Flying Fox Camps · Questions 1–6

Flying Fox Camps

Flying foxes live in tall trees near food sources. They are well suited to this place, but they still need food, water and shelter to survive. Conditions can change across the day and through the seasons, so safe resting places are important.

Their wide wings and a strong sense of smell help them find blossoms at night. This adaptation makes everyday tasks easier and can also help them avoid danger. Young animals learn where to feed and shelter by following adults or responding to their surroundings.

They feed on nectar, pollen and fruit. As they move through their habitat, they also become part of a larger food web that connects plants and animals. Changes to one part of this web can affect many other living things.

One challenge is heatwaves. People can help by protecting shaded camp trees, observing wildlife from a distance and leaving natural shelters undisturbed. Small, repeated actions can protect the habitat without preventing people from learning about it.

- 1 A music hall card asks: what is the main purpose of **Flying Fox Camps**?

A to explain how flying foxes live and survive
B to tell a fantasy story about flying foxes
C to give instructions for catching flying foxes
D to advertise a wildlife toy

The Garden Gate at Midnight · Questions 13–18

The Garden Gate at Midnight

Maya was helping to tidy the school garden when maya noticed a copper gate. It looked ordinary at first, but a tiny mark on its side seemed freshly scratched. Dust lay everywhere except beneath the object, as though it had recently been moved.

As soon as Maya picked it up, it opened only when the moonlight crossed its centre. Maya hesitated. The discovery was exciting, yet it might belong to someone else or be too delicate to handle alone. A hurried choice could damage both the object and the clues around it.

Instead of rushing ahead, Maya waited with an adult and observed the shadow pattern. Each new clue matched something already visible in the school garden, so the search became careful rather than wild. Maya paused after every step to record what had changed.

At last, the gate revealed a night-flowering plant in bloom. Maya wrote a short note explaining where the object had been found and what had happened. The note included the order of the clues so another person could check the discovery.

By the end of the afternoon, the discovery had become part of the place's story. Maya was proud, not because the object was valuable, but because patience and careful thinking had protected it. The adults agreed that the object should stay with a clear label for future visitors.

13 During the music hall session, why did Maya hesitate in **The Garden Gate at Midnight**?

- A the object might belong to someone or be delicate
- B the location was already closed
- C the object was too heavy to see
- D the clues had all disappeared

- A a box of fresh food
- B a broken sports trophy
- C a copper gate
- D a new school bag

16 At the music hall, why was Maya's careful action important in **The Garden Gate at Midnight**?

- A it changed the location into a shop
- B it protected the object and used the clues safely
- C it made the object disappear
- D it stopped anyone learning the result

17 For the concert program, what changes by the end of **The Garden Gate at Midnight**?

- A the discovery becomes part of the place's known story
- B the location is permanently closed
- C the character throws the object away
- D all records of the discovery are removed

18 During music hall work, which idea is most important in **The Garden Gate at Midnight**?
