

Questions 1–9

- 1 Before the waterway study, which word correctly completes this sentence?
Eli drew ____ apron on a card before visiting the hall.
- A some B many
C an D a
- 2 The river camp notice asks: which word is the verb in this sentence?
Henry collected the river samples carefully.
- A samples B collected
C Henry D river
- 3 While preparing the waterway study, which word correctly completes this sentence?
Last week, Eli ____ the samples for the waterway study.
- A collected B collect
C collects D collecting
- 4 A river camp challenge asks: which word tells how the action was done?
The team collected each sample carefully at the river camp.
- A team B collected
C camp D carefully
- 5 To check the waterway study, which sentence uses the correct subject pronoun for work on the waterway study?
- A Me and Eli prepared the samples. B Eli and myself prepared the samples.
C Eli and I prepared the samples. D Eli and me prepared the samples.
- 6 At the river camp, decide: which word correctly joins these ideas?
Eli worked carefully ____ the waterway study had to be ready that afternoon.
- A until B because
C but D or
- 7 The waterway study question is: the river sample belongs to Eli and Henry. Which word can replace **the sample belonging to Eli and Henry**?
- A theirs B his
C hers D ours
- 8 In a river camp activity, which sentence about the dolphins has correct subject–verb agreement?
- A The dolphins moves towards the shelter. B The dolphin move towards the shelter.
C The dolphins moving towards the shelter. D The dolphins move towards the shelter.
- 9 The waterway study sheet asks: which word can be used instead of **Monday, Tuesday and Friday**?
- A seasons B colours
C weekdays D months

Questions 10–18

- 10 For today's river camp task, which punctuation mark correctly completes this calm command?
Please place the samples beside the river camp desk ____

A , B .
C ? D !

11 A waterway study clue asks: which contraction is punctuated correctly for the words **have not**?

A haven't B havent
C 'havent D h'avent

12 During the river camp session, which sentence uses a comma correctly for the waterway study?

A After the gates opened we, arranged the samples. B After the gates opened,, we arranged the samples.
C After the gates opened; we arranged the samples. D After the gates opened, we arranged the samples.

13 The waterway study check asks: which sentence spoken at the river camp should end with a question mark?

A Please store the samples now B The samples are beside the door
C Where should we store the samples after the waterway study D I know where the samples belong

14 On a river camp card, which sentence punctuates Henry's excited words correctly?

A "The samples are ready!" Called Henry. B "The samples are ready!" called Henry.
C "The samples are ready! called Henry." D The samples are ready!" called Henry.

15 At the river camp, which sentence uses capital letters correctly for Eli's trip?

A On Monday, Eli visited Sydney. B On monday, Eli visited Sydney.
C On Monday, eli visited Sydney. D On Monday, Eli visited sydney.

16 For the waterway study, which words show that one goat owns the rope?
The ____ rope was cleaned at the river camp.

A goats B goats'
C goat is D goat's

17 During river camp work, which word completes the sentence about the waterway study?
____ samples won a special award.

A They're B Theirs
C Their D There

18 The waterway study team asks: which option is a complete sentence connected with the waterway study?

A Carrying the samples carefully. B The river sample was placed beside the river camp.
C Beside the river camp. D Because the waterway study finished.

Questions 19–25

- 19 In the waterway study, which pronoun can replace **Eli and Henry**?
Eli and Henry collected the samples for the waterway study.

A They B She
C We D It

- 20 A river camp card asks: which word agrees with the main subject?
The box of samples ____ beside the river camp entrance.

A are B were
C be D is

- 21 Before the waterway study, which instruction for the waterway study is punctuated correctly?

A Before leaving,, return the samples. B Before leaving;, return the samples.
C Before leaving, return the samples. D Before leaving return, the samples.

- 22 The river camp notice asks: where should the missing apostrophe go?
The children lunchboxes were packed beside the hall.

A childrens's B children's
C childrens D childrens'

- 23 While preparing the waterway study, which sentence is a direct question and needs a question mark?

A When will the waterway study begin at the river camp B I wonder when the waterway study will begin
C Tell me when the waterway study begins D The waterway study begins at the river camp

- 24 A river camp challenge asks: which sentence correctly reports what Eli said during the waterway study?

A "Bring the samples, please," called Eli. B "Bring the samples, please," Called Eli.
C "Bring the samples, please, called Eli." D "Bring the samples, please," called Eli.

- 25 To check the waterway study, which sentence has correct agreement for the waterway study?

A Neither of the sample is labelled. B Neither the samples are labelled.
C Neither of the samples is labelled. D Neither of the samples are labelled.

Spelling · Questions 26–50

To the student

Ask your teacher or parent to read the spelling words aloud. Write the correct spelling of each word on the lines below.

26	_____	27	_____
28	_____	29	_____
30	_____	31	_____
32	_____	33	_____
34	_____	35	_____
36	_____	37	_____
38	_____	39	_____
40	_____		

Read the sentences. The spelling mistake in each sentence is underlined. Write the correct spelling of the underlined word in the box.

41	A narrow bridge <u>joens</u> the island to the shore.	
42	The frog <u>jumed</u> from the rock into the pond.	
43	Tara <u>lerns</u> a new song on the recorder.	
44	Max <u>lisens</u> carefully to the safety instructions.	
45	The ranger <u>maneges</u> the park with a small team.	

Each line has one word that is incorrect. Write the correct spelling of the word in the box.

46	A red flag marrks the end of the running track.	
47	The carpenter measres the shelf before cutting it.	
48	The shadow mooves as the sun crosses the sky.	
49	Ava notces a crack in the flowerpot.	
50	The scientist obseves the insects through a lens.	

Murray River Turtles · Questions 1–6

Murray River Turtles

River turtles live in slow rivers and wetlands. They are well suited to this place, but they still need food, water and shelter to survive. Conditions can change across the day and through the seasons, so safe resting places are important.

Features such as webbed feet and smooth shells help them swim and rest near logs. These adaptations make everyday tasks easier and can also help them avoid danger. Young organisms survive best when their surroundings provide suitable food or nutrients and shelter.

They obtain what they need from water plants and small animals. As they live and grow in their habitat, they also become part of a larger food web that connects plants and animals. Changes to one part of this web can affect many other living things.

One challenge is damaged nesting banks. People can help by keeping riverbanks undisturbed, observing living things responsibly and leaving natural shelters undisturbed. Small, repeated actions can protect the habitat without preventing people from learning about it.

1 A waterway study clue asks: what is the main purpose of **Murray River Turtles**?

- A to advertise a wildlife toy B to explain how river turtles live and survive
C to tell a fantasy story about river turtles D to give instructions for catching river turtles

4 On a river camp card, which change would probably cause the greatest problem for river turtles?

- A more suitable food B careful wildlife watching
C damaged nesting banks D a protected shelter

2 During the river camp session, in **Murray River Turtles**, what does **adaptation** mean?

- A a feature that helps a living thing survive B a sudden loud warning
C a place where tickets are sold D a change in the weather forecast

5 At the river camp, in paragraph 2 of **Murray River Turtles**, who does **them** refer to?

- A the food sources B river turtles
C the people D the natural shelters

3 The waterway study check asks: how do features such as webbed feet and smooth shells help river turtles?

- A make their habitat disappear B turn their food into water
C stop every kind of danger D swim and rest near logs

6 For the waterway study, which heading would best suit the final paragraph of **Murray River Turtles**?

- A Helping River Turtles B A Make-Believe Adventure
C How to Build a Toy D A List of Australian Cities

Make a Paper Helicopter · Questions 7–12

Make a Paper Helicopter

Follow these steps to make a paper spinner and compare its fall. Work carefully and ask an adult for help whenever a material needs cutting or a location must be checked for safety. Read every step before beginning so the equipment can be arranged in the correct order. Keep the workspace tidy and use each material only as described. Check each observation before recording it.

Materials

- paper strips
- scissors
- paper clips
- a ruler
- a timer

Steps

1. Cut two equal blades.
2. Fold the blades in opposite directions.
3. Attach one paper clip.
4. Drop from the same height and time each fall.
5. Record the result clearly, then pack away all equipment.

7 During river camp work, what is the purpose of **Make a Paper Helicopter**?

- A** to write a fictional story **B** to advertise expensive equipment
C to decorate a party invitation **D** to make a paper spinner and compare its fall

10 A river camp card asks: what does **record** mean in the final step of **Make a Paper Helicopter**?

- A** write down **B** hide
C erase **D** guess

8 The waterway study team asks: what should be done first in **Make a Paper Helicopter**?

- A** attach one paper clip **B** pack away all equipment
C cut two equal blades **D** fold the blades in opposite directions

11 Before the waterway study, why should the result in **Make a Paper Helicopter** be recorded carefully?

- A** to make the equipment heavier **B** to use every material at once
C to prevent the title from changing **D** to make the result easier to check and compare

9 In the waterway study, why should the instructions for **Make a Paper Helicopter** be followed in order?

- A** so no observations are recorded **B** so each stage is completed before the next one begins
C so the title becomes longer **D** so the materials change colour

12 The river camp notice asks: which text feature most clearly shows that **Make a Paper Helicopter** is a procedure?

- A** rhyming lines **B** a labelled story setting
C a materials list and numbered steps **D** characters speaking to each other

The Message in the Bottle · Questions 13–18

The Message in the Bottle

Eli was helping near a rocky beach when Eli noticed a green bottle. It looked ordinary at first, but one detail seemed new. Eli looked around for clues before touching or moving anything.

As Eli examined it more closely, the message inside used symbols instead of words. Eli hesitated. The discovery was exciting, yet it might belong to someone else or be too delicate to handle alone. A hurried choice could damage both the object and the clues around it.

Instead of rushing ahead, Eli copied the symbols and compared them with trail signs. Each new clue matched something already visible in a rocky beach, so the search became careful rather than wild. Eli paused after every step to record what had changed.

At last, the symbols led to a safe nesting area that needed protection. Eli wrote a short note explaining where the object had been found and what had happened. The note included the order of the clues so another person could check the discovery.

By the end of the afternoon, the discovery had become part of the place's story. Eli was proud, not because the object was valuable, but because patience and careful thinking had protected it. The adults agreed that the object should stay with a clear label for future visitors.

13 While preparing the waterway study, why did Eli hesitate in **The Message in the Bottle**?

- A** the clues had all disappeared **B** the object might belong to someone or be delicate
C the location was already closed **D** the object was too heavy to see

16 At the river camp, decide: why was Eli's careful action important in **The Message in the Bottle**?

- A** it stopped anyone learning the result **B** it changed the location into a shop
C it protected the object and used the clues safely **D** it made the object disappear

14 A river camp challenge asks: what does **hesitated** mean in **The Message in the Bottle**?

- A** paused because of uncertainty **B** shouted with excitement
C ran away immediately **D** forgot the discovery

17 The waterway study question is: what changes by the end of **The Message in the Bottle**?

- A** all records of the discovery are removed **B** the discovery becomes part of the place's known story
C the location is permanently closed **D** the character throws the object away

15 To check the waterway study, what did Eli find at the beginning of **The Message in the Bottle**?

- A** a new school bag **B** a box of fresh food
C a broken sports trophy **D** a green bottle

18 In a river camp activity, which idea is most important in **The Message in the Bottle**?

- A** Patience and careful thinking can protect a discovery. **B** Valuable objects should always be hidden.
C Every old place is unsafe to visit. **D** Clues are useful only when found quickly.

Eli's Community Collection · Questions 19–24

Eli's Community Collection

The Year 3 team weighed four groups of donated supplies for a community project at the hall. The supplies were packed into containers before delivery.

Supply	Total mass	Containers
Cans	23 kg	6
Bottles	40 kg	8
Boxes	20 kg	5
Cartons	32 kg	4

- 19 The waterway study sheet asks: which supply in **Eli's Community Collection** had the greatest total mass?

A Cans B Boxes
C Cartons D Bottles

- 22 During the river camp session, why could fewer containers in **Eli's Community Collection** still have a greater total mass?

A Each container could be much heavier.
B The table counts only empty containers.
C The supplies have no mass.
D A smaller number is always greater.

- 20 For today's river camp task, what was the combined mass of the cans and boxes in **Eli's Community Collection**?

A 49 kg B 3 kg
C 43 kg D 37 kg

- 23 The waterway study check asks: what does **donated** mean in the introduction to **Eli's Community Collection**?

A sold at a high price B hidden underground
C weighed a second time D given to help others

- 21 A waterway study clue asks: if the bottles were shared equally among 8 containers, what mass would be in each container?

A 40 kg B 5 kg
C 8 kg D 32 kg

- 24 On a river camp card, which sentence best summarises **Eli's Community Collection**?

A Every container had exactly the same mass.
B The community returned all the supplies.
C Several supplies were weighed, packed and given to a community project.
D Only one type of supply was collected.

Sunrise at the Beach · Questions 25–30

Sunrise at the Beach

A orange light spreads through the air,
while gulls drift across the sky.
The sound of waves on the shore rises there,
and the rockpool reflects the sky.
Small surfaces shine beneath the light;
each one wears borrowed jewels bright.
My sandals cast shapes, dark and round,
then scatter them across the ground.
The shore, so noisy in the day,
grows soft as busy sounds fade away.
I feel hopeful and excited as I see
the changing world in front of me.

- 25 At the river camp, which line in **Sunrise at the Beach** shows that something is moving?

A I feel hopeful and excited as I see
B while gulls drift across the sky
C A orange light spreads through the air
D My sandals cast shapes, dark and round

- 28 The waterway study team asks: which detail from **Sunrise at the Beach** appeals most strongly to hearing?

A Borrowed jewels shine brightly. **B** Small surfaces shine beneath the light.
C The sound of waves on the shore rises there. **D** The rockpool reflects the sky.

- 26 For the waterway study, what are the **borrowed jewels** in **Sunrise at the Beach**?

A drops or bright reflections on surfaces **B** small hidden insects
C pieces of broken glass **D** painted yellow flowers

- 29 In the waterway study, how does the speaker feel in **Sunrise at the Beach**?

A sleepy and confused **B** hopeful and excited
C angry and frightened **D** bored and impatient

- 27 During river camp work, in **Sunrise at the Beach**, why does the poet say the **rockpool reflects the sky**?

A The rockpool is above the clouds. **B** The sky has fallen to the ground.
C The rockpool is completely dry. **D** The rockpool shows an image of the sky.

- 30 A river camp card asks: what is the main idea of **Sunrise at the Beach**?

A An ordinary place can look special when light, weather or time changes. **B** Walking outdoors is always dangerous.
C Busy sounds should never become quiet. **D** Reflections make every surface impossible to see.

Narrative Writing Task

The Sound from the Cave

Write a narrative about a character who hears a repeating sound from a safe cave entrance.

Plan your story

- Who is the main character, and where does the story begin?
- What makes the discovery unusual or important?
- What problem, risk or decision must the character face?
- Which clues or actions move the story forward?
- How is the problem resolved, and what changes at the end?

Remember

- Plan before you begin.
- Use paragraphs to organise events.
- Choose precise verbs and interesting details.
- Check spelling, punctuation and sentence boundaries.
- Give the narrative a clear ending.

Check: characters, setting, complication, ending, paragraphs, spelling and punctuation.

Writing space

Questions 1–3

- 1 Before the waterway study, solve this number trail: Which number comes next?
162, 171, 180, ____

A 181 B 189
C 180 D 198

- 2 The river camp notice shows this place-value label: What is the value of the digit 6 in **3,646**?

A 600 B 6
C 60 D 6000

- 3 While preparing the waterway study, answer this number comparison: Which statement about **428** and **472** is true?

A $428 > 472$ B $428 = 472$
C $472 < 428$ D $428 < 472$

Questions 4–6

4 A river camp challenge uses this total calculation: What is $264 + 148$?

- A 422 B 116
C 412 D 402

5 To check the waterway study, solve this difference calculation: What is $650 - 282$?

- A 932 B 368
C 358 D 378

6 At the river camp, decide this equal-group count: There are 7 trays with 7 muffins on each tray. How many muffins are there altogether?

- A 49 B 42
C 56 D 14

Questions 7–9

- 7 The next waterway study task is a fair-sharing problem: 35 stickers are shared equally among 5 children. How many stickers does each child receive?

A 5 B 9
C 30 D 7

- 8 In a river camp session, complete this odd-number sort: Which number is odd in Paper 6?

A 54 B 56
C 53 D 52

- 9 The waterway study sheet includes this missing-factor puzzle: Which number makes this equation true?
 $5 \times \square = 35$

A 8 B 7
C 5 D 6

Questions 10–12

10 For today's river camp work, solve this coin total: Eli has 4 two-dollar coins and 5 one-dollar coins. How much money is there altogether?

- A \$13 B \$11
C \$15 D \$17

11 A waterway study clue requires this finishing-time check: A lesson starts at 8:20 am and lasts 30 minutes. When does it finish?

- A 8:30 am B 8:00 am
C 9:50 am D 8:50 am

12 During the river camp session, answer this calendar jump: Today is Sunday. What day will it be in 8 days?

- A Tuesday B Wednesday
C Monday D Sunday

Questions 13–15

- 13 The waterway study check uses this length conversion: How many centimetres are equal to 8 metres?

A 8 cm B 800 cm
C 80 cm D 8000 cm

- 14 On a river camp card, complete this boundary measurement: A rectangle is 6 cm long and 4 cm wide. What is its perimeter?

A 20 cm B 10 cm
C 24 cm D 2 cm

- 15 At the river camp, solve this square-unit diagram: How many square units cover the rectangle shown in Paper 6?

A 6 B 18
C 8 D 12

Questions 16–18

- 16 For the waterway study, answer this capacity match: Which amount is equal to 3 litres?

A 30 mL B 30000 mL
C 3000 mL D 300 mL

- 17 A river camp activity includes this mass comparison: A bag of rice has a mass of 1020 g. A bag of pasta has a mass of 660 g. How much heavier is the rice?

A 660 g B 360 g
C 1680 g D 460 g

- 18 The waterway study team needs this fraction diagram solved: What fraction of the bar in Paper 6 is shaded?

A $\frac{8}{10}$ B $\frac{8}{11}$
C $\frac{9}{10}$ D $\frac{7}{10}$

Questions 19–21

19 In the waterway study, complete this halving problem: What is half of 52?

- A 23 B 29
C 50 D 26

20 A river camp card gives this symmetry diagram: How many lines of symmetry does the rectangle shown in Paper 6 have?

- A 1 B 4
C 2 D 0

21 Before the waterway study, solve this angle description: Which description matches an angle of 60 degrees?

- A a straight angle B an acute angle
C a right angle D an obtuse angle

Questions 22–24

- 22 The river camp notice shows this solid-shape check: How many faces does the cube shown in Paper 6 have?

- A 6 B 4
C 8 D 12

- 23 While preparing the waterway study, answer this grid-location clue: On the Paper 6 map, which location is in square B2?

	A	B	C	D
1	tree		pond	
2		gate	bench	
3				

- A pond B bench
C tree D gate

- 24 A river camp challenge uses this data-table question: A class recorded books read in Paper 6: Monday 16, Tuesday 27, Wednesday 18, Thursday 14. On which day were the most books read?

- A Wednesday B Thursday
C Tuesday D Monday

Questions 25–27

- 25 To check the waterway study, solve this graph comparison: The Paper 6 graph shows points scored by four teams. How many more points did team B score than team W?

- A 14 B 3
C 5 D 17

- 26 At the river camp, decide this chance experiment: A Paper 6 spinner has 1 red, 2 blue, 1 green and 1 yellow equal sections. Which colour is most likely?

- A blue B red
C green D yellow

- 27 The next waterway study task is a growing pattern: Which number comes next in Paper 6?
8, 12, 16, 20, ____

- A 20 B 28
C 25 D 24

Questions 28–30

- 28 In a river camp session, complete this missing-addend puzzle: Which number makes this equation true in Paper 6?
 $24 + \square = 57$

A 24 B 81
C 33 D 28

- 29 The waterway study sheet includes this array-and-remainder problem: A small bus has 6 rows with 5 seats in each row. 4 seats are empty. How many seats are occupied?

A 15 B 26
C 30 D 22

- 30 For today's river camp work, solve this two-step grouping problem: A gardener has 60 seedlings. She plants 6 rows of 5 seedlings. How many seedlings are left?

A 30 B 54
C 31 D 35

Conventions of Language · L1–L25

L1 · C — an

Use *an* before the vowel sound at the start of *apron*.

L14 · B — “The samples are ready!” called Henry.

The spoken words and exclamation mark stay inside the speech marks.

L2 · B — collected

Collected names the action Henry performed, so it is the verb.

L15 · A — On Monday, Eli visited Sydney.

The sentence begins with a capital, and *Monday*, *Eli* and *Sydney* are proper nouns.

L3 · A — collected

Last week shows the action happened in the past, so *collected* is correct.

L16 · D — goat's

The singular possessive form *goat's* shows ownership.

L4 · D — carefully

Carefully describes how the team completed the action.

L17 · C — Their

Their shows that the items belong to a group.

L5 · C — Eli and I prepared the samples.

The subject pronoun *I* is correct because the speaker is part of the subject.

L18 · B — The river sample was placed beside the river camp.

The correct option has a subject, a verb and a complete idea.

L6 · B — because

Because introduces the reason for working that way.

L19 · A — They

They replaces two named people.

L7 · A — theirs

Theirs shows that the item belongs to the two named people.

L20 · D — is

The main subject *box* is singular, so *is* is correct.

L8 · D — The dolphins move towards the shelter.

The plural subject *dolphins* agrees with the verb *move*.

L21 · C — Before leaving, return the samples.

A comma follows the introductory clause.

L9 · C — weekdays

All three examples are weekdays.

L22 · B — children's

The lunchboxes belong to more than one member of the group; the possessive form is *children's*.

L10 · B — .

A calm command is a complete sentence and can end with a full stop.

L23 · A — When will the waterway study begin at the river camp

The correct option directly asks for information.

L11 · A — haven't

The apostrophe in *haven't* marks letters omitted from *have not*.

L24 · D — “Bring the samples, please,” called Eli.

The comma stays inside the closing speech mark before the reporting clause.

L12 · D — After the gates opened, we arranged the samples.

A comma separates the introductory clause from the main clause.

L25 · C — Neither of the samples is labelled.

The singular subject *neither* agrees with *is*.

L13 · C — Where should we store the samples after the waterway study

The correct option asks a direct question, so it needs a question mark.

Conventions of Language · L26–L50

L26 · protect

Teacher script: say *protect*, pause, then repeat *protect*.

L27 · provide

Teacher script: say *provide*, pause, then repeat *provide*.

L28 · question

Teacher script: say *question*, pause, then repeat *question*.

L29 · reread

Teacher script: say *reread*, pause, then repeat *reread*.

L30 · receive

Teacher script: say *receive*, pause, then repeat *receive*.

L31 · records

Teacher script: say *records*, pause, then repeat *records*.

L32 · reduce

Teacher script: say *reduce*, pause, then repeat *reduce*.

L33 · remember

Teacher script: say *remember*, pause, then repeat *remember*.

L34 · repeat

Teacher script: say *repeat*, pause, then repeat *repeat*.

L35 · report

Teacher script: say *report*, pause, then repeat *report*.

L36 · return

Teacher script: say *return*, pause, then repeat *return*.

L37 · sailed

Teacher script: say *sailed*, pause, then repeat *sailed*.

L38 · search

Teacher script: say *search*, pause, then repeat *search*.

L39 · share

Teacher script: say *share*, pause, then repeat *share*.

L40 · shows

Teacher script: say *shows*, pause, then repeat *shows*.

L41 · joins

The incorrect word *joens* should be spelled *joins*.

L42 · jumped

The incorrect word *jumed* should be spelled *jumped*.

L43 · learns

The incorrect word *lerns* should be spelled *learns*.

L44 · listens

The incorrect word *lisens* should be spelled *listens*.

L45 · manages

The incorrect word *maneges* should be spelled *manages*.

L46 · marks

The incorrect word *marks* should be spelled *marks*.

L47 · measures

The incorrect word *measres* should be spelled *measures*.

L48 · moves

The incorrect word *mooves* should be spelled *moves*.

L49 · notices

The incorrect word *notces* should be spelled *notices*.

L50 · observes

The incorrect word *obseves* should be spelled *observes*.

Reading · R1–R15

R1 · B — to explain how river turtles live and survive

The text gives factual information about the habitat, features, food and needs of river turtles.

R9 · B — so each stage is completed before the next one begins

The earlier steps prepare the activity, while the later steps produce and record the result.

R2 · A — a feature that helps a living thing survive

The passage explains that the feature helps the living thing complete tasks and avoid danger.

R10 · A — write down

Here, *record* means to write down the observation or result.

R3 · D — swim and rest near logs

Paragraph 2 states that these features help them swim and rest near logs.

R11 · D — to make the result easier to check and compare

A clear record makes an observation or result easier to check and compare.

R4 · C — damaged nesting banks

The final paragraph identifies damaged nesting banks as a challenge.

R12 · C — a materials list and numbered steps

Procedures commonly use a materials list and ordered steps.

R5 · B — river turtles

The pronoun *them* refers back to river turtles.

R13 · B — the object might belong to someone or be delicate

The second paragraph says the object might belong to someone else or be too delicate to handle alone.

R6 · A — Helping River Turtles

The paragraph describes a threat and actions people can take to help river turtles.

R14 · A — paused because of uncertainty

The character pauses to think about ownership and safety.

R7 · D — to make a paper spinner and compare its fall

The introduction states that the steps are used to make a paper spinner and compare its fall.

R15 · D — a green bottle

The first paragraph says that Eli noticed a green bottle.

R8 · C — cut two equal blades

The first numbered step says to cut two equal blades.

Reading · R16–R30

R16 · C — it protected the object and used the clues safely

The character asks for help or checks evidence instead of handling the discovery carelessly.

R24 · C — Several supplies were weighed, packed and given to a community project.

This option includes the main ideas from the introduction and table.

R17 · B — the discovery becomes part of the place's known story

The final paragraph explains that the discovery becomes part of the place's story.

R25 · B — while gulls drift across the sky

The words *gulls drift across* describe movement through the sky.

R18 · A — Patience and careful thinking can protect a discovery.

The character succeeds by slowing down, checking clues and protecting the object.

R26 · A — drops or bright reflections on surfaces

The shining drops or reflections look like jewels under the light.

R19 · D — Bottles

Bottles had a total mass of 40 kg, the greatest value in the table.

R27 · D — The rockpool shows an image of the sky.

A reflective surface can show an image of the sky like a mirror.

R20 · C — 43 kg

23 kg + 20 kg = 43 kg.

R28 · C — The sound of waves on the shore rises there.

This line directly describes a sound in the scene.

R21 · B — 5 kg

40 kg shared among 8 containers gives 5 kg in each container.

R29 · B — hopeful and excited

The poem directly says that the speaker feels hopeful and excited.

R22 · A — Each container could be much heavier.

The number of containers does not show the mass inside each one.

R30 · A — An ordinary place can look special when light, weather or time changes.

The poem notices how familiar surroundings become beautiful and interesting.

R23 · D — given to help others

The supplies were given for a community project.

Numeracy · N1–N15**N1 · B — 189**

The pattern adds 9 each time, so the next number is 189.

N9 · B — 7

$5 \times 7 = 35$.

N2 · A — 600

The digit 6 is in the hundreds place, so its value is 600.

N10 · A — \$13

$4 \times \$2 = \8 , and $5 \times \$1 = \5 . Altogether this is \$13.

N3 · D — $428 < 472$

428 has fewer tens than 472, so $428 < 472$.

N11 · D — 8:50 am

Adding 30 minutes to 8:20 am gives 8:50 am.

N4 · C — 412

$264 + 148 = 412$.

N12 · C — Monday

Move forward 8 days from Sunday to reach Monday.

N5 · B — 368

$650 - 282 = 368$.

N13 · B — 800 cm

1 metre = 100 centimetres, so 8 metres = 800 centimetres.

N6 · A — 49

7 groups of 7 is $7 \times 7 = 49$.

N14 · A — 20 cm

Perimeter = $6 + 4 + 6 + 4 = 20$ cm.

N7 · D — 7

$35 \div 5 = 7$ stickers each.

N15 · D — 12

The rectangle has 2 rows of 6 squares: $2 \times 6 = 12$ square units.

N8 · C — 53

53 cannot be divided into pairs with none left over, so it is odd.

Numeracy · N16–N30

N16 · C — 3000 mL

1 litre = 1000 millilitres, so 3 litres = 3000 mL.

N24 · C — Tuesday

Tuesday has the greatest value, 27.

N17 · B — 360 g

$1020\text{ g} - 660\text{ g} = 360\text{ g}$.

N25 · B — 3

Team B scored 17 points and team W scored 14 points. $17 - 14 = 3$.

N18 · A — 8/10

The bar has 10 equal parts and 8 are shaded, so the fraction is 8/10.

N26 · A — blue

Blue covers 2 of the 5 equal sections, more than any other colour.

N19 · D — 26

52 divided into 2 equal groups gives 26 in each group.

N27 · D — 24

The pattern adds 4 each time, so the next number is 24.

N20 · C — 2

A rectangle has 2 lines of symmetry.

N28 · C — 33

$57 - 24 = 33$, so $24 + 33 = 57$.

N21 · B — an acute angle

60 degrees is less than 90 degrees, so it is an acute angle.

N29 · B — 26

There are $6 \times 5 = 30$ seats. $30 - 4 = 26$ occupied seats.

N22 · A — 6

A cube has 6 flat faces.

N30 · A — 30

$6 \times 5 = 30$ seedlings are planted. $60 - 30 = 30$ seedlings remain.

N23 · D — gate

The map shows gate in column B, row 2.

Writing review: Check for a clear opening, complication and ending; paragraphing; precise vocabulary; complete sentences; controlled punctuation; and carefully checked spelling.
