

Questions 1–9

- 1 The rockpool study check asks: which word correctly completes this sentence?
Jude drew ____ orchid on a card before visiting the aquarium.
A some B many
C an D a
- 2 On a marine lab card, which word is the verb in this sentence?
Uma filled the shallow tanks steadily.
A tanks B filled
C Uma D shallow
- 3 At the marine lab, which word correctly completes this sentence?
Last week, Jude ____ the tanks for the rockpool study.
A filled B fill
C fills D filling
- 4 For the rockpool study, which word tells how the action was done?
The team filled each tank steadily at the marine lab.
A team B filled
C lab D steadily
- 5 During marine lab work, which sentence uses the correct subject pronoun for work on the rockpool study?
A Me and Jude prepared the tanks. B Jude and myself prepared the tanks.
C Jude and I prepared the tanks. D Jude and me prepared the tanks.
- 6 The rockpool study team asks: which word correctly joins these ideas?
Jude worked steadily ____ the rockpool study had to be ready that afternoon.
A until B because
C but D or
- 7 In the rockpool study, the shallow tank belongs to Jude and Uma. Which word can replace **the tank belonging to Jude and Uma**?
A theirs B his
C hers D ours
- 8 A marine lab card asks: which sentence about the pelicans has correct subject–verb agreement?
A The pelicans moves towards the shelter. B The pelican move towards the shelter.
C The pelicans moving towards the shelter. D The pelicans move towards the shelter.
- 9 Before the rockpool study, which word can be used instead of **ant, beetle and moth**?
A drinks B roads
C insects D oceans

Questions 10–18

- 10 The marine lab notice asks: which punctuation mark correctly completes this calm command?
Please place the tanks beside the marine lab desk ____
A , B .
C ? D !
- 11 While preparing the rockpool study, which contraction is punctuated correctly for the words **would not**?
A wouldn't B wouldnt
C 'wouldnt D w'ouldnt
- 12 A marine lab challenge asks: which sentence uses a comma correctly for the rockpool study?
A During the morning break we, arranged the tanks. B During the morning break,, we arranged the tanks.
C During the morning break; we arranged the tanks. D During the morning break, we arranged the tanks.
- 13 To check the rockpool study, which sentence spoken at the marine lab should end with a question mark?
A Please store the tanks now B The tanks are beside the door
C Where should we store the tanks after the rockpool study D I know where the tanks belong
- 14 At the marine lab, decide: which sentence punctuates Uma's excited words correctly?
A "The tanks are ready!" Called Uma. B "The tanks are ready!" called Uma.
C "The tanks are ready! called Uma." D The tanks are ready!" called Uma.
- 15 The rockpool study question is: which sentence uses capital letters correctly for Jude's trip?
A On Monday, Jude visited Toowoomba. B On monday, Jude visited Toowoomba.
C On Monday, jude visited Toowoomba. D On Monday, Jude visited toowoomba.
- 16 In a marine lab activity, which words show that one pelican owns the platform?
The ____ platform was cleaned at the marine lab.
A pelicans B pelicans'
C pelican is D pelican's
- 17 The rockpool study sheet asks: which word completes the sentence about the rockpool study?
____ tanks won a special award.
A They're B Theirs
C Their D There
- 18 For today's marine lab task, which option is a complete sentence connected with the rockpool study?
A Carrying the tanks carefully. B The shallow tank was placed beside the marine lab.
C Beside the marine lab. D Because the rockpool study finished.

Questions 19–25

- 19 A rockpool study clue asks: which pronoun can replace **Jude and Uma**?
Jude and Uma filled the tanks for the rockpool study.
A They B She
C We D It
- 20 During the marine lab session, which word agrees with the main subject?
The box of tanks ____ beside the marine lab entrance.
A are B were
C be D is
- 21 The rockpool study check asks: which instruction for the rockpool study is punctuated correctly?
A After checking,, return the tanks. B After checking:, return the tanks.
C After checking, return the tanks. D After checking return, the tanks.
- 22 On a marine lab card, where should the missing apostrophe go?
The players lunchboxes were packed beside the aquarium.
A players's B players'
C players D player's
- 23 At the marine lab, which sentence is a direct question and needs a question mark?
A When will the rockpool study begin at the marine lab B I wonder when the rockpool study will begin
C Tell me when the rockpool study begins D The rockpool study begins at the marine lab
- 24 For the rockpool study, which sentence correctly reports what Jude said during the rockpool study?
A "Bring the tanks, please,," called Jude. B "Bring the tanks, please," Called Jude.
C "Bring the tanks, please, called Jude." D "Bring the tanks, please," called Jude.
- 25 During marine lab work, which sentence has correct agreement for the rockpool study?
A Neither of the tank is empty. B Neither the tanks are empty.
C Neither of the tanks is empty. D Neither of the tanks are empty.

Spelling · Questions 26–50

To the student

Ask your teacher or parent to read the spelling words aloud. Write the correct spelling of each word on the lines below.

- | | |
|----------|----------|
| 26 _____ | 27 _____ |
| 28 _____ | 29 _____ |
| 30 _____ | 31 _____ |
| 32 _____ | 33 _____ |
| 34 _____ | 35 _____ |
| 36 _____ | 37 _____ |
| 38 _____ | 39 _____ |
| 40 _____ | |

Read the sentences. The spelling mistake in each sentence is underlined. Write the correct spelling of the underlined word in the box.

- | | |
|---|----------------------|
| 41 Dark <u>clouds</u> gathered above the mountain. | <input type="text"/> |
| 42 The school <u>compters</u> were updated during the holidays. | <input type="text"/> |
| 43 The band performs two <u>concrts</u> each year. | <input type="text"/> |
| 44 The actors wore colourful <u>costmes</u> on stage. | <input type="text"/> |
| 45 My <u>couins</u> are visiting us this weekend. | <input type="text"/> |

Each line has one word that is incorrect. Write the correct spelling of the word in the box.

- | | |
|---|----------------------|
| 46 Tiny sea creaures hid beneath the rocks. | <input type="text"/> |
| 47 Their daughters both play in the school band. | <input type="text"/> |
| 48 Good deciions can help everyone stay safe. | <input type="text"/> |
| 49 Some desrts become very cold at night. | <input type="text"/> |
| 50 The museum displayed sparkling diamnds behind glass. | <input type="text"/> |

Orchid Pollinators · Questions 1–6

Orchid Pollinators

Native orchids live in open forests. They are well suited to this place, but they still need food, water and shelter to survive. Conditions can change across the day and through the seasons, so safe resting places are important.

Features such as special flower shapes and scents help them attract particular insects. These adaptations make everyday tasks easier and can also help them avoid danger. Young organisms survive best when their surroundings provide suitable food or nutrients and shelter.

They obtain what they need from sunlight, water and minerals. As they live and grow in their habitat, they also become part of a larger food web that connects plants and animals. Changes to one part of this web can affect many other living things.

One challenge is trampled plants. People can help by staying on marked tracks, observing living things responsibly and leaving natural shelters undisturbed. Small, repeated actions can protect the habitat without preventing people from learning about it.

- 1 While preparing the rockpool study, what is the main purpose of **Orchid Pollinators**?

A to advertise a wildlife toy
B to explain how native orchids live and survive
C to tell a fantasy story about native orchids
D to give instructions for catching native orchids

- 4 At the marine lab, decide: which change would probably cause the greatest problem for native orchids?

A more suitable food
B careful wildlife watching
C trampled plants
D a protected shelter

- 2 A marine lab challenge asks: in **Orchid Pollinators**, what does **adaptation** mean?

A a feature that helps a living thing survive
B a sudden loud warning
C a place where tickets are sold
D a change in the weather forecast

- 5 The rockpool study question is: in paragraph 2 of **Orchid Pollinators**, who does **them** refer to?

A the food sources
B native orchids
C the people
D the natural shelters

- 3 To check the rockpool study, how do features such as special flower shapes and scents help native orchids?

A make their habitat disappear
B turn their food into water
C stop every kind of danger
D attract particular insects

- 6 In a marine lab activity, which heading would best suit the final paragraph of **Orchid Pollinators**?

A Helping Native Orchids
B A Make-Believe Adventure
C How to Build a Toy
D A List of Australian Cities

Build a Foil Boat · Questions 7–12

Build a Foil Boat

Follow these steps to make a foil boat and test how many counters it holds. Work carefully and ask an adult for help whenever a material needs cutting or a location must be checked for safety. Read every step before beginning so the equipment can be arranged in the correct order. Keep the workspace tidy and use each material only as described. Check each observation before recording it.

Materials

- equal foil squares
- a tub of water
- counters
- a towel
- a results table

Steps

1. Shape the first foil square into a boat.
2. Float it carefully.
3. Add counters one at a time.
4. Redesign with a new square and repeat.
5. Record the result clearly, then pack away all equipment.

- 7 The rockpool study sheet asks: what is the purpose of **Build a Foil Boat**?

A to write a fictional story
B to advertise expensive equipment
C to decorate a party invitation
D to make a foil boat and test how many counters it holds

- 10 During the marine lab session, what does **record** mean in the final step of **Build a Foil Boat**?

A write down
B hide
C erase
D guess

- 8 For today's marine lab task, what should be done first in **Build a Foil Boat**?

A add counters one at a time
B pack away all equipment
C shape the first foil square into a boat
D float it carefully

- 11 The rockpool study check asks: why should the result in **Build a Foil Boat** be recorded carefully?

A to make the equipment heavier
B to use every material at once
C to prevent the title from changing
D to make the result easier to check and compare

- 9 A rockpool study clue asks: why should the instructions for **Build a Foil Boat** be followed in order?

A so no observations are recorded
B so each stage is completed before the next one begins
C so the title becomes longer
D so the materials change colour

- 12 On a marine lab card, which text feature most clearly shows that **Build a Foil Boat** is a procedure?

A rhyming lines
B a labelled story setting
C a materials list and numbered steps
D characters speaking to each other

The Snow Globe in Summer · Questions 13–18

The Snow Globe in Summer

Jude was helping near a second-hand shop when Jude noticed a cracked snow globe. It looked ordinary at first, but one detail seemed new. Jude looked around for clues before touching or moving anything.

As Jude examined it more closely, tiny paper stars moved without being shaken. Jude hesitated. The discovery was exciting, yet it might belong to someone else or be too delicate to handle alone. A hurried choice could damage both the object and the clues around it.

Instead of rushing ahead, Jude held it near the window and noticed warm air entering. Each new clue matched something already visible in a second-hand shop, so the search became careful rather than wild. Jude paused after every step to record what had changed.

At last, the shopkeeper repaired the loose base and saved the stars. Jude wrote a short note explaining where the object had been found and what had happened. The note included the order of the clues so another person could check the discovery.

By the end of the afternoon, the discovery had become part of the place's story. Jude was proud, not because the object was valuable, but because patience and careful thinking had protected it. The adults agreed that the object should stay with a clear label for future visitors.

- 13 At the marine lab, why did Jude hesitate in **The Snow Globe in Summer**?

A the clues had all disappeared
B the object might belong to someone or be delicate
C the location was already closed
D the object was too heavy to see

- 16 The rockpool study team asks: why was Jude's careful action important in **The Snow Globe in Summer**?

A it stopped anyone learning the result
B it changed the location into a shop
C it protected the object and used the clues safely
D it made the object disappear

- 14 For the rockpool study, what does **hesitated** mean in **The Snow Globe in Summer**?

A paused because of uncertainty
B shouted with excitement
C ran away immediately
D forgot the discovery

- 17 In the rockpool study, what changes by the end of **The Snow Globe in Summer**?

A all records of the discovery are removed
B the discovery becomes part of the place's known story
C the location is permanently closed
D the character throws the object away

- 15 During marine lab work, what did Jude find at the beginning of **The Snow Globe in Summer**?

A a new school bag
B a box of fresh food
C a broken sports trophy
D a cracked snow globe

- 18 A marine lab card asks: which idea is most important in **The Snow Globe in Summer**?

A Patience and careful thinking can protect a discovery.
B Valuable objects should always be hidden.
C Every old place is unsafe to visit.
D Clues are useful only when found quickly.

Jude's Community Collection · Questions 19–24

Jude's Community Collection

The Year 3 team weighed four groups of donated supplies for a community project at the aquarium. The supplies were packed into containers before delivery.

Supply	Total mass	Containers
Herbs	35 kg	6
Flowers	40 kg	8
Ferns	20 kg	5
Shrubs	40 kg	4

- 19 Before the rockpool study, which supply in **Jude's Community Collection** had the greatest total mass?

A Herbs
B Ferns
C Shrubs
D Flowers

- 22 A marine lab challenge asks: why could fewer containers in **Jude's Community Collection** still have a greater total mass?

A Each container could be much heavier.
B The table counts only empty containers.
C The supplies have no mass.
D A smaller number is always greater.

- 20 The marine lab notice asks: what was the combined mass of the herbs and ferns in **Jude's Community Collection**?

A 61 kg
B 15 kg
C 55 kg
D 49 kg

- 23 To check the rockpool study, what does **donated** mean in the introduction to **Jude's Community Collection**?

A sold at a high price
B hidden underground
C weighed a second time
D given to help others

- 21 While preparing the rockpool study, if the flowers were shared equally among 8 containers, what mass would be in each container?

A 40 kg
B 5 kg
C 8 kg
D 32 kg

- 24 At the marine lab, decide: which sentence best summarises **Jude's Community Collection**?

A Every container had exactly the same mass.
B The community returned all the supplies.
C Several supplies were weighed, packed and given to a community project.
D Only one type of supply was collected.

Shadows in the Lane · Questions 25–30

Shadows in the Lane

A violet light spreads through the air,
 while clouds drift across the sky.
 The sound of wind against the fence rises there,
 and the window reflects the sky.
 Small surfaces shine beneath the light;
 each one wears borrowed jewels bright.
 My steps cast shapes, dark and round,
 then scatter them across the ground.
 The lane, so noisy in the day,
 grows soft as busy sounds fade away.
 I feel curious and brave as I see
 the changing world in front of me.

- 25 The rockpool study question is: which line in **Shadows in the Lane** shows that something is moving?

A I feel curious and brave as I see
B while clouds drift across the sky
C A violet light spreads through the air
D My steps cast shapes, dark and round

- 26 In a marine lab activity, what are the **borrowed jewels** in **Shadows in the Lane**?

A drops or bright reflections on surfaces
B small hidden insects
C pieces of broken glass
D painted yellow flowers

- 27 The rockpool study sheet asks: in **Shadows in the Lane**, why does the poet say the **window reflects the sky**?

A The window is above the clouds.
B The sky has fallen to the ground.
C The window is completely dry.
D The window shows an image of the sky.

- 28 For today's marine lab task, which detail from **Shadows in the Lane** appeals most strongly to hearing?

A Borrowed jewels shine brightly.
B Small surfaces shine beneath the light.
C The sound of wind against the fence rises there.
D The window reflects the sky.

- 29 A rockpool study clue asks: how does the speaker feel in **Shadows in the Lane**?

A sleepy and confused
B curious and brave
C angry and frightened
D bored and impatient

- 30 During the marine lab session, what is the main idea of **Shadows in the Lane**?

A An ordinary place can look special when light, weather or time changes.
B Walking outdoors is always dangerous.
C Busy sounds should never become quiet.
D Reflections make every surface impossible to see.

Narrative Writing Task

The Summer Snow Globe

Write a narrative about a snow globe that shows a place the character recognises.

Writing space

Plan your story

- Who is the main character, and where does the story begin?
- What makes the discovery unusual or important?
- What problem, risk or decision must the character face?
- Which clues or actions move the story forward?
- How is the problem resolved, and what changes at the end?

Remember

- Plan before you begin.
- Use paragraphs to organise events.
- Choose precise verbs and interesting details.
- Check spelling, punctuation and sentence boundaries.
- Give the narrative a clear ending.

Check: characters, setting, complication, ending, paragraphs, spelling and punctuation.

Questions 1–3

- 1 The rockpool study check uses this number trail: Which number comes next?
246, 257, 268, ____

A 269 **B** 279
C 268 **D** 290

- 2 On a marine lab card, complete this place-value label: What is the value of the digit 6 in **3,658**?

A 600 **B** 6
C 60 **D** 6000

- 3 At the marine lab, solve this number comparison: Which statement about **464** and **496** is true?

A $464 > 496$ **B** $464 = 496$
C $496 < 464$ **D** $464 < 496$

Questions 4–6

- 4 For the rockpool study, answer this total calculation: What is **$312 + 184$** ?

A 506 **B** 128
C 496 **D** 486

- 5 A marine lab activity includes this difference calculation: What is **$710 - 306$** ?

A 1016 **B** 404
C 394 **D** 414

- 6 The rockpool study team needs this equal-group count solved: There are 7 trays with 9 muffins on each tray. How many muffins are there altogether?

A 63 **B** 56
C 70 **D** 16

Questions 7–9

- 7 In the rockpool study, complete this fair-sharing problem: 45 stickers are shared equally among 5 children. How many stickers does each child receive?

A 7 B 11
C 40 D 9

- 8 A marine lab card gives this odd-number sort: Which number is odd in Paper 18?

A 78 B 80
C 77 D 76

- 9 Before the rockpool study, solve this missing-factor puzzle: Which number makes this equation true?
 $7 \times \square = 49$

A 8 B 7
C 5 D 6

Questions 10–12

- 10 The marine lab notice shows this coin total: Jude has 4 two-dollar coins and 4 one-dollar coins. How much money is there altogether?

A \$12 B \$10
C \$14 D \$16

- 11 While preparing the rockpool study, answer this finishing-time check: A lesson starts at 8:35 am and lasts 30 minutes. When does it finish?

A 8:45 am B 9:15 am
C 10:05 am D 9:05 am

- 12 A marine lab challenge uses this calendar jump: Today is Friday. What day will it be in 8 days?

A Sunday B Monday
C Saturday D Friday

Questions 13–15

13 To check the rockpool study, solve this length conversion: How many centimetres are equal to 6 metres?

- A 6 cm B 600 cm
C 60 cm D 6000 cm

14 At the marine lab, decide this boundary measurement: A rectangle is 6 cm long and 6 cm wide. What is its perimeter?

- A 24 cm B 12 cm
C 28 cm D 0 cm

15 The next rockpool study task is a square-unit diagram: How many square units cover the rectangle shown in Paper 18?

- A 6 B 18
C 8 D 12

Questions 16–18

16 In a marine lab session, complete this capacity match: Which amount is equal to 3 litres?

- A 30 mL B 30000 mL
C 3000 mL D 300 mL

17 The rockpool study sheet includes this mass comparison: A bag of rice has a mass of 1260 g. A bag of pasta has a mass of 780 g. How much heavier is the rice?

- A 780 g B 480 g
C 2040 g D 580 g

18 For today's marine lab work, solve this fraction diagram: What fraction of the bar in Paper 18 is shaded?

- A $\frac{6}{10}$ B $\frac{6}{11}$
C $\frac{7}{10}$ D $\frac{5}{10}$

Questions 19–21

19 A rockpool study clue requires this halving problem: What is half of 76?

- A 35 B 41
C 74 D 38

20 During the marine lab session, answer this symmetry diagram: How many lines of symmetry does the rectangle shown in Paper 18 have?

- A 1 B 4
C 2 D 0

21 The rockpool study check uses this angle description: Which description matches an angle of 60 degrees?

- A a straight angle B an acute angle
C a right angle D an obtuse angle

Questions 22–24

22 On a marine lab card, complete this solid-shape check: How many faces does the cube shown in Paper 18 have?

- A 6 B 4
C 8 D 12

23 At the marine lab, solve this grid-location clue: On the Paper 18 map, which location is in square B2?

	A	B	C	D
1	tree		pond	
2		gate	bench	
3				

- A pond B bench
C tree D gate

24 For the rockpool study, answer this data-table question: A class recorded books read in Paper 18: Monday 28, Tuesday 51, Wednesday 30, Thursday 26. On which day were the most books read?

- A Wednesday B Thursday
C Tuesday D Monday

Questions 25–27

- 25 A marine lab activity includes this graph comparison: The Paper 18 graph shows points scored by four teams. How many more points did team B score than team W?

- 26 The rockpool study team needs this chance experiment solved: A Paper 18 spinner has 1 red, 2 blue, 1 green and 1 yellow equal sections. Which colour is most likely?

A blue B red
C green D yellow

- 27 In the rockpool study, complete this growing pattern: Which number comes next in Paper 18?
20, 26, 32, 38, ____

A 38 B 50
C 45 D 44

Questions 28–30

- 28 A marine lab card gives this missing-addend puzzle: Which number makes this equation true in Paper 18?
 $36 + \square = 81$

A 36 B 117
C 45 D 40

- 29 Before the rockpool study, solve this array-and-remainder problem: A small bus has 6 rows with 5 seats in each row. 4 seats are empty. How many seats are occupied?

A 15 B 26
C 30 D 22

- 30 The marine lab notice shows this two-step grouping problem: A gardener has 96 seedlings. She plants 6 rows of 5 seedlings. How many seedlings are left?

A 66 B 90
C 31 D 71

Conventions of Language · L1–L25

L1 · C — an Use <i>an</i> before the vowel sound at the start of <i>orchid</i> .
L2 · B — filled <i>Filled</i> names the action Uma performed, so it is the verb.
L3 · A — filled <i>Last week</i> shows the action happened in the past, so <i>filled</i> is correct.
L4 · D — steadily <i>Steadily</i> describes how the team completed the action.
L5 · C — Jude and I prepared the tanks. The subject pronoun <i>I</i> is correct because the speaker is part of the subject.
L6 · B — because <i>Because</i> introduces the reason for working that way.
L7 · A — theirs <i>Theirs</i> shows that the item belongs to the two named people.
L8 · D — The pelicans move towards the shelter. The plural subject <i>pelicans</i> agrees with the verb <i>move</i> .
L9 · C — insects All three examples are insects.
L10 · B — . A calm command is a complete sentence and can end with a full stop.
L11 · A — wouldn't The apostrophe in <i>wouldn't</i> marks letters omitted from <i>would not</i> .
L12 · D — During the morning break, we arranged the tanks. A comma separates the introductory clause from the main clause.
L13 · C — Where should we store the tanks after the rockpool study The correct option asks a direct question, so it needs a question mark.

L14 · B — “The tanks are ready!” called Uma. The spoken words and exclamation mark stay inside the speech marks.
L15 · A — On Monday, Jude visited Toowoomba. The sentence begins with a capital, and <i>Monday, Jude</i> and <i>Toowoomba</i> are proper nouns.
L16 · D — pelican's The singular possessive form <i>pelican's</i> shows ownership.
L17 · C — Their <i>Their</i> shows that the items belong to a group.
L18 · B — The shallow tank was placed beside the marine lab. The correct option has a subject, a verb and a complete idea.
L19 · A — They <i>They</i> replaces two named people.
L20 · D — is The main subject <i>box</i> is singular, so <i>is</i> is correct.
L21 · C — After checking, return the tanks. A comma follows the introductory clause.
L22 · B — players' The lunchboxes belong to more than one member of the group; the possessive form is <i>players'</i> .
L23 · A — When will the rockpool study begin at the marine lab The correct option directly asks for information.
L24 · D — “Bring the tanks, please,” called Jude. The comma stays inside the closing speech mark before the reporting clause.
L25 · C — Neither of the tanks is empty. The singular subject <i>neither</i> agrees with <i>is</i> .

Conventions of Language · L26–L50

L26 · picture Teacher script: say <i>picture</i> , pause, then repeat <i>picture</i> .
L27 · pillow Teacher script: say <i>pillow</i> , pause, then repeat <i>pillow</i> .
L28 · planet Teacher script: say <i>planet</i> , pause, then repeat <i>planet</i> .
L29 · pocket Teacher script: say <i>pocket</i> , pause, then repeat <i>pocket</i> .
L30 · poster Teacher script: say <i>poster</i> , pause, then repeat <i>poster</i> .
L31 · potato Teacher script: say <i>potato</i> , pause, then repeat <i>potato</i> .
L32 · problem Teacher script: say <i>problem</i> , pause, then repeat <i>problem</i> .
L33 · pumpkin Teacher script: say <i>pumpkin</i> , pause, then repeat <i>pumpkin</i> .
L34 · rabbit Teacher script: say <i>rabbit</i> , pause, then repeat <i>rabbit</i> .
L35 · rainbow Teacher script: say <i>rainbow</i> , pause, then repeat <i>rainbow</i> .
L36 · rectangle Teacher script: say <i>rectangle</i> , pause, then repeat <i>rectangle</i> .
L37 · rocket Teacher script: say <i>rocket</i> , pause, then repeat <i>rocket</i> .
L38 · school Teacher script: say <i>school</i> , pause, then repeat <i>school</i> .

L39 · sentence Teacher script: say <i>sentence</i> , pause, then repeat <i>sentence</i> .
L40 · shadow Teacher script: say <i>shadow</i> , pause, then repeat <i>shadow</i> .
L41 · clouds The incorrect word <i>clouuds</i> should be spelled <i>clouds</i> .
L42 · computers The incorrect word <i>compters</i> should be spelled <i>computers</i> .
L43 · concerts The incorrect word <i>concrts</i> should be spelled <i>concerts</i> .
L44 · costumes The incorrect word <i>costmes</i> should be spelled <i>costumes</i> .
L45 · cousins The incorrect word <i>couins</i> should be spelled <i>cousins</i> .
L46 · creatures The incorrect word <i>creaures</i> should be spelled <i>creatures</i> .
L47 · daughters The incorrect word <i>daughters</i> should be spelled <i>daughters</i> .
L48 · decisions The incorrect word <i>deciions</i> should be spelled <i>decisions</i> .
L49 · deserts The incorrect word <i>desrts</i> should be spelled <i>deserts</i> .
L50 · diamonds The incorrect word <i>diamnds</i> should be spelled <i>diamonds</i> .

Reading · R1–R15

R1 · B — to explain how native orchids live and survive
The text gives factual information about the habitat, features, food and needs of native orchids.

R2 · A — a feature that helps a living thing survive
The passage explains that the feature helps the living thing complete tasks and avoid danger.

R3 · D — attract particular insects
Paragraph 2 states that these features help them attract particular insects.

R4 · C — trampled plants
The final paragraph identifies trampled plants as a challenge.

R5 · B — native orchids
The pronoun *them* refers back to native orchids.

R6 · A — Helping Native Orchids
The paragraph describes a threat and actions people can take to help native orchids.

R7 · D — to make a foil boat and test how many counters it holds
The introduction states that the steps are used to make a foil boat and test how many counters it holds.

R8 · C — shape the first foil square into a boat
The first numbered step says to shape the first foil square into a boat.

R9 · B — so each stage is completed before the next one begins
The earlier steps prepare the activity, while the later steps produce and record the result.

R10 · A — write down
Here, *record* means to write down the observation or result.

R11 · D — to make the result easier to check and compare
A clear record makes an observation or result easier to check and compare.

R12 · C — a materials list and numbered steps
Procedures commonly use a materials list and ordered steps.

R13 · B — the object might belong to someone or be delicate
The second paragraph says the object might belong to someone else or be too delicate to handle alone.

R14 · A — paused because of uncertainty
The character pauses to think about ownership and safety.

R15 · D — a cracked snow globe
The first paragraph says that Jude noticed a cracked snow globe.

Reading · R16–R30

R16 · C — it protected the object and used the clues safely
The character asks for help or checks evidence instead of handling the discovery carelessly.

R17 · B — the discovery becomes part of the place's known story
The final paragraph explains that the discovery becomes part of the place's story.

R18 · A — Patience and careful thinking can protect a discovery.
The character succeeds by slowing down, checking clues and protecting the object.

R19 · D — Flowers
Flowers had a total mass of 40 kg, the greatest value in the table.

R20 · C — 55 kg
 $35\text{ kg} + 20\text{ kg} = 55\text{ kg}$.

R21 · B — 5 kg
 $40\text{ kg shared among }8\text{ containers gives }5\text{ kg in each container}$.

R22 · A — Each container could be much heavier.
The number of containers does not show the mass inside each one.

R23 · D — given to help others
The supplies were given for a community project.

R24 · C — Several supplies were weighed, packed and given to a community project.
This option includes the main ideas from the introduction and table.

R25 · B — while clouds drift across the sky
The words *clouds drift across* describe movement through the sky.

R26 · A — drops or bright reflections on surfaces
The shining drops or reflections look like jewels under the light.

R27 · D — The window shows an image of the sky.
A reflective surface can show an image of the sky like a mirror.

R28 · C — The sound of wind against the fence rises there.
This line directly describes a sound in the scene.

R29 · B — curious and brave
The poem directly says that the speaker feels curious and brave.

R30 · A — An ordinary place can look special when light, weather or time changes.
The poem notices how familiar surroundings become beautiful and interesting.

Year 3 Answers and Explanations Practice Paper 18	
Numeracy · N1–N15	
N1 · B — 279 The pattern adds 11 each time, so the next number is 279.	N9 · B — 7 $7 \times 7 = 49$.
N2 · A — 600 The digit 6 is in the hundreds place, so its value is 600.	N10 · A — \$12 $4 \times \$2 = \8 , and $4 \times \$1 = \4 . Altogether this is \$12.
N3 · D — 464 < 496 464 has fewer tens than 496, so $464 < 496$.	N11 · D — 9:05 am Adding 30 minutes to 8:35 am gives 9:05 am.
N4 · C — 496 $312 + 184 = 496$.	N12 · C — Saturday Move forward 8 days from Friday to reach Saturday.
N5 · B — 404 $710 - 306 = 404$.	N13 · B — 600 cm 1 metre = 100 centimetres, so 6 metres = 600 centimetres.
N6 · A — 63 7 groups of 9 is $7 \times 9 = 63$.	N14 · A — 24 cm Perimeter = $6 + 6 + 6 + 6 = 24$ cm.
N7 · D — 9 $45 \div 5 = 9$ stickers each.	N15 · D — 12 The rectangle has 2 rows of 6 squares: $2 \times 6 = 12$ square units.
N8 · C — 77 77 cannot be divided into pairs with none left over, so it is odd.	

Writing review: Check for a clear opening, complication and ending; paragraphing; precise vocabulary; complete sentences; controlled punctuation; and carefully checked spelling.
