

Questions 1–9

1 *Workshop task:* Kai packed ____ engine for the visit.

- A an B a
C the D some

2 *Workshop task:* Circle the verb in this sentence.
The possum climbed over the log.

3 *Workshop task:* Yesterday, Kai ____ the rope before lunch.

- A will sleep B slept
C sleep D sleeps

4 *Workshop task:* Circle the adverb in this sentence.
Jack carried the glass jar cheerfully.

5 *Workshop task:* Kai placed ____ hat beside the bag.

- A me B I
C mine D my

6 *Workshop task:* Wash your hands ____ you prepare the fruit.

- A although B unless
C before D because

7 *Workshop task:* Complete the sentence using each word once.
Kai saw ____ ant beside ____ leaf. ____ ant carried a crumb.

Word box: a • an • the

8 *Workshop task:* ____ will carry the boxes to the workshop.

- A Jack and I B Me and Jack
C Her and Jack D Jack and me

9 *Workshop task:* Choose a pear, a plum ____ a peach.

- A but B because
C although D or

Questions 10–18

- 10 *Workshop task:* The pencils, rulers and erasers were new. ____ were placed in a tray.
A She B Them
C They D It

- 11 *Workshop task:* Which sentence is correct?
A They am waiting near the gate. B They are waiting near the gate.
C They is waiting near the gate. D Them are waiting near the gate.

- 12 *Workshop task:* By the time Kai arrived, Jack ____ the hole.
A had dug B digs
C will dig D is digging

- 13 *Workshop task:* Kai and I are ready. ____ can begin now.
A Us B They
C Them D We

- 14 *Workshop task:* Where did the possum hide ____
A ! B ,
C ? D .

- 15 *Workshop task:* Which contraction correctly means *we will*?
A w'ell B we'll
C well D we'l

- 16 *Workshop task:* Where should the missing full stop go?
We reached the gate A the path B turned left C beside the pond D
A A B B
C C D D

- 17 *Workshop task:* Which sentence is punctuated correctly?
A "Wait for me" called Kai. B Wait for me," called Kai.
C "Wait for me, called Kai." D "Wait for me," called Kai.

- 18 *Workshop task:* This notebook is mine. Is that one ____?
A you B you're
C yours D your

Questions 19–25

19

Workshop task: Which sentence has the comma in the correct place?

- A** After the bell rang Kai, entered the room. **B** After the bell rang, Kai entered the room.
C After, the bell rang Kai entered the room. **D** After the bell, rang Kai entered the room.

20

Workshop task: Where should the apostrophe go?**We can A t leave B yet C today D.**

- A** A **B** B
C C **D** D

21

Workshop task: Which sentence is a direct question?

- A** I wonder whether Kai closed the window. **B** Tell me if Kai closed the window.
C We know that Kai closed the window. **D** Did Kai close the window?

22

Workshop task: Which sentence uses capital letters correctly?

- A** Dr patel spoke to the doctor. **B** Dr Patel spoke to the Doctor.
C Dr Patel spoke to the doctor. **D** dr Patel spoke to the Doctor.

23

Workshop task: Which sentence needs quotation marks?

- A** Closing the gate kept the possum safe. **B** Please close the gate, said Jack.
C Jack closed the gate quietly. **D** The gate beside the shed was closed.

24

Workshop task: Which sentence is punctuated correctly?

- A** The girl's boots were beside the boys' bags. **B** The girls boots were beside the boy's bags.
C The girls' boots were beside the boys bag's. **D** The girl's boot's were beside the boys bags.

25

Workshop task: Where should the missing closing quotation mark go?**"I found the key A, said Kai B, as the door C opened D.**

- A** A **B** B
C C **D** D

Questions 26–50 · Spelling

Questions 26–40: Listen to each word. Write the complete word on the numbered line.

26 _____

27 _____

28 _____

29 _____

30 _____

31 _____

32 _____

33 _____

34 _____

35 _____

36 _____

37 _____

38 _____

39 _____

40 _____

Questions 41–45: Correct the underlined word.

41 *Workshop task:* There was enuf water for the walk.

42 *Workshop task:* Choose one bright collor for the sign.

43 *Workshop task:* Draw one strait line across the page.

44 *Workshop task:* The wether changed before lunch.

45 *Workshop task:* Everyone came exept Sam, who was ill.

Questions 46–50: Find the misspelt word and write it correctly.

46 *Workshop task:* The clue appeared near the begining of the story.

48 *Workshop task:* Wait one minuite before opening the lid.

50 *Workshop task:* Kai was writting a note to the teacher.

47 *Workshop task:* Only take the equipment that is neccessary.

49 *Workshop task:* Be carefull near the slippery rocks.

Why a spool slows down · Questions 1–6

A force is a push or a pull. When a moving spool touches a surface, friction acts in the opposite direction to its movement. Friction makes the spool slow down. A smooth surface such as metal tray usually creates less friction than foam. With very little friction, an object travels farther before stopping. The amount of friction also depends on how firmly two surfaces press together. Friction is useful too: it helps shoes grip the ground and bicycle brakes stop wheels. Without enough friction, people could slip and tyres could slide. Too much friction can be unhelpful because moving parts may heat up or wear away, so machines sometimes use oil to reduce it.

1 *Why a spool slows down:* What makes the moving spool slow down?

- A** friction acting against its movement **B** gravity pulling it sideways
C light warming the surface **D** sound pushing it forward

2 *Why a spool slows down:* What would most likely happen if there were very little friction?

- A** The spool would become heavier. **B** The spool would change colour.
C The spool would stop at once. **D** The spool would travel farther before stopping.

3 *Why a spool slows down:* Mark each statement True or False.

Statement	True	False
Friction can help bicycle brakes work.	☐	☐
Foam usually creates less friction than metal tray.	☐	☐
Friction acts against a moving object.	☐	☐

4 *Why a spool slows down:* Which surface would probably let the object travel farthest?

- A** a rubber mat **B** metal tray
C foam **D** a thick towel

5 *Why a spool slows down:* Which diagram shows the applied force and friction acting in opposite directions?

- A** push → ← friction **B** push → friction →
C push ← friction ← **D** push ↓ friction ↓

6 *Why a spool slows down:* Which pair of statements is correct?

- 1 The text explains how friction changes movement.
 2 The text gives examples of useful friction.
 3 The text tells a fictional adventure.
A 1 and 3 **B** 2 and 3
C 3 only **D** 1 and 2

Testing surfaces with a spool · Questions 7–12

This experiment compares how far the same spool travels across metal tray, paper and foam. Use the same ramp each time.

1. Place the ramp at the marked height.
2. Put metal tray at the bottom of the ramp.
3. Release the spool without pushing it.
4. Measure and record the distance travelled.
5. Repeat the trial 5 times for each surface, then compare the results.

7 *Testing surfaces with a spool:* Number these steps from 1 to 4.

- ___ Put metal tray at the bottom of the ramp.
- ___ Measure and record the distance travelled.
- ___ Place the ramp at the marked height.
- ___ Release the spool without pushing it.

8 *Testing surfaces with a spool:* How many times is each surface tested?

- A** 5 **B** 4
C 6 **D** 15

9 *Testing surfaces with a spool:* What type of text is this?

- A** a narrative **B** a book review
C a poem **D** a procedure

10 *Testing surfaces with a spool:* Why are several surfaces tested?

- A** to change the size of the object **B** to avoid measuring any result
C to compare how each surface affects the distance **D** to make the ramp taller each time

11 *Testing surfaces with a spool:* Which material would be the best replacement for foam?

- A** polished plastic **B** a woollen mat
C a glass sheet **D** smooth foil

12 *Testing surfaces with a spool:* Using both texts, where should the spool travel the shortest distance?

- A** foam **B** metal tray
C in the air **D** on no surface

Kai's guide to three kinds of fitness · Questions 13–18

During a health lesson at the workshop, Kai's class learned that a sedentary person spends long periods sitting and moving very little. Regular activity helps the heart, muscles and joints. Aerobic activities such as fast walking make the heart beat faster. Strength activities such as carrying groceries make muscles work against resistance. Flexibility activities such as dance stretches help joints move through a comfortable range. Each type has a different purpose, so doing only one type leaves out other benefits. Children can build activity into ordinary days by walking, playing active games and helping with safe physical jobs. Activity should suit the person's ability and surroundings. A balanced week includes all three kinds, water, sleep and time to rest.

13 *Kai's guide to three kinds of fitness:* What does **sedentary** mean in this text?

- A training for a race every day B moving safely in deep water
C stretching every muscle D spending much time sitting and moving very little

14 *Kai's guide to three kinds of fitness:* Match each fitness type to its description.

aerobic ____ strength ____ flexibility ____

- A helps joints move comfortably B makes the heart beat faster C makes muscles work against resistance

15 *Kai's guide to three kinds of fitness:* Which activity is aerobic?

- A sitting quietly B fast walking
C carrying groceries D dance stretches

16 *Kai's guide to three kinds of fitness:* Complete the sentence using two words from the box.

A balanced week includes ____ activity and time to ____.

Word box: regular • rest • sedentary • resistance • range

17 *Kai's guide to three kinds of fitness:* Which statement is most likely true of a fit person?

- A They never need to rest. B They do only one kind of activity.
C They sit still for most of every day. D They can use heart, muscles and joints in different activities.

18 *Kai's guide to three kinds of fitness:* What is the main message of the text?

- A Rest should replace all exercise. B Muscles are the only part of fitness.
C Different kinds of activity help the body in different ways. D Only competitive sport improves fitness.

Favourite class sports — Kai's class · Questions 19–24

In Kai's class, each student chose one favourite sport. The tally table and bar graph show the same 31 answers collected by Jack.

Sport	Tally
soccer	/
netball	/ /
swimming	/
tennis	/ /

19 *Favourite class sports — Kai's class:* Match each sport to its number of votes.

soccer ____ netball ____ swimming ____ tennis ____

A 5 **B** 10 **C** 5 **D** 11

20 *Favourite class sports — Kai's class:* Why was a tally table used?

- A** to record each response as it was collected **B** to explain the rules of each sport
C to show where games are played **D** to rank players by skill

21 *Favourite class sports — Kai's class:* What do the two axes of the bar graph show?

- A** days and temperatures **B** players and scores
C distances and times **D** sports and numbers of votes

22 *Favourite class sports — Kai's class:* Why is the bar graph useful?

- A** It changes the survey answers. **B** It shows every student's name.
C It makes the vote totals easy to compare. **D** It gives instructions for playing.

23 *Favourite class sports — Kai's class:* Which question was most likely asked in the survey?

- A** How far is your home from school? **B** Which sport is your favourite?
C How old is your coach? **D** What time does school begin?

24 *Favourite class sports — Kai's class:* Using both fitness and survey texts, which pair are team sports?

- A** soccer and netball **B** swimming and tennis
C soccer and swimming **D** netball and tennis

Kai reads: The child of Tuesday · Questions 25–29

Tuesday's child wakes with the sun,
Ready for work and ready for fun;
With a kind little smile and a helpful way,
The child brings cheer to the end of the day.
When a task is tangled, the child will try,
And ask a good question instead of asking why;
Then Kai hears evening settle, gentle and mild,
Around the dreams of Tuesday's child.

25 Kai reads: *The child of Tuesday*: What does **ready for work and ready for fun** suggest?

- A The child refuses to help. B The child sleeps through the day.
C The child is afraid of games. D The child is willing to take part in different activities.

26 Kai reads: *The child of Tuesday*: Complete the sentence using two words from the box.
The child is ____ and brings ____ to others.

Word box: kind • cheer • sleep • anger • silence

27 Kai reads: *The child of Tuesday*: In the title, **Tuesday** refers to

- A a kind of weather B a day of the week
C a month of the year D a place in a town

28 Kai reads: *The child of Tuesday*: What type of text is this?

- A a poem B a procedure
C a news report D an advertisement

29 Kai reads: *The child of Tuesday*: Why was this poem most likely written?

- A to teach how to repair a toy B to report a sporting result
C to list rules for a classroom D to describe a child's character in an enjoyable rhyme

Review: Curious Caves · Questions 30–34**Curious Caves** by Ravi Stone

This information book contains surprising facts, labelled pictures and short explanations. Its chapters move from simple examples to less familiar ones. The opening chapter gives readers enough background to understand the later examples. The captions make the pictures easy to understand, and small fact boxes add details without interrupting the main explanation. The index is useful for finding a topic again. Some pages use words that younger readers may need to look up, and the final chapter feels too short. Even so, curious readers will probably return to the pictures and facts more than once. Rating: ★★★★★

30 *Review: Curious Caves:* Who wrote the book being reviewed?

- A** Jack Jones **B** The reviewer
C Ravi Stone **D** Kai Lee

31 *Review: Curious Caves:* What is the main purpose of the review?

- A** to teach a science experiment **B** to give information and an opinion about the book
C to retell every chapter **D** to sell equipment

32 *Review: Curious Caves:* Which two topics are **not** included in the book?

- ☐ surprising facts ☐ a recipe ☐ labelled pictures
☐ chapter headings ☐ a fictional diary ☐ short explanations

33 *Review: Curious Caves:* What criticism does the reviewer make?

- A** The book has no pictures. **B** Every chapter repeats the same page.
C The title is missing. **D** Some words are difficult and the final chapter is too short.

34 *Review: Curious Caves:* What does the star rating show?

- A** The book contains five chapters. **B** The reviewer read it five times.
C The reviewer gives the book 5 out of 5. **D** The book has five authors.

Kai's story: The stubborn knot · Questions 35–39

Kai carried a heavy box into the workshop. A loose corner caught on the doorway, and three dusty folders slid onto the floor. While stacking them, Kai noticed a red notebook beneath the lowest folder. It was labelled with Jack's name. Kai remembered seeing Jack earlier, but could not remember which group had left first. Calling across the crowded room would only interrupt everyone. Kai wanted to return it at once, but the crowded room made the search difficult. Instead of guessing, Kai placed the object safely on the desk and asked the supervisor to check the visitor list. The supervisor found a contact note and sent a short message. Soon Jack returned, relieved to see the missing object. The unpleasant job of moving the box had led to a welcome surprise.

35 *Kai's story: The stubborn knot:* Match each describing word to the noun it describes.

heavy ____ dusty ____ crowded ____

A room B box C folders

36 *Kai's story: The stubborn knot:* Number these events from 1 to 4.

____ The supervisor checked the visitor list.

____ The box caught on the doorway.

____ Jack returned for the object.

____ Kai found the red notebook.

37 *Kai's story: The stubborn knot:* Which word best describes Kai?

A careless B selfish

C impatient D responsible

38 *Kai's story: The stubborn knot:* Why was it difficult for Kai to return the object immediately?

A The supervisor refused to help.

B The visitor list had been destroyed.

C The room was crowded and the owner was not easy to find. D The object was too large to lift.

39 *Kai's story: The stubborn knot:* Why is **The stubborn knot** a suitable title?

A The story is mainly about bad weather. B An inconvenient task leads to an unexpected discovery.

C The story explains how to build a box. D The characters compete in a race.

The toy that came to life

Write a narrative about a puppet that suddenly comes to life in a workshop.

Your story may be amusing or serious.

- What can the puppet do when it becomes alive?
- How does it feel, and what does it want?
- Who sees it, and how do they react?
- What complication happens before the story can end?

Remember

- Plan the setting, characters, complication and ending.
- Use paragraphs to organise the events.
- Choose precise words and complete sentences.
- Check spelling, punctuation and sentence boundaries.

Planning notes

Begin your narrative

Questions 1–5

1 *Kai's workshop task:* Which number makes this true?

$$17 + \square = 33$$

- A 14 B 18
C 33 D 16

2 *Kai's workshop task:* A bag holds 36 balls. 10 are red and 7 are blue. How many are red or blue altogether?

3 *Kai's workshop task:* What comes next?

20, 24, 28, 32, ____

- A 37 B 36
C 32 D 40

4 *Kai's workshop task:* Which addition is equal to 6×5 ?

- A $5 + 5 + 5 + 5 + 5 + 5$ B $5 + 5 + 5 + 5 + 5$
C $6 + 6 + 6 + 6 + 6 + 6$ D $30 + 6$

5 *Kai's workshop task:* How many square stickers cover the unshaded part of this sheet?

- A 30 B 25
C 28 D 26

Questions 6–9

6

Kai's workshop task: How many circles belong in the fourth group?

7

Kai's workshop task: The pictograph shows 4 shells for one group. Each shell stands for the same number. The group collected 16 items. What is the key?

- A 6 B 4
C 3 D 5

8

Kai's workshop task: Which shape is the top view of a cone?

- A circle B triangle
C rectangle D semicircle

9

Kai's workshop task: Use the digit cards 6, 5, 3 once each. What is the largest odd number less than 800?

- A 635 B 563
C 536 D 653

Questions 10–15

10 *Kai's workshop task:* Which diagram has exactly one third shaded?

- A 2 of 5 equal parts B 3 of 8 equal parts C 2 of 6 equal parts
D 1 of 4 equal parts E 3 of 6 equal parts

A ■■■■ B ■■■■■■ C ■■■■■■
D ■■■■ E ■■■■■■

11 *Kai's workshop task:* Which number makes this true?
 $32 + \square = 76$

- A 76 B 44 C 39
D 49 E 32

12 *Kai's workshop task:* A lesson began at 10:10 and lasted 45 minutes. A bell rang 10 minutes before it ended. When did the bell ring?

- A 10:45 B 10:20
C 10:55 D 11:10

13 *Kai's workshop task:* Kai read 46 pages on Monday and 43 pages on Tuesday. How many pages altogether?

14 *Kai's workshop task:* One team scored 91 points and another scored 56. What was the difference?

15 *Kai's workshop task:* Use the price table. How much more does item D cost than item B?

- A \$2.30 B \$1.80
C \$5.80 D \$4.00

- A \$3.30
B \$4.00
C \$4.90
D \$5.80

Questions 16–19

- 16 *Kai's workshop task:* The clock shows the starting time. What time is half an hour later?

A 3:00 B 2:15
C 3:30 D 1:30

- 17 *Kai's workshop task:* Walk east along the corridor. After passing the office, which room comes next?

A hall B library C office
D art room E garden

entry	office	hall	store
-------	--------	------	-------

- 18 *Kai's workshop task:* Which capital letter looks unchanged after reflection in a vertical mirror line?

A G B J
C W D F

W F G J

- 19 *Kai's workshop task:* Each badge costs \$3. What is the greatest number that can be bought for \$26?

A 23 B 8
C 7 D 9

Questions 20–23

20

Kai's workshop task: Which two shapes have the same area?

- ☐ A ☐ B
☐ C ☐ D

A ■■■■ B ■■■
C ■■■■ D ■■■■

21

Kai's workshop task: The solid shown is made from identical cubes. Each cube has a mass of 3 g. What is the total mass?

22

Kai's workshop task: The pattern begins 124, 117, 110, ... Which two numbers belong to the pattern?

- ☐ 103 ☐ 104 ☐ 89
☐ 94 ☐ 113

23

Kai's workshop task: A two-digit number is below 40. Its digits differ by 3 and add to 7. The tens digit is smaller. What is the number?

Questions 24–27

24

Kai's workshop task: A hemisphere is joined to the top of a cylinder. How many curved outside surfaces does the combined solid have?

- A 2 B 1
C 3 D 4

25

Kai's workshop task: Three cups cost \$8.40. At the same price per cup, how much do five cups cost?

26

Kai's workshop task: There are 3 buses with 27 seats on each bus. How many seats are there altogether?

- A 54 B 84
C 81 D 30

27

Kai's workshop task: The thermometers show the temperature before and after a cold change. How many degrees did it fall?

Questions 28–33

- 28 *Kai's workshop task:* A trip is 112 km long. After reaching halfway, the bus travels 9 km farther. How many kilometres remain?

- 29 *Kai's workshop task:* Which list gives the four labelled values on the number line?

A 29, 34, 39, 44 B 43, 38, 33, 28
C 28, 29, 30, 31 D 28, 33, 38, 43

- 30 *Kai's workshop task:* There are 7 dozen pencils. They are packed into groups of 7. How many pencils are left over?

A 7 B 8 C 0
D 1 E 2

- 31 *Kai's workshop task:* About how much heavier is object A than object B?

A 34 kg B 24 kg
C 50 kg D 26 kg

- 32 *Kai's workshop task:* The number-line pattern is ____, 74, 80, 86. What number is missing?

A 68 B 62
C 69 D 92

○ — ○ — ○ — ○

- 33 *Kai's workshop task:* A table total is 104. Three categories contain 26, 29 and 24. How many are in the missing category?

Known: 26, 29, 24 Total: 104

Questions 34–36

34

Kai's workshop task: How many more votes did B receive than A?

- A 17 B 7
C 5 D 22

35

Kai's workshop task: Which spinner gives the smallest chance of landing on blue?

- A Spinner D B Spinner C
C Spinner A D Spinner B

36

Kai's workshop task: A stack contains 7 two-dollar coins and 7 one-dollar coins. What is the total value?

$$\text{\$}2 \times 7 \quad \text{\$}1 \times 7$$

Conventions of Language · L1–L25

L1 · A. an

Engine begins with a vowel sound, so the correct article is *an*.

L2 · climbed

Climbed tells what the animal did.

L3 · B. slept

The word *yesterday* requires the past-tense form *slept*.

L4 · cheerfully

Cheerfully tells how Jack carried the jar.

L5 · D. my

My is the possessive determiner used before the noun *hat*.

L6 · C. before

Before shows the correct sequence in time.

L7 · an; a; The

Use *an* before *ant*, *a* before *leaf*, then *The* for the ant already mentioned.

L8 · A. Jack and I

A compound subject uses the subject pronoun *I*.

L9 · D. or

Or joins alternatives in a list.

L10 · C. They

The plural pronoun *They* replaces the three plural nouns and is the subject of the sentence.

L11 · B. They are waiting near the gate.

The plural subject *They* agrees with *are*.

L12 · A. had dug

Had dug shows an action completed before another past action.

L13 · D. We

We is the first-person plural subject pronoun.

L14 · C. ?

A direct question ends with a question mark.

L15 · B. we'll

The apostrophe in *we'll* replaces the missing letters in *will*.

L16 · A. A

The first sentence ends after *gate*; the next sentence begins with *The*.

L17 · D. “Wait for me,” called Kai.

The spoken words need opening and closing quotation marks, with a comma before the reporting clause.

L18 · C. yours

Yours is the possessive pronoun that can stand without a noun after it.

L19 · B. After the bell rang, Kai entered the room.

A comma separates the introductory clause from the main clause.

L20 · A. A

The contraction *can't* needs an apostrophe between *n* and *t*.

L21 · D. Did Kai close the window?

A direct question asks the reader for an answer and ends with a question mark.

L22 · C. Dr Patel spoke to the doctor.

The title and surname take capitals; the common profession noun *doctor* does not.

L23 · B. Please close the gate, said Jack.

The first sentence contains the exact words spoken by a character.

L24 · A. The girl's boots were beside the boys' bags.

Girl's shows one girl owns the boots; *boys'* shows several boys own the bags.

L25 · A. A

The closing quotation mark belongs after the final spoken word *key* and before the reporting clause.

Conventions of Language · L26–L50**L26 · visit**

The dictated word is *visit*.

L39 · careful

The dictated word is *careful*.

L27 · waits

The dictated word is *waits*.

L40 · cheerful

The dictated word is *cheerful*.

L28 · walks

The dictated word is *walks*.

L41 · enough

The correct spelling is *enough*.

L29 · watch

The dictated word is *watch*.

L42 · colour

The correct spelling is *colour*.

L30 · wonder

The dictated word is *wonder*.

L43 · straight

The correct spelling is *straight*.

L31 · works

The dictated word is *works*.

L44 · weather

The correct spelling is *weather*.

L32 · rewrite

The dictated word is *rewrite*.

L45 · except

The correct spelling is *except*.

L33 · agreeable

The dictated word is *agreeable*.

L46 · beginning

The misspelt word is *begining*; the correct spelling is *beginning*.

L34 · active

The dictated word is *active*.

L47 · necessary

The misspelt word is *neccessary*; the correct spelling is *necessary*.

L35 · angry

The dictated word is *angry*.

L48 · minute

The misspelt word is *minuite*; the correct spelling is *minute*.

L36 · brave

The dictated word is *brave*.

L49 · careful

The misspelt word is *carefull*; the correct spelling is *careful*.

L37 · bright

The dictated word is *bright*.

L50 · writing

The misspelt word is *writing*; the correct spelling is *writing*.

L38 · calmed

The dictated word is *calmed*.

Reading · R1–R20

R1 · A. friction acting against its movement

The text says friction acts opposite to movement and slows the object.

R11 · B. a woollen mat

A woollen mat is rough like the material it replaces.

R2 · D. The spool would travel farther before stopping.

The text directly links little friction with travelling farther.

R12 · A. foam

The information text says rough surfaces create more friction, so foam should stop the object sooner.

R3 · True; False; True

Friction can help brakes; rough surfaces do not usually create less friction; friction acts against movement.

R13 · D. spending much time sitting and moving very little

The first sentence defines the word directly.

R4 · B. metal tray

The text identifies metal tray as the smoother, lower-friction surface.

R14 · makes the heart beat faster; makes muscles work against resistance; helps joints move comfortably

The text gives a separate function for aerobic, strength and flexibility activities.

R5 · A. push → ← friction

Friction acts opposite to the applied movement force.

R15 · B. fast walking

The text names fast walking as an aerobic activity.

R6 · D. 1 and 2

The text explains movement and gives useful examples; it is not fiction.

R16 · regular; rest

The text recommends regular activity as well as rest.

R7 · 2; 4; 1; 3

First set the ramp, then place the surface, release the object and measure the distance.

R17 · D. They can use heart, muscles and joints in different activities.

The text recommends a balance of activities that support different parts of the body.

R8 · A. 5

The final step says to repeat the trial 5 times for each surface.

R18 · C. Different kinds of activity help the body in different ways.

The text explains three fitness types and the benefit of balancing them.

R9 · D. a procedure

A purpose, equipment and ordered steps are features of a procedure.

R19 · 5; 11; 5; 10

Each value is read from the tally table.

R10 · C. to compare how each surface affects the distance

Changing the surface and measuring the distance allows a fair comparison.

R20 · A. to record each response as it was collected

Tallies are a quick way to record responses during a survey.

Reading · R21–R39

R21 · D. sports and numbers of votes

The categories are sports and the scale counts votes.

R22 · C. It makes the vote totals easy to compare.

Bar lengths allow the category totals to be compared quickly.

R23 · B. Which sport is your favourite?

The table records one favourite sport from each student.

R24 · A. soccer and netball

Soccer and netball are normally played by teams; the other listed activities can be individual.

R25 · D. The child is willing to take part in different activities.

The line shows willingness to join both duties and enjoyable activities.

R26 · kind; cheer

The poem directly describes the child's smile and the cheer brought to others.

R27 · B. a day of the week

Tuesday is one of the seven days of the week.

R28 · A. a poem

The text is arranged in lines and uses rhyme and rhythm.

R29 · D. to describe a child's character in an enjoyable rhyme

The poem gives a playful description rather than instructions or factual reporting.

R30 · C. Ravi Stone

The author's name appears directly below the title.

R31 · B. to give information and an opinion about the book

A review summarises features and gives judgements about quality.

R32 · a recipe; a fictional diary

The review lists facts, pictures and explanations, but it does not mention a recipe or a fictional diary.

R33 · D. Some words are difficult and the final chapter is too short.

These two limitations are stated in the review.

R34 · C. The reviewer gives the book 5 out of 5.

A star rating records the reviewer's overall judgement out of five.

R35 · box; folders; room

The narrative says *heavy box*, *dusty folders* and *crowded room*.

R36 · 3; 1; 4; 2

The box catches first, the object is found, the list is checked, and the owner returns.

R37 · D. responsible

Kai protects the object and checks who owns it instead of guessing.

R38 · C. The room was crowded and the owner was not easy to find.

The narrative explains that the crowded room made the search difficult.

R39 · B. An inconvenient task leads to an unexpected discovery.

The title links the awkward task with the discovered object and happy outcome.

Numeracy · N1–N18

N1 · D. 16

$33 - 17 = 16$.

N10 · C. 2 of 6 equal parts

Two of six equal parts is $\frac{2}{6}$, which simplifies to $\frac{1}{3}$.

N2 · 17

$10 + 7 = 17$.

N11 · B. 44

$76 - 32 = 44$.

N3 · B. 36

The sequence increases by 4 each time.

N12 · A. 10:45

The bell time is the start plus 35 minutes: 10:45.

N4 · A. $5 + 5 + 5 + 5 + 5 + 5$

6 groups of 5 total 30.

N13 · 89

$46 + 43 = 89$.

N5 · D. 26

The full grid has 30 squares; 4 are removed, leaving 26.

N14 · 35

$91 - 56 = 35$.

N6 · 4

The groups decrease by 5: 19, 14, 9, 4.

N15 · B. \$1.80

$\$5.80 - \$4.00 = \$1.80$.

N7 · B. 4

$16 \div 4 = 4$ items per shell.

N16 · A. 3:00

Add 30 minutes to the time shown.

N8 · A. circle

Looking straight down at a cone shows its circular base.

N17 · A. hall

The map order shows the named room immediately after the office when moving east.

N9 · D. 653

Place the greatest possible digit in the hundreds place while keeping an odd digit in the ones place.

N18 · C. W

Capital W has vertical line symmetry in the printed form shown.

Numeracy · N19–N36

N19 · B. 8

8 badges cost \$24; one more would cost more than \$26.

N28 · 47

Halfway is 56 km; $56 - 9 = 47$ km remain.

N20 · A; C

Count the unit squares: shapes A and C contain the same number.

N29 · D. 28, 33, 38, 43

The equally spaced marks increase by 5.

N21 · 27

There are 9 cubes. $9 \times 3 = 27$ g.

N30 · C. 0

7 dozen is 84; dividing by 7 leaves 0.

N22 · 103; 89

Subtract 7 each time; both selected values occur in the sequence.

N31 · B. 24 kg

The scales show about 50 kg and 26 kg; the difference is about 24 kg.

N23 · 25

The digits are 2 and 5, so the number is 25.

N32 · A. 68

The pattern increases by 6, so the preceding value is 68.

N24 · A. 2

The hemisphere contributes one curved surface and the cylinder contributes one curved side.

N33 · 25

$104 - (26 + 29 + 24) = 25$.

N25 · \$14.00

One cup costs \$2.80; five cost \$14.00.

N34 · C. 5

B has 22 votes and A has 17; the difference is 5.

N26 · C. 81

$3 \times 27 = 81$.

N35 · B. Spinner C

Spinner C has the smallest blue sector compared with its whole circle.

N27 · 11

$25 - 14 = 11$ degrees.

N36 · \$21

$7 \times \$2 + 7 \times \$1 = \$21$.

Writing review: Check for a clear setting, characters, complication and ending; organised paragraphs; precise vocabulary; complete sentences; controlled punctuation; and carefully checked spelling.
