A carrot is a root vegetable.
- 49 During coastal reserve work, the underlined word is misspelt. Write its correct spelling on the line.
A beautifull rainbow appeared above the oval.
- 50 The dune restoration team asks: replace the single underlined error with its correct spelling for the final copy.
Every answer was correct exsept one.

Seagrass Meadows · Questions 1–6

Seagrass Meadows

Seagrass plants live in shallow coastal water. They are well suited to this place, but they still need food, water and shelter to survive. Conditions can change across the day and through the seasons, so safe resting places are important.

Their long flexible leaves help them slow waves and shelter sea life. This adaptation makes everyday tasks easier and can also help them avoid danger. Young animals learn where to feed and shelter by following adults or responding to their surroundings.

They feed on sunlight and nutrients. As they move through their habitat, they also become part of a larger food web that connects plants and animals. Changes to one part of this web can affect many other living things.

One challenge is cloudy polluted water. People can help by reducing soil runoff, observing wildlife from a distance and leaving natural shelters undisturbed. Small, repeated actions can protect the habitat without preventing people from learning about it.

1 In the dune restoration, what is the main purpose of **Seagrass Meadows**?

- A** to advertise a wildlife toy **B** to explain how seagrass plants live and survive
C to tell a fantasy story about seagrass plants **D** to give instructions for catching seagrass plants

4 The coastal reserve notice asks: which change would probably cause the greatest problem for seagrass plants?

- A** more suitable food **B** careful wildlife watching
C cloudy polluted water **D** a protected shelter

2 A coastal reserve card asks: in **Seagrass Meadows**, what does **adaptation** mean?

- A** a feature that helps a living thing survive **B** a sudden loud warning
C a place where tickets are sold **D** a change in the weather forecast

5 While preparing the dune restoration, in paragraph 2 of **Seagrass Meadows**, who does **them** refer to?

- A** the food sources **B** seagrass plants
C the people **D** the natural shelters

3 Before the dune restoration, how does the long flexible leaves help seagrass plants?

- A** make their habitat disappear **B** turn their food into water
C stop every kind of danger **D** slow waves and shelter sea life

6 A coastal reserve challenge asks: which heading would best suit the final paragraph of **Seagrass Meadows**?

- A** Helping Seagrass Plants **B** A Make-Believe Adventure
C How to Build a Toy **D** A List of Australian Cities

Make a Compass Rose Map · Questions 7–12

Make a Compass Rose Map

Follow these steps to make a map that uses directions to show locations. Work carefully and ask an adult for help whenever a material needs cutting or a location must be checked for safety. Read every step before beginning so the equipment can be arranged in the correct order.

Materials

- grid paper
- a pencil
- coloured pencils
- a ruler
- a compass

Steps

1. Draw a large grid.
2. Add a north arrow. Check that it is secure before continuing.
3. Mark three classroom objects. Use the same method each time so the result is fair.
4. Write directions from the door to each object.
5. Record the result clearly, compare it with the earlier observation, then pack away all equipment.

7 To check the dune restoration, what is the purpose of **Make a Compass Rose Map**?

- | | |
|---|---|
| A to write a fictional story | B to advertise expensive equipment |
| C to decorate a party invitation | D to make a map that uses directions to show locations |

10 In a coastal reserve activity, what does **record** mean in the final step of **Make a Compass Rose Map**?

- | | |
|---------------------|----------------|
| A write down | B hide |
| C erase | D guess |

8 At the coastal reserve, decide: what should be done first in **Make a Compass Rose Map**?

- | | |
|---------------------------------------|----------------------------------|
| A mark three classroom objects | B pack away all equipment |
| C draw a large grid | D add a north arrow |

11 The dune restoration sheet asks: why does **Make a Compass Rose Map** ask for careful measurements or repeated observations?

- | | |
|---|---|
| A to make the equipment heavier | B to use every material at once |
| C to prevent the title from changing | D to make the comparison or result more reliable |

9 The dune restoration question is: why should the instructions for **Make a Compass Rose Map** be followed in order?

- | | |
|--|---|
| A so no observations are recorded | B so the equipment is prepared before the result is measured |
| C so the title becomes longer | D so the materials change colour |

12 For today's coastal reserve task, which text feature most clearly shows that **Make a Compass Rose Map** is a procedure?

- | | |
|--|--|
| A rhyming lines | B a labelled story setting |
| C a materials list and numbered steps | D characters speaking to each other |

The Telescope That Pointed Down · Questions 13–18

The Telescope That Pointed Down

Finn was helping to tidy the lookout tower when Finn noticed a wooden telescope. It looked ordinary at first, but a tiny mark on its side seemed freshly scratched. Dust lay everywhere except beneath the object, as though it had recently been moved.

As soon as Finn picked it up, it pointed towards the ground instead of the sky. Finn hesitated. The discovery was exciting, yet it might belong to someone else or be too delicate to handle alone. A hurried choice could damage both the object and the clues around it.

Instead of rushing ahead, Finn followed the marked direction to a loose floorboard. Each new clue matched something already visible in the lookout tower, so the search became careful rather than wild. Finn paused after every step to record what had changed.

At last, beneath it was a logbook of past weather watchers. Finn wrote a short note explaining where the object had been found and what had happened. The note included the order of the clues so another person could check the discovery.

By the end of the afternoon, the discovery had become part of the place's story. Finn was proud, not because the object was valuable, but because patience and careful thinking had protected it. The adults agreed that the object should stay with a clear label for future visitors.

13 A dune restoration clue asks: why did Finn hesitate in **The Telescope That Pointed Down**?

- | | |
|--|--|
| A the clues had all disappeared | B the object might belong to someone or be delicate |
| C the location was already closed | D the object was too heavy to see |

16 On a coastal reserve card, why was Finn's careful action important in **The Telescope That Pointed Down**?

- | | |
|--|--|
| A it stopped anyone learning the result | B it changed the location into a shop |
| C it protected the object and used the clues safely | D it made the object disappear |

14 During the coastal reserve session, what does **hesitated** mean in **The Telescope That Pointed Down**?

- | | |
|--|----------------------------------|
| A paused because of uncertainty | B shouted with excitement |
| C ran away immediately | D forgot the discovery |

17 At the coastal reserve, what changes by the end of **The Telescope That Pointed Down**?

- | | |
|---|--|
| A all records of the discovery are removed | B the discovery becomes part of the place's known story |
| C the location is permanently closed | D the character throws the object away |

15 The dune restoration check asks: what did Finn find at the beginning of **The Telescope That Pointed Down**?

- | | |
|---------------------------------|------------------------------|
| A a new school bag | B a box of fresh food |
| C a broken sports trophy | D a wooden telescope |

18 For the dune restoration, which idea is most important in **The Telescope That Pointed Down**?

- | | |
|---|--|
| A Patience and careful thinking can protect a discovery. | B Valuable objects should always be hidden. |
| C Every old place is unsafe to visit. | D Clues are useful only when found quickly. |

Finn's Community Collection · Questions 19–24

Finn's Community Collection

The Year 3 team weighed four groups of donated supplies for the the campsite community project. The supplies were packed into containers before delivery.

Supply	Total mass	Containers
Socks	31 kg	6
Shoes	32 kg	8
Scarves	20 kg	5
Gloves	44 kg	4

- 19 During coastal reserve work, which supply in **Finn's Community Collection** had the greatest total mass?

A Socks B Shoes
C Scarves D Gloves

- 22 A coastal reserve card asks: why could fewer containers in **Finn's Community Collection** still have a greater total mass?

A Each container could be much heavier. B The table counts only empty containers.
C The supplies have no mass. D A smaller number is always greater.

- 20 The dune restoration team asks: what was the combined mass of the socks and scarves in **Finn's Community Collection**?

A 57 kg B 11 kg
C 51 kg D 45 kg

- 23 Before the dune restoration, what does **donated** mean in the introduction to **Finn's Community Collection**?

A sold at a high price B hidden underground
C weighed a second time D given to help others

- 21 In the dune restoration, if the shoes were shared equally among 8 containers, what mass would be in each container?

A 32 kg B 4 kg
C 8 kg D 24 kg

- 24 The coastal reserve notice asks: which sentence best summarises **Finn's Community Collection**?

A Every container had exactly the same mass. B The community returned all the supplies.
C Several supplies were weighed, packed and given to a community project. D Only one type of supply was collected.

Stars above the Camp · Questions 25–30

Stars above the Camp

The fire taps a amber tune,
while smoke drift beyond the moon.
The billy can holds the evening sky
and lets one crooked star float by.
Small surfaces shine beneath the light;
each one has borrowed jewels tonight.
My boots make shapes, dark and round,
then scatter them across the ground.
The clearing, so noisy in the day,
grows soft as busy sounds fade away.
I move more slowly, just to see
the changing world in front of me.

- 25 While preparing the dune restoration, which line in **Stars above the Camp** shows that something is moving away?

A I move more slowly, just to see
B while smoke drift beyond the moon
C The fire taps a amber tune
D My boots make shapes, dark and round

- 28 At the coastal reserve, decide: which detail from **Stars above the Camp** appeals most strongly to hearing?

A One crooked star floats by.
B Small surfaces shine beneath the light.
C The fire taps a amber tune.
D The billy can holds the evening sky.

- 26 A coastal reserve challenge asks: what are the **borrowed jewels** in **Stars above the Camp**?

A drops or bright reflections on surfaces
B small hidden insects
C pieces of broken glass
D painted yellow flowers

- 29 The dune restoration question is: how does the speaker feel in **Stars above the Camp**?

A sleepy and confused
B peaceful and amazed
C angry and frightened
D bored and impatient

- 27 To check the dune restoration, in **Stars above the Camp**, why does the poet say the **billy can holds the evening sky**?

A The billy can is above the clouds.
B The sky has fallen to the ground.
C The billy can is completely dry.
D The billy can reflects the sky.

- 30 In a coastal reserve activity, what is the main idea of **Stars above the Camp**?

A An ordinary place can look special when light, weather or time changes.
B Walking outdoors is always dangerous.
C Busy sounds should never become quiet.
D Reflections make every surface impossible to see.

Narrative Writing Task

The Kite That Would Not Land

Write a narrative about a kite that keeps pulling its owner towards a mystery.

Plan your story

- Who is the main character, and where does the story begin?
- What makes the discovery unusual or important?
- What problem, risk or decision must the character face?
- Which clues or actions move the story forward?
- How is the problem resolved, and what changes at the end?

Remember

- Plan before you begin.
- Use paragraphs to organise events.
- Choose precise verbs and interesting details.
- Check spelling, punctuation and sentence boundaries.
- Give the narrative a clear ending.

Check: characters, setting, complication, ending, paragraphs, spelling and punctuation.

Writing space

Questions 1–3

- 1 The dune restoration sheet includes this number trail: Which number comes next?
218, 230, 242, ____

A 243 B 254
C 242 D 266

- 2 For today's coastal reserve work, solve this place-value label: What is the value of the digit 8 in **3,854**?

A 800 B 8
C 80 D 8000

- 3 A dune restoration clue requires this number comparison: Which statement about **452** and **488** is true?

A $452 > 488$ B $452 = 488$
C $488 < 452$ D $452 < 488$

Questions 4–6

4 During the coastal reserve session, answer this total calculation: What is $296 + 172$?

- A 478 B 124
C 468 D 458

5 The dune restoration check uses this difference calculation: What is $690 - 298$?

- A 988 B 392
C 382 D 402

6 On a coastal reserve card, complete this equal-group count: There are 7 trays with 10 muffins on each tray. How many muffins are there altogether?

- A 70 B 63
C 77 D 17

Questions 7–9

- 7 At the coastal reserve, solve this fair-sharing problem: 50 stickers are shared equally among 5 children. How many stickers does each child receive?

A 8 B 12
C 45 D 10

- 8 For the dune restoration, answer this odd-number sort: Which number is odd in Paper 14?

A 70 B 72
C 69 D 68

- 9 A coastal reserve activity includes this missing-factor puzzle: Which number makes this equation true?
 $8 \times \square = 56$

A 8 B 7
C 5 D 6

Questions 10–12

- 10 The dune restoration team needs this coin total solved: Finn has 4 two-dollar coins and 6 one-dollar coins. How much money is there altogether?

A \$14 B \$12
C \$16 D \$18

- 11 In the dune restoration, complete this finishing-time check: A lesson starts at 10:40 am and lasts 30 minutes. When does it finish?

A 10:50 am B 11:20 am
C 12:10 am D 11:10 am

- 12 A coastal reserve card gives this calendar jump: Today is Monday. What day will it be in 10 days?

A Friday B Saturday
C Thursday D Wednesday

Questions 13–15

- 13 Before the dune restoration, solve this length conversion: How many centimetres are equal to 2 metres?

A 2 cm B 200 cm
C 20 cm D 2000 cm

- 14 The coastal reserve notice shows this boundary measurement: A rectangle is 8 cm long and 7 cm wide. What is its perimeter?

A 30 cm B 15 cm
C 34 cm D 1 cm

- 15 While preparing the dune restoration, answer this square-unit diagram: How many square units cover the rectangle shown in Paper 14?

A 18 B 30
C 10 D 24

Questions 16–18

- 16 A coastal reserve challenge uses this capacity match: Which amount is equal to 3 litres?

A 30 mL B 30000 mL
C 3000 mL D 300 mL

- 17 To check the dune restoration, solve this mass comparison: A bag of rice has a mass of 1180 g. A bag of pasta has a mass of 740 g. How much heavier is the rice?

A 740 g B 440 g
C 1920 g D 540 g

- 18 At the coastal reserve, decide this fraction diagram: What fraction of the bar in Paper 14 is shaded?

A $\frac{2}{10}$ B $\frac{2}{11}$
C $\frac{3}{10}$ D $\frac{1}{10}$

Questions 19–21

19 The next dune restoration task is a halving problem: What is half of 68?

- A 31 B 37
C 66 D 34

20 In a coastal reserve session, complete this symmetry diagram: How many lines of symmetry does the rectangle shown in Paper 14 have?

- A 1 B 4
C 2 D 0

21 The dune restoration sheet includes this angle description: Which description matches an angle of 60 degrees?

- A a straight angle B an acute angle
C a right angle D an obtuse angle

Questions 22–24

- 22 For today's coastal reserve work, solve this solid-shape check: How many faces does the cube shown in Paper 14 have?

- A 6 B 4
C 8 D 12

- 23 A dune restoration clue requires this grid-location clue: On the Paper 14 map, which location is in square B2?

	A	B	C	D
1	tree		pond	
2		gate	bench	
3				

- A pond B bench
C tree D gate

- 24 During the coastal reserve session, answer this data-table question: A class recorded books read in Paper 14: Monday 24, Tuesday 43, Wednesday 26, Thursday 22. On which day were the most books read?

- A Wednesday B Thursday
C Tuesday D Monday

Questions 25–27

- 25 The dune restoration check uses this graph comparison: The Paper 14 graph shows points scored by four teams. How many more points did team B score than team W?

- A 22 B 3
C 5 D 25

- 26 On a coastal reserve card, complete this chance experiment: A Paper 14 spinner has 1 red, 4 blue, 1 green and 1 yellow equal sections. Which colour is most likely?

- A blue B red
C green D yellow

- 27 At the coastal reserve, solve this growing pattern: Which number comes next in Paper 14?
16, 23, 30, 37, ____

- A 37 B 51
C 45 D 44

Questions 28–30

- 28 For the dune restoration, answer this missing-addend puzzle: Which number makes this equation true in Paper 14?
 $32 + \square = 73$

A 32 B 105
C 41 D 36

- 29 A coastal reserve activity includes this array-and-remainder problem: A small bus has 6 rows with 4 seats in each row. 4 seats are empty. How many seats are occupied?

A 14 B 20
C 24 D 16

- 30 The dune restoration team needs this two-step grouping problem solved: A gardener has 84 seedlings. She plants 6 rows of 7 seedlings. How many seedlings are left?

A 42 B 78
C 43 D 49

Conventions of Language · L1–L25

L1 · C — an

Use *an* before the vowel sound at the start of *envelope*.

L14 · B — “The posters are ready!” called Quinn.

The spoken words and exclamation mark stay inside the speech marks.

L2 · B — collected

Collected names the action Quinn performed, so it is the verb.

L15 · A — On Monday, Finn visited Fremantle.

The sentence begins with a capital, and *Monday*, *Finn* and *Fremantle* are proper nouns.

L3 · A — collected

Last week shows the action happened in the past, so *collected* is correct.

L16 · D — lizard's

The singular possessive form *lizard's* shows ownership.

L4 · D — proudly

Proudly describes how the team completed the action.

L17 · C — Their

Their shows that the items belong to a group.

L5 · C — Finn and I prepared the posters.

The subject pronoun *I* is correct because the speaker is part of the subject.

L18 · B — The colourful poster stood beside the coastal reserve.

The correct option has a subject, a verb and a complete idea.

L6 · B — because

Because introduces the reason for working that way.

L19 · A — They

They replaces two named people.

L7 · A — theirs

Theirs shows that the item belongs to the two named people.

L20 · D — is

The main subject *box* is singular, so *is* is correct.

L8 · D — The possums chase the ball.

The plural subject *possums* agrees with the verb *chase*.

L21 · C — As you leave, return the posters.

A comma follows the introductory clause.

L9 · C — months

All three examples are months.

L22 · B — artists'

The lunchboxes belong to more than one member of the group; the possessive form is *artists'*.

L10 · B — .

A calm command is a complete sentence and can end with a full stop.

L23 · A — When will the dune restoration begin at the coastal reserve

The correct option directly asks for information.

L11 · A — we've

The apostrophe in *we've* marks letters omitted from *we have*.

L24 · D — “Bring the posters, please,” called Finn.

The comma stays inside the closing speech mark before the reporting clause.

L12 · D — When the rain stopped, we arranged the posters.

A comma separates the introductory clause from the main clause.

L25 · C — Neither of the posters is unlabelled.

The singular subject *neither* agrees with *is*.

L13 · C — Where should we store the posters after the dune restoration

The correct option asks a direct question, so it needs a question mark.

Conventions of Language · L26–L50**L26 · definitely**

The correct spelling is *definitely*.

L39 · their

The correct spelling is *their*.

L27 · business

The correct spelling is *business*.

L40 · friend

The correct spelling is *friend*.

L28 · foreign

The correct spelling is *foreign*.

L41 · government

The correct spelling is *government*.

L29 · medicine

The correct spelling is *medicine*.

L42 · friendly

The correct spelling is *friendly*.

L30 · similar

The correct spelling is *similar*.

L43 · calendar

The correct spelling is *calendar*.

L31 · weird

The correct spelling is *weird*.

L44 · argument

The correct spelling is *argument*.

L32 · finally

The correct spelling is *finally*.

L45 · February

The correct spelling is *February*.

L33 · keys

The correct spelling is *keys*.

L46 · library

The correct spelling is *library*.

L34 · necessary

The correct spelling is *necessary*.

L47 · remember

The correct spelling is *remember*.

L35 · accommodate

The correct spelling is *accommodate*.

L48 · vegetable

The correct spelling is *vegetable*.

L36 · environment

The correct spelling is *environment*.

L49 · beautiful

The correct spelling is *beautiful*.

L37 · happened

The correct spelling is *happened*.

L50 · except

The correct spelling is *except*.

L38 · opposite

The correct spelling is *opposite*.

Reading · R1–R15

R1 · B — to explain how seagrass plants live and survive

The text gives factual information about the habitat, features, food and needs of seagrass plants.

R9 · B — so the equipment is prepared before the result is measured

The earlier steps prepare the equipment, while the later steps produce and record the result.

R2 · A — a feature that helps a living thing survive

The passage explains that the feature helps the living thing complete tasks and avoid danger.

R10 · A — write down

Here, *record* means to write down the observation or result.

R3 · D — slow waves and shelter sea life

Paragraph 2 states that the feature helps them slow waves and shelter sea life.

R11 · D — to make the comparison or result more reliable

Careful, consistent observations make a test or measurement more dependable.

R4 · C — cloudy polluted water

The final paragraph identifies cloudy polluted water as a challenge.

R12 · C — a materials list and numbered steps

Procedures commonly use a materials list and ordered steps.

R5 · B — seagrass plants

The pronoun *them* refers back to seagrass plants.

R13 · B — the object might belong to someone or be delicate

The second paragraph says the object might belong to someone else or be too delicate to handle alone.

R6 · A — Helping Seagrass Plants

The paragraph describes a threat and actions people can take to help seagrass plants.

R14 · A — paused because of uncertainty

The character pauses to think about ownership and safety.

R7 · D — to make a map that uses directions to show locations

The introduction states that the steps are used to make a map that uses directions to show locations.

R15 · D — a wooden telescope

The first paragraph says that Finn noticed a wooden telescope.

R8 · C — draw a large grid

The first numbered step says to draw a large grid.

Reading · R16–R30

R16 · C — it protected the object and used the clues safely

The character asks for help or checks evidence instead of handling the discovery carelessly.

R24 · C — Several supplies were weighed, packed and given to a community project.

This option includes the main ideas from the introduction and table.

R17 · B — the discovery becomes part of the place's known story

The final paragraph explains that the discovery becomes part of the place's story.

R25 · B — while smoke drift beyond the moon

The words *smoke drift beyond* show movement away from the scene.

R18 · A — Patience and careful thinking can protect a discovery.

The character succeeds by slowing down, checking clues and protecting the object.

R26 · A — drops or bright reflections on surfaces

The shining drops or reflections look like jewels under the light.

R19 · D — Gloves

Gloves had a total mass of 44 kg, the greatest value in the table.

R27 · D — The billy can reflects the sky.

A reflective surface can show an image of the sky like a mirror.

R20 · C — 51 kg

$31\text{ kg} + 20\text{ kg} = 51\text{ kg}$.

R28 · C — The fire taps a amber tune.

The words *taps* and *tune* describe sound.

R21 · B — 4 kg

32 kg shared among 8 containers gives 4 kg in each container.

R29 · B — peaceful and amazed

The speaker slows down to notice the scene, showing a peaceful and amazed response.

R22 · A — Each container could be much heavier.

The number of containers does not show the mass inside each one.

R30 · A — An ordinary place can look special when light, weather or time changes.

The poem notices how familiar surroundings become beautiful and interesting.

R23 · D — given to help others

The supplies were given for a community project.

Numeracy · N1–N15**N1 · B — 254**

The pattern adds 12 each time, so the next number is 254.

N9 · B — 7

$8 \times 7 = 56$.

N2 · A — 800

The digit 8 is in the hundreds place, so its value is 800.

N10 · A — \$14

$4 \times \$2 = \8 , and $6 \times \$1 = \6 . Altogether this is \$14.

N3 · D — $452 < 488$

452 has fewer tens than 488, so $452 < 488$.

N11 · D — 11:10 am

Adding 30 minutes to 10:40 am gives 11:10 am.

N4 · C — 468

$296 + 172 = 468$.

N12 · C — Thursday

Move forward 10 days from Monday to reach Thursday.

N5 · B — 392

$690 - 298 = 392$.

N13 · B — 200 cm

1 metre = 100 centimetres, so 2 metres = 200 centimetres.

N6 · A — 70

7 groups of 10 is $7 \times 10 = 70$.

N14 · A — 30 cm

Perimeter = $8 + 7 + 8 + 7 = 30$ cm.

N7 · D — 10

$50 \div 5 = 10$ stickers each.

N15 · D — 24

The rectangle has 4 rows of 6 squares: $4 \times 6 = 24$ square units.

N8 · C — 69

69 cannot be divided into pairs with none left over, so it is odd.

Numeracy · N16–N30

N16 · C — 3000 mL

1 litre = 1000 millilitres, so 3 litres = 3000 mL.

N24 · C — Tuesday

Tuesday has the greatest value, 43.

N17 · B — 440 g

$1180\text{ g} - 740\text{ g} = 440\text{ g}$.

N25 · B — 3

Team B scored 25 points and team W scored 22 points. $25 - 22 = 3$.

N18 · A — 2/10

The bar has 10 equal parts and 2 are shaded, so the fraction is 2/10.

N26 · A — blue

Blue covers 4 of the 7 equal sections, more than any other colour.

N19 · D — 34

68 divided into 2 equal groups gives 34 in each group.

N27 · D — 44

The pattern adds 7 each time, so the next number is 44.

N20 · C — 2

A rectangle has 2 lines of symmetry.

N28 · C — 41

$73 - 32 = 41$, so $32 + 41 = 73$.

N21 · B — an acute angle

60 degrees is less than 90 degrees, so it is an acute angle.

N29 · B — 20

There are $6 \times 4 = 24$ seats. $24 - 4 = 20$ occupied seats.

N22 · A — 6

A cube has 6 flat faces.

N30 · A — 42

$6 \times 7 = 42$ seedlings are planted. $84 - 42 = 42$ seedlings remain.

N23 · D — gate

The map shows gate in column B, row 2.

Writing review: Check for a clear opening, complication and ending; paragraphing; precise vocabulary; complete sentences; controlled punctuation; and carefully checked spelling.
