

Questions 1–9

- 1 During rail museum work, which word correctly completes this sentence?
Noah drew ____ orange on a card before visiting the oval.

A some B many
C an D a

- 2 The heritage display team asks: which word is the verb in this sentence?
Chloe painted the golden tickets neatly.

A tickets B painted
C Chloe D golden

- 3 In the heritage display, which word correctly completes this sentence?
Last week, Noah ____ the tickets for the heritage display.

A painted B paint
C paints D painting

- 4 A rail museum card asks: which word tells how the action was done?
The team painted each ticket neatly at the rail museum.

A team B painted
C museum D neatly

- 5 Before the heritage display, which sentence uses the correct subject pronoun for work on the heritage display?

A Me and Noah prepared the tickets. B Noah and myself prepared the tickets.
C Noah and I prepared the tickets. D Noah and me prepared the tickets.

- 6 The rail museum notice asks: which word correctly joins these ideas?
Noah worked neatly ____ the heritage display had to be ready that afternoon.

A until B because
C but D or

- 7 While preparing the heritage display, the golden ticket belongs to Noah and Chloe. Which word can replace **the ticket belonging to Noah and Chloe**?

A theirs B his
C hers D ours

- 8 A rail museum challenge asks: which sentence about the kittens has correct subject–verb agreement?

A The kittens moves towards the shelter. B The kitten move towards the shelter.
C The kittens moving towards the shelter. D The kittens move towards the shelter.

- 9 To check the heritage display, which word can be used instead of **oak, gum and maple**?

A insects B tools
C trees D rivers

Questions 10–18

- 10 At the rail museum, decide: which punctuation mark correctly completes this calm command?
Please place the tickets beside the rail museum desk ____
- A , B .
C ? D !
- 11 The heritage display question is: which contraction is punctuated correctly for the words **will not**?
- A won't B wont
C 'wont D w'ont
- 12 In a rail museum activity, which sentence uses a comma correctly for the heritage display?
- A Before the first tour we, arranged the tickets. B Before the first tour,, we arranged the tickets.
C Before the first tour; we arranged the tickets. D Before the first tour, we arranged the tickets.
- 13 The heritage display sheet asks: which sentence spoken at the rail museum should end with a question mark?
- A Please store the tickets now B The tickets are beside the door
C Where should we store the tickets after the heritage display D I know where the tickets belong

- A "The tickets are ready!" Called Chloe. B "The tickets are ready!" called Chloe.
C "The tickets are ready! called Chloe." D The tickets are ready!" called Chloe.
- 15 A heritage display clue asks: which sentence uses capital letters correctly for Noah's trip?
- A On Monday, Noah visited Darwin. B On monday, Noah visited Darwin.
C On Monday, noah visited Darwin. D On Monday, Noah visited darwin.
- 16 During the rail museum session, which words show that one cat owns the blanket?
The ____ blanket was cleaned at the rail museum.
- A cats B cats'
C cat is D cat's
- 17 The heritage display check asks: which word completes the sentence about the heritage display?
____ tickets won a special award.
- A They're B Theirs
C Their D There
- 18 On a rail museum card, which option is a complete sentence connected with the heritage display?
- A Carrying the tickets carefully. B The golden ticket was placed beside the rail museum.
C Beside the rail museum. D Because the heritage display finished.

Questions 19–25

- 19 At the rail museum, which pronoun can replace **Noah and Chloe**?
Noah and Chloe painted the tickets for the heritage display.

A They B She
C We D It

- 20 For the heritage display, which word agrees with the main subject?
The box of tickets ____ beside the rail museum entrance.

A are B were
C be D is

- 21 During rail museum work, which instruction for the heritage display is punctuated correctly?

A When ready., return the tickets. B When ready:, return the tickets.
C When ready, return the tickets. D When ready return, the tickets.

- 22 The heritage display team asks: where should the missing apostrophe go?
The teachers lunchboxes were packed beside the oval.

A teachers's B teachers'
C teachers D teacher's

- 23 In the heritage display, which sentence is a direct question and needs a question mark?

A When will the heritage display begin at the rail museum B I wonder when the heritage display will begin
C Tell me when the heritage display begins D The heritage display begins at the rail museum

- 24 A rail museum card asks: which sentence correctly reports what Noah said during the heritage display?

A "Bring the tickets, please,," called Noah. B "Bring the tickets, please," Called Noah.
C "Bring the tickets, please, called Noah." D "Bring the tickets, please," called Noah.

- 25 Before the heritage display, which sentence has correct agreement for the heritage display?

A Neither of the ticket is missing. B Neither the tickets are missing.
C Neither of the tickets is missing. D Neither of the tickets are missing.

Spelling · Questions 26–50

To the student

Ask your teacher or parent to read the spelling words aloud. Write the correct spelling of each word on the lines below.

26	_____	27	_____
28	_____	29	_____
30	_____	31	_____
32	_____	33	_____
34	_____	35	_____
36	_____	37	_____
38	_____	39	_____
40	_____		

Read the sentences. The spelling mistake in each sentence is underlined. Write the correct spelling of the underlined word in the box.

41	Eli is <u>carring</u> a basket of clean towels.	
42	The moon seems to change shape, but its size never <u>chages</u> .	
43	The teacher <u>cheks</u> each name on the list.	
44	Do not drink water from an <u>uncean</u> container.	
45	The library <u>cloes</u> at five o'clock.	

Each line has one word that is incorrect. Write the correct spelling of the word in the box.

46	Kai collcts smooth stones beside the creek.	
47	A colourfull kite floated above the oval.	
48	The report compres the heights of three plants.	
49	Zoe compleats her homework before dinner.	
50	Push the plug in firmly to reconect the lamp.	

City Microbats · Questions 1–6

City Microbats

Microbats live in tree hollows and roof spaces. They are well suited to this place, but they still need food, water and shelter to survive. Conditions can change across the day and through the seasons, so safe resting places are important.

Features such as high-pitched calls help them find insects in darkness. These adaptations make everyday tasks easier and can also help them avoid danger. Young organisms survive best when their surroundings provide suitable food or nutrients and shelter.

They obtain what they need from moths and mosquitoes. As they live and grow in their habitat, they also become part of a larger food web that connects plants and animals. Changes to one part of this web can affect many other living things.

One challenge is loss of safe roosts. People can help by keeping old hollow trees, observing living things responsibly and leaving natural shelters undisturbed. Small, repeated actions can protect the habitat without preventing people from learning about it.

1 The heritage display question is: what is the main purpose of **City Microbats**?

- A to advertise a wildlife toy B to explain how microbats live and survive
C to tell a fantasy story about microbats D to give instructions for catching microbats

4 For today's rail museum task, which change would probably cause the greatest problem for microbats?

- A more suitable food B careful wildlife watching
C loss of safe roosts D a protected shelter

2 In a rail museum activity, in **City Microbats**, what does **adaptation** mean?

- A a feature that helps a living thing survive B a sudden loud warning
C a place where tickets are sold D a change in the weather forecast

5 A heritage display clue asks: in paragraph 2 of **City Microbats**, who does **them** refer to?

- A the food sources B microbats
C the people D the natural shelters

3 The heritage display sheet asks: how do features such as high-pitched calls help microbats?

- A make their habitat disappear B turn their food into water
C stop every kind of danger D find insects in darkness

6 During the rail museum session, which heading would best suit the final paragraph of **City Microbats**?

- A Helping Microbats B A Make-Believe Adventure
C How to Build a Toy D A List of Australian Cities

Test a Paper Bridge · Questions 7–12

Test a Paper Bridge

Follow these steps to make a paper bridge and compare how much mass it holds. Work carefully and ask an adult for help whenever a material needs cutting or a location must be checked for safety. Read every step before beginning so the equipment can be arranged in the correct order. Keep the workspace tidy and use each material only as described. Check each observation before recording it.

Materials

- two books
- two sheets of paper
- coins
- a ruler
- a results table

Steps

1. Place the books 20 cm apart.
2. Lay one flat sheet across the gap.
3. Add coins one at a time.
4. Fold the second sheet and repeat the fair test.
5. Record the result clearly, then pack away all equipment.

7 The heritage display check asks: what is the purpose of **Test a Paper Bridge**?

- A** to write a fictional story **B** to advertise expensive equipment
C to decorate a party invitation **D** to make a paper bridge and compare how much mass it holds

10 For the heritage display, what does **record** mean in the final step of **Test a Paper Bridge**?

- A** write down **B** hide
C erase **D** guess

8 On a rail museum card, what should be done first in **Test a Paper Bridge**?

- A** add coins one at a time **B** pack away all equipment
C place the books 20 cm apart **D** lay one flat sheet across the gap

11 During rail museum work, why should the result in **Test a Paper Bridge** be recorded carefully?

- A** to make the equipment heavier **B** to use every material at once
C to prevent the title from changing **D** to make the result easier to check and compare

9 At the rail museum, why should the instructions for **Test a Paper Bridge** be followed in order?

- A** so no observations are recorded **B** so each stage is completed before the next one begins
C so the title becomes longer **D** so the materials change colour

12 The heritage display team asks: which text feature most clearly shows that **Test a Paper Bridge** is a procedure?

- A** rhyming lines **B** a labelled story setting
C a materials list and numbered steps **D** characters speaking to each other

The Lantern Under the Jetty · Questions 13–18

The Lantern Under the Jetty

Noah was helping near a quiet jetty when Noah noticed a brass lantern. It looked ordinary at first, but one detail seemed new. Noah looked around for clues before touching or moving anything.

As Noah examined it more closely, its light flashed even though it held no candle. Noah hesitated. The discovery was exciting, yet it might belong to someone else or be too delicate to handle alone. A hurried choice could damage both the object and the clues around it.

Instead of rushing ahead, Noah matched the flashes to marks carved in the timber. Each new clue matched something already visible in a quiet jetty, so the search became careful rather than wild. Noah paused after every step to record what had changed.

At last, a hidden message thanked people who protected the bay. Noah wrote a short note explaining where the object had been found and what had happened. The note included the order of the clues so another person could check the discovery.

By the end of the afternoon, the discovery had become part of the place's story. Noah was proud, not because the object was valuable, but because patience and careful thinking had protected it. The adults agreed that the object should stay with a clear label for future visitors.

13 In the heritage display, why did Noah hesitate in **The Lantern Under the Jetty**?

- | | |
|--|--|
| A the clues had all disappeared | B the object might belong to someone or be delicate |
| C the location was already closed | D the object was too heavy to see |

16 The rail museum notice asks: why was Noah's careful action important in **The Lantern Under the Jetty**?

- | | |
|--|--|
| A it stopped anyone learning the result | B it changed the location into a shop |
| C it protected the object and used the clues safely | D it made the object disappear |

14 A rail museum card asks: what does **hesitated** mean in **The Lantern Under the Jetty**?

- | | |
|--|----------------------------------|
| A paused because of uncertainty | B shouted with excitement |
| C ran away immediately | D forgot the discovery |

17 While preparing the heritage display, what changes by the end of **The Lantern Under the Jetty**?

- | | |
|---|--|
| A all records of the discovery are removed | B the discovery becomes part of the place's known story |
| C the location is permanently closed | D the character throws the object away |

15 Before the heritage display, what did Noah find at the beginning of **The Lantern Under the Jetty**?

- | | |
|---------------------------------|------------------------------|
| A a new school bag | B a box of fresh food |
| C a broken sports trophy | D a brass lantern |

18 A rail museum challenge asks: which idea is most important in **The Lantern Under the Jetty**?

- | | |
|---|--|
| A Patience and careful thinking can protect a discovery. | B Valuable objects should always be hidden. |
| C Every old place is unsafe to visit. | D Clues are useful only when found quickly. |

Noah's Community Collection · Questions 19–24

Noah's Community Collection

The Year 3 team weighed four groups of donated supplies for a community project at the oval. The supplies were packed into containers before delivery.

Supply	Total mass	Containers
Apples	19 kg	6
Pears	32 kg	8
Oranges	20 kg	5
Melons	36 kg	4

- 19 To check the heritage display, which supply in **Noah's Community Collection** had the greatest total mass?

A Apples B Pears
C Oranges D Melons

- 22 In a rail museum activity, why could fewer containers in **Noah's Community Collection** still have a greater total mass?

A Each container could be much heavier.
B The table counts only empty containers.
C The supplies have no mass.
D A smaller number is always greater.

- 20 At the rail museum, decide: what was the combined mass of the apples and oranges in **Noah's Community Collection**?

A 45 kg B 1 kg
C 39 kg D 33 kg

- 23 The heritage display sheet asks: what does **donated** mean in the introduction to **Noah's Community Collection**?

A sold at a high price B hidden underground
C weighed a second time D given to help others

- 21 The heritage display question is: if the pears were shared equally among 8 containers, what mass would be in each container?

A 32 kg B 4 kg
C 8 kg D 24 kg

- 24 For today's rail museum task, which sentence best summarises **Noah's Community Collection**?

A Every container had exactly the same mass.
B The community returned all the supplies.
C Several supplies were weighed, packed and given to a community project.
D Only one type of supply was collected.

Morning at the Jetty · Questions 25–30

Morning at the Jetty

A golden light spreads through the air,
while mist drift across the sky.
The sound of ropes against the jetty rises there,
and the harbour reflects the sky.
Small surfaces shine beneath the light;
each one wears borrowed jewels bright.
My shoes cast shapes, dark and round,
then scatter them across the ground.
The jetty, so noisy in the day,
grows soft as busy sounds fade away.
I feel calm and observant as I see
the changing world in front of me.

- 25 A heritage display clue asks: which line in **Morning at the Jetty** shows that something is moving?

A I feel calm and observant as I see
B while mist drift across the sky
C A golden light spreads through the air
D My shoes cast shapes, dark and round

- 28 On a rail museum card, which detail from **Morning at the Jetty** appeals most strongly to hearing?

A Borrowed jewels shine brightly.
B Small surfaces shine beneath the light.
C The sound of ropes against the jetty rises there.
D The harbour reflects the sky.

- 26 During the rail museum session, what are the **borrowed jewels** in **Morning at the Jetty**?

A drops or bright reflections on surfaces
B small hidden insects
C pieces of broken glass
D painted yellow flowers

- 29 At the rail museum, how does the speaker feel in **Morning at the Jetty**?

A sleepy and confused
B calm and observant
C angry and frightened
D bored and impatient

- 27 The heritage display check asks: in **Morning at the Jetty**, why does the poet say the **harbour reflects the sky**?

A The harbour is above the clouds.
B The sky has fallen to the ground.
C The harbour is completely dry.
D The harbour shows an image of the sky.

- 30 For the heritage display, what is the main idea of **Morning at the Jetty**?

A An ordinary place can look special when light, weather or time changes.
B Walking outdoors is always dangerous.
C Busy sounds should never become quiet.
D Reflections make every surface impossible to see.

Narrative Writing Task

The Light Beyond the Fog

Write a narrative about a character who follows a strange light near a lighthouse.

Plan your story

- Who is the main character, and where does the story begin?
- What makes the discovery unusual or important?
- What problem, risk or decision must the character face?
- Which clues or actions move the story forward?
- How is the problem resolved, and what changes at the end?

Remember

- Plan before you begin.
- Use paragraphs to organise events.
- Choose precise verbs and interesting details.
- Check spelling, punctuation and sentence boundaries.
- Give the narrative a clear ending.

Check: characters, setting, complication, ending, paragraphs, spelling and punctuation.

Writing space

Questions 1–3

- 1 A rail museum activity includes this number trail: Which number comes next?
134, 144, 154, ____

A 155 B 164
C 154 D 174

- 2 The heritage display team needs this place-value label solved: What is the value of the digit 8 in 3,842?

A 800 B 8
C 80 D 8000

- 3 In the heritage display, complete this number comparison: Which statement about 416 and 464 is true?

A $416 > 464$ B $416 = 464$
C $464 < 416$ D $416 < 464$

Questions 4–6

4 A rail museum card gives this total calculation: What is $248 + 136$?

- A 394 B 112
C 384 D 374

5 Before the heritage display, solve this difference calculation: What is $630 - 274$?

- A 904 B 356
C 346 D 366

6 The rail museum notice shows this equal-group count: There are 7 trays with 8 muffins on each tray. How many muffins are there altogether?

- A 56 B 49
C 63 D 15

Questions 7–9

- 7 While preparing the heritage display, answer this fair-sharing problem: 40 stickers are shared equally among 5 children. How many stickers does each child receive?

A 6 B 10
C 35 D 8

- 8 A rail museum challenge uses this odd-number sort: Which number is odd in Paper 2?

A 46 B 48
C 45 D 44

- 9 To check the heritage display, solve this missing-factor puzzle: Which number makes this equation true?
 $6 \times \square = 42$

A 8 B 7
C 5 D 6

Questions 10–12

10 At the rail museum, decide this coin total: Noah has 4 two-dollar coins and 7 one-dollar coins. How much money is there altogether?

- A \$15 B \$13
C \$17 D \$19

11 The next heritage display task is a finishing-time check: A lesson starts at 10:25 am and lasts 30 minutes. When does it finish?

- A 10:35 am B 10:05 am
C 11:55 am D 10:55 am

12 In a rail museum session, complete this calendar jump: Today is Wednesday. What day will it be in 10 days?

- A Sunday B Monday
C Saturday D Friday

Questions 13–15

- 13 The heritage display sheet includes this length conversion: How many centimetres are equal to 4 metres?

A 4 cm B 400 cm
C 40 cm D 4000 cm

- 14 For today's rail museum work, solve this boundary measurement: A rectangle is 8 cm long and 5 cm wide. What is its perimeter?

A 26 cm B 13 cm
C 30 cm D 3 cm

- 15 A heritage display clue requires this square-unit diagram: How many square units cover the rectangle shown in Paper 2?

A 18 B 30
C 10 D 24

Questions 16–18

- 16 During the rail museum session, answer this capacity match: Which amount is equal to 3 litres?

A 30 mL B 30000 mL
C 3000 mL D 300 mL

- 17 The heritage display check uses this mass comparison: A bag of rice has a mass of 940 g. A bag of pasta has a mass of 620 g. How much heavier is the rice?

A 620 g B 320 g
C 1560 g D 420 g

- 18 On a rail museum card, complete this fraction diagram: What fraction of the bar in Paper 2 is shaded?

A $\frac{4}{10}$ B $\frac{4}{11}$
C $\frac{5}{10}$ D $\frac{3}{10}$

Questions 19–21

- 19 At the rail museum, solve this halving problem: What is half of 44?

A 19 B 25
C 42 D 22

- 20 For the heritage display, answer this symmetry diagram: How many lines of symmetry does the rectangle shown in Paper 2 have?

A 1 B 4
C 2 D 0

- 21 A rail museum activity includes this angle description: Which description matches an angle of 60 degrees?

A a straight angle B an acute angle
C a right angle D an obtuse angle

Questions 22–24

- 22 The heritage display team needs this solid-shape check solved: How many faces does the cube shown in Paper 2 have?

A 6 B 4
C 8 D 12

- 23 In the heritage display, complete this grid-location clue: On the Paper 2 map, which location is in square B2?

	A	B	C	D
1	tree		pond	
2		gate	bench	
3				

A pond B bench
C tree D gate

- 24 A rail museum card gives this data-table question: A class recorded books read in Paper 2: Monday 12, Tuesday 19, Wednesday 14, Thursday 10. On which day were the most books read?

A Wednesday B Thursday
C Tuesday D Monday

Questions 25–27

- 25 Before the heritage display, solve this graph comparison: The Paper 2 graph shows points scored by four teams. How many more points did team B score than team W?

- 26 The rail museum notice shows this chance experiment: A Paper 2 spinner has 1 red, 4 blue, 1 green and 1 yellow equal sections. Which colour is most likely?

- A blue B red
C green D yellow

- 27 While preparing the heritage display, answer this growing pattern: Which number comes next in Paper 2?
4, 9, 14, 19, ____

- A 19 B 29
C 25 D 24

Questions 28–30

- 28 A rail museum challenge uses this missing-addend puzzle: Which number makes this equation true in Paper 2?
 $20 + \square = 49$

A 20 B 69
C 29 D 24

- 29 To check the heritage display, solve this array-and-remainder problem: A small bus has 6 rows with 4 seats in each row. 4 seats are empty. How many seats are occupied?

A 14 B 20
C 24 D 16

- 30 At the rail museum, decide this two-step grouping problem: A gardener has 48 seedlings. She plants 6 rows of 7 seedlings. How many seedlings are left?

A 6 B 42
C 43 D 13

Conventions of Language · L1–L25

L1 · C — an

Use *an* before the vowel sound at the start of *orange*.

L14 · B — “The tickets are ready!” called Chloe.

The spoken words and exclamation mark stay inside the speech marks.

L2 · B — painted

Painted names the action Chloe performed, so it is the verb.

L15 · A — On Monday, Noah visited Darwin.

The sentence begins with a capital, and *Monday*, *Noah* and *Darwin* are proper nouns.

L3 · A — painted

Last week shows the action happened in the past, so *painted* is correct.

L16 · D — cat's

The singular possessive form *cat's* shows ownership.

L4 · D — neatly

Neatly describes how the team completed the action.

L17 · C — Their

Their shows that the items belong to a group.

L5 · C — Noah and I prepared the tickets.

The subject pronoun *I* is correct because the speaker is part of the subject.

L18 · B — The golden ticket was placed beside the rail museum.

The correct option has a subject, a verb and a complete idea.

L6 · B — because

Because introduces the reason for working that way.

L19 · A — They

They replaces two named people.

L7 · A — theirs

Theirs shows that the item belongs to the two named people.

L20 · D — is

The main subject *box* is singular, so *is* is correct.

L8 · D — The kittens move towards the shelter.

The plural subject *kittens* agrees with the verb *move*.

L21 · C — When ready, return the tickets.

A comma follows the introductory clause.

L9 · C — trees

All three examples are trees.

L22 · B — teachers'

The lunchboxes belong to more than one member of the group; the possessive form is *teachers'*.

L10 · B — .

A calm command is a complete sentence and can end with a full stop.

L23 · A — When will the heritage display begin at the rail museum

The correct option directly asks for information.

L11 · A — won't

The apostrophe in *won't* marks letters omitted from *will not*.

L24 · D — “Bring the tickets, please,” called Noah.

The comma stays inside the closing speech mark before the reporting clause.

L12 · D — Before the first tour, we arranged the tickets.

A comma separates the introductory clause from the main clause.

L25 · C — Neither of the tickets is missing.

The singular subject *neither* agrees with *is*.

L13 · C — Where should we store the tickets after the heritage display

The correct option asks a direct question, so it needs a question mark.

Conventions of Language · L26–L50

L26 · check

Teacher script: say *check*, pause, then repeat *check*.

L27 · clean

Teacher script: say *clean*, pause, then repeat *clean*.

L28 · disclose

Teacher script: say *disclose*, pause, then repeat *disclose*.

L29 · collect

Teacher script: say *collect*, pause, then repeat *collect*.

L30 · colour

Teacher script: say *colour*, pause, then repeat *colour*.

L31 · compare

Teacher script: say *compare*, pause, then repeat *compare*.

L32 · complete

Teacher script: say *complete*, pause, then repeat *complete*.

L33 · connect

Teacher script: say *connect*, pause, then repeat *connect*.

L34 · consider

Teacher script: say *consider*, pause, then repeat *consider*.

L35 · continue

Teacher script: say *continue*, pause, then repeat *continue*.

L36 · correct

Teacher script: say *correct*, pause, then repeat *correct*.

L37 · count

Teacher script: say *count*, pause, then repeat *count*.

L38 · create

Teacher script: say *create*, pause, then repeat *create*.

L39 · decide

Teacher script: say *decide*, pause, then repeat *decide*.

L40 · describe

Teacher script: say *describe*, pause, then repeat *describe*.

L41 · carrying

The incorrect word *carring* should be spelled *carrying*.

L42 · changes

The incorrect word *chages* should be spelled *changes*.

L43 · checks

The incorrect word *cheks* should be spelled *checks*.

L44 · unclean

The incorrect word *uncean* should be spelled *unclean*.

L45 · closes

The incorrect word *cloes* should be spelled *closes*.

L46 · collects

The incorrect word *colcts* should be spelled *collects*.

L47 · colourful

The incorrect word *colourfull* should be spelled *colourful*.

L48 · compares

The incorrect word *compres* should be spelled *compares*.

L49 · completes

The incorrect word *compleats* should be spelled *completes*.

L50 · reconnect

The incorrect word *reconnect* should be spelled *reconnect*.

Reading · R1–R15

R1 · B — to explain how microbats live and survive

The text gives factual information about the habitat, features, food and needs of microbats.

R9 · B — so each stage is completed before the next one begins

The earlier steps prepare the activity, while the later steps produce and record the result.

R2 · A — a feature that helps a living thing survive

The passage explains that the feature helps the living thing complete tasks and avoid danger.

R10 · A — write down

Here, *record* means to write down the observation or result.

R3 · D — find insects in darkness

Paragraph 2 states that these features help them find insects in darkness.

R11 · D — to make the result easier to check and compare

A clear record makes an observation or result easier to check and compare.

R4 · C — loss of safe roosts

The final paragraph identifies loss of safe roosts as a challenge.

R12 · C — a materials list and numbered steps

Procedures commonly use a materials list and ordered steps.

R5 · B — microbats

The pronoun *them* refers back to microbats.

R13 · B — the object might belong to someone or be delicate

The second paragraph says the object might belong to someone else or be too delicate to handle alone.

R6 · A — Helping Microbats

The paragraph describes a threat and actions people can take to help microbats.

R14 · A — paused because of uncertainty

The character pauses to think about ownership and safety.

R7 · D — to make a paper bridge and compare how much mass it holds

The introduction states that the steps are used to make a paper bridge and compare how much mass it holds.

R15 · D — a brass lantern

The first paragraph says that Noah noticed a brass lantern.

R8 · C — place the books 20 cm apart

The first numbered step says to place the books 20 cm apart.

Reading · R16–R30

R16 · C — it protected the object and used the clues safely

The character asks for help or checks evidence instead of handling the discovery carelessly.

R24 · C — Several supplies were weighed, packed and given to a community project.

This option includes the main ideas from the introduction and table.

R17 · B — the discovery becomes part of the place's known story

The final paragraph explains that the discovery becomes part of the place's story.

R25 · B — while mist drift across the sky

The words *mist drift across* describe movement through the sky.

R18 · A — Patience and careful thinking can protect a discovery.

The character succeeds by slowing down, checking clues and protecting the object.

R26 · A — drops or bright reflections on surfaces

The shining drops or reflections look like jewels under the light.

R19 · D — Melons

Melons had a total mass of 36 kg, the greatest value in the table.

R27 · D — The harbour shows an image of the sky.

A reflective surface can show an image of the sky like a mirror.

R20 · C — 39 kg

19 kg + 20 kg = 39 kg.

R28 · C — The sound of ropes against the jetty rises there.

This line directly describes a sound in the scene.

R21 · B — 4 kg

32 kg shared among 8 containers gives 4 kg in each container.

R29 · B — calm and observant

The poem directly says that the speaker feels calm and observant.

R22 · A — Each container could be much heavier.

The number of containers does not show the mass inside each one.

R30 · A — An ordinary place can look special when light, weather or time changes.

The poem notices how familiar surroundings become beautiful and interesting.

R23 · D — given to help others

The supplies were given for a community project.

Numeracy · N1–N15**N1 · B — 164**

The pattern adds 10 each time, so the next number is 164.

N9 · B — 7

$6 \times 7 = 42$.

N2 · A — 800

The digit 8 is in the hundreds place, so its value is 800.

N10 · A — \$15

$4 \times \$2 = \8 , and $7 \times \$1 = \7 . Altogether this is \$15.

N3 · D — 416 < 464

416 has fewer tens than 464, so $416 < 464$.

N11 · D — 10:55 am

Adding 30 minutes to 10:25 am gives 10:55 am.

N4 · C — 384

$248 + 136 = 384$.

N12 · C — Saturday

Move forward 10 days from Wednesday to reach Saturday.

N5 · B — 356

$630 - 274 = 356$.

N13 · B — 400 cm

1 metre = 100 centimetres, so 4 metres = 400 centimetres.

N6 · A — 56

7 groups of 8 is $7 \times 8 = 56$.

N14 · A — 26 cm

Perimeter = $8 + 5 + 8 + 5 = 26$ cm.

N7 · D — 8

$40 \div 5 = 8$ stickers each.

N15 · D — 24

The rectangle has 4 rows of 6 squares: $4 \times 6 = 24$ square units.

N8 · C — 45

45 cannot be divided into pairs with none left over, so it is odd.

Numeracy · N16–N30

N16 · C — 3000 mL

1 litre = 1000 millilitres, so 3 litres = 3000 mL.

N24 · C — Tuesday

Tuesday has the greatest value, 19.

N17 · B — 320 g

$940\text{ g} - 620\text{ g} = 320\text{ g}$.

N25 · B — 3

Team B scored 13 points and team W scored 10 points. $13 - 10 = 3$.

N18 · A — 4/10

The bar has 10 equal parts and 4 are shaded, so the fraction is 4/10.

N26 · A — blue

Blue covers 4 of the 7 equal sections, more than any other colour.

N19 · D — 22

44 divided into 2 equal groups gives 22 in each group.

N27 · D — 24

The pattern adds 5 each time, so the next number is 24.

N20 · C — 2

A rectangle has 2 lines of symmetry.

N28 · C — 29

$49 - 20 = 29$, so $20 + 29 = 49$.

N21 · B — an acute angle

60 degrees is less than 90 degrees, so it is an acute angle.

N29 · B — 20

There are $6 \times 4 = 24$ seats. $24 - 4 = 20$ occupied seats.

N22 · A — 6

A cube has 6 flat faces.

N30 · A — 6

$6 \times 7 = 42$ seedlings are planted. $48 - 42 = 6$ seedlings remain.

N23 · D — gate

The map shows gate in column B, row 2.

Writing review: Check for a clear opening, complication and ending; paragraphing; precise vocabulary; complete sentences; controlled punctuation; and carefully checked spelling.
