

Questions 1–9

1 *Reserve task:* Owen packed ____ envelope for the visit.

- A an B a
C the D some

2 *Reserve task:* Circle the verb in this sentence.
The pelican climbed over the log.

3 *Reserve task:* Yesterday, Owen ____ the rope before lunch.

- A will hold B held
C hold D holds

4 *Reserve task:* Circle the adverb in this sentence.
Oscar carried the glass jar politely.

5 *Reserve task:* Owen placed ____ hat beside the bag.

- A me B I
C mine D my

6 *Reserve task:* Wash your hands ____ you prepare the fruit.

- A although B unless
C before D because

7 *Reserve task:* Complete the sentence using each word once.
Owen saw ____ ant beside ____ leaf. ____ ant carried a crumb.

Word box: a • an • the

8 *Reserve task:* ____ will carry the boxes to the reserve.

- A Oscar and I B Me and Oscar
C Her and Oscar D Oscar and me

9 *Reserve task:* Choose a pear, a plum ____ a peach.

- A but B because
C although D or

Questions 10–18

10 *Reserve task:* The pencils, rulers and erasers were new. ____ were placed in a tray.

- A She B Them
C They D It

11 *Reserve task:* Which sentence is correct?

- A They am waiting near the gate. B They are waiting near the gate.
C They is waiting near the gate. D Them are waiting near the gate.

12 *Reserve task:* By the time Owen arrived, Oscar ____ the hole.

- A had dug B digs
C will dig D is digging

13 *Reserve task:* Owen and I are ready. ____ can begin now.

- A Us B They
C Them D We

14 *Reserve task:* Where did the pelican hide ____

- A ! B ,
C ? D .

15 *Reserve task:* Which contraction correctly means *we will*?

- A w'ell B we'll
C well D we'l

16 *Reserve task:* Where should the missing full stop go?

We reached the gate A the path B turned left C beside the pond D

- A A B B
C C D D

17 *Reserve task:* Which sentence is punctuated correctly?

- A "Wait for me" called Owen. B Wait for me," called Owen.
C "Wait for me, called Owen." D "Wait for me," called Owen.

18 *Reserve task:* This notebook is mine. Is that one ____?

- A you B you're
C yours D your

Questions 19–25

- 19 *Reserve task:* Which sentence has the comma in the correct place?
A After the bell rang Owen, entered the room. **B** After the bell rang, Owen entered the room.
C After, the bell rang Owen entered the room. **D** After the bell, rang Owen entered the room.

- 20 *Reserve task:* Where should the apostrophe go?
We can A t leave B yet C today D.
A A B B
C C D D

- 21 *Reserve task:* Which sentence is a direct question?
A I wonder whether Owen closed the window. **B** Tell me if Owen closed the window.
C We know that Owen closed the window. **D** Did Owen close the window?

- 22 *Reserve task:* Which sentence uses capital letters correctly?
A Dr patel spoke to the doctor. **B** Dr Patel spoke to the Doctor.
C Dr Patel spoke to the doctor. **D** dr Patel spoke to the Doctor.

- 23 *Reserve task:* Which sentence needs quotation marks?
A Closing the gate kept the pelican safe. **B** Please close the gate, said Oscar.
C Oscar closed the gate quietly. **D** The gate beside the shed was closed.

- 24 *Reserve task:* Which sentence is punctuated correctly?
A The girl's boots were beside the boys' bags. **B** The girls boots were beside the boy's bags.
C The girls' boots were beside the boys bag's. **D** The girl's boot's were beside the boys bags.

- 25 *Reserve task:* Where should the missing closing quotation mark go?
"I found the key A, said Owen B, as the door C opened D.
A A B B
C C D D

Questions 26–50 · Spelling

Questions 26–40: Listen to each word. Write the complete word on the numbered line.

- | | |
|----------|----------|
| 26 _____ | 34 _____ |
| 27 _____ | 35 _____ |
| 28 _____ | 36 _____ |
| 29 _____ | 37 _____ |
| 30 _____ | 38 _____ |
| 31 _____ | 39 _____ |
| 32 _____ | 40 _____ |
| 33 _____ | |

Questions 41–45: Correct the underlined word.

- 41 *Reserve task:* Choose one bright collor for the sign.

- 42 *Reserve task:* Draw one strait line across the page.

- 43 *Reserve task:* The wether changed before lunch.

- 44 *Reserve task:* Everyone came exept Sam, who was ill.

- 45 *Reserve task:* There was enuf water for the walk.

Questions 46–50: Find the misspelt word and write it correctly.

- 46 *Reserve task:* A beautifull bird landed beside the creek.

- 47 *Reserve task:* I beleive that Oscar told the truth.

- 48 *Reserve task:* The puzzle was realy interesting.

- 49 *Reserve task:* Owen had missunderstood, so the message was explained again.

- 50 *Reserve task:* We finished cleanning the tables before lunch.

Why a cube slows down · Questions 1–6

A force is a push or a pull. When a moving cube touches a surface, friction acts in the opposite direction to its movement. Friction makes the cube slow down. A smooth surface such as laminate usually creates less friction than rubber. With very little friction, an object travels farther before stopping. The amount of friction also depends on how firmly two surfaces press together. Friction is useful too: it helps shoes grip the ground and bicycle brakes stop wheels. Without enough friction, people could slip and tyres could slide. Too much friction can be unhelpful because moving parts may heat up or wear away, so machines sometimes use oil to reduce it.

1 *Why a cube slows down:* What makes the moving cube slow down?

- A** friction acting against its movement **B** gravity pulling it sideways
C light warming the surface **D** sound pushing it forward

2 *Why a cube slows down:* What would most likely happen if there were very little friction?

- A** The cube would become heavier. **B** The cube would change colour.
C The cube would stop at once. **D** The cube would travel farther before stopping.

3 *Why a cube slows down:* Mark each statement True or False.

Statement	True	False
Friction can help bicycle brakes work.	☐	☐
Rubber usually creates less friction than laminate.	☐	☐
Friction acts against a moving object.	☐	☐

4 *Why a cube slows down:* Which surface would probably let the object travel farthest?

- A** a rubber mat **B** laminate
C rubber **D** a thick towel

5 *Why a cube slows down:* Which diagram shows the applied force and friction acting in opposite directions?

- A** push → ← friction **B** push → friction →
C push ← friction ← **D** push ↓ friction ↓

6 *Why a cube slows down:* Which pair of statements is correct?

- 1 The text explains how friction changes movement.
 2 The text gives examples of useful friction.
 3 The text tells a fictional adventure.
A 1 and 3 **B** 2 and 3
C 3 only **D** 1 and 2

Testing surfaces with a cube · Questions 7–12

This experiment compares how far the same cube travels across laminate, paper and rubber. Use the same ramp each time.

- Place the ramp at the marked height.
- Put laminate at the bottom of the ramp.
- Release the cube without pushing it.
- Measure and record the distance travelled.
- Repeat the trial 3 times for each surface, then compare the results.

7 *Testing surfaces with a cube:* Number these steps from 1 to 4.

- ___ Put laminate at the bottom of the ramp.
 ___ Measure and record the distance travelled.
 ___ Place the ramp at the marked height.
 ___ Release the cube without pushing it.

8 *Testing surfaces with a cube:* How many times is each surface tested?

- A** 3 **B** 2
C 4 **D** 9

9 *Testing surfaces with a cube:* What type of text is this?

- A** a narrative **B** a book review
C a poem **D** a procedure

10 *Testing surfaces with a cube:* Why are several surfaces tested?

- A** to change the size of the object **B** to avoid measuring any result
C to compare how each surface affects the distance **D** to make the ramp taller each time

11 *Testing surfaces with a cube:* Which material would be the best replacement for rubber?

- A** polished plastic **B** a woollen mat
C a glass sheet **D** smooth foil

12 *Testing surfaces with a cube:* Using both texts, where should the cube travel the shortest distance?

- A** rubber **B** laminate
C in the air **D** on no surface

Owen's guide to three kinds of fitness · Questions 13–18

During a health lesson at the reserve, Owen's class learned that a sedentary person spends long periods sitting and moving very little. Regular activity helps the heart, muscles and joints. Aerobic activities such as cycling make the heart beat faster. Strength activities such as push-ups make muscles work against resistance. Flexibility activities such as gentle bends help joints move through a comfortable range. Each type has a different purpose, so doing only one type leaves out other benefits. Children can build activity into ordinary days by walking, playing active games and helping with safe physical jobs. Activity should suit the person's ability and surroundings. A balanced week includes all three kinds, water, sleep and time to rest.

- 13 *Owen's guide to three kinds of fitness:* What does **sedentary** mean in this text?
A training for a race every day **B** moving safely in deep water
C stretching every muscle **D** spending much time sitting and moving very little
- 14 *Owen's guide to three kinds of fitness:* Match each fitness type to its description.
aerobic ____ strength ____ flexibility ____
A helps joints move comfortably **B** makes the heart beat faster **C** makes muscles work against resistance
- 15 *Owen's guide to three kinds of fitness:* Which activity is aerobic?
A sitting quietly **B** cycling
C push-ups **D** gentle bends
- 16 *Owen's guide to three kinds of fitness:* Complete the sentence using two words from the box.
A balanced week includes ____ activity and time to ____.
- Word box:** regular • rest • sedentary • resistance • range
- 17 *Owen's guide to three kinds of fitness:* Which statement is most likely true of a fit person?
A They never need to rest. **B** They do only one kind of activity.
C They sit still for most of every day. **D** They can use heart, muscles and joints in different activities.
- 18 *Owen's guide to three kinds of fitness:* What is the main message of the text?
A Rest should replace all exercise. **B** Muscles are the only part of fitness.
C Different kinds of activity help the body in different ways. **D** Only competitive sport improves fitness.

Favourite class sports — Owen's class · Questions 19–24

In Owen's class, each student chose one favourite sport. The tally table and bar graph show the same 30 answers collected by Oscar.

- 19 *Favourite class sports — Owen's class:* Match each sport to its number of votes.
soccer ____ netball ____ swimming ____ tennis ____
A 8 **B** 7 **C** 5 **D** 10
- 20 *Favourite class sports — Owen's class:* Why was a tally table used?
A to record each response as it was collected **B** to explain the rules of each sport
C to show where games are played **D** to rank players by skill
- 21 *Favourite class sports — Owen's class:* What do the two axes of the bar graph show?
A days and temperatures **B** players and scores
C distances and times **D** sports and numbers of votes
- 22 *Favourite class sports — Owen's class:* Why is the bar graph useful?
A It changes the survey answers. **B** It shows every student's name.
C It makes the vote totals easy to compare. **D** It gives instructions for playing.
- 23 *Favourite class sports — Owen's class:* Which question was most likely asked in the survey?
A How far is your home from school? **B** Which sport is your favourite?
C How old is your coach? **D** What time does school begin?
- 24 *Favourite class sports — Owen's class:* Using both fitness and survey texts, which pair are team sports?
A soccer and netball **B** swimming and tennis
C soccer and swimming **D** netball and tennis

Owen reads: *The child of Saturday* · Questions 25–29

Saturday's child wakes with the sun,
 Ready for work and ready for fun;
 With a wise little smile and a helpful way,
 The child brings cheer to the end of the day.
 When a task is tangled, the child will try,
 And ask a good question instead of asking why;
 Then Owen hears evening settle, gentle and mild,
 Around the dreams of Saturday's child.

25 *Owen reads: The child of Saturday:* What does **ready for work and ready for fun** suggest?

- A** The child refuses to help. **B** The child sleeps through the day.
C The child is afraid of games. **D** The child is willing to take part in different activities.

26 *Owen reads: The child of Saturday:* Complete the sentence using two words from the box.
 The child is ____ and brings ____ to others.

Word box: wise • cheer • sleep • anger • silence

27 *Owen reads: The child of Saturday:* In the title, **Saturday** refers to

- A** a kind of weather **B** a day of the week
C a month of the year **D** a place in a town

28 *Owen reads: The child of Saturday:* What type of text is this?

- A** a poem **B** a procedure
C a news report **D** an advertisement

29 *Owen reads: The child of Saturday:* Why was this poem most likely written?

- A** to teach how to repair a toy **B** to report a sporting result
C to list rules for a classroom **D** to describe a child's character in an enjoyable rhyme

Review: *Inside Volcanoes* · Questions 30–34

Inside Volcanoes by Ben Ortiz

This information book contains surprising facts, labelled pictures and short explanations. Its chapters move from simple examples to less familiar ones. The opening chapter gives readers enough background to understand the later examples. The captions make the pictures easy to understand, and small fact boxes add details without interrupting the main explanation. The index is useful for finding a topic again. Some pages use words that younger readers may need to look up, and the final chapter feels too short. Even so, curious readers will probably return to the pictures and facts more than once. Rating: ★★☆☆

30 *Review: Inside Volcanoes:* Who wrote the book being reviewed?

- A** Oscar Jones **B** The reviewer
C Ben Ortiz **D** Owen Lee

31 *Review: Inside Volcanoes:* What is the main purpose of the review?

- A** to teach a science experiment **B** to give information and an opinion about the book
C to retell every chapter **D** to sell equipment

32 *Review: Inside Volcanoes:* Which two topics are **not** included in the book?

- ☐ surprising facts ☐ a recipe ☐ labelled pictures
☐ chapter headings ☐ a fictional diary ☐ short explanations

33 *Review: Inside Volcanoes:* What criticism does the reviewer make?

- A** The book has no pictures. **B** Every chapter repeats the same page.
C The title is missing. **D** Some words are difficult and the final chapter is too short.

34 *Review: Inside Volcanoes:* What does the star rating show?

- A** The book contains five chapters. **B** The reviewer read it five times.
C The reviewer gives the book 3 out of 5. **D** The book has five authors.

Owen's story: The unexpected parcel · Questions 35–39

Owen carried a heavy box into the reserve. A loose corner caught on the doorway, and three dusty folders slid onto the floor. While stacking them, Owen noticed a small compass beneath the lowest folder. It was labelled with Oscar's name. Owen remembered seeing Oscar earlier, but could not remember which group had left first. Calling across the crowded room would only interrupt everyone. Owen wanted to return it at once, but the crowded room made the search difficult. Instead of guessing, Owen placed the object safely on the desk and asked the supervisor to check the visitor list. The supervisor found a contact note and sent a short message. Soon Oscar returned, relieved to see the missing object. The unpleasant job of moving the box had led to a welcome surprise.

35 *Owen's story: The unexpected parcel:* Match each describing word to the noun it describes.

heavy ____ dusty ____ crowded ____

A room **B** box **C** folders

36 *Owen's story: The unexpected parcel:* Number these events from 1 to 4.

- ____ The supervisor checked the visitor list.
- ____ The box caught on the doorway.
- ____ Oscar returned for the object.
- ____ Owen found the small compass.

37 *Owen's story: The unexpected parcel:* Which word best describes Owen?

- A** careless **B** selfish
C impatient **D** responsible

38 *Owen's story: The unexpected parcel:* Why was it difficult for Owen to return the object immediately?

- A** The supervisor refused to help. **B** The visitor list had been destroyed.
C The room was crowded and the owner was not easy to find. **D** The object was too large to lift.

39 *Owen's story: The unexpected parcel:* Why is **The unexpected parcel** a suitable title?

- A** The story is mainly about bad weather. **B** An inconvenient task leads to an unexpected discovery.
C The story explains how to build a box. **D** The characters compete in a race.

The toy that came to life

Write a narrative about a toy boat that suddenly comes to life in a reserve.

Your story may be amusing or serious.

- What can the toy boat do when it becomes alive?
- How does it feel, and what does it want?
- Who sees it, and how do they react?
- What complication happens before the story can end?

Remember

- Plan the setting, characters, complication and ending.
- Use paragraphs to organise the events.
- Choose precise words and complete sentences.
- Check spelling, punctuation and sentence boundaries.

Planning notes

Begin your narrative

Questions 1–5

- 1 *Owen's reserve task:* Which number makes this true?
 $17 + \square = 37$

A 18 B 22
 C 37 D 20

- 2 *Owen's reserve task:* A bag holds 40 balls. 9 are red and 10 are blue. How many are red or blue altogether?

- 3 *Owen's reserve task:* What comes next?
 24, 28, 32, 36, ____

A 41 B 40
 C 36 D 44

- 4 *Owen's reserve task:* Which addition is equal to 5×5 ?

A $5 + 5 + 5 + 5 + 5$ B $5 + 5 + 5 + 5$
 C $5 + 5 + 5 + 5 + 5 + 5$ D $25 + 5$

- 5 *Owen's reserve task:* How many square stickers cover the unshaded part of this sheet?

A 20 B 17
 C 21 D 18

Questions 6–9

- 6 *Owen's reserve task:* How many circles belong in the fourth group?

- 7 *Owen's reserve task:* The pictograph shows 4 shells for one group. Each shell stands for the same number. The group collected 8 items. What is the key?

A 4 B 2
 C 1 D 3

- 8 *Owen's reserve task:* Which shape is the top view of a cone?

A circle B triangle
 C rectangle D semicircle

- 9 *Owen's reserve task:* Use the digit cards 5, 4, 3 once each. What is the largest odd number less than 800?

A 534 B 453
 C 435 D 543

Questions 10–15

- 10 *Owen's reserve task:* Which diagram has exactly one third shaded?
A 3 of 6 equal parts **B** 2 of 5 equal parts **C** 3 of 8 equal parts
D 2 of 6 equal parts **E** 1 of 4 equal parts

A ■■■ B ■■■■■ C
 ■■■■■
 D ■■■■■ E ■■■■■■■■

- 11 *Owen's reserve task:* Which number makes this true?
 $36 + \square = 84$
A 36 **B** 84 **C** 48
D 43 **E** 53

- 12 *Owen's reserve task:* A lesson began at 8:10 and lasted 35 minutes. A bell rang 10 minutes before it ended. When did the bell ring?
A 8:35 **B** 8:20
C 8:45 **D** 9:10

- 13 *Owen's reserve task:* Owen read 50 pages on Monday and 51 pages on Tuesday. How many pages altogether?

- 14 *Owen's reserve task:* One team scored 99 points and another scored 60. What was the difference?

- 15 *Owen's reserve task:* Use the price table. How much more does item D cost than item B?
A \$2.30 **B** \$1.80
C \$6.20 **D** \$4.40

A \$3.70
 B \$4.40
 C \$5.30
 D \$6.20

Questions 16–19

- 16 *Owen's reserve task:* The clock shows the starting time. What time is half an hour later?
A 7:00 **B** 6:15
C 7:30 **D** 5:30

- 17 *Owen's reserve task:* Walk east along the corridor. After passing the office, which room comes next?
A garden **B** art room **C** library
D office **E** hall

entry	office	art room	store
-------	--------	----------	-------

- 18 *Owen's reserve task:* Which capital letter looks unchanged after reflection in a vertical mirror line?
A G **B** J
C I **D** F

I F G J

- 19 *Owen's reserve task:* Each badge costs \$3. What is the greatest number that can be bought for \$23?
A 20 **B** 7
C 6 **D** 8

Questions 20–23

20 *Owen's reserve task:* Which two shapes have the same area?

- ☐ A ☐ B
☐ C ☐ D

21 *Owen's reserve task:* The solid shown is made from identical cubes. Each cube has a mass of 3 g. What is the total mass?

22 *Owen's reserve task:* The pattern begins 136, 129, 122, ... Which two numbers belong to the pattern?

- ☐ 115 ☐ 116 ☐ 101
☐ 106 ☐ 125

23 *Owen's reserve task:* A two-digit number is below 40. Its digits differ by 3 and add to 7. The tens digit is smaller. What is the number?

Questions 24–27

24 *Owen's reserve task:* A hemisphere is joined to the top of a cylinder. How many curved outside surfaces does the combined solid have?

- A 2 B 1
 C 3 D 4

25 *Owen's reserve task:* Three cups cost \$9.60. At the same price per cup, how much do five cups cost?

26 *Owen's reserve task:* There are 3 buses with 26 seats on each bus. How many seats are there altogether?

- A 52 B 81
 C 78 D 29

27 *Owen's reserve task:* The thermometers show the temperature before and after a cold change. How many degrees did it fall?

Questions 28–33

- 28 *Owen's reserve task:* A trip is 128 km long. After reaching halfway, the bus travels 7 km farther. How many kilometres remain?

- 29 *Owen's reserve task:* Which list gives the four labelled values on the number line?

A 33, 38, 43, 48 B 47, 42, 37, 32
C 32, 33, 34, 35 D 32, 37, 42, 47

- 30 *Owen's reserve task:* There are 6 dozen pencils. They are packed into groups of 7. How many pencils are left over?

A 1 B 7 C 8
D 2 E 3

- 31 *Owen's reserve task:* About how much heavier is object A than object B?

A 38 kg B 28 kg
C 58 kg D 30 kg

- 32 *Owen's reserve task:* The number-line pattern is ___, 82, 88, 94. What number is missing?

A 76 B 70
C 77 D 100

○ — ○ — ○ — ○

- 33 *Owen's reserve task:* A table total is 116. Three categories contain 30, 33 and 28. How many are in the missing category?

Known: 30, 33, 28 Total: 116

Questions 34–36

- 34 *Owen's reserve task:* How many more votes did B receive than A?

A 21 B 7
C 5 D 26

- 35 *Owen's reserve task:* Which spinner gives the smallest chance of landing on blue?

A Spinner D B Spinner C
C Spinner A D Spinner B

- 36 *Owen's reserve task:* A stack contains 5 two-dollar coins and 6 one-dollar coins. What is the total value?

$\$2 \times 5$ $\$1 \times 6$

Conventions of Language · L1–L25

L1 · A. an

Envelope begins with a vowel sound, so the correct article is *an*.

L2 · climbed

Climbed tells what the animal did.

L3 · B. held

The word *yesterday* requires the past-tense form *held*.

L4 · politely

Politely tells how Oscar carried the jar.

L5 · D. my

My is the possessive determiner used before the noun *hat*.

L6 · C. before

Before shows the correct sequence in time.

L7 · an; a; The

Use *an* before *ant*, *a* before *leaf*, then *The* for the ant already mentioned.

L8 · A. Oscar and I

A compound subject uses the subject pronoun *I*.

L9 · D. or

Or joins alternatives in a list.

L10 · C. They

The plural pronoun *They* replaces the three plural nouns and is the subject of the sentence.

L11 · B. They are waiting near the gate.

The plural subject *They* agrees with *are*.

L12 · A. had dug

Had dug shows an action completed before another past action.

L13 · D. We

We is the first-person plural subject pronoun.

L14 · C. ?

A direct question ends with a question mark.

L15 · B. we'll

The apostrophe in *we'll* replaces the missing letters in *will*.

L16 · A. A

The first sentence ends after *gate*; the next sentence begins with *The*.

L17 · D. “Wait for me,” called Owen.

The spoken words need opening and closing quotation marks, with a comma before the reporting clause.

L18 · C. yours

Yours is the possessive pronoun that can stand without a noun after it.

L19 · B. After the bell rang, Owen entered the room.

A comma separates the introductory clause from the main clause.

L20 · A. A

The contraction *can't* needs an apostrophe between *n* and *t*.

L21 · D. Did Owen close the window?

A direct question asks the reader for an answer and ends with a question mark.

L22 · C. Dr Patel spoke to the doctor.

The title and surname take capitals; the common profession noun *doctor* does not.

L23 · B. Please close the gate, said Oscar.

The first sentence contains the exact words spoken by a character.

L24 · A. The girl's boots were beside the boys' bags.

Girl's shows one girl owns the boots; *boys'* shows several boys own the bags.

L25 · A. A

The closing quotation mark belongs after the final spoken word *key* and before the reporting clause.

Conventions of Language · L26–L50

L26 · useful

The dictated word is *useful*.

L27 · valuable

The dictated word is *valuable*.

L28 · warms

The dictated word is *warms*.

L29 · wonderful

The dictated word is *wonderful*.

L30 · adventure

The dictated word is *adventure*.

L31 · animal

The dictated word is *animal*.

L32 · argument

The dictated word is *argument*.

L33 · attention

The dictated word is *attention*.

L34 · basket

The dictated word is *basket*.

L35 · beaches

The dictated word is *beaches*.

L36 · bicycle

The dictated word is *bicycle*.

L37 · blanket

The dictated word is *blanket*.

L38 · bottle

The dictated word is *bottle*.

L39 · bridge

The dictated word is *bridge*.

L40 · brother

The dictated word is *brother*.

L41 · colour

The correct spelling is *colour*.

L42 · straight

The correct spelling is *straight*.

L43 · weather

The correct spelling is *weather*.

L44 · except

The correct spelling is *except*.

L45 · enough

The correct spelling is *enough*.

L46 · beautiful

The misspelt word is *beautifull*; the correct spelling is *beautiful*.

L47 · believe

The misspelt word is *beleive*; the correct spelling is *believe*.

L48 · really

The misspelt word is *realy*; the correct spelling is *really*.

L49 · misunderstood

The misspelt word is *misunderstood*; the correct spelling is *misunderstood*.

L50 · cleaning

The misspelt word is *cleanning*; the correct spelling is *cleaning*.

Reading · R1–R20

R1 · A. friction acting against its movement

The text says friction acts opposite to movement and slows the object.

R2 · D. The cube would travel farther before stopping.

The text directly links little friction with travelling farther.

R3 · True; False; True

Friction can help brakes; rough surfaces do not usually create less friction; friction acts against movement.

R4 · B. laminate

The text identifies laminate as the smoother, lower-friction surface.

R5 · A. push → ← friction

Friction acts opposite to the applied movement force.

R6 · D. 1 and 2

The text explains movement and gives useful examples; it is not fiction.

R7 · 2; 4; 1; 3

First set the ramp, then place the surface, release the object and measure the distance.

R8 · A. 3

The final step says to repeat the trial 3 times for each surface.

R9 · D. a procedure

A purpose, equipment and ordered steps are features of a procedure.

R10 · C. to compare how each surface affects the distance

Changing the surface and measuring the distance allows a fair comparison.

R11 · B. a woollen mat

A woollen mat is rough like the material it replaces.

R12 · A. rubber

The information text says rough surfaces create more friction, so rubber should stop the object sooner.

R13 · D. spending much time sitting and moving very little

The first sentence defines the word directly.

R14 · makes the heart beat faster; makes muscles work against resistance; helps joints move comfortably

The text gives a separate function for aerobic, strength and flexibility activities.

R15 · B. cycling

The text names cycling as an aerobic activity.

R16 · regular; rest

The text recommends regular activity as well as rest.

R17 · D. They can use heart, muscles and joints in different activities.

The text recommends a balance of activities that support different parts of the body.

R18 · C. Different kinds of activity help the body in different ways.

The text explains three fitness types and the benefit of balancing them.

R19 · 5; 10; 8; 7

Each value is read from the tally table.

R20 · A. to record each response as it was collected

Tallies are a quick way to record responses during a survey.

Reading · R21–R39

R21 · D. sports and numbers of votes

The categories are sports and the scale counts votes.

R22 · C. It makes the vote totals easy to compare.

Bar lengths allow the category totals to be compared quickly.

R23 · B. Which sport is your favourite?

The table records one favourite sport from each student.

R24 · A. soccer and netball

Soccer and netball are normally played by teams; the other listed activities can be individual.

R25 · D. The child is willing to take part in different activities.

The line shows willingness to join both duties and enjoyable activities.

R26 · wise; cheer

The poem directly describes the child's smile and the cheer brought to others.

R27 · B. a day of the week

Saturday is one of the seven days of the week.

R28 · A. a poem

The text is arranged in lines and uses rhyme and rhythm.

R29 · D. to describe a child's character in an enjoyable rhyme

The poem gives a playful description rather than instructions or factual reporting.

R30 · C. Ben Ortiz

The author's name appears directly below the title.

R31 · B. to give information and an opinion about the book

A review summarises features and gives judgements about quality.

R32 · a recipe; a fictional diary

The review lists facts, pictures and explanations, but it does not mention a recipe or a fictional diary.

R33 · D. Some words are difficult and the final chapter is too short.

These two limitations are stated in the review.

R34 · C. The reviewer gives the book 3 out of 5.

A star rating records the reviewer's overall judgement out of five.

R35 · box; folders; room

The narrative says *heavy box*, *dusty folders* and *crowded room*.

R36 · 3; 1; 4; 2

The box catches first, the object is found, the list is checked, and the owner returns.

R37 · D. responsible

Owen protects the object and checks who owns it instead of guessing.

R38 · C. The room was crowded and the owner was not easy to find.

The narrative explains that the crowded room made the search difficult.

R39 · B. An inconvenient task leads to an unexpected discovery.

The title links the awkward task with the discovered object and happy outcome.

Year 3 Answers and Explanations		Practice Paper 12
Numeracy · N1–N18		
N1 · D. 20 37 – 17 = 20.	N10 · D. 2 of 6 equal parts Two of six equal parts is 2/6, which simplifies to 1/3.	
N2 · 19 9 + 10 = 19.	N11 · C. 48 84 – 36 = 48.	
N3 · B. 40 The sequence increases by 4 each time.	N12 · A. 8:35 The bell time is the start plus 25 minutes: 8:35.	
N4 · A. 5 + 5 + 5 + 5 + 5 5 groups of 5 total 25.	N13 · 101 50 + 51 = 101.	
N5 · D. 18 The full grid has 20 squares; 2 are removed, leaving 18.	N14 · 39 99 – 60 = 39.	
N6 · 9 The groups decrease by 3: 18, 15, 12, 9.	N15 · B. \$1.80 \$6.20 – \$4.40 = \$1.80.	
N7 · B. 2 8 ÷ 4 = 2 items per shell.	N16 · A. 7:00 Add 30 minutes to the time shown.	
N8 · A. circle Looking straight down at a cone shows its circular base.	N17 · B. art room The map order shows the named room immediately after the office when moving east.	
N9 · D. 543 Place the greatest possible digit in the hundreds place while keeping an odd digit in the ones place.	N18 · C. I Capital I has vertical line symmetry in the printed form shown.	

Year 3 Answers and Explanations		Practice Paper 12
Numeracy · N19–N36		
N19 · B. 7 7 badges cost \$21; one more would cost more than \$23.	N28 · 57 Halfway is 64 km; 64 – 7 = 57 km remain.	
N20 · A; C Count the unit squares: shapes A and C contain the same number.	N29 · D. 32, 37, 42, 47 The equally spaced marks increase by 5.	
N21 · 21 There are 7 cubes. 7 × 3 = 21 g.	N30 · D. 2 6 dozen is 72; dividing by 7 leaves 2.	
N22 · 115; 101 Subtract 7 each time; both selected values occur in the sequence.	N31 · B. 28 kg The scales show about 58 kg and 30 kg; the difference is about 28 kg.	
N23 · 25 The digits are 2 and 5, so the number is 25.	N32 · A. 76 The pattern increases by 6, so the preceding value is 76.	
N24 · A. 2 The hemisphere contributes one curved surface and the cylinder contributes one curved side.	N33 · 25 116 – (30 + 33 + 28) = 25.	
N25 · \$16.00 One cup costs \$3.20; five cost \$16.00.	N34 · C. 5 B has 26 votes and A has 21; the difference is 5.	
N26 · C. 78 3 × 26 = 78.	N35 · B. Spinner C Spinner C has the smallest blue sector compared with its whole circle.	
N27 · 16 29 – 13 = 16 degrees.	N36 · \$16 5 × \$2 + 6 × \$1 = \$16.	
Writing review: Check for a clear setting, characters, complication and ending; organised paragraphs; precise vocabulary; complete sentences; controlled punctuation; and carefully checked spelling.
