- A Neither of the clouds are unlabelled. B Neither of the cloud is unlabelled.
C Neither the clouds are unlabelled. D Neither of the clouds is unlabelled.

Spelling · Questions 26–50

- 26 The storm journal sheet asks: carefully find the underlined spelling error and write its correction.

The costume's appearence changed under the lights.

- 27 For today's weather station task, correct the one underlined word in this sentence for the class.

The song sounded familar to Layla.

- 28 A storm journal clue asks: read the sentence, then write the correct spelling of the underlined word.

The quiz tested our knowlege of animals.

- 29 During the weather station session, the underlined word is misspelt. Write its correct spelling on the line.

It will probly rain this afternoon.

- 30 The storm journal check asks: replace the single underlined error with its correct spelling for the final copy.

Nina usualy walks home with Layla.

- 31 On a weather station card, carefully find the underlined spelling error and write its correction.

The class will finish the model tommorow.

- 32 At the weather station, correct the one underlined word in this sentence for the class.

Do not stand near the cliff egde.

- 33 For the storm journal, read the sentence, then write the correct spelling of the underlined word.

The family decided to adobt a rescue dog.

- 34 During weather station work, the underlined word is misspelt. Write its correct spelling on the line.

Wich path leads to the visitor centre?

- 35 The storm journal team asks: replace the single underlined error with its correct spelling for the final copy.

A storm is comming from the west.

- 36 In the storm journal, carefully find the underlined spelling error and write its correction.

The bus carried fourty passengers.

- 37 A weather station card asks: correct the one underlined word in this sentence for the class.

The smooth stone formed naturaly in the river.

- 38 Before the storm journal, read the sentence, then write the correct spelling of the underlined word.

The bridge's strenght was tested with blocks.

- 39 The weather station notice asks: the underlined word is misspelt. Write its correct spelling on the line.

The class practised writting clear paragraphs.

- 40 While preparing the storm journal, replace the single underlined error with its correct spelling for the final copy.

The parcel contained a wonderful surprize.

- 41 A weather station challenge asks: carefully find the underlined spelling error and write its correction.

Nina misunderstood the directions.

- 42 To check the storm journal, correct the one underlined word in this sentence for the class.

The story has an exciting begining.

- 43 At the weather station, decide: read the sentence, then write the correct spelling of the underlined word.

Check the adress before posting the letter.

- 44 The storm journal question is: the underlined word is misspelt. Write its correct spelling on the line.

Regular exercise helps keep bodies healthy.

- 45 In a weather station activity, replace the single underlined error with its correct spelling for the final copy.

The alarm rang and everyone stopped immediatly.

- 46 The storm journal sheet asks: carefully find the underlined spelling error and write its correction.

Is it possable to finish before lunch?

- 47 For today's weather station task, correct the one underlined word in this sentence for the class.

The cave was truley enormous.

- 48 A storm journal clue asks: read the sentence, then write the correct spelling of the underlined word.

Each shell had a diferent pattern.

- 49 During the weather station session, the underlined word is misspelt. Write its correct spelling on the line.

Put the cereal in the cupbord.

- 50 The storm journal check asks: replace the single underlined error with its correct spelling for the final copy.

Layla spent the morning cleening the room.

Wetland Frogs · Questions 1–6

Wetland Frogs

Wetland frogs live in reed beds and shallow ponds. They are well suited to this place, but they still need food, water and shelter to survive. Conditions can change across the day and through the seasons, so safe resting places are important.

Their powerful legs and moist skin help them leap and breathe near water. This adaptation makes everyday tasks easier and can also help them avoid danger. Young animals learn where to feed and shelter by following adults or responding to their surroundings.

They feed on insects and spiders. As they move through their habitat, they also become part of a larger food web that connects plants and animals. Changes to one part of this web can affect many other living things.

One challenge is polluted water. People can help by keeping drains free of chemicals, observing wildlife from a distance and leaving natural shelters undisturbed. Small, repeated actions can protect the habitat without preventing people from learning about it.

1 On a weather station card, what is the main purpose of **Wetland Frogs**?

- A to give instructions for catching wetland frogs B to advertise a wildlife toy
C to explain how wetland frogs live and survive D to tell a fantasy story about wetland frogs

4 During weather station work, which change would probably cause the greatest problem for wetland frogs?

- A a protected shelter B more suitable food
C careful wildlife watching D polluted water

2 At the weather station, in **Wetland Frogs**, what does **adaptation** mean?

- A a change in the weather forecast B a feature that helps a living thing survive
C a sudden loud warning D a place where tickets are sold

5 The storm journal team asks: in paragraph 2 of **Wetland Frogs**, who does **them** refer to?

- A the natural shelters B the food sources
C wetland frogs D the people

3 For the storm journal, how does the powerful legs and moist skin help wetland frogs?

- A leap and breathe near water B make their habitat disappear
C turn their food into water D stop every kind of danger

6 In the storm journal, which heading would best suit the final paragraph of **Wetland Frogs**?

- A A List of Australian Cities B Helping Wetland Frogs
C A Make-Believe Adventure D How to Build a Toy

Compare Soil Drainage · Questions 7–12

Compare Soil Drainage

Follow these steps to make a fair test of how quickly soils drain. Work carefully and ask an adult for help whenever a material needs cutting or a location must be checked for safety. Read every step before beginning so the equipment can be arranged in the correct order.

Materials

- three cups with holes
- sand
- garden soil
- clay soil
- equal cups of water

Steps

1. Place equal soil amounts in the cups.
2. Stand each cup over a container. Check that it is secure before continuing.
3. Pour in equal water amounts. Use the same method each time so the result is fair.
4. Compare the water collected after five minutes.
5. Record the result clearly, compare it with the earlier observation, then pack away all equipment.

7 A weather station card asks: what is the purpose of **Compare Soil Drainage**?

- A** to make a fair test of how quickly soils drain **B** to write a fictional story
- C** to advertise expensive equipment **D** to decorate a party invitation

10 While preparing the storm journal, what does **record** mean in the final step of **Compare Soil Drainage**?

- A** guess **B** write down
- C** hide **D** erase

8 Before the storm journal, what should be done first in **Compare Soil Drainage**?

- A** stand each cup over a container **B** pour in equal water amounts
- C** pack away all equipment **D** place equal soil amounts in the cups

11 A weather station challenge asks: why does **Compare Soil Drainage** ask for careful measurements or repeated observations?

- A** to make the comparison or result more reliable **B** to make the equipment heavier
- C** to use every material at once **D** to prevent the title from changing

9 The weather station notice asks: why should the instructions for **Compare Soil Drainage** be followed in order?

- A** so the materials change colour **B** so no observations are recorded
- C** so the equipment is prepared before the result is measured **D** so the title becomes longer

12 To check the storm journal, which text feature most clearly shows that **Compare Soil Drainage** is a procedure?

- A** characters speaking to each other **B** rhyming lines
- C** a labelled story setting **D** a materials list and numbered steps

The Kite Above the Fog · Questions 13–18

The Kite Above the Fog

Nina was helping to tidy a misty oval when Nina noticed a bright kite. It looked ordinary at first, but a tiny mark on its side seemed freshly scratched. Dust lay everywhere except beneath the object, as though it had recently been moved.

As soon as Nina picked it up, the kite string tugged towards the empty equipment shed. Nina hesitated. The discovery was exciting, yet it might belong to someone else or be too delicate to handle alone. A hurried choice could damage both the object and the clues around it.

Instead of rushing ahead, Nina followed the string while staying with her coach. Each new clue matched something already visible in a misty oval, so the search became careful rather than wild. Nina paused after every step to record what had changed.

At last, a trapped bird flew free when the shed door opened. Nina wrote a short note explaining where the object had been found and what had happened. The note included the order of the clues so another person could check the discovery.

By the end of the afternoon, the discovery had become part of the place's story. Nina was proud, not because the object was valuable, but because patience and careful thinking had protected it. The adults agreed that the object should stay with a clear label for future visitors.

13 At the weather station, decide: why did Nina hesitate in **The Kite Above the Fog**?

- | | |
|--|--|
| A the object was too heavy to see | B the clues had all disappeared |
| C the object might belong to someone or be delicate | D the location was already closed |

16 The storm journal sheet asks: why was Nina's careful action important in **The Kite Above the Fog**?

- | | |
|--|--|
| A it made the object disappear | B it stopped anyone learning the result |
| C it changed the location into a shop | D it protected the object and used the clues safely |

14 The storm journal question is: what does **hesitated** mean in **The Kite Above the Fog**?

- | | |
|----------------------------------|--|
| A forgot the discovery | B paused because of uncertainty |
| C shouted with excitement | D ran away immediately |

17 For today's weather station task, what changes by the end of **The Kite Above the Fog**?

- | | |
|--|---|
| A the character throws the object away | B all records of the discovery are removed |
| C the discovery becomes part of the place's known story | D the location is permanently closed |

15 In a weather station activity, what did Nina find at the beginning of **The Kite Above the Fog**?

- | | |
|------------------------------|---------------------------------|
| A a bright kite | B a new school bag |
| C a box of fresh food | D a broken sports trophy |

18 A storm journal clue asks: which idea is most important in **The Kite Above the Fog**?

- | | |
|--|---|
| A Clues are useful only when found quickly. | B Patience and careful thinking can protect a discovery. |
| C Valuable objects should always be hidden. | D Every old place is unsafe to visit. |

Nina's Community Collection · Questions 19–24

Nina's Community Collection

The Year 3 team weighed four groups of donated supplies for the the workshop community project. The supplies were packed into containers before delivery.

Supply	Total mass	Containers
Soap	26 kg	6
Shampoo	40 kg	8
Toothpaste	15 kg	5
Brushes	44 kg	4

- 19 During the weather station session, which supply in **Nina's Community Collection** had the greatest total mass?

A Brushes B Soap
C Shampoo D Toothpaste

- 22 At the weather station, why could fewer containers in **Nina's Community Collection** still have a greater total mass?

A A smaller number is always greater. B Each container could be much heavier.
C The table counts only empty containers. D The supplies have no mass.

- 20 The storm journal check asks: what was the combined mass of the soap and toothpaste in **Nina's Community Collection**?

A 35 kg B 47 kg
C 11 kg D 41 kg

- 23 For the storm journal, what does **donated** mean in the introduction to **Nina's Community Collection**?

A given to help others B sold at a high price
C hidden underground D weighed a second time

- 21 On a weather station card, if the shampoo were shared equally among 8 containers, what mass would be in each container?

A 32 kg B 40 kg
C 5 kg D 8 kg

- 24 During weather station work, which sentence best summarises **Nina's Community Collection**?

A Only one type of supply was collected. B Every container had exactly the same mass.
C The community returned all the supplies. D Several supplies were weighed, packed and given to a community project.

Storm Leaving Town · Questions 25–30

Storm Leaving Town

The roofs taps a copper tune,
while clouds drift beyond the moon.
The drain holds the evening sky
and lets one crooked star float by.
Small surfaces shine beneath the light;
each one has borrowed jewels tonight.
My boots make shapes, dark and round,
then scatter them across the ground.
The lane, so noisy in the day,
grows soft as busy sounds fade away.
I move more slowly, just to see
the changing world in front of me.

25 The storm journal team asks: which line in **Storm Leaving Town** shows that something is moving away?

- A My boots make shapes, dark and round
B I move more slowly, just to see
C while clouds drift beyond the moon
D The roofs taps a copper tune

28 Before the storm journal, which detail from **Storm Leaving Town** appeals most strongly to hearing?

- A The drain holds the evening sky.
B One crooked star floats by.
C Small surfaces shine beneath the light.
D The roofs taps a copper tune.

26 In the storm journal, what are the **borrowed jewels** in **Storm Leaving Town**?

- A painted yellow flowers
B drops or bright reflections on surfaces
C small hidden insects
D pieces of broken glass

29 The weather station notice asks: how does the speaker feel in **Storm Leaving Town**?

- A bored and impatient
B sleepy and confused
C relieved and interested
D angry and frightened

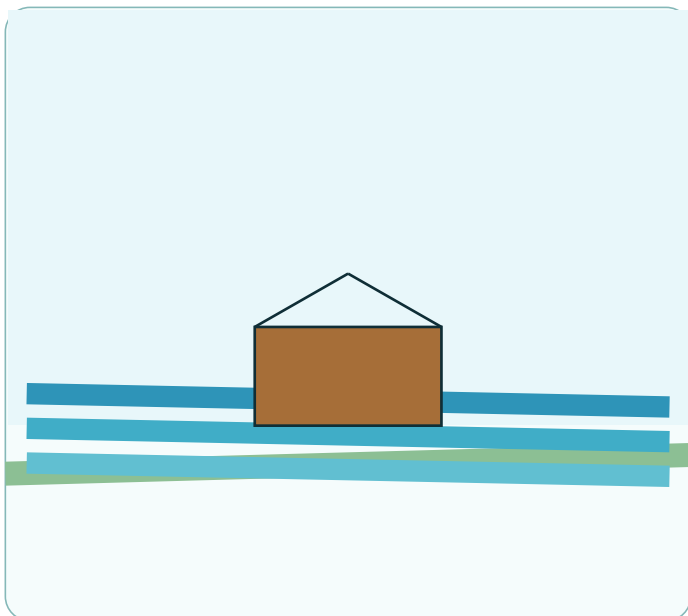

27 A weather station card asks: in **Storm Leaving Town**, why does the poet say the **drain holds the evening sky**?

- A The drain reflects the sky.
B The drain is above the clouds.
C The sky has fallen to the ground.
D The drain is completely dry.

30 While preparing the storm journal, what is the main idea of **Storm Leaving Town**?

- A Reflections make every surface impossible to see.
B An ordinary place can look special when light, weather or time changes.
C Walking outdoors is always dangerous.
D Busy sounds should never become quiet.

Narrative Writing Task

The Chest under the Sand

Write a narrative about a small chest uncovered on a beach after a storm.

Plan your story

- Who is the main character, and where does the story begin?
- What makes the discovery unusual or important?
- What problem, risk or decision must the character face?
- Which clues or actions move the story forward?
- How is the problem resolved, and what changes at the end?

Remember

- Plan before you begin.
- Use paragraphs to organise events.
- Choose precise verbs and interesting details.
- Check spelling, punctuation and sentence boundaries.
- Give the narrative a clear ending.

Check: characters, setting, complication, ending, paragraphs, spelling and punctuation.

Writing space

Questions 1–3

- 1 A weather station challenge uses this number trail: Which number comes next?
183, 195, 207, ____

A 231 B 208
C 219 D 207

- 2 To check the storm journal, solve this place-value label: What is the value of the digit 6 in 3,649?

A 6000 B 600
C 6 D 60

- 3 At the weather station, decide this number comparison: Which statement about 437 and 478 is true?

A $437 < 478$ B $437 > 478$
C $437 = 478$ D $478 < 437$

Questions 4–6

4 The next storm journal task is a total calculation: What is $276 + 157$?

- A 423 B 443
C 119 D 433

5 In a weather station session, complete this difference calculation: What is $665 - 288$?

- A 387 B 953
C 377 D 367

6 The storm journal sheet includes this equal-group count: There are 6 trays with 10 muffins on each tray. How many muffins are there altogether?

- A 16 B 60
C 54 D 66

Questions 7–9

- 7 For today's weather station work, solve this fair-sharing problem: 40 stickers are shared equally among 4 children. How many stickers does each child receive?

A 10 B 8
C 12 D 36

- 8 A storm journal clue requires this odd-number sort: Which number is odd in Paper 9?

A 58 B 60
C 62 D 59

- 9 During the weather station session, answer this missing-factor puzzle: Which number makes this equation true?
 $8 \times \square = 56$

A 6 B 8
C 7 D 5

Questions 10–12

10 The storm journal check uses this coin total: Nina has 3 two-dollar coins and 6 one-dollar coins. How much money is there altogether?

- A \$16 B \$12
C \$10 D \$14

11 On a weather station card, complete this finishing-time check: A lesson starts at 8:40 am and lasts 25 minutes. When does it finish?

- A 9:05 am B 8:50 am
C 9:15 am D 10:05 am

12 At the weather station, solve this calendar jump: Today is Wednesday. What day will it be in 11 days?

- A Saturday B Monday
C Tuesday D Sunday

Questions 13–15

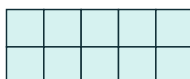

- 13 For the storm journal, answer this length conversion: How many centimetres are equal to 4 metres?

A 4000 cm B 4 cm
C 400 cm D 40 cm

- 14 A weather station activity includes this boundary measurement: A rectangle is 9 cm long and 7 cm wide. What is its perimeter?

A 2 cm B 32 cm
C 16 cm D 36 cm

- 15 The storm journal team needs this square-unit diagram solved: How many square units cover the rectangle shown in Paper 9?

A 10 B 5
C 15 D 7

Questions 16–18

- 16 In the storm journal, complete this capacity match: Which amount is equal to 2 litres?

A 200 mL B 20 mL
C 20000 mL D 2000 mL

- 17 A weather station card gives this mass comparison: A bag of rice has a mass of 1080 g. A bag of pasta has a mass of 690 g. How much heavier is the rice?

A 490 g B 690 g
C 390 g D 1770 g

- 18 Before the storm journal, solve this fraction diagram: What fraction of the bar in Paper 9 is shaded?

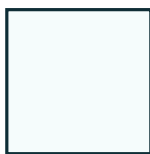

A $\frac{5}{8}$ B $\frac{6}{8}$
C $\frac{6}{9}$ D $\frac{7}{8}$

Questions 19–21

- 19 The weather station notice shows this halving problem: What is half of 58?

A 29 B 26
C 32 D 56

- 20 While preparing the storm journal, answer this symmetry diagram: How many lines of symmetry does the square shown in Paper 9 have?

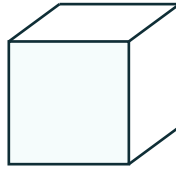

A 0 B 1
C 3 D 4

- 21 A weather station challenge uses this angle description: Which description matches an angle of 45 degrees?

A an obtuse angle B a straight angle
C an acute angle D a right angle

Questions 22–24

- 22 To check the storm journal, solve this solid-shape check: How many faces does the rectangular prism shown in Paper 9 have?

A 12 B 6
C 4 D 8

- 23 At the weather station, decide this grid-location clue: On the Paper 9 map, which location is in square C2?

	A	B	C	D
1			pond	
2		gate	bench	
3				tree

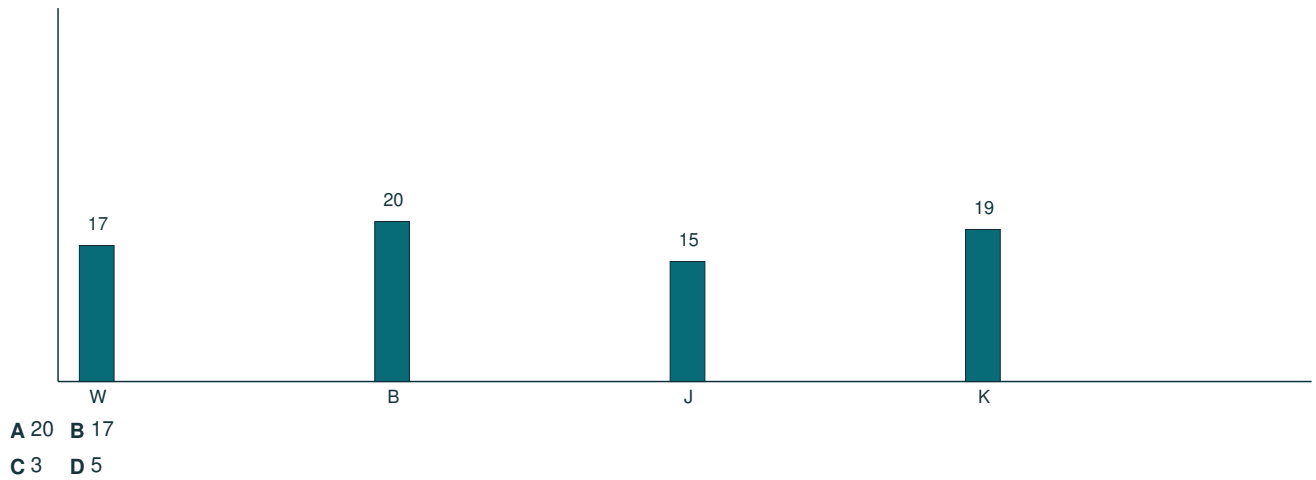

A bench B pond
C gate D tree

- 24 The next storm journal task is a data-table question: A class recorded books read in Paper 9: Monday 19, Tuesday 33, Wednesday 21, Thursday 17. On which day were the most books read?

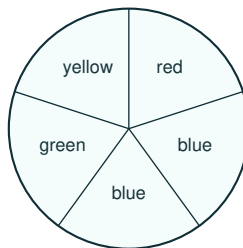

A Monday B Wednesday
C Thursday D Tuesday

Questions 25–27

- 25 In a weather station session, complete this graph comparison: The Paper 9 graph shows points scored by four teams. How many more points did team B score than team W?

- 26 The storm journal sheet includes this chance experiment: A Paper 9 spinner has 1 red, 2 blue, 1 green and 1 yellow equal sections. Which colour is most likely?

- A yellow B blue
C red D green

- 27 For today's weather station work, solve this growing pattern: Which number comes next in Paper 9?
11, 18, 25, 32, ____

- A 39 B 32
C 46 D 40

Questions 28–30

- 28 A storm journal clue requires this missing-addend puzzle: Which number makes this equation true in Paper 9?
 $27 + \square = 63$

A 31 B 27
C 90 D 36

- 29 During the weather station session, answer this array-and-remainder problem: A small bus has 5 rows with 5 seats in each row. 3 seats are empty. How many seats are occupied?

A 19 B 13
C 22 D 25

- 30 The storm journal check uses this two-step grouping problem: A gardener has 69 seedlings. She plants 5 rows of 5 seedlings. How many seedlings are left?

A 49 B 44
C 64 D 26

Conventions of Language · L1–L25

L1 · D — an

Use *an* before the vowel sound at the start of *island*.

L14 · C — “The clouds are ready!” called Layla.

The spoken words and exclamation mark stay inside the speech marks.

L2 · C — sketched

Sketched names the action Layla performed, so it is the verb.

L15 · B — On Monday, Nina visited Ballarat.

The sentence begins with a capital, and *Monday*, *Nina* and *Ballarat* are proper nouns.

L3 · B — sketched

Last week shows the action happened in the past, so *sketched* is correct.

L16 · A — puppy's

The singular possessive form *puppy's* shows ownership.

L4 · A — patiently

Patiently describes how the team completed the action.

L17 · D — Their

Their shows that the items belong to a group.

L5 · D — Nina and I prepared the clouds.

The subject pronoun *I* is correct because the speaker is part of the subject.

L18 · C — The stormy cloud stood beside the weather station.

The correct option has a subject, a verb and a complete idea.

L6 · C — because

Because introduces the reason for working that way.

L19 · B — They

They replaces two named people.

L7 · B — theirs

Theirs shows that the item belongs to the two named people.

L20 · A — is

The main subject *box* is singular, so *is* is correct.

L8 · A — The penguins chase the ball.

The plural subject *penguins* agrees with the verb *chase*.

L21 · D — As you leave, return the clouds.

A comma follows the introductory clause.

L9 · D — flowers

All three examples are flowers.

L22 · C — artists'

The lunchboxes belong to more than one member of the group; the possessive form is *artists'*.

L10 · C — .

A calm command is a complete sentence and can end with a full stop.

L23 · B — When will the storm journal begin at the weather station

The correct option directly asks for information.

L11 · B — you're

The apostrophe in *you're* marks letters omitted from *you are*.

L24 · A — “Bring the clouds, please,” called Nina.

The comma stays inside the closing speech mark before the reporting clause.

L12 · A — When the rain stopped, we arranged the clouds.

A comma separates the introductory clause from the main clause.

L25 · D — Neither of the clouds is unlabelled.

The singular subject *neither* agrees with *is*.

L13 · D — Where should we store the clouds after the storm journal

The correct option asks a direct question, so it needs a question mark.

Conventions of Language · L26–L50

L26 · appearance

The correct spelling is *appearance*.

L39 · writing

The correct spelling is *writing*.

L27 · familiar

The correct spelling is *familiar*.

L40 · surprise

The correct spelling is *surprise*.

L28 · knowledge

The correct spelling is *knowledge*.

L41 · misunderstood

The correct spelling is *misunderstood*.

L29 · probably

The correct spelling is *probably*.

L42 · beginning

The correct spelling is *beginning*.

L30 · usually

The correct spelling is *usually*.

L43 · address

The correct spelling is *address*.

L31 · tomorrow

The correct spelling is *tomorrow*.

L44 · exercise

The correct spelling is *exercise*.

L32 · edge

The correct spelling is *edge*.

L45 · immediately

The correct spelling is *immediately*.

L33 · adopt

The correct spelling is *adopt*.

L46 · possible

The correct spelling is *possible*.

L34 · which

The correct spelling is *which*.

L47 · truly

The correct spelling is *truly*.

L35 · coming

The correct spelling is *coming*.

L48 · different

The correct spelling is *different*.

L36 · forty

The correct spelling is *forty*.

L49 · cupboard

The correct spelling is *cupboard*.

L37 · naturally

The correct spelling is *naturally*.

L50 · cleaning

The correct spelling is *cleaning*.

L38 · strength

The correct spelling is *strength*.

Reading · R1–R15**R1 · C — to explain how wetland frogs live and survive**

The text gives factual information about the habitat, features, food and needs of wetland frogs.

R9 · C — so the equipment is prepared before the result is measured

The earlier steps prepare the equipment, while the later steps produce and record the result.

R2 · B — a feature that helps a living thing survive

The passage explains that the feature helps the living thing complete tasks and avoid danger.

R10 · B — write down

Here, *record* means to write down the observation or result.

R3 · A — leap and breathe near water

Paragraph 2 states that the feature helps them leap and breathe near water.

R11 · A — to make the comparison or result more reliable

Careful, consistent observations make a test or measurement more dependable.

R4 · D — polluted water

The final paragraph identifies polluted water as a challenge.

R12 · D — a materials list and numbered steps

Procedures commonly use a materials list and ordered steps.

R5 · C — wetland frogs

The pronoun *them* refers back to wetland frogs.

R13 · C — the object might belong to someone or be delicate

The second paragraph says the object might belong to someone else or be too delicate to handle alone.

R6 · B — Helping Wetland Frogs

The paragraph describes a threat and actions people can take to help wetland frogs.

R14 · B — paused because of uncertainty

The character pauses to think about ownership and safety.

R7 · A — to make a fair test of how quickly soils drain

The introduction states that the steps are used to make a fair test of how quickly soils drain.

R15 · A — a bright kite

The first paragraph says that Nina noticed a bright kite.

R8 · D — place equal soil amounts in the cups

The first numbered step says to place equal soil amounts in the cups.

Reading · R16–R30

R16 · D — it protected the object and used the clues safely

The character asks for help or checks evidence instead of handling the discovery carelessly.

R24 · D — Several supplies were weighed, packed and given to a community project.

This option includes the main ideas from the introduction and table.

R17 · C — the discovery becomes part of the place's known story

The final paragraph explains that the discovery becomes part of the place's story.

R25 · C — while clouds drift beyond the moon

The words *clouds drift beyond* show movement away from the scene.

R18 · B — Patience and careful thinking can protect a discovery.

The character succeeds by slowing down, checking clues and protecting the object.

R26 · B — drops or bright reflections on surfaces

The shining drops or reflections look like jewels under the light.

R19 · A — Brushes

Brushes had a total mass of 44 kg, the greatest value in the table.

R27 · A — The drain reflects the sky.

A reflective surface can show an image of the sky like a mirror.

R20 · D — 41 kg

$26 \text{ kg} + 15 \text{ kg} = 41 \text{ kg}$.

R28 · D — The roofs taps a copper tune.

The words *taps* and *tune* describe sound.

R21 · C — 5 kg

40 kg shared among 8 containers gives 5 kg in each container.

R29 · C — relieved and interested

The speaker slows down to notice the scene, showing a relieved and interested response.

R22 · B — Each container could be much heavier.

The number of containers does not show the mass inside each one.

R30 · B — An ordinary place can look special when light, weather or time changes.

The poem notices how familiar surroundings become beautiful and interesting.

R23 · A — given to help others

The supplies were given for a community project.

Numeracy · N1–N15**N1 · C — 219**

The pattern adds 12 each time, so the next number is 219.

N9 · C — 7

$8 \times 7 = 56$.

N2 · B — 600

The digit 6 is in the hundreds place, so its value is 600.

N10 · B — \$12

$3 \times \$2 = \6 , and $6 \times \$1 = \6 . Altogether this is \$12.

N3 · A — $437 < 478$

437 has fewer tens than 478, so $437 < 478$.

N11 · A — 9:05 am

Adding 25 minutes to 8:40 am gives 9:05 am.

N4 · D — 433

$276 + 157 = 433$.

N12 · D — Sunday

Move forward 11 days from Wednesday to reach Sunday.

N5 · C — 377

$665 - 288 = 377$.

N13 · C — 400 cm

1 metre = 100 centimetres, so 4 metres = 400 centimetres.

N6 · B — 60

6 groups of 10 is $6 \times 10 = 60$.

N14 · B — 32 cm

Perimeter = $9 + 7 + 9 + 7 = 32$ cm.

N7 · A — 10

$40 \div 4 = 10$ stickers each.

N15 · A — 10

The rectangle has 2 rows of 5 squares: $2 \times 5 = 10$ square units.

N8 · D — 59

59 cannot be divided into pairs with none left over, so it is odd.

Numeracy · N16–N30

N16 · D — 2000 mL

1 litre = 1000 millilitres, so 2 litres = 2000 mL.

N24 · D — Tuesday

Tuesday has the greatest value, 33.

N17 · C — 390 g

$1080\text{ g} - 690\text{ g} = 390\text{ g}$.

N25 · C — 3

Team B scored 20 points and team W scored 17 points. $20 - 17 = 3$.

N18 · B — 6/8

The bar has 8 equal parts and 6 are shaded, so the fraction is 6/8.

N26 · B — blue

Blue covers 2 of the 5 equal sections, more than any other colour.

N19 · A — 29

58 divided into 2 equal groups gives 29 in each group.

N27 · A — 39

The pattern adds 7 each time, so the next number is 39.

N20 · D — 4

A square has 4 lines of symmetry.

N28 · D — 36

$63 - 27 = 36$, so $27 + 36 = 63$.

N21 · C — an acute angle

45 degrees is less than 90 degrees, so it is an acute angle.

N29 · C — 22

There are $5 \times 5 = 25$ seats. $25 - 3 = 22$ occupied seats.

N22 · B — 6

A rectangular prism has 6 flat faces.

N30 · B — 44

$5 \times 5 = 25$ seedlings are planted. $69 - 25 = 44$ seedlings remain.

N23 · A — bench

The map shows bench in column C, row 2.

Writing review: Check for a clear opening, complication and ending; paragraphing; precise vocabulary; complete sentences; controlled punctuation; and carefully checked spelling.
