

Questions 1–9

1 Orchard task: Maya packed ____ acorn for the visit.

- A some B an
C a D the

2 Orchard task: Circle the verb in this sentence.
The bilby climbed over the log.

3 Orchard task: Yesterday, Maya ____ the rope before lunch.

- A writes B will write
C wrote D write

4 Orchard task: Circle the adverb in this sentence.
Riley carried the glass jar brightly.

5 Orchard task: Maya placed ____ hat beside the bag.

- A my B me
C I D mine

6 Orchard task: Wash your hands ____ you prepare the fruit.

- A because B although
C unless D before

7 Orchard task: Complete the sentence using each word once.
Maya saw ____ ant beside ____ leaf. ____ ant carried a crumb.

Word box: a • an • the

8 Orchard task: ____ will carry the boxes to the orchard.

- A Riley and me B Riley and I
C Me and Riley D Her and Riley

9 Orchard task: Choose a pear, a plum ____ a peach.

- A or B but
C because D although

Questions 10–18

- 10 *Orchard task:* The pencils, rulers and erasers were new. ____ were placed in a tray.
A It B She
C Them D They

- 11 *Orchard task:* Which sentence is correct?
A They are waiting near the gate. B They am waiting near the gate.
C They are waiting near the gate. D They is waiting near the gate.

- 12 *Orchard task:* By the time Maya arrived, Riley ____ the hole.
A is digging B had dug
C digs D will dig

- 13 *Orchard task:* Maya and I are ready. ____ can begin now.
A We B Us
C They D Them

- 14 *Orchard task:* Where did the bilby hide ____
A . B !
C , D ?

- 15 *Orchard task:* Which contraction correctly means *we will*?
A we'l B w'ell
C we'll D well

- 16 *Orchard task:* Where should the missing full stop go?
We reached the gate A the path B turned left C beside the pond D
A A B B
C C D D

- 17 *Orchard task:* Which sentence is punctuated correctly?
A "Wait for me," called Maya. B "Wait for me" called Maya.
C Wait for me," called Maya. D "Wait for me, called Maya."

- 18 *Orchard task:* This notebook is mine. Is that one ____?
A your B you
C you're D yours

Questions 19–25

19

Orchard task: Which sentence has the comma in the correct place?

- A** After the bell, rang Maya entered the room. **B** After the bell rang Maya, entered the room.
C After the bell rang, Maya entered the room. **D** After, the bell rang Maya entered the room.

20

Orchard task: Where should the apostrophe go?**We can A t leave B yet C today D.**

- A** A **B** B
C C **D** D

21

Orchard task: Which sentence is a direct question?

- A** Did Maya close the window? **B** I wonder whether Maya closed the window.
C Tell me if Maya closed the window. **D** We know that Maya closed the window.

22

Orchard task: Which sentence uses capital letters correctly?

- A** dr Patel spoke to the Doctor. **B** Dr patel spoke to the doctor.
C Dr Patel spoke to the Doctor. **D** Dr Patel spoke to the doctor.

23

Orchard task: Which sentence needs quotation marks?

- A** The gate beside the shed was closed. **B** Closing the gate kept the bilby safe.
C Please close the gate, said Riley. **D** Riley closed the gate quietly.

24

Orchard task: Which sentence is punctuated correctly?

- A** The girl's boot's were beside the boys bags. **B** The girl's boots were beside the boys' bags.
C The girls boots were beside the boy's bags. **D** The girls' boots were beside the boys bag's.

25

Orchard task: Where should the missing closing quotation mark go?**"I found the key A, said Maya B, as the door C opened D.**

- A** A **B** B
C C **D** D

Questions 26–50 · Spelling

Questions 26–40: Listen to each word. Write the complete word on the numbered line.

26 _____

27 _____

28 _____

29 _____

30 _____

31 _____

32 _____

33 _____

34 _____

35 _____

36 _____

37 _____

38 _____

39 _____

40 _____

Questions 41–45: Correct the underlined word.

41 Orchard task: Return the book to the libary.

42 Orchard task: The room became quite during reading.

43 Orchard task: Stand near the edje of the mat.

44 Orchard task: Several peple waited near the gate.

45 Orchard task: Write the complete anser on the line.

Questions 46–50: Find the misspelt word and write it correctly.

46 Orchard task: I beleive that Riley told the truth.

47 Orchard task: The puzzle was realy interesting.

48 Orchard task: Maya had missunderstood, so the message was explained again.

49 Orchard task: We finished cleanning the tables before lunch.

50 Orchard task: The class will return tommorrow.

Why a toy wheel slows down · Questions 1–6

A force is a push or a pull. When a moving toy wheel touches a surface, friction acts in the opposite direction to its movement. Friction makes the toy wheel slow down. A smooth surface such as glass usually creates less friction than coarse mat. With very little friction, an object travels farther before stopping. The amount of friction also depends on how firmly two surfaces press together. Friction is useful too: it helps shoes grip the ground and bicycle brakes stop wheels. Without enough friction, people could slip and tyres could slide. Too much friction can be unhelpful because moving parts may heat up or wear away, so machines sometimes use oil to reduce it.

1 *Why a toy wheel slows down:* What makes the moving toy wheel slow down?

- A** sound pushing it forward **B** friction acting against its movement
C gravity pulling it sideways **D** light warming the surface

2 *Why a toy wheel slows down:* What would most likely happen if there were very little friction?

- A** The toy wheel would travel farther before stopping. **B** The toy wheel would become heavier.
C The toy wheel would change colour. **D** The toy wheel would stop at once.

3 *Why a toy wheel slows down:* Mark each statement True or False.

Statement	True	False
Friction can help bicycle brakes work.	☐	☐
Coarse Mat usually creates less friction than glass.	☐	☐
Friction acts against a moving object.	☐	☐

4 *Why a toy wheel slows down:* Which surface would probably let the object travel farthest?

- A** a thick towel **B** a rubber mat
C glass **D** coarse mat

5 *Why a toy wheel slows down:* Which diagram shows the applied force and friction acting in opposite directions?

- A** push ↓ friction ↓ **B** push → ← friction
C push → friction → **D** push ← friction ←

6 *Why a toy wheel slows down:* Which pair of statements is correct?

- 1 The text explains how friction changes movement.
 2 The text gives examples of useful friction.
 3 The text tells a fictional adventure.
A 1 and 2 **B** 1 and 3
C 2 and 3 **D** 3 only

Testing surfaces with a toy wheel · Questions 7–12

This experiment compares how far the same toy wheel travels across glass, paper and coarse mat. Use the same ramp each time.

1. Place the ramp at the marked height.
2. Put glass at the bottom of the ramp.
3. Release the toy wheel without pushing it.
4. Measure and record the distance travelled.
5. Repeat the trial 3 times for each surface, then compare the results.

7 *Testing surfaces with a toy wheel:* Number these steps from 1 to 4.

- ___ Put glass at the bottom of the ramp.
- ___ Measure and record the distance travelled.
- ___ Place the ramp at the marked height.
- ___ Release the toy wheel without pushing it.

8 *Testing surfaces with a toy wheel:* How many times is each surface tested?

- A** 9 **B** 3
C 2 **D** 4

9 *Testing surfaces with a toy wheel:* What type of text is this?

- A** a procedure **B** a narrative
C a book review **D** a poem

10 *Testing surfaces with a toy wheel:* Why are several surfaces tested?

- A** to make the ramp taller each time **B** to change the size of the object
C to avoid measuring any result **D** to compare how each surface affects the distance

11 *Testing surfaces with a toy wheel:* Which material would be the best replacement for coarse mat?

- A** smooth foil **B** polished plastic
C a woollen mat **D** a glass sheet

12 *Testing surfaces with a toy wheel:* Using both texts, where should the toy wheel travel the shortest distance?

- A** on no surface **B** coarse mat
C glass **D** in the air

Maya's guide to three kinds of fitness · Questions 13–18

During a health lesson at the orchard, Maya's class learned that a sedentary person spends long periods sitting and moving very little. Regular activity helps the heart, muscles and joints. Aerobic activities such as jogging make the heart beat faster. Strength activities such as climbing make muscles work against resistance. Flexibility activities such as stretching help joints move through a comfortable range. Each type has a different purpose, so doing only one type leaves out other benefits. Children can build activity into ordinary days by walking, playing active games and helping with safe physical jobs. Activity should suit the person's ability and surroundings. A balanced week includes all three kinds, water, sleep and time to rest.

13 *Maya's guide to three kinds of fitness:* What does **sedentary** mean in this text?

- A** spending much time sitting and moving very little **B** training for a race every day
C moving safely in deep water **D** stretching every muscle

14 *Maya's guide to three kinds of fitness:* Match each fitness type to its description.

aerobic ____ strength ____ flexibility ____

- A** helps joints move comfortably **B** makes the heart beat faster **C** makes muscles work against resistance

15 *Maya's guide to three kinds of fitness:* Which activity is aerobic?

- A** stretching **B** sitting quietly
C jogging **D** climbing

16 *Maya's guide to three kinds of fitness:* Complete the sentence using two words from the box.

A balanced week includes ____ activity and time to ____.

Word box: regular • rest • sedentary • resistance • range

17 *Maya's guide to three kinds of fitness:* Which statement is most likely true of a fit person?

- A** They can use heart, muscles and joints in different activities. **B** They never need to rest.
C They do only one kind of activity. **D** They sit still for most of every day.

18 *Maya's guide to three kinds of fitness:* What is the main message of the text?

- A** Only competitive sport improves fitness. **B** Rest should replace all exercise.
C Muscles are the only part of fitness. **D** Different kinds of activity help the body in different ways.

Favourite class sports — Maya's class · Questions 19–24

In Maya's class, each student chose one favourite sport. The tally table and bar graph show the same 26 answers collected by Riley.

Sport	Tally
soccer	/
netball	/
swimming	
tennis	/

19 *Favourite class sports — Maya's class:* Match each sport to its number of votes.

soccer ____ netball ____ swimming ____ tennis ____

A 4 **B** 6 **C** 8 **D** 8

20 *Favourite class sports — Maya's class:* Why was a tally table used?

- A** to rank players by skill **B** to record each response as it was collected
C to explain the rules of each sport **D** to show where games are played

21 *Favourite class sports — Maya's class:* What do the two axes of the bar graph show?

- A** sports and numbers of votes **B** days and temperatures
C players and scores **D** distances and times

22 *Favourite class sports — Maya's class:* Why is the bar graph useful?

- A** It gives instructions for playing. **B** It changes the survey answers.
C It shows every student's name. **D** It makes the vote totals easy to compare.

23 *Favourite class sports — Maya's class:* Which question was most likely asked in the survey?

- A** What time does school begin? **B** How far is your home from school?
C Which sport is your favourite? **D** How old is your coach?

24 *Favourite class sports — Maya's class:* Using both fitness and survey texts, which pair are team sports?

- A** netball and tennis **B** soccer and netball
C swimming and tennis **D** soccer and swimming

Maya reads: The child of Tuesday · Questions 25–29

Tuesday's child wakes with the sun,
Ready for work and ready for fun;
With a kind little smile and a helpful way,
The child brings cheer to the end of the day.
When a task is tangled, the child will try,
And ask a good question instead of asking why;
Then Maya hears evening settle, gentle and mild,
Around the dreams of Tuesday's child.

25 *Maya reads: The child of Tuesday:* What does **ready for work and ready for fun** suggest?

- A** The child is willing to take part in different activities. **B** The child refuses to help.
C The child sleeps through the day. **D** The child is afraid of games.

26 *Maya reads: The child of Tuesday:* Complete the sentence using two words from the box.
The child is ____ and brings ____ to others.

Word box: kind • cheer • sleep • anger • silence

27 *Maya reads: The child of Tuesday:* In the title, **Tuesday** refers to

- A** a place in a town **B** a kind of weather
C a day of the week **D** a month of the year

28 *Maya reads: The child of Tuesday:* What type of text is this?

- A** an advertisement **B** a poem
C a procedure **D** a news report

29 *Maya reads: The child of Tuesday:* Why was this poem most likely written?

- A** to describe a child's character in an enjoyable rhyme **B** to teach how to repair a toy
C to report a sporting result **D** to list rules for a classroom

Review: Wonderful Wetlands · Questions 30–34**Wonderful Wetlands** by Nora White

This information book contains surprising facts, labelled pictures and short explanations. Its chapters move from simple examples to less familiar ones. The opening chapter gives readers enough background to understand the later examples. The captions make the pictures easy to understand, and small fact boxes add details without interrupting the main explanation. The index is useful for finding a topic again. Some pages use words that younger readers may need to look up, and the final chapter feels too short. Even so, curious readers will probably return to the pictures and facts more than once. Rating: ★★☆☆☆

30 *Review: Wonderful Wetlands:* Who wrote the book being reviewed?

- A** Maya Lee **B** Riley Jones
C The reviewer **D** Nora White

31 *Review: Wonderful Wetlands:* What is the main purpose of the review?

- A** to sell equipment **B** to teach a science experiment
C to give information and an opinion about the book **D** to retell every chapter

32 *Review: Wonderful Wetlands:* Which two topics are **not** included in the book?

- ☐ surprising facts ☐ a recipe ☐ labelled pictures
☐ chapter headings ☐ a fictional diary ☐ short explanations

33 *Review: Wonderful Wetlands:* What criticism does the reviewer make?

- A** Some words are difficult and the final chapter is too short. **B** The book has no pictures.
C Every chapter repeats the same page. **D** The title is missing.

34 *Review: Wonderful Wetlands:* What does the star rating show?

- A** The book has five authors. **B** The book contains five chapters.
C The reviewer read it five times. **D** The reviewer gives the book 3 out of 5.

Maya's story: The awkward discovery · Questions 35–39

Maya carried a heavy box into the orchard. A loose corner caught on the doorway, and three dusty folders slid onto the floor. While stacking them, Maya noticed a silver whistle beneath the lowest folder. It was labelled with Riley's name. Maya remembered seeing Riley earlier, but could not remember which group had left first. Calling across the crowded room would only interrupt everyone. Maya wanted to return it at once, but the crowded room made the search difficult. Instead of guessing, Maya placed the object safely on the desk and asked the supervisor to check the visitor list. The supervisor found a contact note and sent a short message. Soon Riley returned, relieved to see the missing object. The unpleasant job of moving the box had led to a welcome surprise.

35 *Maya's story: The awkward discovery:* Match each describing word to the noun it describes.

heavy ____ dusty ____ crowded ____

A room B box C folders

36 *Maya's story: The awkward discovery:* Number these events from 1 to 4.

____ The supervisor checked the visitor list.

____ The box caught on the doorway.

____ Riley returned for the object.

____ Maya found the silver whistle.

37 *Maya's story: The awkward discovery:* Which word best describes Maya?

A responsible B careless

C selfish D impatient

38 *Maya's story: The awkward discovery:* Why was it difficult for Maya to return the object immediately?

A The object was too large to lift. B The supervisor refused to help.

C The visitor list had been destroyed. D The room was crowded and the owner was not easy to find.

39 *Maya's story: The awkward discovery:* Why is **The awkward discovery** a suitable title?

A The characters compete in a race.

B The story is mainly about bad weather.

C An inconvenient task leads to an unexpected discovery. D The story explains how to build a box.

The toy that came to life

Write a narrative about a marionette that suddenly comes to life in a orchard.

Your story may be amusing or serious.

- What can the marionette do when it becomes alive?
- How does it feel, and what does it want?
- Who sees it, and how do they react?
- What complication happens before the story can end?

Remember

- Plan the setting, characters, complication and ending.
- Use paragraphs to organise the events.
- Choose precise words and complete sentences.
- Check spelling, punctuation and sentence boundaries.

Planning notes

Begin your narrative

Questions 1–5

1 *Maya's orchard task:* Which number makes this true?

$$17 + \square = 40$$

A 23 B 21

C 25 D 40

2 *Maya's orchard task:* A bag holds 43 balls. 7 are red and 6 are blue. How many are red or blue altogether?

3 *Maya's orchard task:* What comes next?

27, 34, 41, 48, ____

A 62 B 56

C 55 D 48

4 *Maya's orchard task:* Which addition is equal to 3×4 ?

A $12 + 3$ B $4 + 4 + 4$

C $4 + 4$ D $3 + 3 + 3 + 3 + 3$

5 *Maya's orchard task:* How many square stickers cover the unshaded part of this sheet?

A 30 B 32

C 29 D 33

Questions 6–9

- 6 *Maya's orchard task:* How many circles belong in the fourth group?

- 7 *Maya's orchard task:* The pictograph shows 7 shells for one group. Each shell stands for the same number. The group collected 14 items. What is the key?

A 3 B 4
C 2 D 1

- 8 *Maya's orchard task:* Which shape is the top view of a cone?

A semicircle B circle
C triangle D rectangle

- 9 *Maya's orchard task:* Use the digit cards 7, 5, 3 once each. What is the largest odd number less than 800?

A 753 B 735
C 573 D 537

Questions 10–15

10 *Maya's orchard task:* Which diagram has exactly one third shaded?

- A 2 of 6 equal parts B 1 of 4 equal parts C 3 of 6 equal parts
D 2 of 5 equal parts E 3 of 8 equal parts

A ■■■■ B ■■■■■■ C ■■■■■■
D ■■■■■■ E ■■■■■■■■

11 *Maya's orchard task:* Which number makes this true?
 $39 + \square = 90$

- A 46 B 56 C 39
D 90 E 51

12 *Maya's orchard task:* A lesson began at 8:25 and lasted 35 minutes. A bell rang 10 minutes before it ended. When did the bell ring?

- A 9:25 B 8:50
C 8:35 D 8:00

13 *Maya's orchard task:* Maya read 53 pages on Monday and 57 pages on Tuesday. How many pages altogether?

14 *Maya's orchard task:* One team scored 105 points and another scored 63. What was the difference?

15 *Maya's orchard task:* Use the price table. How much more does item D cost than item B?

- A \$4.70 B \$2.30
C \$1.80 D \$6.50

- A \$4.00
B \$4.70
C \$5.60
D \$6.50

Questions 16–19

- 16 *Maya's orchard task:* The clock shows the starting time. What time is half an hour later?

A 8:30 B 9:30
C 9:15 D 10:30

- 17 *Maya's orchard task:* Walk east along the corridor. After passing the office, which room comes next?

A art room B hall C garden
D library E office

entry	office	library	store
-------	--------	---------	-------

- 18 *Maya's orchard task:* Which capital letter looks unchanged after reflection in a vertical mirror line?

A F B G
C J D T

T F G J

- 19 *Maya's orchard task:* Each badge costs \$6. What is the greatest number that can be bought for \$35?

A 6 B 29
C 5 D 4

Questions 20–23

20 *Maya's orchard task:* Which two shapes have the same area?

- ☐ A ☐ B
☐ C ☐ D

A ■■■■ B ■■■
C ■■■■ D ■■■■

21 *Maya's orchard task:* The solid shown is made from identical cubes. Each cube has a mass of 6 g. What is the total mass?

22 *Maya's orchard task:* The pattern begins 145, 135, 125, ... Which two numbers belong to the pattern?

- ☐ 115 ☐ 116 ☐ 95
☐ 103 ☐ 128

23 *Maya's orchard task:* A two-digit number is below 40. Its digits differ by 3 and add to 9. The tens digit is smaller. What is the number?

Questions 24–27

24

Maya's orchard task: A hemisphere is joined to the top of a cylinder. How many curved outside surfaces does the combined solid have?

- A 4 B 2
C 1 D 3

25

Maya's orchard task: Three cups cost \$10.50. At the same price per cup, how much do five cups cost?

26

Maya's orchard task: There are 6 buses with 24 seats on each bus. How many seats are there altogether?

- A 30 B 120
C 150 D 144

27

Maya's orchard task: The thermometers show the temperature before and after a cold change. How many degrees did it fall?

Questions 28–33

- 28 *Maya's orchard task:* A trip is 140 km long. After reaching halfway, the bus travels 10 km farther. How many kilometres remain?

- 29 *Maya's orchard task:* Which list gives the four labelled values on the number line?

A 35, 43, 51, 59 B 36, 44, 52, 60
C 59, 51, 43, 35 D 35, 36, 37, 38

- 30 *Maya's orchard task:* There are 4 dozen pencils. They are packed into groups of 10. How many pencils are left over?

A 8 B 9 C 7
D 10 E 11

- 31 *Maya's orchard task:* About how much heavier is object A than object B?

A 33 kg B 41 kg
C 31 kg D 64 kg

- 32 *Maya's orchard task:* The number-line pattern is ___, 82, 91, 100. What number is missing?

A 109 B 73
C 64 D 74

○ — ○ — ○ — ○

- 33 *Maya's orchard task:* A table total is 125. Three categories contain 33, 36 and 31. How many are in the missing category?

Known: 33, 36, 31 Total: 125

Questions 34–36

34

Maya's orchard task: How many more votes did B receive than A?

- A 29 B 24
C 7 D 5

35

Maya's orchard task: Which spinner gives the smallest chance of landing on blue?

- A Spinner B B Spinner D
C Spinner C D Spinner A

36

Maya's orchard task: A stack contains 8 two-dollar coins and 4 one-dollar coins. What is the total value?

$$\text{\$}2 \times 8 \quad \text{\$}1 \times 4$$

Conventions of Language · L1–L25

L1 · B. an

Acorn begins with a vowel sound, so the correct article is *an*.

L2 · climbed

Climbed tells what the animal did.

L3 · C. wrote

The word *yesterday* requires the past-tense form *wrote*.

L4 · brightly

Brightly tells how Riley carried the jar.

L5 · A. my

My is the possessive determiner used before the noun *hat*.

L6 · D. before

Before shows the correct sequence in time.

L7 · an; a; The

Use *an* before *ant*, *a* before *leaf*, then *The* for the ant already mentioned.

L8 · B. Riley and I

A compound subject uses the subject pronoun *I*.

L9 · A. or

Or joins alternatives in a list.

L10 · D. They

The plural pronoun *They* replaces the three plural nouns and is the subject of the sentence.

L11 · C. They are waiting near the gate.

The plural subject *They* agrees with *are*.

L12 · B. had dug

Had dug shows an action completed before another past action.

L13 · A. We

We is the first-person plural subject pronoun.

L14 · D. ?

A direct question ends with a question mark.

L15 · C. we'll

The apostrophe in *we'll* replaces the missing letters in *will*.

L16 · A. A

The first sentence ends after *gate*; the next sentence begins with *The*.

L17 · A. "Wait for me," called Maya.

The spoken words need opening and closing quotation marks, with a comma before the reporting clause.

L18 · D. yours

Yours is the possessive pronoun that can stand without a noun after it.

L19 · C. After the bell rang, Maya entered the room.

A comma separates the introductory clause from the main clause.

L20 · A. A

The contraction *can't* needs an apostrophe between *n* and *t*.

L21 · A. Did Maya close the window?

A direct question asks the reader for an answer and ends with a question mark.

L22 · D. Dr Patel spoke to the doctor.

The title and surname take capitals; the common profession noun *doctor* does not.

L23 · C. Please close the gate, said Riley.

The first sentence contains the exact words spoken by a character.

L24 · B. The girl's boots were beside the boys' bags.

Girl's shows one girl owns the boots; *boys'* shows several boys own the bags.

L25 · A. A

The closing quotation mark belongs after the final spoken word *key* and before the reporting clause.

Conventions of Language · L26–L50

L26 · farmer

The dictated word is *farmer*.

L39 · hospital

The dictated word is *hospital*.

L27 · feather

The dictated word is *feather*.

L40 · hotel

The dictated word is *hotel*.

L28 · festival

The dictated word is *festival*.

L41 · library

The correct spelling is *library*.

L29 · flowers

The dictated word is *flowers*.

L42 · quiet

The correct spelling is *quiet*.

L30 · forest

The dictated word is *forest*.

L43 · edge

The correct spelling is *edge*.

L31 · fountain

The dictated word is *fountain*.

L44 · people

The correct spelling is *people*.

L32 · garden

The dictated word is *garden*.

L45 · answer

The correct spelling is *answer*.

L33 · giraffe

The dictated word is *giraffe*.

L46 · believe

The misspelt word is *beleive*; the correct spelling is *believe*.

L34 · government

The dictated word is *government*.

L47 · really

The misspelt word is *realy*; the correct spelling is *really*.

L35 · guitar

The dictated word is *guitar*.

L48 · misunderstood

The misspelt word is *missunderstood*; the correct spelling is *misunderstood*.

L36 · hammer

The dictated word is *hammer*.

L49 · cleaning

The misspelt word is *cleanning*; the correct spelling is *cleaning*.

L37 · harbour

The dictated word is *harbour*.

L50 · tomorrow

The misspelt word is *tommorrow*; the correct spelling is *tomorrow*.

L38 · helicopter

The dictated word is *helicopter*.

Reading · R1–R20

R1 · B. friction acting against its movement

The text says friction acts opposite to movement and slows the object.

R11 · C. a woollen mat

A woollen mat is rough like the material it replaces.

R2 · A. The toy wheel would travel farther before stopping.

The text directly links little friction with travelling farther.

R12 · B. coarse mat

The information text says rough surfaces create more friction, so coarse mat should stop the object sooner.

R3 · True; False; True

Friction can help brakes; rough surfaces do not usually create less friction; friction acts against movement.

R13 · A. spending much time sitting and moving very little

The first sentence defines the word directly.

R4 · C. glass

The text identifies glass as the smoother, lower-friction surface.

R14 · makes the heart beat faster; makes muscles work against resistance; helps joints move comfortably

The text gives a separate function for aerobic, strength and flexibility activities.

R5 · B. push → ← friction

Friction acts opposite to the applied movement force.

R15 · C. jogging

The text names jogging as an aerobic activity.

R6 · A. 1 and 2

The text explains movement and gives useful examples; it is not fiction.

R16 · regular; rest

The text recommends regular activity as well as rest.

R7 · 2; 4; 1; 3

First set the ramp, then place the surface, release the object and measure the distance.

R17 · A. They can use heart, muscles and joints in different activities.

The text recommends a balance of activities that support different parts of the body.

R8 · B. 3

The final step says to repeat the trial 3 times for each surface.

R18 · D. Different kinds of activity help the body in different ways.

The text explains three fitness types and the benefit of balancing them.

R9 · A. a procedure

A purpose, equipment and ordered steps are features of a procedure.

R19 · 8; 8; 4; 6

Each value is read from the tally table.

R10 · D. to compare how each surface affects the distance

Changing the surface and measuring the distance allows a fair comparison.

R20 · B. to record each response as it was collected

Tallies are a quick way to record responses during a survey.

Reading · R21–R39

R21 · A. sports and numbers of votes

The categories are sports and the scale counts votes.

R22 · D. It makes the vote totals easy to compare.

Bar lengths allow the category totals to be compared quickly.

R23 · C. Which sport is your favourite?

The table records one favourite sport from each student.

R24 · B. soccer and netball

Soccer and netball are normally played by teams; the other listed activities can be individual.

R25 · A. The child is willing to take part in different activities.

The line shows willingness to join both duties and enjoyable activities.

R26 · kind; cheer

The poem directly describes the child's smile and the cheer brought to others.

R27 · C. a day of the week

Tuesday is one of the seven days of the week.

R28 · B. a poem

The text is arranged in lines and uses rhyme and rhythm.

R29 · A. to describe a child's character in an enjoyable rhyme

The poem gives a playful description rather than instructions or factual reporting.

R30 · D. Nora White

The author's name appears directly below the title.

R31 · C. to give information and an opinion about the book

A review summarises features and gives judgements about quality.

R32 · a recipe; a fictional diary

The review lists facts, pictures and explanations, but it does not mention a recipe or a fictional diary.

R33 · A. Some words are difficult and the final chapter is too short.

These two limitations are stated in the review.

R34 · D. The reviewer gives the book 3 out of 5.

A star rating records the reviewer's overall judgement out of five.

R35 · box; folders; room

The narrative says *heavy box*, *dusty folders* and *crowded room*.

R36 · 3; 1; 4; 2

The box catches first, the object is found, the list is checked, and the owner returns.

R37 · A. responsible

Maya protects the object and checks who owns it instead of guessing.

R38 · D. The room was crowded and the owner was not easy to find.

The narrative explains that the crowded room made the search difficult.

R39 · C. An inconvenient task leads to an unexpected discovery.

The title links the awkward task with the discovered object and happy outcome.

Numeracy · N1–N18

N1 · A. 23

$40 - 17 = 23$.

N10 · A. 2 of 6 equal parts

Two of six equal parts is $\frac{2}{6}$, which simplifies to $\frac{1}{3}$.

N2 · 13

$7 + 6 = 13$.

N11 · E. 51

$90 - 39 = 51$.

N3 · C. 55

The sequence increases by 7 each time.

N12 · B. 8:50

The bell time is the start plus 25 minutes: 8:50.

N4 · B. $4 + 4 + 4$

3 groups of 4 total 12.

N13 · 110

$53 + 57 = 110$.

N5 · A. 30

The full grid has 32 squares; 2 are removed, leaving 30.

N14 · 42

$105 - 63 = 42$.

N6 · 7

The groups decrease by 3: 16, 13, 10, 7.

N15 · C. \$1.80

$\$6.50 - \$4.70 = \$1.80$.

N7 · C. 2

$14 \div 7 = 2$ items per shell.

N16 · B. 9:30

Add 30 minutes to the time shown.

N8 · B. circle

Looking straight down at a cone shows its circular base.

N17 · D. library

The map order shows the named room immediately after the office when moving east.

N9 · A. 753

Place the greatest possible digit in the hundreds place while keeping an odd digit in the ones place.

N18 · D. T

Capital T has vertical line symmetry in the printed form shown.

Numeracy · N19–N36

N19 · C. 5

5 badges cost \$30; one more would cost more than \$35.

N28 · 60

Halfway is 70 km; $70 - 10 = 60$ km remain.

N20 · A; C

Count the unit squares: shapes A and C contain the same number.

N29 · A. 35, 43, 51, 59

The equally spaced marks increase by 8.

N21 · 60

There are 10 cubes. $10 \times 6 = 60$ g.

N30 · A. 8

4 dozen is 48; dividing by 10 leaves 8.

N22 · 115; 95

Subtract 10 each time; both selected values occur in the sequence.

N31 · C. 31 kg

The scales show about 64 kg and 33 kg; the difference is about 31 kg.

N23 · 36

The digits are 3 and 6, so the number is 36.

N32 · B. 73

The pattern increases by 9, so the preceding value is 73.

N24 · B. 2

The hemisphere contributes one curved surface and the cylinder contributes one curved side.

N33 · 25

$125 - (33 + 36 + 31) = 25$.

N25 · \$17.50

One cup costs \$3.50; five cost \$17.50.

N34 · D. 5

B has 29 votes and A has 24; the difference is 5.

N26 · D. 144

$6 \times 24 = 144$.

N35 · C. Spinner C

Spinner C has the smallest blue sector compared with its whole circle.

N27 · 14

$25 - 11 = 14$ degrees.

N36 · \$20

$8 \times \$2 + 4 \times \$1 = \$20$.

Writing review: Check for a clear setting, characters, complication and ending; organised paragraphs; precise vocabulary; complete sentences; controlled punctuation; and carefully checked spelling.
