

Questions 1–9

- 1 For the coral survey, which word correctly completes this sentence?
Ava packed ____ umbrella before visiting the library.

A a B some
C many D an

- 2 During reef centre work, which word is the verb in this sentence?
Ben sorted the striped shells carefully.

A striped B shells
C sorted D Ben

- 3 The coral survey team asks: which word correctly completes this sentence?
Last week, Ava ____ the shells for the coral survey.

A sorting B sorted
C sort D sorts

- 4 In the coral survey, which word tells how the action was done?
The team sorted each shell carefully at the reef centre.

A carefully B team
C sorted D centre

- 5 A reef centre card asks: which sentence uses the correct subject pronoun for work on the coral survey?

A Ava and me prepared the shells. B Me and Ava prepared the shells.
C Ava and myself prepared the shells. D Ava and I prepared the shells.

- 6 Before the coral survey, which word correctly joins these ideas?
Ava worked carefully ____ the coral survey had to be ready that afternoon.

A or B until
C because D but

- 7 The reef centre notice asks: the striped shell belongs to Ava and Ben. Which word can replace **Ava and Ben's shell**?

A ours B theirs
C his D hers

- 8 While preparing the coral survey, which sentence about the puppies is correct?

A The puppies chase the ball. B The puppies chases the ball.
C The puppies chases the balls. D The puppies chasing the ball.

- 9 A reef centre challenge asks: which word can be used instead of **violin, trumpet and drum**?

A games B buildings
C vehicles D instruments

Questions 10–18

- 10 To check the coral survey, which punctuation mark correctly completes this calm command?
Please place the shells beside the reef centre desk ____
- A ! B ,
C . D ?
- 11 At the reef centre, decide: which contraction is punctuated correctly for the words **cannot**?
- A c'ant B can't
C cant D 'cant
- 12 The coral survey question is: which sentence uses a comma correctly for the coral survey?
- A After the gates opened, we arranged the shells. B After the gates opened we, arranged the shells.
C After the gates opened., we arranged the shells. D After the gates opened; we arranged the shells.
- 13 In a reef centre activity, which sentence spoken at the reef centre should end with a question mark?
- A I know where the shells belong B Please store the shells now
C The shells are beside the door D Where should we store the shells after the coral survey
- 14 The coral survey sheet asks: which sentence punctuates Ben's excited words correctly?
- A The shells are ready!" called Ben. B "The shells are ready!" Called Ben.
C "The shells are ready!" called Ben. D "The shells are ready! called Ben."

C Before leaving;, return the shells. D Before leaving, return the shells.

- 22 During reef centre work, where should the missing apostrophe go?
The children lunchboxes were packed beside the library.

A childrens' B childrens's
C children's D childrens

- 23 The coral survey team asks: which sentence is a direct question and needs a question mark?

A The coral survey begins at the reef centre B When will the coral survey begin at the reef centre
C I wonder when the coral survey will begin D Tell me when the coral survey begins

- 24 In the coral survey, which sentence correctly reports what Ava said during the coral survey?

A "Bring the shells, please," called Ava. B "Bring the shells, please," , called Ava.
C "Bring the shells, please," Called Ava. D "Bring the shells, please, called Ava."

- 25 A reef centre card asks: which sentence has correct agreement for the coral survey?

A Neither of the shells are damaged. B Neither of the shell is damaged.
C Neither the shells are damaged. D Neither of the shells is damaged.

Spelling · Questions 26–50

- 26 Before the coral survey, read the sentence, then write the correct spelling of the underlined word.
Ava carried a jacket because the wind was cool.
- 27 The reef centre notice asks: the underlined word is misspelt. Write its correct spelling on the line.
Please place the cups in a seperate row.
- 28 While preparing the coral survey, replace the single underlined error with its correct spelling for the final copy.
The baker left the bread doe to rise.
- 29 A reef centre challenge asks: carefully find the underlined spelling error and write its correction.
Blue is Ava's faverite colour.
- 30 To check the coral survey, correct the one underlined word in this sentence for the class.
The costume's appearence changed under the lights.
- 31 At the reef centre, decide: read the sentence, then write the correct spelling of the underlined word.
The song sounded familar to Ben.
- 32 The coral survey question is: the underlined word is misspelt. Write its correct spelling on the line.
The quiz tested our knowlege of animals.
- 33 In a reef centre activity, replace the single underlined error with its correct spelling for the final copy.
It will probly rain this afternoon.
- 34 The coral survey sheet asks: carefully find the underlined spelling error and write its correction.
Ava usualy walks home with Ben.
- 35 For today's reef centre task, correct the one underlined word in this sentence for the class.
The class will finish the model tommorow.
- 36 A coral survey clue asks: read the sentence, then write the correct spelling of the underlined word.
Do not stand near the cliff egde.
- 37 During the reef centre session, the underlined word is misspelt. Write its correct spelling on the line.
The family decided to adobt a rescue dog.
- 38 The coral survey check asks: replace the single underlined error with its correct spelling for the final copy.
Wich path leads to the visitor centre?
- 39 On a reef centre card, carefully find the underlined spelling error and write its correction.
A storm is comming from the west.
- 40 At the reef centre, correct the one underlined word in this sentence for the class.
The bus carried fourty passengers.
- 41 For the coral survey, read the sentence, then write the correct spelling of the underlined word.
The smooth stone formed naturaly in the river.
- 42 During reef centre work, the underlined word is misspelt. Write its correct spelling on the line.
The bridge's strenght was tested with blocks.
- 43 The coral survey team asks: replace the single underlined error with its correct spelling for the final copy.
The class practised writting clear paragraphs.
- 44 In the coral survey, carefully find the underlined spelling error and write its correction.
The parcel contained a wonderful surprize.
- 45 A reef centre card asks: correct the one underlined word in this sentence for the class.
Ava misunderstood the directions.
- 46 Before the coral survey, read the sentence, then write the correct spelling of the underlined word.
The story has an exciting begining.
- 47 The reef centre notice asks: the underlined word is misspelt. Write its correct spelling on the line.
Check the adress before posting the letter.
- 48 While preparing the coral survey, replace the single underlined error with its correct spelling for the final copy.
Regular exersise helps keep bodies healthy.
- 49 A reef centre challenge asks: carefully find the underlined spelling error and write its correction.
The alarm rang and everyone stopped immediatly.
- 50 To check the coral survey, correct the one underlined word in this sentence for the class.
Is it possable to finish before lunch?

Leaf-Tailed Geckos · Questions 1–6

Leaf-Tailed Geckos

Leaf-tailed geckos live in rainforest trees. They are well suited to this place, but they still need food, water and shelter to survive. Conditions can change across the day and through the seasons, so safe resting places are important.

Their mottled skin and a flat tail help them blend with bark. This adaptation makes everyday tasks easier and can also help them avoid danger. Young animals learn where to feed and shelter by following adults or responding to their surroundings.

They feed on small insects. As they move through their habitat, they also become part of a larger food web that connects plants and animals. Changes to one part of this web can affect many other living things.

One challenge is tree clearing. People can help by protecting old forest, observing wildlife from a distance and leaving natural shelters undisturbed. Small, repeated actions can protect the habitat without preventing people from learning about it.

- 1 At the reef centre, decide: what is the main purpose of **Leaf-Tailed Geckos**?

A to give instructions for catching leaf-tailed geckos
B to advertise a wildlife toy
C to explain how leaf-tailed geckos live and survive
D to tell a fantasy story about leaf-tailed geckos

- 4 The coral survey sheet asks: which change would probably cause the greatest problem for leaf-tailed geckos?

A a protected shelter
B more suitable food
C careful wildlife watching
D tree clearing

- 2 The coral survey question is: in **Leaf-Tailed Geckos**, what does **adaptation** mean?

A a change in the weather forecast
B a feature that helps a living thing survive
C a sudden loud warning
D a place where tickets are sold

- 5 For today's reef centre task, in paragraph 2 of **Leaf-Tailed Geckos**, who does **them** refer to?

A the natural shelters
B the food sources
C leaf-tailed geckos
D the people

- 3 In a reef centre activity, how does the mottled skin and a flat tail help leaf-tailed geckos?

A blend with bark
B make their habitat disappear
C turn their food into water
D stop every kind of danger

- 6 A coral survey clue asks: which heading would best suit the final paragraph of **Leaf-Tailed Geckos**?

A A List of Australian Cities
B Helping Leaf-Tailed Geckos
C A Make-Believe Adventure
D How to Build a Toy

Make a Wind Direction Arrow · Questions 7–12

Make a Wind Direction Arrow

Follow these steps to make a simple arrow that shows wind direction. Work carefully and ask an adult for help whenever a material needs cutting or a location must be checked for safety. Read every step before beginning so the equipment can be arranged in the correct order.

Materials

- a paper plate
- a straw
- cardboard
- a split pin
- a compass

Steps

1. Mark north, south, east and west.
2. Attach the cardboard arrow to the straw. Check that it is secure before continuing.
3. Fasten the straw so it turns freely. Use the same method each time so the result is fair.
4. Place the plate outside and record where the arrow points.
5. Record the result clearly, compare it with the earlier observation, then pack away all equipment.

7 During the reef centre session, what is the purpose of **Make a Wind Direction Arrow**?

- | | |
|---|---|
| A to make a simple arrow that shows wind direction | B to write a fictional story |
| C to advertise expensive equipment | D to decorate a party invitation |

10 At the reef centre, what does **record** mean in the final step of **Make a Wind Direction Arrow**?

- | | |
|----------------|---------------------|
| A guess | B write down |
| C hide | D erase |

8 The coral survey check asks: what should be done first in **Make a Wind Direction Arrow**?

- | | |
|--|--|
| A attach the cardboard arrow to the straw | B fasten the straw so it turns freely |
| C pack away all equipment | D mark north, south, east and west |

11 For the coral survey, why does **Make a Wind Direction Arrow** ask for careful measurements or repeated observations?

- | | |
|---|---|
| A to make the comparison or result more reliable | B to make the equipment heavier |
| C to use every material at once | D to prevent the title from changing |

9 On a reef centre card, why should the instructions for **Make a Wind Direction Arrow** be followed in order?

- | | |
|---|--|
| A so the materials change colour | B so no observations are recorded |
| C so the equipment is prepared before the result is measured | D so the title becomes longer |

12 During reef centre work, which text feature most clearly shows that **Make a Wind Direction Arrow** is a procedure?

- | | |
|--|--|
| A characters speaking to each other | B rhyming lines |
| C a labelled story setting | D a materials list and numbered steps |

The Clockwork Feather · Questions 13–18

The Clockwork Feather

Ava was helping to tidy the school storeroom when she noticed a silver feather. It looked ordinary at first, but a tiny mark on its side seemed freshly scratched. Dust lay everywhere except beneath the object, as though it had recently been moved.

As soon as Ava picked it up, it began ticking and pointed towards a locked drawer. Ava hesitated. The discovery was exciting, yet it might belong to someone else or be too delicate to handle alone. A hurried choice could damage both the object and the clues around it.

Instead of rushing ahead, Ava asked the caretaker for help and followed a faded diagram. Each new clue matched something already visible in the school storeroom, so the search became careful rather than wild. Ava paused after every step to record what had changed.

At last, the drawer opened to reveal a box of old school badges. Ava wrote a short note explaining where the object had been found and what had happened. The note included the order of the clues so another person could check the discovery.

By the end of the afternoon, the discovery had become part of the place's story. Ava was proud, not because the object was valuable, but because patience and careful thinking had protected it. The adults agreed that the object should stay with a clear label for future visitors.

13 The coral survey team asks: why did Ava hesitate in **The Clockwork Feather**?

- A** the object was too heavy to see **B** the clues had all disappeared
C the object might belong to someone or be delicate **D** the location was already closed

16 Before the coral survey, why was Ava's careful action important in **The Clockwork Feather**?

- A** it made the object disappear **B** it stopped anyone learning the result
C it changed the location into a shop **D** it protected the object and used the clues safely

14 In the coral survey, what does **hesitated** mean in **The Clockwork Feather**?

- A** forgot the discovery **B** paused because of uncertainty
C shouted with excitement **D** ran away immediately

17 The reef centre notice asks: what changes by the end of **The Clockwork Feather**?

- A** the character throws the object away **B** all records of the discovery are removed
C the discovery becomes part of the place's known story **D** the location is permanently closed

15 A reef centre card asks: what did Ava find at the beginning of **The Clockwork Feather**?

- A** a silver feather **B** a new school bag
C a box of fresh food **D** a broken sports trophy

18 While preparing the coral survey, which idea is most important in **The Clockwork Feather**?

- A** Clues are useful only when found quickly. **B** Patience and careful thinking can protect a discovery.
C Valuable objects should always be hidden. **D** Every old place is unsafe to visit.

Ava's Community Collection · Questions 19–24

Ava's Community Collection

The Year 3 team weighed four groups of donated supplies for the the library community project. The supplies were packed into containers before delivery.

Supply	Total mass	Containers
Carrots	18 kg	6
Tomatoes	24 kg	8
Beans	15 kg	5
Pumpkins	32 kg	4

- 19 A reef centre challenge asks: which supply in **Ava's Community Collection** had the greatest total mass?

A Pumpkins B Carrots
C Tomatoes D Beans

- 22 The coral survey question is: why could fewer containers in **Ava's Community Collection** still have a greater total mass?

A A smaller number is always greater. B Each container could be much heavier.
C The table counts only empty containers. D The supplies have no mass.

- 20 To check the coral survey, what was the combined mass of the carrots and beans in **Ava's Community Collection**?

A 27 kg B 39 kg
C 3 kg D 33 kg

- 23 In a reef centre activity, what does **donated** mean in the introduction to **Ava's Community Collection**?

A given to help others B sold at a high price
C hidden underground D weighed a second time

- 21 At the reef centre, decide: if the tomatoes were shared equally among 8 containers, what mass would be in each container?

A 16 kg B 24 kg
C 3 kg D 8 kg

- 24 The coral survey sheet asks: which sentence best summarises **Ava's Community Collection**?

A Only one type of supply was collected. B Every container had exactly the same mass.
C The community returned all the supplies. D Several supplies were weighed, packed and given to a community project.

After the Rain · Questions 25–30

After the Rain

The gutter taps a silver tune,
 while clouds drift beyond the moon.
 The puddle holds the evening sky
 and lets one crooked star float by.
 Small surfaces shine beneath the light;
 each one has borrowed jewels tonight.
 My boots make shapes, dark and round,
 then scatter them across the ground.
 The street, so noisy in the day,
 grows soft as busy sounds fade away.
 I move more slowly, just to see
 the changing world in front of me.

- 25 For today's reef centre task, which line in **After the Rain** shows that something is moving away?

A My boots make shapes, dark and round
 B I move more slowly, just to see
 C while clouds drift beyond the moon
 D The gutter taps a silver tune

- 28 The coral survey check asks: which detail from **After the Rain** appeals most strongly to hearing?

A The puddle holds the evening sky. B One crooked star floats by.
 C Small surfaces shine beneath the light. D The gutter taps a silver tune.

- 26 A coral survey clue asks: what are the **borrowed jewels** in **After the Rain**?

A painted yellow flowers B drops or bright reflections on surfaces
 C small hidden insects D pieces of broken glass

- 29 On a reef centre card, how does the speaker feel in **After the Rain**?

A bored and impatient B sleepy and confused
 C curious and delighted D angry and frightened

- 27 During the reef centre session, in **After the Rain**, why does the poet say the **puddle holds the evening sky**?

A The puddle reflects the sky. B The puddle is above the clouds.
 C The sky has fallen to the ground. D The puddle is completely dry.

- 30 At the reef centre, what is the main idea of **After the Rain**?

A Reflections make every surface impossible to see. B An ordinary place can look special when light, weather or time changes.
 C Walking outdoors is always dangerous. D Busy sounds should never become quiet.

Narrative Writing Task

The Door in the Tree

Write a narrative about a character who discovers a tiny door in the trunk of an old tree.

Plan your story

- Who is the main character, and where does the story begin?
- What makes the discovery unusual or important?
- What problem, risk or decision must the character face?
- Which clues or actions move the story forward?
- How is the problem resolved, and what changes at the end?

Remember

- Plan before you begin.
- Use paragraphs to organise events.
- Choose precise verbs and interesting details.
- Check spelling, punctuation and sentence boundaries.
- Give the narrative a clear ending.

Check: characters, setting, complication, ending, paragraphs, spelling and punctuation.

Writing space

Questions 1–3

- 1 For the coral survey, answer this number trail: Which number comes next?
127, 136, 145, ____

A 163 B 146
C 154 D 145

- 2 A reef centre activity includes this place-value label: What is the value of the digit 7 in **3,741**?

A 7000 B 700
C 7 D 70

- 3 The coral survey team needs this number comparison solved: Which statement about **413** and **462** is true?

A $413 < 462$ B $413 > 462$
C $413 = 462$ D $462 < 413$

Questions 4–6

4 In the coral survey, complete this total calculation: What is $244 + 133$?

- A 367 B 387
C 111 D 377

5 A reef centre card gives this difference calculation: What is $625 - 272$?

- A 363 B 897
C 353 D 343

6 Before the coral survey, solve this equal-group count: There are 6 trays with 7 muffins on each tray. How many muffins are there altogether?

- A 13 B 42
C 36 D 48

Questions 7–9

- 7 The reef centre notice shows this fair-sharing problem: 28 stickers are shared equally among 4 children. How many stickers does each child receive?

A 7 B 5
C 9 D 24

- 8 While preparing the coral survey, answer this odd-number sort: Which number is odd in Paper 1?

A 42 B 44
C 46 D 43

- 9 A reef centre challenge uses this missing-factor puzzle: Which number makes this equation true?
 $5 \times \square = 35$

A 6 B 8
C 7 D 5

Questions 10–12

10 To check the coral survey, solve this coin total: Ava has 3 two-dollar coins and 5 one-dollar coins. How much money is there altogether?

- A \$15 B \$11
C \$9 D \$13

11 At the reef centre, decide this finishing-time check: A lesson starts at 9:20 am and lasts 25 minutes. When does it finish?

- A 9:45 am B 9:30 am
C 9:55 am D 10:45 am

12 The next coral survey task is a calendar jump: Today is Tuesday. What day will it be in 9 days?

- A Wednesday B Friday
C Saturday D Thursday

Questions 13–15

- 13 In a reef centre session, complete this length conversion: How many centimetres are equal to 3 metres?

A 3000 cm B 3 cm
C 300 cm D 30 cm

- 14 The coral survey sheet includes this boundary measurement: A rectangle is 7 cm long and 4 cm wide. What is its perimeter?

A 3 cm B 22 cm
C 11 cm D 26 cm

- 15 For today's reef centre work, solve this square-unit diagram: How many square units cover the rectangle shown in Paper 1?

A 15 B 10
C 20 D 8

Questions 16–18

- 16 A coral survey clue requires this capacity match: Which amount is equal to 2 litres?

A 200 mL B 20 mL
C 20000 mL D 2000 mL

- 17 During the reef centre session, answer this mass comparison: A bag of rice has a mass of 920 g. A bag of pasta has a mass of 610 g. How much heavier is the rice?

A 410 g B 610 g
C 310 g D 1530 g

- 18 The coral survey check uses this fraction diagram: What fraction of the bar in Paper 1 is shaded?

A $\frac{2}{8}$ B $\frac{3}{8}$
C $\frac{3}{9}$ D $\frac{4}{8}$

Questions 19–21

- 19 On a reef centre card, complete this halving problem: What is half of 42?

A 21 B 18
C 24 D 40

- 20 At the reef centre, solve this symmetry diagram: How many lines of symmetry does the square shown in Paper 1 have?

A 0 B 1
C 3 D 4

- 21 For the coral survey, answer this angle description: Which description matches an angle of 45 degrees?

A an obtuse angle B a straight angle
C an acute angle D a right angle

Questions 22–24

- 22 A reef centre activity includes this solid-shape check: How many faces does the rectangular prism shown in Paper 1 have?

A 12 B 6
C 4 D 8

- 23 The coral survey team needs this grid-location clue solved: On the Paper 1 map, which location is in square C2?

	A	B	C	D
1			pond	
2		gate	bench	
3				tree

A bench B pond
C gate D tree

- 24 In the coral survey, complete this data-table question: A class recorded books read in Paper 1: Monday 11, Tuesday 17, Wednesday 13, Thursday 9. On which day were the most books read?

A Monday B Wednesday
C Thursday D Tuesday

Questions 25–27

- 25 A reef centre card gives this graph comparison: The Paper 1 graph shows points scored by four teams. How many more points did team B score than team W?

- 26 Before the coral survey, solve this chance experiment: A Paper 1 spinner has 1 red, 3 blue, 1 green and 1 yellow equal sections. Which colour is most likely?

- 27 The reef centre notice shows this growing pattern: Which number comes next in Paper 1?
3, 7, 11, 15, ____

A 19 B 15
C 23 D 20

Questions 28–30

- 28 While preparing the coral survey, answer this missing-addend puzzle: Which number makes this equation true in Paper 1?
 $19 + \square = 47$

A 23 B 19
C 66 D 28

- 29 A reef centre challenge uses this array-and-remainder problem: A small bus has 5 rows with 6 seats in each row. 3 seats are empty. How many seats are occupied?

A 24 B 14
C 27 D 30

- 30 To check the coral survey, solve this two-step grouping problem: A gardener has 45 seedlings. She plants 5 rows of 6 seedlings. How many seedlings are left?

A 21 B 15
C 40 D 31

Conventions of Language · L1–L25

L1 · D — an

Use *an* before the vowel sound at the start of *umbrella*.

L14 · C — “The shells are ready!” called Ben.

The spoken words and exclamation mark stay inside the speech marks.

L2 · C — sorted

Sorted names the action Ben performed, so it is the verb.

L15 · B — On Monday, Ava visited Canberra.

The sentence begins with a capital, and *Monday*, *Ava* and *Canberra* are proper nouns.

L3 · B — sorted

Last week shows the action happened in the past, so *sorted* is correct.

L16 · A — dog's

The singular possessive form *dog's* shows ownership.

L4 · A — carefully

Carefully describes how the team completed the action.

L17 · D — Their

Their shows that the items belong to a group.

L5 · D — Ava and I prepared the shells.

The subject pronoun *I* is correct because the speaker is part of the subject.

L18 · C — The striped shell stood beside the reef centre.

The correct option has a subject, a verb and a complete idea.

L6 · C — because

Because introduces the reason for working that way.

L19 · B — They

They replaces two named people.

L7 · B — theirs

Theirs shows that the item belongs to the two named people.

L20 · A — is

The main subject *box* is singular, so *is* is correct.

L8 · A — The puppies chase the ball.

The plural subject *puppies* agrees with the verb *chase*.

L21 · D — Before leaving, return the shells.

A comma follows the introductory clause.

L9 · D — instruments

All three examples are instruments.

L22 · C — children's

The lunchboxes belong to more than one member of the group; the possessive form is *children's*.

L10 · C — .

A calm command is a complete sentence and can end with a full stop.

L23 · B — When will the coral survey begin at the reef centre

The correct option directly asks for information.

L11 · B — can't

The apostrophe in *can't* marks letters omitted from *cannot*.

L24 · A — “Bring the shells, please,” called Ava.

The comma stays inside the closing speech mark before the reporting clause.

L12 · A — After the gates opened, we arranged the shells.

A comma separates the introductory clause from the main clause.

L25 · D — Neither of the shells is damaged.

The singular subject *neither* agrees with *is*.

L13 · D — Where should we store the shells after the coral survey

The correct option asks a direct question, so it needs a question mark.

Conventions of Language · L26–L50

L26 · because

The correct spelling is *because*.

L39 · coming

The correct spelling is *coming*.

L27 · separate

The correct spelling is *separate*.

L40 · forty

The correct spelling is *forty*.

L28 · dough

The correct spelling is *dough*.

L41 · naturally

The correct spelling is *naturally*.

L29 · favourite

The correct spelling is *favourite*.

L42 · strength

The correct spelling is *strength*.

L30 · appearance

The correct spelling is *appearance*.

L43 · writing

The correct spelling is *writing*.

L31 · familiar

The correct spelling is *familiar*.

L44 · surprise

The correct spelling is *surprise*.

L32 · knowledge

The correct spelling is *knowledge*.

L45 · misunderstood

The correct spelling is *misunderstood*.

L33 · probably

The correct spelling is *probably*.

L46 · beginning

The correct spelling is *beginning*.

L34 · usually

The correct spelling is *usually*.

L47 · address

The correct spelling is *address*.

L35 · tomorrow

The correct spelling is *tomorrow*.

L48 · exercise

The correct spelling is *exercise*.

L36 · edge

The correct spelling is *edge*.

L49 · immediately

The correct spelling is *immediately*.

L37 · adopt

The correct spelling is *adopt*.

L50 · possible

The correct spelling is *possible*.

L38 · which

The correct spelling is *which*.

Reading · R1–R15

R1 · C — to explain how leaf-tailed geckos live and survive

The text gives factual information about the habitat, features, food and needs of leaf-tailed geckos.

R9 · C — so the equipment is prepared before the result is measured

The earlier steps prepare the equipment, while the later steps produce and record the result.

R2 · B — a feature that helps a living thing survive

The passage explains that the feature helps the living thing complete tasks and avoid danger.

R10 · B — write down

Here, *record* means to write down the observation or result.

R3 · A — blend with bark

Paragraph 2 states that the feature helps them blend with bark.

R11 · A — to make the comparison or result more reliable

Careful, consistent observations make a test or measurement more dependable.

R4 · D — tree clearing

The final paragraph identifies tree clearing as a challenge.

R12 · D — a materials list and numbered steps

Procedures commonly use a materials list and ordered steps.

R5 · C — leaf-tailed geckos

The pronoun *them* refers back to leaf-tailed geckos.

R13 · C — the object might belong to someone or be delicate

The second paragraph says the object might belong to someone else or be too delicate to handle alone.

R6 · B — Helping Leaf-Tailed Geckos

The paragraph describes a threat and actions people can take to help leaf-tailed geckos.

R14 · B — paused because of uncertainty

The character pauses to think about ownership and safety.

R7 · A — to make a simple arrow that shows wind direction

The introduction states that the steps are used to make a simple arrow that shows wind direction.

R15 · A — a silver feather

The first paragraph says that Ava noticed a silver feather.

R8 · D — mark north, south, east and west

The first numbered step says to mark north, south, east and west.

Reading · R16–R30

R16 · D — it protected the object and used the clues safely

The character asks for help or checks evidence instead of handling the discovery carelessly.

R24 · D — Several supplies were weighed, packed and given to a community project.

This option includes the main ideas from the introduction and table.

R17 · C — the discovery becomes part of the place's known story

The final paragraph explains that the discovery becomes part of the place's story.

R25 · C — while clouds drift beyond the moon

The words *clouds drift beyond* show movement away from the scene.

R18 · B — Patience and careful thinking can protect a discovery.

The character succeeds by slowing down, checking clues and protecting the object.

R26 · B — drops or bright reflections on surfaces

The shining drops or reflections look like jewels under the light.

R19 · A — Pumpkins

Pumpkins had a total mass of 32 kg, the greatest value in the table.

R27 · A — The puddle reflects the sky.

A reflective surface can show an image of the sky like a mirror.

R20 · D — 33 kg

$18\text{ kg} + 15\text{ kg} = 33\text{ kg}$.

R28 · D — The gutter taps a silver tune.

The words *taps* and *tune* describe sound.

R21 · C — 3 kg

24 kg shared among 8 containers gives 3 kg in each container.

R29 · C — curious and delighted

The speaker slows down to notice the scene, showing a curious and delighted response.

R22 · B — Each container could be much heavier.

The number of containers does not show the mass inside each one.

R30 · B — An ordinary place can look special when light, weather or time changes.

The poem notices how familiar surroundings become beautiful and interesting.

R23 · A — given to help others

The supplies were given for a community project.

Numeracy · N1–N15

N1 · C — 154

The pattern adds 9 each time, so the next number is 154.

N9 · C — 7

$5 \times 7 = 35$.

N2 · B — 700

The digit 7 is in the hundreds place, so its value is 700.

N10 · B — \$11

$3 \times \$2 = \6 , and $5 \times \$1 = \5 . Altogether this is \$11.

N3 · A — $413 < 462$

413 has fewer tens than 462, so $413 < 462$.

N11 · A — 9:45 am

Adding 25 minutes to 9:20 am gives 9:45 am.

N4 · D — 377

$244 + 133 = 377$.

N12 · D — Thursday

Move forward 9 days from Tuesday to reach Thursday.

N5 · C — 353

$625 - 272 = 353$.

N13 · C — 300 cm

1 metre = 100 centimetres, so 3 metres = 300 centimetres.

N6 · B — 42

6 groups of 7 is $6 \times 7 = 42$.

N14 · B — 22 cm

Perimeter = $7 + 4 + 7 + 4 = 22$ cm.

N7 · A — 7

$28 \div 4 = 7$ stickers each.

N15 · A — 15

The rectangle has 3 rows of 5 squares: $3 \times 5 = 15$ square units.

N8 · D — 43

43 cannot be divided into pairs with none left over, so it is odd.

Numeracy · N16–N30

N16 · D — 2000 mL

1 litre = 1000 millilitres, so 2 litres = 2000 mL.

N24 · D — Tuesday

Tuesday has the greatest value, 17.

N17 · C — 310 g

$920\text{ g} - 610\text{ g} = 310\text{ g}$.

N25 · C — 3

Team B scored 12 points and team W scored 9 points. $12 - 9 = 3$.

N18 · B — $\frac{3}{8}$

The bar has 8 equal parts and 3 are shaded, so the fraction is $\frac{3}{8}$.

N26 · B — blue

Blue covers 3 of the 6 equal sections, more than any other colour.

N19 · A — 21

42 divided into 2 equal groups gives 21 in each group.

N27 · A — 19

The pattern adds 4 each time, so the next number is 19.

N20 · D — 4

A square has 4 lines of symmetry.

N28 · D — 28

$47 - 19 = 28$, so $19 + 28 = 47$.

N21 · C — an acute angle

45 degrees is less than 90 degrees, so it is an acute angle.

N29 · C — 27

There are $5 \times 6 = 30$ seats. $30 - 3 = 27$ occupied seats.

N22 · B — 6

A rectangular prism has 6 flat faces.

N30 · B — 15

$5 \times 6 = 30$ seedlings are planted. $45 - 30 = 15$ seedlings remain.

N23 · A — bench

The map shows bench in column C, row 2.

Writing review: Check for a clear opening, complication and ending; paragraphing; precise vocabulary; complete sentences; controlled punctuation; and carefully checked spelling.
