paper 16 is shaded?

A $\frac{4}{6}$ B $\frac{2}{6}$
C $\frac{3}{6}$ D $\frac{3}{7}$

Questions 19–21

19 The flight showcase sheet includes this halving problem: What is half of 72?

- A 70 B 36
C 33 D 39

20 For today's aviation shed work, solve this symmetry diagram: How many lines of symmetry does the rectangle shown in Paper 16 have?

- A 2 B 0
C 1 D 4

21 A flight showcase clue requires this angle description: Which description matches an angle of 35 degrees?

- A a right angle B an obtuse angle
C a straight angle D an acute angle

Questions 22–24

22 During the aviation shed session, answer this solid-shape check: How many faces does the cube shown in Paper 16 have?

- A 8 B 12
C 6 D 4

23 The flight showcase check uses this grid-location clue: On the Paper 16 map, which location is in square C1?

	A	B	C	D
1	tree		pond	
2		gate	bench	
3				

- A tree B pond
C bench D gate

24 On a aviation shed card, complete this data-table question: A class recorded books read in Paper 16: Monday 26, Tuesday 47, Wednesday 28, Thursday 24. On which day were the most books read?

- A Tuesday B Monday
C Wednesday D Thursday

Questions 25–27

- 25 At the aviation shed, solve this graph comparison: The Paper 16 graph shows points scored by four teams. How many more points did team B score than team W?

- 26 For the flight showcase, answer this chance experiment: A Paper 16 spinner has 1 red, 3 blue, 1 green and 1 yellow equal sections. Which colour is most likely?

- A green B yellow
C blue D red

- 27 A aviation shed activity includes this growing pattern: Which number comes next in Paper 16?
18, 22, 26, 30, ____

- A 35 B 34
C 30 D 38

Questions 28–30

- 28 The flight showcase team needs this missing-addend puzzle solved: Which number makes this equation true in Paper 16?

$$34 + \square = 77$$

- A 43 B 38
C 34 D 111

- 29 In the flight showcase, complete this array-and-remainder problem: A small bus has 4 rows with 6 seats in each row. 2 seats are empty. How many seats are occupied?

- A 24 B 20
C 12 D 22

- 30 A aviation shed card gives this two-step grouping problem: A gardener has 90 seedlings. She plants 4 rows of 6 seedlings. How many seedlings are left?

- A 25 B 72
C 66 D 86

Conventions of Language · L1–L25

L1 · A — an Use <i>an</i> before the vowel sound at the start of <i>easel</i> .
L2 · D — tested <i>Tested</i> names the action Sofia performed, so it is the verb.
L3 · C — tested <i>Last week</i> shows the action happened in the past, so <i>tested</i> is correct.
L4 · B — carefully <i>Carefully</i> describes how the team completed the action.
L5 · A — Hugo and I prepared the wings. The subject pronoun <i>I</i> is correct because the speaker is part of the subject.
L6 · D — because <i>Because</i> introduces the reason for working that way.
L7 · C — theirs <i>Theirs</i> shows that the item belongs to the two named people.
L8 · B — The echidnas move towards the shelter. The plural subject <i>echidnas</i> agrees with the verb <i>move</i> .
L9 · A — oceans All three examples are oceans.
L10 · D — . A calm command is a complete sentence and can end with a full stop.
L11 · C — couldn't The apostrophe in <i>couldn't</i> marks letters omitted from <i>could not</i> .
L12 · B — After the gates opened, we arranged the wings. A comma separates the introductory clause from the main clause.
L13 · A — Where should we store the wings after the flight showcase The correct option asks a direct question, so it needs a question mark.

L14 · D — “The wings are ready!” called Sofia. The spoken words and exclamation mark stay inside the speech marks.
L15 · C — On Monday, Hugo visited Wollongong. The sentence begins with a capital, and <i>Monday</i> , <i>Hugo</i> and <i>Wollongong</i> are proper nouns.
L16 · B — echidna's The singular possessive form <i>echidna's</i> shows ownership.
L17 · A — Their <i>Their</i> shows that the items belong to a group.
L18 · D — The paper wing was placed beside the aviation shed. The correct option has a subject, a verb and a complete idea.
L19 · C — They <i>They</i> replaces two named people.
L20 · B — is The main subject <i>box</i> is singular, so <i>is</i> is correct.
L21 · A — Before leaving, return the wings. A comma follows the introductory clause.
L22 · D — children's The lunchboxes belong to more than one member of the group; the possessive form is <i>children's</i> .
L23 · C — When will the flight showcase begin at the aviation shed The correct option directly asks for information.
L24 · B — “Bring the wings, please,” called Hugo. The comma stays inside the closing speech mark before the reporting clause.
L25 · A — Neither of the wings is folded. The singular subject <i>neither</i> agrees with <i>is</i> .

Conventions of Language · L26–L50

L26 · hotel Teacher script: say <i>hotel</i> , pause, then repeat <i>hotel</i> .
L27 · island Teacher script: say <i>island</i> , pause, then repeat <i>island</i> .
L28 · jacket Teacher script: say <i>jacket</i> , pause, then repeat <i>jacket</i> .
L29 · jewel Teacher script: say <i>jewel</i> , pause, then repeat <i>jewel</i> .
L30 · kangaroo Teacher script: say <i>kangaroo</i> , pause, then repeat <i>kangaroo</i> .
L31 · kitchen Teacher script: say <i>kitchen</i> , pause, then repeat <i>kitchen</i> .
L32 · koala Teacher script: say <i>koala</i> , pause, then repeat <i>koala</i> .
L33 · ladder Teacher script: say <i>ladder</i> , pause, then repeat <i>ladder</i> .
L34 · lantern Teacher script: say <i>lantern</i> , pause, then repeat <i>lantern</i> .
L35 · letter Teacher script: say <i>letter</i> , pause, then repeat <i>letter</i> .
L36 · machine Teacher script: say <i>machine</i> , pause, then repeat <i>machine</i> .
L37 · magnet Teacher script: say <i>magnet</i> , pause, then repeat <i>magnet</i> .
L38 · market Teacher script: say <i>market</i> , pause, then repeat <i>market</i> .

L39 · medicine Teacher script: say <i>medicine</i> , pause, then repeat <i>medicine</i> .
L40 · message Teacher script: say <i>message</i> , pause, then repeat <i>message</i> .
L41 · adventures The incorrect word <i>advenures</i> should be spelled <i>adventures</i> .
L42 · animals The incorrect word <i>anials</i> should be spelled <i>animals</i> .
L43 · arguments The incorrect word <i>arguents</i> should be spelled <i>arguments</i> .
L44 · baskets The incorrect word <i>basets</i> should be spelled <i>baskets</i> .
L45 · bicycles The incorrect word <i>bicyles</i> should be spelled <i>bicycles</i> .
L46 · blankets The incorrect word <i>blanets</i> should be spelled <i>blankets</i> .
L47 · bottles The incorrect word <i>botles</i> should be spelled <i>bottles</i> .
L48 · bridges The incorrect word <i>briges</i> should be spelled <i>bridges</i> .
L49 · brothers The incorrect word <i>broters</i> should be spelled <i>brothers</i> .
L50 · rebuilding The incorrect word <i>rebuiding</i> should be spelled <i>rebuilding</i> .

Reading · R1–R15

R1 · D — to explain how bilbies live and survive

The text gives factual information about the habitat, features, food and needs of bilbies.

R2 · C — a feature that helps a living thing survive

The passage explains that the feature helps the living thing complete tasks and avoid danger.

R3 · B — hear danger and dig burrows

Paragraph 2 states that these features help them hear danger and dig burrows.

R4 · A — introduced predators

The final paragraph identifies introduced predators as a challenge.

R5 · D — bilbies

The pronoun *them* refers back to bilbies.

R6 · C — Helping Bilbies

The paragraph describes a threat and actions people can take to help bilbies.

R7 · B — to make a simple scale for comparing masses

The introduction states that the steps are used to make a simple scale for comparing masses.

R8 · A — attach equal strings to the cups

The first numbered step says to attach equal strings to the cups.

R9 · D — so each stage is completed before the next one begins

The earlier steps prepare the activity, while the later steps produce and record the result.

R10 · C — write down

Here, *record* means to write down the observation or result.

R11 · B — to make the result easier to check and compare

A clear record makes an observation or result easier to check and compare.

R12 · A — a materials list and numbered steps

Procedures commonly use a materials list and ordered steps.

R13 · D — the object might belong to someone or be delicate

The second paragraph says the object might belong to someone else or be too delicate to handle alone.

R14 · C — paused because of uncertainty

The character pauses to think about ownership and safety.

R15 · B — a chalk island

The first paragraph says that Hugo noticed a chalk island.

Reading · R16–R30

R16 · A — it protected the object and used the clues safely

The character asks for help or checks evidence instead of handling the discovery carelessly.

R17 · D — the discovery becomes part of the place's known story

The final paragraph explains that the discovery becomes part of the place's story.

R18 · C — Patience and careful thinking can protect a discovery.

The character succeeds by slowing down, checking clues and protecting the object.

R19 · B — Toy cars

Toy cars had a total mass of 33 kg, the greatest value in the table.

R20 · A — 63 kg

33 kg + 30 kg = 63 kg.

R21 · D — 3 kg

24 kg shared among 8 containers gives 3 kg in each container.

R22 · C — Each container could be much heavier.

The number of containers does not show the mass inside each one.

R23 · B — given to help others

The supplies were given for a community project.

R24 · A — Several supplies were weighed, packed and given to a community project.

This option includes the main ideas from the introduction and table.

R25 · D — while clouds drift across the sky

The words *clouds drift across* describe movement through the sky.

R26 · C — drops or bright reflections on surfaces

The shining drops or reflections look like jewels under the light.

R27 · B — The telescope lens shows an image of the sky.

A reflective surface can show an image of the sky like a mirror.

R28 · A — The sound of wind along the rail rises there.

This line directly describes a sound in the scene.

R29 · D — cold but excited

The poem directly says that the speaker feels cold but excited.

R30 · C — An ordinary place can look special when light, weather or time changes.

The poem notices how familiar surroundings become beautiful and interesting.
