

Questions 1–9

- 1 *Creek task:* Eli packed ____ insect model for the visit.
A the B some
C an D a

- 2 *Creek task:* Circle the verb in this sentence.
The wallaby climbed over the log.
-

- 3 *Creek task:* Yesterday, Eli ____ the rope before lunch.
A find B finds
C will find D found

- 4 *Creek task:* Circle the adverb in this sentence.
Henry carried the glass jar neatly.
-

- 5 *Creek task:* Eli placed ____ hat beside the bag.
A mine B my
C me D I

- 6 *Creek task:* Wash your hands ____ you prepare the fruit.
A before B because
C although D unless

- 7 *Creek task:* Complete the sentence using each word once.
Eli saw ____ ant beside ____ leaf. ____ ant carried a crumb.

Word box: a • an • the

- 8 *Creek task:* ____ will carry the boxes to the creek.
A Her and Henry B Henry and me
C Henry and I D Me and Henry

- 9 *Creek task:* Choose a pear, a plum ____ a peach.
A although B or
C but D because

Questions 10–18

10 *Creek task:* The pencils, rulers and erasers were new. ____ were placed in a tray.

- A They B It
C She D Them

11 *Creek task:* Which sentence is correct?

- A They is waiting near the gate. B They are waiting near the gate.
C They am waiting near the gate. D They are waiting near the gate.

12 *Creek task:* By the time Eli arrived, Henry ____ the hole.

- A will dig B is digging
C had dug D digs

13 *Creek task:* Eli and I are ready. ____ can begin now.

- A Them B We
C Us D They

14 *Creek task:* Where did the wallaby hide ____

- A ? B .
C ! D ,

15 *Creek task:* Which contraction correctly means *we will*?

- A well B we'l
C w'ell D we'll

16 *Creek task:* Where should the missing full stop go?

We reached the gate A the path B turned left C beside the pond D

- A A B B
C C D D

17 *Creek task:* Which sentence is punctuated correctly?

- A "Wait for me, called Eli." B "Wait for me," called Eli.
C "Wait for me" called Eli. D Wait for me," called Eli.

18 *Creek task:* This notebook is mine. Is that one ____?

- A yours B your
C you D you're

Questions 19–25

19 *Creek task:* Which sentence has the comma in the correct place?

- A** After, the bell rang Eli entered the room. **B** After the bell, rang Eli entered the room.
C After the bell rang Eli, entered the room. **D** After the bell rang, Eli entered the room.

20 *Creek task:* Where should the apostrophe go?
We can A t leave B yet C today D.

- A** A **B** B
C C **D** D

21 *Creek task:* Which sentence is a direct question?

- A** We know that Eli closed the window. **B** Did Eli close the window?
C I wonder whether Eli closed the window. **D** Tell me if Eli closed the window.

22 *Creek task:* Which sentence uses capital letters correctly?

- A** Dr Patel spoke to the doctor. **B** dr Patel spoke to the Doctor.
C Dr patel spoke to the doctor. **D** Dr Patel spoke to the Doctor.

23 *Creek task:* Which sentence needs quotation marks?

- A** Henry closed the gate quietly. **B** The gate beside the shed was closed.
C Closing the gate kept the wallaby safe. **D** Please close the gate, said Henry.

24 *Creek task:* Which sentence is punctuated correctly?

- A** The girls' boots were beside the boys bag's. **B** The girl's boot's were beside the boys bags.
C The girl's boots were beside the boys' bags. **D** The girls boots were beside the boy's bags.

25 *Creek task:* Where should the missing closing quotation mark go?
"I found the key A, said Eli B, as the door C opened D.

- A** A **B** B
C C **D** D

Questions 26–50 · Spelling

Questions 26–40: Listen to each word. Write the complete word on the numbered line.

26 _____

27 _____

28 _____

29 _____

30 _____

31 _____

32 _____

33 _____

34 _____

35 _____

36 _____

37 _____

38 _____

39 _____

40 _____

Questions 41–45: Correct the underlined word.

41 *Creek task:* We stayed inside becaus the rain was heavy.

42 *Creek task:* Henry cought the ball safely.

43 *Creek task:* Our excursion is in Febuary.

44 *Creek task:* Take one peice of fruit.

45 *Creek task:* The cubord door was painted blue.

Questions 46–50: Find the misspelt word and write it correctly.

46 *Creek task:* The clouds seemed to dissappear at sunset.

48 *Creek task:* A beautifull bird landed beside the creek.

50 *Creek task:* The puzzle was realy interesting.

47 *Creek task:* The parcel contained a wonderful suprise.

49 *Creek task:* I beleive that Henry told the truth.

Why a tin box slows down · Questions 1–6

A force is a push or a pull. When a moving tin box touches a surface, friction acts in the opposite direction to its movement. Friction makes the tin box slow down. A smooth surface such as smooth card usually creates less friction than sandpaper. With very little friction, an object travels farther before stopping. The amount of friction also depends on how firmly two surfaces press together. Friction is useful too: it helps shoes grip the ground and bicycle brakes stop wheels. Without enough friction, people could slip and tyres could slide. Too much friction can be unhelpful because moving parts may heat up or wear away, so machines sometimes use oil to reduce it.

1 *Why a tin box slows down:* What makes the moving tin box slow down?

- A light warming the surface B sound pushing it forward
C friction acting against its movement D gravity pulling it sideways

2 *Why a tin box slows down:* What would most likely happen if there were very little friction?

- A The tin box would stop at once. B The tin box would travel farther before stopping.
C The tin box would become heavier. D The tin box would change colour.

3 *Why a tin box slows down:* Mark each statement True or False.

Statement	True	False
Friction can help bicycle brakes work.	☐	☐
Sandpaper usually creates less friction than smooth card.	☐	☐
Friction acts against a moving object.	☐	☐

4 *Why a tin box slows down:* Which surface would probably let the object travel farthest?

- A sandpaper B a thick towel
C a rubber mat D smooth card

5 *Why a tin box slows down:* Which diagram shows the applied force and friction acting in opposite directions?

- A push ← friction ← B push ↓ friction ↓
C push → ← friction D push → friction →

6 *Why a tin box slows down:* Which pair of statements is correct?

- 1 The text explains how friction changes movement.
2 The text gives examples of useful friction.
3 The text tells a fictional adventure.
A 3 only B 1 and 2
C 1 and 3 D 2 and 3

Testing surfaces with a tin box · Questions 7–12

This experiment compares how far the same tin box travels across smooth card, paper and sandpaper. Use the same ramp each time.

1. Place the ramp at the marked height.
2. Put smooth card at the bottom of the ramp.
3. Release the tin box without pushing it.
4. Measure and record the distance travelled.
5. Repeat the trial 3 times for each surface, then compare the results.

7 *Testing surfaces with a tin box:* Number these steps from 1 to 4.

- ___ Put smooth card at the bottom of the ramp.
- ___ Measure and record the distance travelled.
- ___ Place the ramp at the marked height.
- ___ Release the tin box without pushing it.

8 *Testing surfaces with a tin box:* How many times is each surface tested?

- A** 4 **B** 9
C 3 **D** 2

9 *Testing surfaces with a tin box:* What type of text is this?

- A** a poem **B** a procedure
C a narrative **D** a book review

10 *Testing surfaces with a tin box:* Why are several surfaces tested?

- A** to compare how each surface affects the distance **B** to make the ramp taller each time
C to change the size of the object **D** to avoid measuring any result

11 *Testing surfaces with a tin box:* Which material would be the best replacement for sandpaper?

- A** a glass sheet **B** smooth foil
C polished plastic **D** a woollen mat

12 *Testing surfaces with a tin box:* Using both texts, where should the tin box travel the shortest distance?

- A** in the air **B** on no surface
C sandpaper **D** smooth card

Eli's guide to three kinds of fitness · Questions 13–18

During a health lesson at the creek, Eli's class learned that a sedentary person spends long periods sitting and moving very little. Regular activity helps the heart, muscles and joints. Aerobic activities such as swimming make the heart beat faster. Strength activities such as lifting light weights make muscles work against resistance. Flexibility activities such as yoga help joints move through a comfortable range. Each type has a different purpose, so doing only one type leaves out other benefits. Children can build activity into ordinary days by walking, playing active games and helping with safe physical jobs. Activity should suit the person's ability and surroundings. A balanced week includes all three kinds, water, sleep and time to rest.

13 *Eli's guide to three kinds of fitness:* What does **sedentary** mean in this text?

- A stretching every muscle B spending much time sitting and moving very little
C training for a race every day D moving safely in deep water

14 *Eli's guide to three kinds of fitness:* Match each fitness type to its description.

aerobic ____ strength ____ flexibility ____

- A helps joints move comfortably B makes the heart beat faster C makes muscles work against resistance

15 *Eli's guide to three kinds of fitness:* Which activity is aerobic?

- A lifting light weights B yoga
C sitting quietly D swimming

16 *Eli's guide to three kinds of fitness:* Complete the sentence using two words from the box.

A balanced week includes ____ activity and time to ____.

Word box: regular • rest • sedentary • resistance • range

17 *Eli's guide to three kinds of fitness:* Which statement is most likely true of a fit person?

- A They sit still for most of every day. B They can use heart, muscles and joints in different activities.
C They never need to rest. D They do only one kind of activity.

18 *Eli's guide to three kinds of fitness:* What is the main message of the text?

- A Different kinds of activity help the body in different ways. B Only competitive sport improves fitness.
C Rest should replace all exercise. D Muscles are the only part of fitness.

Favourite class sports — Eli's class · Questions 19–24

In Eli's class, each student chose one favourite sport. The tally table and bar graph show the same 31 answers collected by Henry.

Sport	Tally
soccer	/
netball	/
swimming	/
tennis	/

19 *Favourite class sports — Eli's class:* Match each sport to its number of votes.

soccer ____ netball ____ swimming ____ tennis ____

A 6 **B** 9 **C** 7 **D** 9

20 *Favourite class sports — Eli's class:* Why was a tally table used?

- A** to show where games are played **B** to rank players by skill
C to record each response as it was collected **D** to explain the rules of each sport

21 *Favourite class sports — Eli's class:* What do the two axes of the bar graph show?

- A** distances and times **B** sports and numbers of votes
C days and temperatures **D** players and scores

22 *Favourite class sports — Eli's class:* Why is the bar graph useful?

- A** It makes the vote totals easy to compare. **B** It gives instructions for playing.
C It changes the survey answers. **D** It shows every student's name.

23 *Favourite class sports — Eli's class:* Which question was most likely asked in the survey?

- A** How old is your coach? **B** What time does school begin?
C How far is your home from school? **D** Which sport is your favourite?

24 *Favourite class sports — Eli's class:* Using both fitness and survey texts, which pair are team sports?

- A** soccer and swimming **B** netball and tennis
C soccer and netball **D** swimming and tennis

Eli reads: The child of Sunday · Questions 25–29

Sunday's child wakes with the sun,
Ready for work and ready for fun;
With a merry little smile and a helpful way,
The child brings cheer to the end of the day.
When a task is tangled, the child will try,
And ask a good question instead of asking why;
Then Eli hears evening settle, gentle and mild,
Around the dreams of Sunday's child.

25 *Eli reads: The child of Sunday:* What does **ready for work and ready for fun** suggest?

- A** The child is afraid of games. **B** The child is willing to take part in different activities.
C The child refuses to help. **D** The child sleeps through the day.

26 *Eli reads: The child of Sunday:* Complete the sentence using two words from the box.
The child is ____ and brings ____ to others.

Word box: merry • cheer • sleep • anger • silence

27 *Eli reads: The child of Sunday:* In the title, **Sunday** refers to

- A** a month of the year **B** a place in a town
C a kind of weather **D** a day of the week

28 *Eli reads: The child of Sunday:* What type of text is this?

- A** a news report **B** an advertisement
C a poem **D** a procedure

29 *Eli reads: The child of Sunday:* Why was this poem most likely written?

- A** to list rules for a classroom **B** to describe a child's character in an enjoyable rhyme
C to teach how to repair a toy **D** to report a sporting result

Review: Brilliant Bridges · Questions 30–34**Brilliant Bridges** by Jon Bell

This information book contains surprising facts, labelled pictures and short explanations. Its chapters move from simple examples to less familiar ones. The opening chapter gives readers enough background to understand the later examples. The captions make the pictures easy to understand, and small fact boxes add details without interrupting the main explanation. The index is useful for finding a topic again. Some pages use words that younger readers may need to look up, and the final chapter feels too short. Even so, curious readers will probably return to the pictures and facts more than once. Rating: ★★☆☆☆

30 *Review: Brilliant Bridges:* Who wrote the book being reviewed?

- A** Jon Bell **B** Eli Lee
C Henry Jones **D** The reviewer

31 *Review: Brilliant Bridges:* What is the main purpose of the review?

- A** to retell every chapter **B** to sell equipment
C to teach a science experiment **D** to give information and an opinion about the book

32 *Review: Brilliant Bridges:* Which two topics are **not** included in the book?

- ☐ surprising facts ☐ a recipe ☐ labelled pictures
☐ chapter headings ☐ a fictional diary ☐ short explanations

33 *Review: Brilliant Bridges:* What criticism does the reviewer make?

- A** The title is missing. **B** Some words are difficult and the final chapter is too short.
C The book has no pictures. **D** Every chapter repeats the same page.

34 *Review: Brilliant Bridges:* What does the star rating show?

- A** The reviewer gives the book 3 out of 5. **B** The book has five authors.
C The book contains five chapters. **D** The reviewer read it five times.

Eli's story: The muddy clue · Questions 35–39

Eli carried a heavy box into the creek. A loose corner caught on the doorway, and three dusty folders slid onto the floor. While stacking them, Eli noticed a painted badge beneath the lowest folder. It was labelled with Henry's name. Eli remembered seeing Henry earlier, but could not remember which group had left first. Calling across the crowded room would only interrupt everyone. Eli wanted to return it at once, but the crowded room made the search difficult. Instead of guessing, Eli placed the object safely on the desk and asked the supervisor to check the visitor list. The supervisor found a contact note and sent a short message. Soon Henry returned, relieved to see the missing object. The unpleasant job of moving the box had led to a welcome surprise.

35 *Eli's story: The muddy clue:* Match each describing word to the noun it describes.

heavy ____ dusty ____ crowded ____

A room **B** box **C** folders

36 *Eli's story: The muddy clue:* Number these events from 1 to 4.

____ The supervisor checked the visitor list.

____ The box caught on the doorway.

____ Henry returned for the object.

____ Eli found the painted badge.

37 *Eli's story: The muddy clue:* Which word best describes Eli?

A impatient **B** responsible

C careless **D** selfish

38 *Eli's story: The muddy clue:* Why was it difficult for Eli to return the object immediately?

A The room was crowded and the owner was not easy to find. **B** The object was too large to lift.

C The supervisor refused to help. **D** The visitor list had been destroyed.

39 *Eli's story: The muddy clue:* Why is **The muddy clue** a suitable title?

A The story explains how to build a box. **B** The characters compete in a race.

C The story is mainly about bad weather. **D** An inconvenient task leads to an unexpected discovery.

The toy that came to life

Write a narrative about a teddy bear that suddenly comes to life in a creek.

Your story may be amusing or serious.

- What can the teddy bear do when it becomes alive?
- How does it feel, and what does it want?
- Who sees it, and how do they react?
- What complication happens before the story can end?

Remember

- Plan the setting, characters, complication and ending.
- Use paragraphs to organise the events.
- Choose precise words and complete sentences.
- Check spelling, punctuation and sentence boundaries.

Planning notes

Begin your narrative

Questions 1–5

- 1 *Eli's creek task:* Which number makes this true?

$$17 + \square = 31$$

A 31 B 14
C 12 D 16

- 2 *Eli's creek task:* A bag holds 34 balls. 8 are red and 8 are blue. How many are red or blue altogether?

- 3 *Eli's creek task:* What comes next?

18, 24, 30, 36, ____

A 36 B 48
C 43 D 42

- 4 *Eli's creek task:* Which addition is equal to 4×7 ?

A $4 + 4 + 4 + 4 + 4 + 4 + 4 + 4$ B $28 + 4$
C $7 + 7 + 7 + 7$ D $7 + 7 + 7$

- 5 *Eli's creek task:* How many square stickers cover the unshaded part of this sheet?

A 29 B 26
C 28 D 25

Questions 6–9

6

Eli's creek task: How many circles belong in the fourth group?

7

Eli's creek task: The pictograph shows 6 shells for one group. Each shell stands for the same number. The group collected 12 items. What is the key?

- A 1 B 3
C 4 D 2

8

Eli's creek task: Which shape is the top view of a cone?

- A rectangle B semicircle
C circle D triangle

9

Eli's creek task: Use the digit cards 6, 4, 3 once each. What is the largest odd number less than 800?

- A 436 B 643
C 634 D 463

Questions 10–15

10 *Eli's creek task:* Which diagram has exactly one third shaded?

- A 1 of 4 equal parts B 3 of 6 equal parts C 2 of 5 equal parts
D 3 of 8 equal parts E 2 of 6 equal parts

A ■■■■ B ■■■■■■ C ■■■■■■
D ■■■■■■ E ■■■■■■

11 *Eli's creek task:* Which number makes this true?
 $30 + \square = 72$

- A 47 B 30 C 72
D 42 E 37

12 *Eli's creek task:* A lesson began at 8:20 and lasted 35 minutes. A bell rang 10 minutes before it ended. When did the bell ring?

- A 8:55 B 9:20
C 8:45 D 8:30

13 *Eli's creek task:* Eli read 44 pages on Monday and 39 pages on Tuesday. How many pages altogether?

14 *Eli's creek task:* One team scored 87 points and another scored 54. What was the difference?

15 *Eli's creek task:* Use the price table. How much more does item D cost than item B?

- A \$5.60 B \$3.80
C \$2.30 D \$1.80

- A \$3.10
B \$3.80
C \$4.70
D \$5.60

Questions 16–19

- 16 *Eli's creek task:* The clock shows the starting time. What time is half an hour later?

A 9:30 B 7:30
C 9:00 D 8:15

- 17 *Eli's creek task:* Walk east along the corridor. After passing the office, which room comes next?

A hall B garden C office
D library E art room

entry	office	office	store
-------	--------	--------	-------

- 18 *Eli's creek task:* Which capital letter looks unchanged after reflection in a vertical mirror line?

A U B F
C G D J

- 19 *Eli's creek task:* Each badge costs \$5. What is the greatest number that can be bought for \$34?

A 5 B 7
C 29 D 6

Questions 20–23

20 *Eli's creek task:* Which two shapes have the same area?

- ☐ A ☐ B
☐ C ☐ D

A ■■■■ B ■■■
C ■■■■ D ■■■■

21 *Eli's creek task:* The solid shown is made from identical cubes. Each cube has a mass of 5 g. What is the total mass?

22 *Eli's creek task:* The pattern begins 118, 109, 100, ... Which two numbers belong to the pattern?

- ☐ 91 ☐ 92 ☐ 73
☐ 80 ☐ 103

23 *Eli's creek task:* A two-digit number is below 40. Its digits differ by 3 and add to 7. The tens digit is smaller. What is the number?

Questions 24–27

- 24 *Eli's creek task:* A hemisphere is joined to the top of a cylinder. How many curved outside surfaces does the combined solid have?

A 3 B 4
C 2 D 1

- 25 *Eli's creek task:* Three cups cost \$7.80. At the same price per cup, how much do five cups cost?

- 26 *Eli's creek task:* There are 5 buses with 25 seats on each bus. How many seats are there altogether?

A 125 B 30
C 100 D 130

- 27 *Eli's creek task:* The thermometers show the temperature before and after a cold change. How many degrees did it fall?

Questions 28–33

- 28 *Eli's creek task:* A trip is 104 km long. After reaching halfway, the bus travels 7 km farther. How many kilometres remain?

- 29 *Eli's creek task:* Which list gives the four labelled values on the number line?

A 26, 27, 28, 29 B 26, 33, 40, 47
C 27, 34, 41, 48 D 47, 40, 33, 26

- 30 *Eli's creek task:* There are 5 dozen pencils. They are packed into groups of 9. How many pencils are left over?

A 7 B 5 C 9
D 10 E 6

- 31 *Eli's creek task:* About how much heavier is object A than object B?

A 46 kg B 24 kg
C 32 kg D 22 kg

- 32 *Eli's creek task:* The number-line pattern is ___, 66, 74, 82. What number is missing?

A 59 B 90
C 58 D 50

○ — ○ — ○ — ○

- 33 *Eli's creek task:* A table total is 98. Three categories contain 24, 27 and 22. How many are in the missing category?

Known: 24, 27, 22 Total: 98

Questions 34–36

34

Eli's creek task: How many more votes did B receive than A?

- A 5 B 20
C 15 D 7

35

Eli's creek task: Which spinner gives the smallest chance of landing on blue?

- A Spinner A B Spinner B
C Spinner D D Spinner C

36

Eli's creek task: A stack contains 5 two-dollar coins and 5 one-dollar coins. What is the total value?

$$\text{\$}2 \times 5 \quad \text{\$}1 \times 5$$

Conventions of Language · L1–L25

L1 · C. an

Insect Model begins with a vowel sound, so the correct article is *an*.

L2 · climbed

Climbed tells what the animal did.

L3 · D. found

The word *yesterday* requires the past-tense form *found*.

L4 · neatly

Neatly tells how Henry carried the jar.

L5 · B. my

My is the possessive determiner used before the noun *hat*.

L6 · A. before

Before shows the correct sequence in time.

L7 · an; a; The

Use *an* before *ant*, *a* before *leaf*, then *The* for the ant already mentioned.

L8 · C. Henry and I

A compound subject uses the subject pronoun *I*.

L9 · B. or

Or joins alternatives in a list.

L10 · A. They

The plural pronoun *They* replaces the three plural nouns and is the subject of the sentence.

L11 · D. They are waiting near the gate.

The plural subject *They* agrees with *are*.

L12 · C. had dug

Had dug shows an action completed before another past action.

L13 · B. We

We is the first-person plural subject pronoun.

L14 · A. ?

A direct question ends with a question mark.

L15 · D. we'll

The apostrophe in *we'll* replaces the missing letters in *will*.

L16 · A. A

The first sentence ends after *gate*; the next sentence begins with *The*.

L17 · B. “Wait for me,” called Eli.

The spoken words need opening and closing quotation marks, with a comma before the reporting clause.

L18 · A. yours

Yours is the possessive pronoun that can stand without a noun after it.

L19 · D. After the bell rang, Eli entered the room.

A comma separates the introductory clause from the main clause.

L20 · A. A

The contraction *can't* needs an apostrophe between *n* and *t*.

L21 · B. Did Eli close the window?

A direct question asks the reader for an answer and ends with a question mark.

L22 · A. Dr Patel spoke to the doctor.

The title and surname take capitals; the common profession noun *doctor* does not.

L23 · D. Please close the gate, said Henry.

The first sentence contains the exact words spoken by a character.

L24 · C. The girl's boots were beside the boys' bags.

Girl's shows one girl owns the boots; *boys'* shows several boys own the bags.

L25 · A. A

The closing quotation mark belongs after the final spoken word *key* and before the reporting clause.

Conventions of Language · L26–L50**L26 · protect**

The dictated word is *protect*.

L39 · share

The dictated word is *share*.

L27 · provide

The dictated word is *provide*.

L40 · shows

The dictated word is *shows*.

L28 · question

The dictated word is *question*.

L41 · because

The correct spelling is *because*.

L29 · reread

The dictated word is *reread*.

L42 · caught

The correct spelling is *caught*.

L30 · receive

The dictated word is *receive*.

L43 · February

The correct spelling is *February*.

L31 · records

The dictated word is *records*.

L44 · piece

The correct spelling is *piece*.

L32 · reduce

The dictated word is *reduce*.

L45 · cupboard

The correct spelling is *cupboard*.

L33 · remember

The dictated word is *remember*.

L46 · disappear

The misspelt word is *dissappear*; the correct spelling is *disappear*.

L34 · repeat

The dictated word is *repeat*.

L47 · surprise

The misspelt word is *suprise*; the correct spelling is *surprise*.

L35 · report

The dictated word is *report*.

L48 · beautiful

The misspelt word is *beautifull*; the correct spelling is *beautiful*.

L36 · return

The dictated word is *return*.

L49 · believe

The misspelt word is *beleive*; the correct spelling is *believe*.

L37 · sailed

The dictated word is *sailed*.

L50 · really

The misspelt word is *realy*; the correct spelling is *really*.

L38 · search

The dictated word is *search*.

Reading · R1–R20

R1 · C. friction acting against its movement

The text says friction acts opposite to movement and slows the object.

R11 · D. a woollen mat

A woollen mat is rough like the material it replaces.

R2 · B. The tin box would travel farther before stopping.

The text directly links little friction with travelling farther.

R12 · C. sandpaper

The information text says rough surfaces create more friction, so sandpaper should stop the object sooner.

R3 · True; False; True

Friction can help brakes; rough surfaces do not usually create less friction; friction acts against movement.

R13 · B. spending much time sitting and moving very little

The first sentence defines the word directly.

R4 · D. smooth card

The text identifies smooth card as the smoother, lower-friction surface.

R14 · makes the heart beat faster; makes muscles work against resistance; helps joints move comfortably

The text gives a separate function for aerobic, strength and flexibility activities.

R5 · C. push → ← friction

Friction acts opposite to the applied movement force.

R15 · D. swimming

The text names swimming as an aerobic activity.

R6 · B. 1 and 2

The text explains movement and gives useful examples; it is not fiction.

R16 · regular; rest

The text recommends regular activity as well as rest.

R7 · 2; 4; 1; 3

First set the ramp, then place the surface, release the object and measure the distance.

R17 · B. They can use heart, muscles and joints in different activities.

The text recommends a balance of activities that support different parts of the body.

R8 · C. 3

The final step says to repeat the trial 3 times for each surface.

R18 · A. Different kinds of activity help the body in different ways.

The text explains three fitness types and the benefit of balancing them.

R9 · B. a procedure

A purpose, equipment and ordered steps are features of a procedure.

R19 · 7; 9; 6; 9

Each value is read from the tally table.

R10 · A. to compare how each surface affects the distance

Changing the surface and measuring the distance allows a fair comparison.

R20 · C. to record each response as it was collected

Tallies are a quick way to record responses during a survey.

Reading · R21–R39

R21 · B. sports and numbers of votes

The categories are sports and the scale counts votes.

R22 · A. It makes the vote totals easy to compare.

Bar lengths allow the category totals to be compared quickly.

R23 · D. Which sport is your favourite?

The table records one favourite sport from each student.

R24 · C. soccer and netball

Soccer and netball are normally played by teams; the other listed activities can be individual.

R25 · B. The child is willing to take part in different activities.

The line shows willingness to join both duties and enjoyable activities.

R26 · merry; cheer

The poem directly describes the child's smile and the cheer brought to others.

R27 · D. a day of the week

Sunday is one of the seven days of the week.

R28 · C. a poem

The text is arranged in lines and uses rhyme and rhythm.

R29 · B. to describe a child's character in an enjoyable rhyme

The poem gives a playful description rather than instructions or factual reporting.

R30 · A. Jon Bell

The author's name appears directly below the title.

R31 · D. to give information and an opinion about the book

A review summarises features and gives judgements about quality.

R32 · a recipe; a fictional diary

The review lists facts, pictures and explanations, but it does not mention a recipe or a fictional diary.

R33 · B. Some words are difficult and the final chapter is too short.

These two limitations are stated in the review.

R34 · A. The reviewer gives the book 3 out of 5.

A star rating records the reviewer's overall judgement out of five.

R35 · box; folders; room

The narrative says *heavy box, dusty folders and crowded room*.

R36 · 3; 1; 4; 2

The box catches first, the object is found, the list is checked, and the owner returns.

R37 · B. responsible

Eli protects the object and checks who owns it instead of guessing.

R38 · A. The room was crowded and the owner was not easy to find.

The narrative explains that the crowded room made the search difficult.

R39 · D. An inconvenient task leads to an unexpected discovery.

The title links the awkward task with the discovered object and happy outcome.

Numeracy · N1–N18

N1 · B. 14

$31 - 17 = 14$.

N10 · E. 2 of 6 equal parts

Two of six equal parts is $\frac{2}{6}$, which simplifies to $\frac{1}{3}$.

N2 · 16

$8 + 8 = 16$.

N11 · D. 42

$72 - 30 = 42$.

N3 · D. 42

The sequence increases by 6 each time.

N12 · C. 8:45

The bell time is the start plus 25 minutes: 8:45.

N4 · C. $7 + 7 + 7 + 7$

4 groups of 7 total 28.

N13 · 83

$44 + 39 = 83$.

N5 · B. 26

The full grid has 28 squares; 2 are removed, leaving 26.

N14 · 33

$87 - 54 = 33$.

N6 · 8

The groups decrease by 3: 17, 14, 11, 8.

N15 · D. \$1.80

$\$5.60 - \$3.80 = \$1.80$.

N7 · D. 2

$12 \div 6 = 2$ items per shell.

N16 · C. 9:00

Add 30 minutes to the time shown.

N8 · C. circle

Looking straight down at a cone shows its circular base.

N17 · C. office

The map order shows the named room immediately after the office when moving east.

N9 · B. 643

Place the greatest possible digit in the hundreds place while keeping an odd digit in the ones place.

N18 · A. U

Capital U has vertical line symmetry in the printed form shown.

Numeracy · N19–N36

N19 · D. 6

6 badges cost \$30; one more would cost more than \$34.

N28 · 45

Halfway is 52 km; $52 - 7 = 45$ km remain.

N20 · A; C

Count the unit squares: shapes A and C contain the same number.

N29 · B. 26, 33, 40, 47

The equally spaced marks increase by 7.

N21 · 35

There are 7 cubes. $7 \times 5 = 35$ g.

N30 · E. 6

5 dozen is 60; dividing by 9 leaves 6.

N22 · 91; 73

Subtract 9 each time; both selected values occur in the sequence.

N31 · D. 22 kg

The scales show about 46 kg and 24 kg; the difference is about 22 kg.

N23 · 25

The digits are 2 and 5, so the number is 25.

N32 · C. 58

The pattern increases by 8, so the preceding value is 58.

N24 · C. 2

The hemisphere contributes one curved surface and the cylinder contributes one curved side.

N33 · 25

$98 - (24 + 27 + 22) = 25$.

N25 · \$13.00

One cup costs \$2.60; five cost \$13.00.

N34 · A. 5

B has 20 votes and A has 15; the difference is 5.

N26 · A. 125

$5 \times 25 = 125$.

N35 · D. Spinner C

Spinner C has the smallest blue sector compared with its whole circle.

N27 · 18

$30 - 12 = 18$ degrees.

N36 · \$15

$5 \times \$2 + 5 \times \$1 = \$15$.

Writing review: Check for a clear setting, characters, complication and ending; organised paragraphs; precise vocabulary; complete sentences; controlled punctuation; and carefully checked spelling.
