43	The editor <u>corrcts</u> each mistake in the article.	
44	Please <u>recunt</u> the counters to check the total.	
45	We used clay to <u>recrate</u> the ancient bowl.	

Each line has one word that is incorrect. Write the correct spelling of the word in the box.

46	Arlo decdes to take the safer path.	
47	The sign descibes how to care for the seedlings.	
48	The class will redeign the poster to make it clearer.	
49	The tadpole deveops legs as it grows.	
50	A barrier will rediect people around the wet floor.	

Rockpool Crabs · Questions 1–6

Rockpool Crabs

Rockpool crabs live in shallow pools beside the sea. They are well suited to this place, but they still need food, water and shelter to survive. Conditions can change across the day and through the seasons, so safe resting places are important.

Features such as hard shells and strong claws help them stay safe between tides. These adaptations make everyday tasks easier and can also help them avoid danger. Young organisms survive best when their surroundings provide suitable food or nutrients and shelter.

They obtain what they need from algae and tiny animals. As they live and grow in their habitat, they also become part of a larger food web that connects plants and animals. Changes to one part of this web can affect many other living things.

One challenge is plastic litter. People can help by taking rubbish home, observing living things responsibly and leaving natural shelters undisturbed. Small, repeated actions can protect the habitat without preventing people from learning about it.

1 In a bush nursery activity, what is the main purpose of **Rockpool Crabs**?

- A** to explain how rockpool crabs live and survive
B to tell a fantasy story about rockpool crabs
C to give instructions for catching rockpool crabs
D to advertise a wildlife toy

4 A native garden clue asks: which change would probably cause the greatest problem for rockpool crabs?

- A** careful wildlife watching
B plastic litter
C a protected shelter
D more suitable food

2 The native garden sheet asks: in **Rockpool Crabs**, what does **adaptation** mean?

- A** a sudden loud warning
B a place where tickets are sold
C a change in the weather forecast
D a feature that helps a living thing survive

5 During the bush nursery session, in paragraph 2 of **Rockpool Crabs**, who does **them** refer to?

- A** rockpool crabs
B the people
C the natural shelters
D the food sources

3 For today's bush nursery task, how do features such as hard shells and strong claws help rockpool crabs?

- A** turn their food into water
B stop every kind of danger
C stay safe between tides
D make their habitat disappear

6 The native garden check asks: which heading would best suit the final paragraph of **Rockpool Crabs**?

- A** A Make-Believe Adventure
B How to Build a Toy
C A List of Australian Cities
D Helping Rockpool Crabs

Grow a Seed Viewer · Questions 7–12

Grow a Seed Viewer

Follow these steps to make a clear seed viewer for observing roots. Work carefully and ask an adult for help whenever a material needs cutting or a location must be checked for safety. Read every step before beginning so the equipment can be arranged in the correct order. Keep the workspace tidy and use each material only as described. Check each observation before recording it.

Materials

- a clear cup
- paper towel
- bean seeds
- water
- a marker

Steps

1. Line the cup with damp paper towel.
2. Slide seeds between the towel and cup.
3. Mark the water level.
4. Observe and record changes each day.
5. Record the result clearly, then pack away all equipment.

7 On a bush nursery card, what is the purpose of **Grow a Seed Viewer**?

- | | |
|--|---|
| A to advertise expensive equipment | B to decorate a party invitation |
| C to make a clear seed viewer for observing roots | D to write a fictional story |

10 During bush nursery work, what does **record** mean in the final step of **Grow a Seed Viewer**?

- | | |
|----------------|---------------------|
| A hide | B erase |
| C guess | D write down |

8 At the bush nursery, what should be done first in **Grow a Seed Viewer**?

- | | |
|--|---|
| A pack away all equipment | B line the cup with damp paper towel |
| C slide seeds between the towel and cup | D mark the water level |

11 The native garden team asks: why should the result in **Grow a Seed Viewer** be recorded carefully?

- | | |
|---|---|
| A to use every material at once | B to prevent the title from changing |
| C to make the result easier to check and compare | D to make the equipment heavier |

9 For the native garden, why should the instructions for **Grow a Seed Viewer** be followed in order?

- | | |
|--|--|
| A so each stage is completed before the next one begins | B so the title becomes longer |
| C so the materials change colour | D so no observations are recorded |

12 In the native garden, which text feature most clearly shows that **Grow a Seed Viewer** is a procedure?

- | | |
|--|--|
| A a labelled story setting | B a materials list and numbered steps |
| C characters speaking to each other | D rhyming lines |

The Map in the Music Case · Questions 13–18

The Map in the Music Case

Mia was helping near the rehearsal room when Mia noticed a folded map. It looked ordinary at first, but one detail seemed new. Mia looked around for clues before touching or moving anything.

As Mia examined it more closely, the map showed a room that was not on the school plan. Mia hesitated. The discovery was exciting, yet it might belong to someone else or be too delicate to handle alone. A hurried choice could damage both the object and the clues around it.

Instead of rushing ahead, Mia compared the drawing with the corridor windows. Each new clue matched something already visible in the rehearsal room, so the search became careful rather than wild. Mia paused after every step to record what had changed.

At last, a narrow cupboard held instruments from the first school band. Mia wrote a short note explaining where the object had been found and what had happened. The note included the order of the clues so another person could check the discovery.

By the end of the afternoon, the discovery had become part of the place's story. Mia was proud, not because the object was valuable, but because patience and careful thinking had protected it. The adults agreed that the object should stay with a clear label for future visitors.

13 A bush nursery card asks: why did Mia hesitate in **The Map in the Music Case**?

- | | |
|--|--|
| A the object might belong to someone or be delicate | B the location was already closed |
| C the object was too heavy to see | D the clues had all disappeared |

16 While preparing the native garden, why was Mia's careful action important in **The Map in the Music Case**?

- | | |
|--|--|
| A it changed the location into a shop | B it protected the object and used the clues safely |
| C it made the object disappear | D it stopped anyone learning the result |

14 Before the native garden, what does **hesitated** mean in **The Map in the Music Case**?

- | | |
|----------------------------------|--|
| A shouted with excitement | B ran away immediately |
| C forgot the discovery | D paused because of uncertainty |

17 A bush nursery challenge asks: what changes by the end of **The Map in the Music Case**?

- | | |
|--|---|
| A the discovery becomes part of the place's known story | B the location is permanently closed |
| C the character throws the object away | D all records of the discovery are removed |

15 The bush nursery notice asks: what did Mia find at the beginning of **The Map in the Music Case**?

- | | |
|------------------------------|---------------------------------|
| A a box of fresh food | B a broken sports trophy |
| C a folded map | D a new school bag |

18 To check the native garden, which idea is most important in **The Map in the Music Case**?

- | | |
|--|---|
| A Valuable objects should always be hidden. | B Every old place is unsafe to visit. |
| C Clues are useful only when found quickly. | D Patience and careful thinking can protect a discovery. |

Mia's Community Collection · Questions 19–24

Mia's Community Collection

The Year 3 team weighed four groups of donated supplies for a community project at the garden. The supplies were packed into containers before delivery.

Supply	Total mass	Containers
Rice	20 kg	6
Pasta	40 kg	8
Flour	25 kg	5
Oats	40 kg	4

- 19 At the bush nursery, decide: which supply in **Mia's Community Collection** had the greatest total mass?

A Flour B Oats
C Pasta D Rice

- 22 The native garden sheet asks: why could fewer containers in **Mia's Community Collection** still have a greater total mass?

A The table counts only empty containers. B The supplies have no mass.
C A smaller number is always greater. D Each container could be much heavier.

- 20 The native garden question is: what was the combined mass of the rice and flour in **Mia's Community Collection**?

A 5 kg B 45 kg
C 39 kg D 51 kg

- 23 For today's bush nursery task, what does **donated** mean in the introduction to **Mia's Community Collection**?

A hidden underground B weighed a second time
C given to help others D sold at a high price

- 21 In a bush nursery activity, if the pasta were shared equally among 8 containers, what mass would be in each container?

A 5 kg B 8 kg
C 32 kg D 40 kg

- 24 A native garden clue asks: which sentence best summarises **Mia's Community Collection**?

A The community returned all the supplies. B Several supplies were weighed, packed and given to a community project.
C Only one type of supply was collected. D Every container had exactly the same mass.

Wind in the Orchard · Questions 25–30

Wind in the Orchard

A green light spreads through the air,
while clouds drift across the sky.
The sound of wind in the branches rises there,
and the water trough reflects the sky.
Small surfaces shine beneath the light;
each one wears borrowed jewels bright.
My feet cast shapes, dark and round,
then scatter them across the ground.
The orchard, so noisy in the day,
grows soft as busy sounds fade away.
I feel playful and alert as I see
the changing world in front of me.

- 25 During the bush nursery session, which line in **Wind in the Orchard** shows that something is moving?

A while clouds drift across the sky **B** A green light spreads through the air
C My feet cast shapes, dark and round **D** I feel playful and alert as I see round

- 28 At the bush nursery, which detail from **Wind in the Orchard** appeals most strongly to hearing?

A Small surfaces shine beneath the light. **B** The sound of wind in the branches rises there.
C The water trough reflects the sky. **D** Borrowed jewels shine brightly.

- 26 The native garden check asks: what are the **borrowed jewels** in **Wind in the Orchard**?

A small hidden insects **B** pieces of broken glass
C painted yellow flowers **D** drops or bright reflections on surfaces

- 29 For the native garden, how does the speaker feel in **Wind in the Orchard**?

A playful and alert **B** angry and frightened
C bored and impatient **D** sleepy and confused

- 27 On a bush nursery card, in **Wind in the Orchard**, why does the poet say the **water trough reflects the sky**?

A The sky has fallen to the ground. **B** The water trough is completely dry.
C The water trough shows an image of the sky. **D** The water trough is above the clouds.

- 30 During bush nursery work, what is the main idea of **Wind in the Orchard**?

A Walking outdoors is always dangerous. **B** Busy sounds should never become quiet.
C Reflections make every surface impossible to see. **D** An ordinary place can look special when light, weather or time changes.

Narrative Writing Task

The Box in the Attic

Write a narrative about a character who opens a labelled box that has been hidden for years.

Plan your story

- Who is the main character, and where does the story begin?
- What makes the discovery unusual or important?
- What problem, risk or decision must the character face?
- Which clues or actions move the story forward?
- How is the problem resolved, and what changes at the end?

Remember

- Plan before you begin.
- Use paragraphs to organise events.
- Choose precise verbs and interesting details.
- Check spelling, punctuation and sentence boundaries.
- Give the narrative a clear ending.

Check: characters, setting, complication, ending, paragraphs, spelling and punctuation.

Writing space

Questions 1–3

- 1 The native garden team needs this number trail solved: Which number comes next?
141, 152, 163, ____

A 174 B 163
C 185 D 164

- 2 In the native garden, complete this place-value label: What is the value of the digit 6 in 3,643?

A 6 B 60
C 6000 D 600

- 3 A bush nursery card gives this number comparison: Which statement about 419 and 466 is true?

A $419 = 466$ B $466 < 419$
C $419 < 466$ D $419 > 466$

Questions 4–6

4 Before the native garden, solve this total calculation: What is $252 + 139$?

- A 113 B 391
C 381 D 401

5 The bush nursery notice shows this difference calculation: What is $635 - 276$?

- A 359 B 349
C 369 D 911

6 While preparing the native garden, answer this equal-group count: There are 8 trays with 9 muffins on each tray. How many muffins are there altogether?

- A 64 B 80
C 17 D 72

Questions 7–9

- 7 A bush nursery challenge uses this fair-sharing problem: 54 stickers are shared equally among 6 children. How many stickers does each child receive?

A 11 B 48
C 9 D 7

- 8 To check the native garden, solve this odd-number sort: Which number is odd in Paper 3?

A 50 B 47
C 46 D 48

- 9 At the bush nursery, decide this missing-factor puzzle: Which number makes this equation true?
 $7 \times \square = 49$

A 7 B 5
C 6 D 8

Questions 10–12

10 The next native garden task is a coin total: Mia has 5 two-dollar coins and 4 one-dollar coins. How much money is there altogether?

- A \$12 B \$16
C \$18 D \$14

11 In a bush nursery session, complete this finishing-time check: A lesson starts at 8:35 am and lasts 35 minutes. When does it finish?

- A 9:20 am B 10:10 am
C 9:10 am D 8:45 am

12 The native garden sheet includes this calendar jump: Today is Thursday. What day will it be in 11 days?

- A Wednesday B Monday
C Sunday D Tuesday

Questions 13–15

- 13 For today's bush nursery work, solve this length conversion: How many centimetres are equal to 5 metres?

A 500 cm B 50 cm
C 5000 cm D 5 cm

- 14 A native garden clue requires this boundary measurement: A rectangle is 9 cm long and 6 cm wide. What is its perimeter?

A 15 cm B 34 cm
C 3 cm D 30 cm

- 15 During the bush nursery session, answer this square-unit diagram: How many square units cover the rectangle shown in Paper 3?

A 21 B 9
C 14 D 7

Questions 16–18

- 16 The native garden check uses this capacity match: Which amount is equal to 4 litres?

A 40000 mL B 4000 mL
C 400 mL D 40 mL

- 17 On a bush nursery card, complete this mass comparison: A bag of rice has a mass of 960 g. A bag of pasta has a mass of 630 g. How much heavier is the rice?

A 330 g B 1590 g
C 430 g D 630 g

- 18 At the bush nursery, solve this fraction diagram: What fraction of the bar in Paper 3 is shaded?

A $\frac{5}{13}$ B $\frac{6}{12}$
C $\frac{4}{12}$ D $\frac{5}{12}$

Questions 19–21

- 19 For the native garden, answer this halving problem: What is half of 46?

A 26 B 44
C 23 D 20

- 20 A bush nursery activity includes this symmetry diagram: How many lines of symmetry does the square shown in Paper 3 have?

A 3 B 4
C 0 D 1

- 21 The native garden team needs this angle description solved: Which description matches an angle of 70 degrees?

A an acute angle B a right angle
C an obtuse angle D a straight angle

Questions 22–24

- 22 In the native garden, complete this solid-shape check: How many faces does the rectangular prism shown in Paper 3 have?

A 4 B 8
C 12 D 6

- 23 A bush nursery card gives this grid-location clue: On the Paper 3 map, which location is in square D3?

	A	B	C	D
1			pond	
2		gate	bench	
3				tree

A bench B gate
C tree D pond

- 24 Before the native garden, solve this data-table question: A class recorded books read in Paper 3: Monday 13, Tuesday 21, Wednesday 15, Thursday 11. On which day were the most books read?

A Thursday B Tuesday
C Monday D Wednesday

Questions 25–27

- 25 The bush nursery notice shows this graph comparison: The Paper 3 graph shows points scored by four teams. How many more points did team B score than team W?

- 26 While preparing the native garden, answer this chance experiment: A Paper 3 spinner has 1 red, 2 blue, 1 green and 1 yellow equal sections. Which colour is most likely?

- A red B green
C yellow D blue

- 27 A bush nursery challenge uses this growing pattern: Which number comes next in Paper 3?
5, 11, 17, 23, ____

- A 35 B 30
C 29 D 23

Questions 28–30

- 28 To check the native garden, solve this missing-addend puzzle: Which number makes this equation true in Paper 3?
 $21 + \square = 51$

A 72 B 30
C 25 D 21

- 29 At the bush nursery, decide this array-and-remainder problem: A small bus has 7 rows with 5 seats in each row. 5 seats are empty. How many seats are occupied?

A 30 B 35
C 25 D 17

- 30 The next native garden task is a two-step grouping problem: A gardener has 51 seedlings. She plants 7 rows of 5 seedlings. How many seedlings are left?

A 44 B 36
C 21 D 16

Conventions of Language · L1–L25

L1 · B — an

Use *an* before the vowel sound at the start of *igloo*.

L2 · A — folded

Folded names the action Dylan performed, so it is the verb.

L3 · D — folded

Last week shows the action happened in the past, so *folded* is correct.

L4 · C — evenly

Evenly describes how the team completed the action.

L5 · B — Mia and I prepared the flags.

The subject pronoun *I* is correct because the speaker is part of the subject.

L6 · A — because

Because introduces the reason for working that way.

L7 · D — theirs

Theirs shows that the item belongs to the two named people.

L8 · C — The ducklings move towards the shelter.

The plural subject *ducklings* agrees with the verb *move*.

L9 · B — gems

All three examples are gems.

L10 · A — .

A calm command is a complete sentence and can end with a full stop.

L11 · D — isn't

The apostrophe in *isn't* marks letters omitted from *is not*.

L12 · C — During the morning break, we arranged the flags.

A comma separates the introductory clause from the main clause.

L13 · B — Where should we store the flags after the native garden

The correct option asks a direct question, so it needs a question mark.

L14 · A — “The flags are ready!” called Dylan.

The spoken words and exclamation mark stay inside the speech marks.

L15 · D — On Monday, Mia visited Hobart.

The sentence begins with a capital, and *Monday*, *Mia* and *Hobart* are proper nouns.

L16 · C — horse's

The singular possessive form *horse's* shows ownership.

L17 · B — Their

Their shows that the items belong to a group.

L18 · A — The wooden flag was placed beside the bush nursery.

The correct option has a subject, a verb and a complete idea.

L19 · D — They

They replaces two named people.

L20 · C — is

The main subject *box* is singular, so *is* is correct.

L21 · B — After checking, return the flags.

A comma follows the introductory clause.

L22 · A — players'

The lunchboxes belong to more than one member of the group; the possessive form is *players'*.

L23 · D — When will the native garden begin at the bush nursery

The correct option directly asks for information.

L24 · C — “Bring the flags, please,” called Mia.

The comma stays inside the closing speech mark before the reporting clause.

L25 · B — Neither of the flags is torn.

The singular subject *neither* agrees with *is*.

Conventions of Language · L26–L50

L26 · design

Teacher script: say *design*, pause, then repeat *design*.

L27 · develop

Teacher script: say *develop*, pause, then repeat *develop*.

L28 · direct

Teacher script: say *direct*, pause, then repeat *direct*.

L29 · discover

Teacher script: say *discover*, pause, then repeat *discover*.

L30 · discuss

Teacher script: say *discuss*, pause, then repeat *discuss*.

L31 · divide

Teacher script: say *divide*, pause, then repeat *divide*.

L32 · educate

Teacher script: say *educate*, pause, then repeat *educate*.

L33 · enjoy

Teacher script: say *enjoy*, pause, then repeat *enjoy*.

L34 · explain

Teacher script: say *explain*, pause, then repeat *explain*.

L35 · explore

Teacher script: say *explore*, pause, then repeat *explore*.

L36 · refill

Teacher script: say *refill*, pause, then repeat *refill*.

L37 · finish

Teacher script: say *finish*, pause, then repeat *finish*.

L38 · follow

Teacher script: say *follow*, pause, then repeat *follow*.

L39 · reform

Teacher script: say *reform*, pause, then repeat *reform*.

L40 · govern

Teacher script: say *govern*, pause, then repeat *govern*.

L41 · reconsider

The incorrect word *reconider* should be spelled *reconsider*.

L42 · discontinue

The incorrect word *discontinue* should be spelled *discontinue*.

L43 · corrects

The incorrect word *corrcets* should be spelled *corrects*.

L44 · recount

The incorrect word *recunt* should be spelled *recount*.

L45 · recreate

The incorrect word *recrate* should be spelled *recreate*.

L46 · decides

The incorrect word *decdes* should be spelled *decides*.

L47 · describes

The incorrect word *descibes* should be spelled *describes*.

L48 · redesign

The incorrect word *redeign* should be spelled *redesign*.

L49 · develops

The incorrect word *deveops* should be spelled *develops*.

L50 · redirect

The incorrect word *rediect* should be spelled *redirect*.

Reading · R1–R15

R1 · A — to explain how rockpool crabs live and survive

The text gives factual information about the habitat, features, food and needs of rockpool crabs.

R9 · A — so each stage is completed before the next one begins

The earlier steps prepare the activity, while the later steps produce and record the result.

R2 · D — a feature that helps a living thing survive

The passage explains that the feature helps the living thing complete tasks and avoid danger.

R10 · D — write down

Here, *record* means to write down the observation or result.

R3 · C — stay safe between tides

Paragraph 2 states that these features help them stay safe between tides.

R11 · C — to make the result easier to check and compare

A clear record makes an observation or result easier to check and compare.

R4 · B — plastic litter

The final paragraph identifies plastic litter as a challenge.

R12 · B — a materials list and numbered steps

Procedures commonly use a materials list and ordered steps.

R5 · A — rockpool crabs

The pronoun *them* refers back to rockpool crabs.

R13 · A — the object might belong to someone or be delicate

The second paragraph says the object might belong to someone else or be too delicate to handle alone.

R6 · D — Helping Rockpool Crabs

The paragraph describes a threat and actions people can take to help rockpool crabs.

R14 · D — paused because of uncertainty

The character pauses to think about ownership and safety.

R7 · C — to make a clear seed viewer for observing roots

The introduction states that the steps are used to make a clear seed viewer for observing roots.

R15 · C — a folded map

The first paragraph says that Mia noticed a folded map.

R8 · B — line the cup with damp paper towel

The first numbered step says to line the cup with damp paper towel.

Reading · R16–R30

R16 · B — it protected the object and used the clues safely

The character asks for help or checks evidence instead of handling the discovery carelessly.

R24 · B — Several supplies were weighed, packed and given to a community project.

This option includes the main ideas from the introduction and table.

R17 · A — the discovery becomes part of the place's known story

The final paragraph explains that the discovery becomes part of the place's story.

R25 · A — while clouds drift across the sky

The words *clouds drift across* describe movement through the sky.

R18 · D — Patience and careful thinking can protect a discovery.

The character succeeds by slowing down, checking clues and protecting the object.

R26 · D — drops or bright reflections on surfaces

The shining drops or reflections look like jewels under the light.

R19 · C — Pasta

Pasta had a total mass of 40 kg, the greatest value in the table.

R27 · C — The water trough shows an image of the sky.

A reflective surface can show an image of the sky like a mirror.

R20 · B — 45 kg

20 kg + 25 kg = 45 kg.

R28 · B — The sound of wind in the branches rises there.

This line directly describes a sound in the scene.

R21 · A — 5 kg

40 kg shared among 8 containers gives 5 kg in each container.

R29 · A — playful and alert

The poem directly says that the speaker feels playful and alert.

R22 · D — Each container could be much heavier.

The number of containers does not show the mass inside each one.

R30 · D — An ordinary place can look special when light, weather or time changes.

The poem notices how familiar surroundings become beautiful and interesting.

R23 · C — given to help others

The supplies were given for a community project.

Numeracy · N1–N15**N1 · A — 174**

The pattern adds 11 each time, so the next number is 174.

N9 · A — 7

$7 \times 7 = 49$.

N2 · D — 600

The digit 6 is in the hundreds place, so its value is 600.

N10 · D — \$14

$5 \times \$2 = \10 , and $4 \times \$1 = \4 . Altogether this is \$14.

N3 · C — 419 < 466

419 has fewer tens than 466, so $419 < 466$.

N11 · C — 9:10 am

Adding 35 minutes to 8:35 am gives 9:10 am.

N4 · B — 391

$252 + 139 = 391$.

N12 · B — Monday

Move forward 11 days from Thursday to reach Monday.

N5 · A — 359

$635 - 276 = 359$.

N13 · A — 500 cm

1 metre = 100 centimetres, so 5 metres = 500 centimetres.

N6 · D — 72

8 groups of 9 is $8 \times 9 = 72$.

N14 · D — 30 cm

Perimeter = $9 + 6 + 9 + 6 = 30$ cm.

N7 · C — 9

$54 \div 6 = 9$ stickers each.

N15 · C — 14

The rectangle has 2 rows of 7 squares: $2 \times 7 = 14$ square units.

N8 · B — 47

47 cannot be divided into pairs with none left over, so it is odd.

Numeracy · N16–N30

N16 · B — 4000 mL

1 litre = 1000 millilitres, so 4 litres = 4000 mL.

N24 · B — Tuesday

Tuesday has the greatest value, 21.

N17 · A — 330 g

$960\text{ g} - 630\text{ g} = 330\text{ g}$.

N25 · A — 3

Team B scored 14 points and team W scored 11 points. $14 - 11 = 3$.

N18 · D — 5/12

The bar has 12 equal parts and 5 are shaded, so the fraction is $5/12$.

N26 · D — blue

Blue covers 2 of the 5 equal sections, more than any other colour.

N19 · C — 23

46 divided into 2 equal groups gives 23 in each group.

N27 · C — 29

The pattern adds 6 each time, so the next number is 29.

N20 · B — 4

A square has 4 lines of symmetry.

N28 · B — 30

$51 - 21 = 30$, so $21 + 30 = 51$.

N21 · A — an acute angle

70 degrees is less than 90 degrees, so it is an acute angle.

N29 · A — 30

There are $7 \times 5 = 35$ seats. $35 - 5 = 30$ occupied seats.

N22 · D — 6

A rectangular prism has 6 flat faces.

N30 · D — 16

$7 \times 5 = 35$ seedlings are planted. $51 - 35 = 16$ seedlings remain.

N23 · C — tree

The map shows tree in column D, row 3.

Writing review: Check for a clear opening, complication and ending; paragraphing; precise vocabulary; complete sentences; controlled punctuation; and carefully checked spelling.
